Examiner's Questions

EQ 2 – possible need for a hearing.

As far as I can see, the consultation document on the Draft Charging Schedule did not include any mention of requesting a hearing, and the consultation representations do not make any reference to a hearing, save that Quod, on behalf of SEGRO, reserves the right to be represented at any hearing.

Please confirm that the above statement is correct and that no other mention of a hearing has been made.

A reply within 5 working days at the latest please.
