Summer A&E Crisis

Question No: 2013/3926

[Onkar Sahota](#)

Londoners are accustomed to Winter A&E crisis but this year we have even had a Summer A&E crisis. The situation will only get worse in the winter months. The Government's £55 million bailout for London's A&Es has been described as nothing more than a sticking plaster by the experts appearing at the last meeting of the Health Committee. Question No: 2013/3605

[Jennette Arnold](#)

The £800-£1000 cost of the Certificate in Knowledge of Policing (CKP) which the MPS now requires recruits to complete before they can start as a new police constable will reduce the number of applicants from lower-income households. On 2 July 2013, TfL announced that they will take control of overground rail routes that run from Liverpool Street station to Enfield Town and Cheshunt. Stamford Hill Train Station

Question No: 2013/3607

[Jennette Arnold](#)

I have been asked by a constituent to put the following question to you:

On 2 July 2013, TfL announced that they will take control of overground rail routes that run from Liverpool Street station to Enfield Town and Cheshunt from 2015. Stamford Hill has one of the highest birth rates in London, while a recent Hackney Council survey revealed that over 50% of the over-55 age group in the new Woodberry Down ward self-identify as having a disability. As a result, there are a disproportionate number of residents with prams or physical impairments that experience great difficulty with stairs and therefore cannot access the station. With this in mind, what reassurances can you provide with that TfL will make Stamford Hill overground station 'step free'?

Cyclists' Safety

Question No: 2013/3621

[John Biggs](#)

When roadworks are taking place it often appears as though no thought has been paid to how cyclists and vehicles will get round the roadworks safely. There is normally just a sign that says 'Cycle Lane Closed'. For instance no provisions have been made for cyclists using the CS2 which is currently being built between Bow and Newham eastbound and their options are either to use the road with vehicles going very fast, where it is difficult to manoeuvre into the right space or to use the pavement and risk being fined by the police. What can you do to ensure that cyclists are not left stranded because of roadworks?

Barking Police Station

Question No: 2013/3625

[John Biggs](#)

While the reprieve of Dagenham Police Station is welcome, why will the police office in Barking Town Centre only be open Monday-Fridays 9-5 (extended to 9pm on Thursdays and Fridays)? The footfall and night time economy issues in Barking Town Centre, which is the busiest public place in the Borough, suggest that this is a rather short-sighted decision. In addition, with a rapidly growing population and growing demand for services, and a higher level of crime reports per capita than most boroughs, and amongst the highest for Outer London, this seems doubly short-sighted. The local authority has written to your Deputy Mayor for Policing and Crime but he has not answered their concerns. Will you use your authority to ensure this matter is properly discussed and the strength of local opinion taken into account?

Euston Road

Question No: 2013/3626

I now draw your attention to Leigh Day Solicitors document 'Blacklisting the blacklisters' which I ask you read. Will you now commit to the GLA taking a more proactive approach in checking whether contractors have been involved in blacklisting and follow the recent example of the Welsh Government to ensure companies that are blacklisted are excluded from GLA procurement?

Buses on Diversion

Question No: 2013/3630

[Tom Copley](#)

A constituent has got in touch about the spoken announcements and displays buses provide when there are persistent road works resulting in buses being on diversion. "The MPS is very proud of its long-standing history of riding in Royal ceremonial events and the police contribution has long been appreciated by the public and other participants such as the military. At all times the MPS has a duty to deliver value for money to the taxpayer",

Is it not the case that the figure I originally suggested to you of 20% is correct?

Have you cycled round Stirling Corner since you promised to do so; if not why not; and if not when do you expect to cycle round Stirling Corner? Or is it that you have no intention of doing so in the foreseeable future and just want to pretend you are a keen cyclist with cyclists' concerns at heart and have no intention of honouring your commitment to do so, so that your original answer can be seen as nothing more than a fobbing off exercise? Or are you frightened of doing so, as it is too dangerous? Why do you have nothing to add? Aren't you embarrassed by your non responses when reminded of your promise?

Priority access for wheelchair users at Edmonton Green

Question No: 2013/3730

[Joanne McCartney](#)

I recently met a resident in Edmonton who is a wheelchair user and has been having difficulty with bus drivers from the Edmonton Green bus station who have been wrongly informing him that once a pushchair is on the bus, a wheelchair user does not have priority and cannot get on the bus. Drivers have been refusing to ask pushchair owners to fold their pushchairs and have informed him that the "rules have changed" and that they do not need to make this request. When he has complained to the drivers' supervisors (on a number of occasions) they have stated to him that the drivers are right and that the rule has changed. The Big Red Book given to all bus drivers clearly state that wheelchair users have priority and pushchairs should be folded so both passengers can ride the bus. What are you doing to ensure all managers at bus garages are enforcing this regulation? What action will you take ensure that managers and supervisors at Edmonton Green bus station are informed that they must give priority to wheelchair users?

Payday loan bans

It has also teamed up with 8 other local authorities such as Liverpool, Newcastle, Sheffield, Leeds, Tower Hamlets and Islington, to draw up proposals for a bylaw to stem companies which charge annual interest rates of up to 5,000% on short-term loans.

Ramps on the Underground

Question No: 2013/3856

[Navin Shah](#)

As you will know, LU recently announced the roll out of ramps at 19 more stations on the Tube, which is great news. However, I have been contacted by Transport for All who are less thrilled by the fact that there are 40 stations where there is still a gap or step between platform and train. This includes Kilburn Station, where there was a ramp which was taken away.

The ramp at Kilburn Station was working safely before but for unknown reasons it was removed six months, forcing wheelchair users in the area to go from 20minute journey on the Tube to 2 hours by bus.

I would really appreciate if TfL could bring the ramp back to Kilburn Station without any delay? If this can't be done, I'd like to know why not.

In addition, the concern surrounding the change of destination blinds was about better contrast/visibility afforded by the yellow and black blinds during the daytime compared to the new ones. Any comments?
