Dear Will

CROYDON'S FEEDBACK TO THE OUTER LONDON COMMISSION

It was good seeing you at the Commission's meeting with the South London Partnership on 15 April and I was pleased to have had an opportunity to contribute to the debate on the day and support the work of the Commission.

Please find attached Croydon's submission which strongly supports the work of the Outer London Commission, and the thrust of your "first thoughts" paper. Our submission also complements the two formal submissions from the South London Partnership, which we have already had a key role in shaping.

Overall, we believe that Croydon has much more to contribute to the success of the South London economy, and is uniquely placed in terms of physical location, scale, infrastructure, capacity and track record to offer the best return from a shift in policy and investment towards outer London.

We look forward to continuing to work with and support the Commission as you progress your work over the summer.

Yours sincerely

Jon Rouse
Chief executive
