

Response from the London Borough of Lambeth

Many apologies for our delay in replying to you, but here finally is the LB Lambeth response to your request.

Ref 215 – London weighting Motion

As your letter acknowledges the practice of paying differing London Weighting rates is a practice that applies to outer London authorities and is not undertaken by the London Borough of Lambeth (an Inner London Authority) where both teachers and school support staffs' London-weighting is aligned.

We did not reply on this point as we felt that was evident by your own letter.

Ref 40 – Solar Panels on Listed Buildings

We will be monitoring the results of the RBK&C initiative. We consider that it needs to run for a reasonable period before any meaningful conclusions can be reached.

Thank you
