Police forces in the United Kingdom are routinely required to provide crime statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the crime data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.

Notes

The data was extracted from data that is compiled from NSPIS from January 2009 and is updated on a monthly basis.

The data was extracted based on the arrest date.

The First Arrest Offence was extracted and represents the first arrest offence entered onto the relevant Custody Record. An individual may have been arrested for a number of different Arrest Offences at the same time.

Based on the report requirements, the "Place of Arrest" field was searched for the following wording:

"Parliament Square"

"Parliament Sq"

"P Sq"

Only Custody Records that contained the above key words were counted. Entries with spelling errors would not have been counted.

IMPORTANT: Please ensure that the Notes Page is read in conjunction with the data in this report to ensure that it is interpreted correctly.

Open letter to persons organising and/or participating in public gatherings

The MPS strongly advises people not to attend any gathering, for the protection of yourselves and others. We are still in the middle of a global pandemic.

Please be advised that you may also be at risk of committing a criminal offence. Under the Health Protection (Coronavirus, Restrictions) (England) (No. 4) Regulations 2020 no person may participate in a gathering of more than 2 persons in a public outdoor place (or 2 or more persons in any other outdoor place, such as the outdoor area of any private premises), unless certain exemptions apply.

Certain exemptions apply to gatherings that are necessary for the purposes of work, providing emergency assistance or escaping the risk of harm. This open letter does not contain all the provisions.

To find the Regulations, look on line at www.legislation.gov.uk.

If you attend a gathering that breaches the regulations, you may be committing an offence, which is punishable by a fine. In certain circumstances, if you hold a gathering of over 30 persons and you do not meet the requirements of the regulations you might be committing a different offence which is also punishable by a fine. It is also an offence to encourage others to unlawfully participate in a large gathering.

It is your responsibility to check the current position and ensure you are not committing an offence by being involved in a gathering. We urge anyone arranging a gathering to inform your local police.

We all need to continue to do our part to prevent the spread of the virus.

MPS Commander Public Order.

Notes

Source System: The live data for this report is extracted from SAP BI on 10/11/2020.

Date Range: The date range for this report was set between the 1st of June to 30th of September for the years 2018 - 2020.

Definition: A count of racist hate crime offences for victims of an East Asian ethnic appearance.

Caveats:

The followings flags were used to identify hate crimes -

Racist and Religious:

RI - Racial Incident

RS - Anti Semitic Incident

IS - Islamaphobic Incident

FH - Faith Hate Incident

RR - Racial Incident - Resolved

RT - Anti Semitic Incident - Resolved

RW - Racial Incident - Withdrawn

RX - Racial Incident - Declassified

Ethnic Appearance has been identified by using the victim IC code '5' for East Asian. This signifies Ethnic Appearance as determined by the officer.

Notes

Source System

The data in this report was extracted from the live CRIS SAP BI system on 10th November 2020.

Date Range

Recorded Date between 1st January 2016 to 31st October 2020.

Definition

Classified and confirmed offences of any of the following Home Office codes:

113/00	Explosives Offence (Offences against the Explosives Acts 1875 & 1923 Fireworks Act 1951 and Emergency Laws Act 1953)
125/16	Possess fireworks in or entering sports ground.
222/13	ASB (Anti-Social Behaviour) Fireworks

Caveats

Please note that the Home Office code highlighted in grey above did not return any offences in the given period as ASB is not a crime.

All of the codes used above are non notifiable to the Home Office, and as such do not need to be recorded on MPS systems and therefore may not be accurate.

MQ 2020/3325

Peter Whittle - As you will be aware, a Section 60 is a power given by a Chief Officer (or in urgent circumstances an Inspector or above) which allows police officers to stop and search anyone in a specific area, without needing to have reasonable grounds. It is granted under Section 60 of the Criminal Justice and Public Order Act 1994. Could you tell me how many Section 60's were issued in the Metropolitan Police District over the last three years and tabulate your response by borough?

Source System: The data in this report was extracted via CRIMINT on 19/02/2021

Date Range: 01/01/2018 to 31/01/2021

Definition: The data in this report details the number of Section 60s issued within the Metropolitan Police District over the last three years. Data is displayed by Concatenated Borough, as well as whether the S60s were Borough-wide.

Caveats:

Please note that it is not possible to show all boroughs individually, as this leads to a risk of double-counting. When a Section 60 authority is put in place, the authorising officer defines a geographic area within a text field, and these areas are not necessarily defined by existing boundaries (e.g. wards, boroughs, postcodes). The geographic area can therefore be:

- Entirely within a single borough
- A whole borough
- An area encompassing one or more boroughs (although not the whole of a borough)
- An area encompassing one or more boroughs that incorporates at least one whole borough.

Section 60s are entered on the server to which the authorising officer is automatically connected, although this may not align specifically to where a Section 60 took place. 'Borough Wide' is a manual assessment of the location text.

Police forces in the United Kingdom are routinely required to provide crime statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the crime data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.

Subject: TfL Restricted: Internal Audit 16 767 - Management of Trams Operational Risk
Date: 12 December 2016 10:20:44

Jill

As you are aware, we have been carrying out an Internal Audit (16 767) of 'Management of Trams Operational Risk', which started in October 2016. The objective of the audit was to seek assurance that FirstGroup (Trams Operations Limited (TOL)) have the appropriate arrangements in place to manage operational risk and the relevant competence based risk controls.

At the time of the incident at Sandilands on the 9 November, evidence gathering was nearing completion with report drafting underway. In light of that incident we have decided that it would not be appropriate to continue with finalising our report at this time. In order for our report to be meaningful we would need to carry out further work in relation to the incident itself. It would not be sensible for us to try to do this at a time when our work might be seen as hampering the ongoing internal and external investigations or as pre-judging the investigation findings.

Following the publication of the results of the formal investigations by TfL and the RAIB, we will review our audit and assurance activities relating to Tram Operations, taking account of any findings and recommendations from the investigation reports.

Please don't hesitate to contact me or Robert Kemp, Senior Audit Manager, HSE&T if you would like to discuss this.

Kind regards

Clive

Police forces in the United Kingdom are routinely required to provide crime statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the crime data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.

Notes

Source System: The live data for this report was extracted from CAD on 12/11/2020.

Date Range: The date range for this report was set between 01/11/2019 to 31/10/2020.

Definition: An average of Response Times to I, S, E & R Calls grouped by BCU.

Caveats

The average response time shown includes all call types (immediate, significant, extended and referred). Please note that I grades have a 15 minute response target and S grades have a 60 minute target; Extended and Referred have no time target.

Please also note that not all calls will be responded so the column with response rates in percentage is attached to every table.

All tables shown have been grouped by BCU only, as requested.

Note that all times shown are in Minutes.

Police forces in the United Kingdom are routinely required to provide crime statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the crime data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.
