**London Bus Driver Deaths from Covid-19: STAC Report on Masks****Question No: 2023/0105**

Keith Prince

In your response to question 2022/0794, you promised to publish a copy of the London STAC (Scientific and Technical Advice Cell) Report on Masks which you commissioned to advise on the question of PPE for TfL Surface Transport workers, including bus and Dial-a-ride drivers. In fact, you further reference this report in your responses to questions 2022/1211, 2022/0792, 2022/0793 and 2022/0795.

It has been nearly a year since you responded affirmatively to my request, but you do not appear to have published the report on the GLA website or anywhere else. Please can you do so without further delay?

**London Bus Driver Deaths from Covid-19: Signing of Tripartite Agreement before STAC Report was issued****Question No: 2023/0106**

Keith Prince

In your response to question 2022/1794, you provided evidence of an agreement signed on 5 April 2020 between TfL, Unite the Union and all the bus operators. Why did TfL agree to deny London bus drivers PPE (specifically masks and gloves) before TfL had received the STAC Report on PPE on 6 April 2020? Was there any coordination between TfL's Chief Safety Officer who requested the STAC Report on 28 March 2020 or TfL's Director of Bus Operations, who signed the Tripartite Agreement on behalf of TfL on 5 April 2020?

**London Bus Driver Deaths from Covid-19: Procurement of PPE for Dial-A-Ride Drivers****Question No: 2023/0107**

For the period 28 March 2020 to 16 April 2020, please can you provide me with all internal communication (including emails, drafts, memos, handwritten notes) associated with TfL's request for and receipt of the STAC Report on the "appropriate use of PPE" for Surface Transport Personnel?

### **London Bus Driver Deaths from Covid-19: Advice given by TfL to Bus Operators**

**Question No: 2023/0111**

Keith Prince

TfL's response to UCL's Phase 1 report evidences several instances where, in April 2020, London bus operators were carrying out Covid-19 mitigation activities—e.g., distributing masks, temperature testing—"against TfL advice". How was this "advice" conveyed and to whom? Can you provide me with any written copies of this 'advice'? If not, can you confirm any instances of where, after receiving TfL 'advice', a bus operator ceased distributing PPE (e.g. masks and/or gloves) and carrying out temperature testing?

### **London Bus Driver Deaths from Covid-19: Actions "against TfL advice" taken by Bus Operators to Mitigate Covid-19 Risk in April 2020**

**Question No: 2023/0112**

Keith Prince

According to the information you never published but sent me privately nearly a year after I posed question 2020/2696, 3 bus operators – Metroline (Singapore), Tower Transit (Australia) and Go-Ahead (Singapore and Hong Kong)—were carrying out serious Covid-19 risk mitigation efforts in April 2020 (e.g. temperature testing, procuring and/or distributing masks and gloves to bus drivers) which TfL labelled as being 'against TfL advice'. Are you aware of any instances in March or April 2020 where, as a result of TfL 'advice', any one or all of these three companies ceased taking these reasonable Covid-19 mitigation actions?

### **London Bus Driver Deaths from Covid-19: Clusters of Bus Driver Covid-19 Deaths at Metroline and Tower Transit**

**Question No: 2023/0113**

Keith Prince

Despite the lack of response to questions 2022/2989 and 2022/4188, we know from your delayed response to question 2022/1629 that bus operators Metroline and Tower Transit account for, respectively, 27% and 11% of bus driver deaths from Covid-19 while constituting, respectively, only 16% and 5% of the total TfL bus driver workforce.

Since we know from your response to question 2020/2696 that, in April 2020, these 2 operators were among those taking Covid-19 mitigation efforts—e.g. temperature testing, distributing masks and gloves—"against TfL advice", can you accept the possibility that these companies' following TfL advice might have had deadly consequences for their employees?

Given that we know from your response to question 2022/2692 that TfL was already distributing masks and gloves to its Dial-a-Ride drivers on 9 April 2020, as TfL Chair, do you accept that TfL's 'advice' may have had an impact on these clusters of excess bus driver Covid-19 deaths at Metroline and Tower Transit?

### **London Bus Driver Deaths from Covid-19: Misleading Londoners about your Leadership at TfL during the Covid-19 Pandemic**

**Question No: 2023/0114**

Keith Prince

In your response to question 2022/1213, you state "throughout the COVID-19 pandemic, TfL and I have followed Public Health England guidance" a turn-of-phrase you have regularly used (cf. your responses to, inter alia, questions 2021/4894, 2021/3880, 2021/3716, 2021/2854).

Will you acknowledge (a) that TfL's 9 April 2020 decision to issue masks and gloves to Dial-a-Ride drivers directly contravened both PHE guidance and the advice TfL was giving at the same time to Unite the Union and bus operators, (b) you had the power to make mask-wearing a requirement on public transport, (c) your apparent failure to use your statutory powers, which, in my opinion, cost some London bus drivers their lives and (d) your failure to act exposes TfL to some legal risk?

### **Improving London's Public Transport Experience for Foreign Visitors (1)**

**Question No: 2023/0154**

Nick Rogers

Just before Christmas a constituent wrote to me after his daughter witnessed a tourist try to pay for his wife and himself on a bus at Heathrow Airport using a single credit card. The driver refused to allow them to travel and my constituent's daughter, who had a spare card, paid the lady's fare.

My constituent notes that "despite this, the couple and their two young children were ordered off the bus by the driver at a subsequent stop, as he judged them to be rude. In fact, they had limited English, couldn't understand the system and were astonished by his belligerence. It was a terrible experience of London on arrival."

Do you agree that this incident highlights a number of problems that must be addressed?

### **Improving London's Public Transport Experience for Foreign Visitors (3)**

**Question No: 2023/0156**

Nick Rogers

The reason why it is not currently possible to pay for multiple family members with a single credit or debit card is the daily cap. Would it be technologically feasible to adapt the system so that if the same card were used multiple times within 5 minutes on the same bus the daily cap were automatically disabled for that card for the remainder of the day? If so, would TfL consider this approach?

### **Improving London's Public Transport Experience for Foreign Visitors (4)**

### **Unacceptable Treatment of Visitors to London Driving into the ULEZ**

**Question No: 2023/0165**

Nick Rogers

I was recently contacted by a London resident who also lives in France and who sometimes drives his French-registered vehicle into London. To quote him directly, in mid-November he "received a stack of Penalty Charge Notices from 'EPC' - a 3rd party debt collection agency apparently operating on behalf of TfL in respect of foreign registered vehicles. The notices date

from up to 12 months earlier and have been issued in flagrant contravention of TfL's declared policies: accumulated over time, then issued en masse with no prior warning, and with the 14 days' notice period (before the price shoots up) not respected."

I have been made aware of the fact that this is not an isolated incident and that many French citizens are receiving PCNs in this way, sometimes totalling a very large sum and in spite of the fact that many of their vehicles are actually ULEZ-compliant. Furthermore those French citizens have felt it necessary to engage a British lawyer to try and extricate themselves from this situation.

Do you agree that this is unacceptable? At Budget & Performance Committee on 5th January, you highlighted to me how important you felt it is to attract foreign visitors back to London – do you agree that this is not a good way to achieve that goal? If so will you or your Deputy Mayor for Transport commit to meeting with me as soon as possible and working together to fix this situation?

### **Unfair ULEZ Loophole**

**Question No: 2023/0166**

Nick Rogers

A constituent of mine has a 29 year-old car, with emissions below the ULEZ limits. However, because her car was manufactured before new cars were assessed and labelled on their emissions, she currently has to pay the ULEZ charge.
