

# GREATER LONDON AUTHORITY

Our reference: MGLA120923-6231

Date: 4 December 2023

Dear

Thank you for your request for information which the Greater London Authority (GLA) received on 12 September 2023. Your request has been considered under the Freedom of Information Act 2000.

You requested:

*I am interested in obtaining details about the Ultra Low Emission Zone (ULEZ) scrappage scheme. Please provide the following information:*

1. *Does the city pay for the utilisation of the vehicles purchased under the ULEZ scrappage scheme? If so:*
  - a. *To what company and how much?*
  - b. *Please provide copies of the related contracts, tender documentation, and correspondence.*
2. *Please provide all internal correspondence, communications, and documents related to a recent request from volunteer groups to send these vehicles to Ukraine instead of being scrapped.*
3. *Please provide a step-by-step guide outlining how the ULEZ scrappage scheme process is envisioned. Specifically:*
  - a. *Where is the person supposed to physically bring the car?*
  - b. *Where is the car stored and for how long?*
  - c. *Who pays for the storage and how much?*
  - d. *How does the car make its way to a utilisation site?*
  - e. *How does the utilisation site benefit from participation in the scheme?*

Please see below the information the GLA holds within scope of this request.

1. *Does the city pay for the utilisation of the vehicles purchased under the ULEZ scrappage scheme? If so:*
  - c. *To what company and how much?*
  - d. *Please provide copies of the related contracts, tender documentation, and correspondence.*

The ULEZ scrappage scheme is administered by Transport for London (TfL) and provides grant payments to eligible London residents, London-registered sole traders, and businesses and charities operating in London to help them scrap their older, more polluting vehicles.

# GREATER LONDON AUTHORITY

Under the terms of the scheme, successful applicants must scrap their vehicle at an Authorised Treatment Facility (ATF). The ATF issues a Certificate of Destruction that the applicant must then provide to Transport for London (TfL) as evidence that the vehicle has been scrapped. Once the applicant has provided the Certificate of Destruction, TfL will issue a grant payment (as a cheque) to the applicant. TfL only pays the scrappage applicant, it does not pay the ATFs or any other third party organisations.

More information on the process is available on the TfL website:

<https://tfl.gov.uk/modes/driving/ultra-low-emission-zone/scrappage-schemes/car-and-motorcycle>.

2. *Please provide all internal correspondence, communications, and documents related to a recent request from volunteer groups to send these vehicles to Ukraine instead of being scrapped.*

Please see the attached PDF for the documents the GLA holds within scope of this request.

I can confirm that the GLA holds information in relation to the second part of your request. We consider that this information falls under the exception to disclose at:

Regulation 12(4)(e) - The request involves the disclosure of internal communications

Regulation 12(5)(a) - International relations, defence, national security, public safety

Regulation 12(4)(e) applies to communications explicitly whereby GLA officials have engaged in free and frank discussions on matters pertaining to sending vehicles which do not meet the Ultra Low Emission Zone (ULEZ) standards to Ukraine. The final position has not yet been determined and as such there are still further stages to the discussions that are yet to complete. The exception is engaged in order to protect the necessary space to explore ideas in private against the backdrop of a project which is under great public, media and political scrutiny.

Regulation 12(5)(a) applies to the disclosure of information which would adversely affect international relations, defence, national security or public safety. In this instance refusal is on the grounds that disclosure would adversely effect international relations.

The scope of the non-disclosure exception is broad in scope, in this instance it is to protect UK policy and strategic positioning regarding other states or international organisations and the key factors affecting harm are the content of the information, the trust and confidence other states and international organisations have in the UK, the timing of the request, and the broader effects of any disclosure.

Regulation 12 (4)(e) and Regulation 12(5)(a) constitute as qualified exemptions from our duty to disclose information under the EIR, and consideration must be given as to whether the public interest favouring disclosure of the information covered by this exemption outweighs the public interest considerations favouring maintaining the exemption and withholding the information.

The GLA acknowledges that there is a public interest in transparency in relation to planning and development matters, disclosure would enable the local community to understand more fully the decision-making process and effective decision making should be informed by engaging with the public and key stakeholders; however, this engagement needs to be structured to be effective. Release of this information at this time would divert attention and resources away from the task at hand and towards responding to external thoughts whilst discussions are still

# GREATER LONDON AUTHORITY

ongoing. This in turn would also be likely to have an adverse effect on the GLA's ability to engage in free-flowing and honest exchanges of views in the future as it is likely that officials would become reluctant to explore all options.

It is also accepted that there is a public interest in a greater understanding of the United Kingdom's (UK) foreign relations and the information could also provide the public with a better understanding of Britain's conduct overseas. There is also a public interest in promoting accountability and transparency by public authorities on matters relating to the UK. However, we do not consider it within the public interest to disclose information which would be prejudicial to the current relationship between London, the UK and any other State and reduce co-operation between states in future.

3. *Please provide a step-by-step guide outlining how the ULEZ scrappage scheme process is envisioned. Specifically:*
- a. *Where is the person supposed to physically bring the car?*
  - b. *Where is the car stored and for how long?*
  - c. *Who pays for the storage and how much?*
  - d. *How does the car make its way to a utilisation site?*
  - e. *How does the utilisation site benefit from participation in the scheme?*

Please see our answer to Question 1 regarding how the ULEZ scrappage scheme operates.

If you have any further questions relating to this matter, please contact me, quoting the reference MGLA120923-6231.

Yours sincerely

## Information Governance Officer

If you are unhappy with the way the GLA has handled your request, you may complain using the GLA's FOI complaints and internal review procedure, available at:

Hi [REDACTED]

Thanks for flagging this.

We have an internal meeting to discuss best next steps on this on Thursday given the media interest and urgent need for vehicles in Ukraine.

Is it ok to revert back to you after this please?

Thanks,

**Subject:** 4x4's to the Ukraine - request for lines

Hi International Team

We seem to be getting quite a lot of emails regarding the possibility of donating 4x4 that do not pass the ULEZ related scrappage test, to the Ukraine.

There are some cases allocated to the international team already

Please can you give us some approved lines so that we can respond to these directly:-

Below are some examples of the texts:-

**Example 1**

Hello Mr. Khan,

I am writing to ask if 4 wheel drive vehicles which are currently intended to be scrapped under the incentive scheme, could, as an alternative, be donated to Ukraine for use as "front line support vehicles."

**Example 2**

Sadiq Khan, the mayor of London, has been urged to allow polluting 4x4s due to be scrapped / ^ r incirlo tho ranital;c i iltra ln\A/ amieeinn 7nnoc /1 lla?\ tn ha rlInafarl fa l lUraina affar if uiae . ^ ku 0 cr w? COflitoJ . t>j>P ^ inside the capital's ultra low emission zones (Ulez) to be donated to Ukraine after it was claimed the proposal had been given the "brush-off". . People across Europe have been keen to help Ukraine in the fight against Russia by donating 0/n 4x4s and SUVs so they can be adapted for use by the Ukrainian army.

We look forward for a steer from you

RE: Ukraine / scrappage

Morning [REDACTED]

Thanks for looping me in. I'm not going to go back to [REDACTED] yet (and other Ukrainian charities who have been in touch) as we have no idea the level of support we can provide yet and I still need to speak to fleet leads at the various emergency services organisations [REDACTED]

I'm getting clarity early next week with some of the emergency services and then I should be able to give a slightly more definitive answer by the end of the week but I imagine this is going to get quite complicated so will probably take a while!

Hi all,

[REDACTED] - would you be able to set a diary invite up for everyone please for Thursday at 12? Thank you!

Also looping in [REDACTED] who is kindly reaching out to functional bodies on this and who will join the meeting.

There are now lots of requests and questions coming in through both GLA/ TFL/ press office so really important we all meet next week, discuss next steps and get on top of where we are at currently.

█ has also requested a TfL rep to join this meeting - @█ █ @█ █ would you be able to assist with this please in █ absence?

If this time doesn't work please do flag and we'll find an alternative next week.

Thanks v much all,

█

Hi all,

Touching base with you all again to see if we can schedule some time to discuss next steps on this.

I had a call with [REDACTED] in the AQ team who is kindly reaching out to the functional bodies for us (noting a few of her contacts have been on leave so there may be some delay in touching base with all of them).

To give her the time to get in touch with as many as possible could we try to meet next Thursday please – possibly 12pm?

Thanks,

**Subject:** RE: On initiative from Kyiver NGO

Hi both,

Hope you're well.

We have received the attached email from the FCDO which outlines how they have previously exported vehicles to Ukraine and the process they applied. [REDACTED]

In terms of next steps – it would be good if the 5 of us could sit down and discuss this. If we can keep this group closed for now it would be most appreciated, as there are a number of things we need to discuss to see how this could work in practice.

Noting [REDACTED] this week and [REDACTED] and I are travelling next week, so if ok with you all can I please try and find some time for us w/c 31<sup>st</sup> July to discuss – ideally Tuesday 1<sup>st</sup> or Wednesday 2<sup>nd</sup> August in City Hall? For those who can't join in person we can make sure there is a remote option.

If we can continue to hold reaching out to other GLA colleagues and TfL etc. for now that would be also be helpful.

Thanks v much,

Hi [REDACTED]

[REDACTED]

Conscious you will want an update sooner on this from our side so we can get the ball rolling with Kyiv. [REDACTED] is speaking with [REDACTED] and [REDACTED] on this to discuss various complexities around it now that we have a rough plan of action (although I realise this is still very much in the early stages of anything!).

If it's ok [REDACTED] will come back to you once we have further clarity, and hopefully we can go from there.

Thanks again for all of your help with this.

Best,  
[REDACTED]

**Subject:** RE: On initiative from Kyiver NGO

Hi all,

We had Transport Planning today. They'd like us to explore with TfL all the potential options of what we can do:

- Linking GLA Group organisations with charities
- Comms/website changes in ULEZ landing pages
- And explore what's possible (if anything) with our own scrappage scheme

I'll try to set up a meeting with TfL for early next week and feedback in due course

Thanks!

Hi both,

Hope you're well – although seeing your OOO @ [REDACTED] [REDACTED] [REDACTED] !

[REDACTED] advised that the two of you were leading on this Kyiv NGO request [REDACTED] . [REDACTED]  
[REDACTED] so wanted to make sure that @ [REDACTED] [REDACTED] was in the loop.

Please do let [REDACTED] know of any updates [REDACTED] or else we can pick up next week. [REDACTED]  
[REDACTED], but  
I imagine you will need to be having lots of behind the scenes convos with relevant partners first and foremost.

Many thanks,

**Subject:** RE: On initiative from Kyiver NGO

Hi [REDACTED]

Thanks for sharing this. A different charity ([Ukrainian Action](#)) has also been in touch with TfL with the same request.

As you've noted, the way the scrappage scheme works means there are some barriers to this in practice. The [REDACTED] barrier is that the scheme requires proof that the vehicle has been scrapped at an Authorised Treatment Facility for the applicant to receive their grant payment. The application process and backend systems have been set up on this basis and unfortunately it is not a simple or quick process to change them. Furthermore, the operational resource to make changes at this stage is highly constrained as TfL prepares for the scheme launch on 29 August.

Practically, it is likely that most vehicles being scrapped through the scheme will be near their end-of-life anyway, as otherwise the vehicles would likely be sold because they would be worth more than the value of the scrappage grant.

While there are barriers to using the scrappage scheme, one option that we have discussed with [REDACTED]

[REDACTED]

Happy to discuss in more detail if helpful and/or review the draft response.

Hi all,

Hope you're well.

I just wanted to flag the below request that we have received from our counterparts in Kyiv. In short – they are asking for cars set to be scrapped under the ULEZ scrappage scheme to be sent to Ukraine instead so that they can be repurposed during the conflict.

[REDACTED]

If you have any other thoughts on the below please do let me know.

Thanks,

Hi [REDACTED]

My colleague [REDACTED] is the one leading on the work with functional bodies and their fleets, and the one who helped draft the original email for the functional bodies and the Ukrainian initiative.

I suggest the two of you work together to draft the letter. As you say most if it will hopefully be based on the original email [REDACTED] helped put together.

Can you let us know when you have a date with the Kiev counterparts. Our TfL colleagues have approached us today saying another charity has been put in touch with TfL today so it'd be good to clarify how we can best hel.

Thanks

Hi [REDACTED]

I'm well thanks – hope you too?

I thought before sending any letters or agreeing what to add to the website, you were going to organise a meeting with the charities, you and TfL to discuss what would be most useful to them?  
The feedback from those meetings would help us draft a more targeted letter to the FBs.

Thanks  
[REDACTED]

**Subject:** RE: LFB donation to Ukraine

Hi [REDACTED]

Looking back over this the LFB did not supply vehicles to Ukraine but supplied first aid equipment. However, they did join a convoy from the UK's fire and rescue sector organised through the National fire chiefs councils (NFCC) that brought the equipment over to the Ukraine (other Brigade's may well have donated vehicles).

The organising officer has moved roles, but I can put you in touch with someone who knows all about it if that's helpful?

For context – here is what was sent:

FYI the LFB offer of equipment to the Ukraine crisis has been accepted. This will be transported to Ashford as per the instruction from NFCC.

Item	Number	Approximate value
Medical goggles/eye protection	46,500	It is not possible to identify the specific value of these items at short notice. However they have an effective value of zero and will likely incur disposal costs when the time comes to free up the warehousing space.
Coveralls Type 5/6	S x 375, M x 2300, L x 9575, XL x 9275, XXL x 750. Mixed x 400. Total @ 23000	
Type 2 face masks	140000	
Hand wash	350 x 5 litre bottles	

Also just cc'ing [REDACTED] for awareness.

Best

**Subject:** LFB donation to Ukraine

Hi [REDACTED]

Hope you're well!

Bit of a random one, and actually to do with your old role as opposed to your current role I'm afraid, but I was wondering if we could have a quick chat at some point about LFB who – I believe – donated some old vehicles to Ukraine back in the early days of the war. Does this ring any bells?

The reason I ask is because we have been asked to donate old GLA Group vehicles (e.g. ones which aren't going to be ULEZ compliant from TfL, LFB etc) to Ukraine and looking for any insight into the process before we get too far into it with contacts in Kyiv!

Please do let me know if you have any info on this, or if you might know the best person I could speak to at the GLA/LFB to get some more background please.

Many thanks,

Hi both

For you to review below – will send over to all the orgs we’ve been chatting with about MoUs. Let me know if I need to add more detail or it needs tweaking. It also mentions that the Mayor will be sending a letter but if that’s not the case for all the organisations I’ll take that out and send a different email to those who won’t be receiving a formal letter

Let me know once it’s good to send off!

**Subject:** Ukraine

Hi [REDACTED]

Not sure who's leading on this so feel free to loop in others in the team as needed. To note, following [REDACTED] last week I mentioned to the Commissioner's team you'd be following up on Ukraine feedback/ asks. I know you're talking to the relevant team, but they flagged we might need to bring seniors (e.g. [REDACTED] and others) at some point; I'm especially conscious this might be the case given possible ask of Capita. Could you drop us a quick update and/or loop in [REDACTED] and team if it's getting to a point where there's some specific next steps? (at US today/ on the phone if easier to discuss)

Thanks!
