Notes

The data for this report was raised on 10/07/2015 from the NSPIS Custody database
The data consists of counts of custody records created as a result of arrests for knife possession offences.

The borough breakdown of the data is based on the Custody suite where the record was created.
This may not relate to where the offence/arrest took place due to Central Cell Allocation.

It should also be noted that the Boroughs of Merton and Richmond have no custody suites on them. Significant volumes (if not all) arrests from Kensington & Chelsea and Newham Borough are also sent to other Boroughs.

Age groups are based on the age of the suspect on the date they were arrested.

The search was also based on the Criminal Justice Codes (CJS) for the relevant offences.
