	ESOL	Adult Skills	2	Co-Financed	ESFA	This programme supported unemployed and inactive Londoners without good English language skills to develop those skills with the aim of integrating better into society, moving
closer to the labour market and ultimately entering work. The programme consisted of three stages: 1. Engagement and initial assessment 2. English language provision 3. Fi assessment and progression						closer to the labour market and ultimately entering work. The programme consisted of three stages: 1. Engagement and initial assessment 2. English language provision 3. Final assessment and progression

## updated April 2023

Project Name	Theme	Priority Axis	Type of ESF Project	ESF Grant Recipient	Project description
Sector Based Approaches	Adult skills	2	Co-Financed	ESFA	The programme tested out different and innovative approaches and delivered activities such as engagement and initial assessment – developing an individual progression plan for employees or an organisational needs assessment for businesses; face-to-face coaching and mentoring and support for progression. It encouraged both sector based approaches (gna-London) and experiabilical approaches (sub-regional).
Modern Skills for Construction	Adult skills	2	Co-Financed	ESFA	The programme provided pre-employment support, ensuring participants had good employability skills and addressing any basic skills needs, as well as marketing activity. Providers had to address preceptions of initial low pay and a lack of progression opportunities. This would be followed by vocational training and work-experience that was responsive to employme needs, and could be a combination of accredited and non-accredited training.
In-Work Progression Programme	Adult skills	2	Co-Financed	ESFA	The programme encouraged both sector based approaches (par-London) and geographical approaches (pub-regional). Providers worked either with employees or through employers or both. The programme comprised the following key elements: engagement and initial assessment – developing an individual progression plan for employees or an organisational needs assessment for businesses; face to chace coaching and metroring and support for progression. It included formal qualifications and training (based on an in- depth understanding of employer needs) or other support, such as work shadowing.
Creative Enterprise Zone - Tottenham	Adult Skills	2	Co-Financed	GLA	This project supported employees of businesses in the Tottenham Creative Enterprise Zone (CE2) to upskill and progress in work through tailored advice, workshops, training and memoring, and it enabled creative businesses and education organisations to collaborate on the development of industry-relevant creative training programmes and improved pathways into the industry.
Higher Level Digital Skills	Adult Skills	2	Co-Financed	GLA	The project aimed to improve the labour market relevance of higher level digital skills training in London. It did this by funding a suite of collaborative activities between startups, Small and Medium Sized Enterprises (SMEs), micro-enterprises (micros), and higher level digital skills providers.
Hospitality Pathways	Adult Skills	2	Direct Bid	Rinova Ltd	This project, through a range of interventions delivered via a cross sector/multi agency approach, encouraged equal access to lifelong learning for people in the capital, currently employed or wishing to enter the hospitality industry, via a network of 200+ Sector SMEs supported by the project.
London Councils ESF Programme P2 - West London Skills Escalator	Adult skills	2	Direct Bid	London Councils	The London Councils project offered a unique opportunity for participants across West London boroughs to improve their labour market position. Participants receiving support through this project were predominantly women claiming in work benefits, including housing benefit and working tax credits. In addition, they would have low level qualifications and live in privately rented or temporary accommodation.
VCS Assist 2.0	Technical Assistance	3	Direct Bid	London Voluntary Service Council	The VCS Assist 2.0 project helped London's voluntary and community sector (VCS) participate in the 2014-2020 ESF Programme by providing support in partnership building, advisory support and skills training. The project rose awareness of the ESP programme and encouraged partnership working between VCS organisations and private and public sector organisations.
ESF Technical Assistance support to London boroughs	Technical Assistance	3	Direct Bid	Access Europe Network CIC	The project promoted and publicited the ESF programme to London boroughs and their sub-regional, delivery and strategic partners. It ensured that London local authorities were well informed and well equipped to engage in the programme as lead or delivery partners, and supported the development of partnerships and consortia. The project facilitated borough engagement with the LEP and GLA and organised market warming activities, borough forums, training and the development of ESF proposals. We identified and promoted good practice and fed borough engagement with and the sub-regional delivery.
London ESF Youth Programme Support	Technical Assistance	3	Direct Bid	London Councils	The project aimed to improve the impact of the London ESF Youth Programme by providing opportunities for practitioners and partners to: • identify and overcome barriers to successful delivery; • exchange ideas, preferice and effective practice; • manage transition between different strands of the Programme so that young people are better supported into positive destinations.
