Completing the R06 Mid-Year Funding Claim on GLA-OPS

Below are instructions on when and how to complete your R06 Mid-Year Funding Claim for 2024 to 2025 on GLA-OPS.

When to submit your Funding Claim

You can start to complete your Funding Claim from Wednesday, 12 February 2025.

You must complete the R06 Form and submit to the GLA (using the Request Approval button) by 17:00 on Tuesday, 18 February 2025.

Information required on your Funding Claim

Your R06 Funding Claim must be completed using your R06 return values as a basis for 'delivery to date' figures. The claim should relate to GLA Jobs and Skills for Londoners funded provision only. If you hold both a JSfL funding agreement and an ASF Grant agreement with the GLA you will need to complete separate Funding Claims on GLA-OPS.

Your delivery to date figures for Programme Funding, Good Work Job Outcomes, Learning Support and Learner Support will be populated automatically based on your R06 ILR return, and any values recorded in the Earnings Adjustment Statement (EAS). You must complete all fields.

Approval process

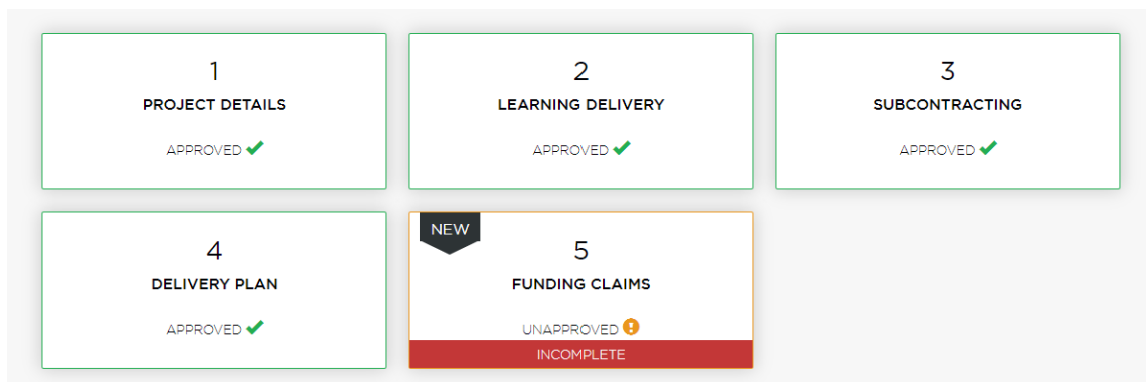

If we identify any errors in your submission, we may return the form to you and ask you to make the required edits. Once we have approved your claim, you must not make any further edits to the R06 form in the Funding Claims block. By approving your Funding Claim, the GLA is confirming receipt of your information regarding delivery to date. We are not committing to funding any costs in excess of your allocation amount.

Disclaimer

By completing and submitting your claim through GLA-OPS, you are confirming that the information contained in the form is complete, accurate and in line with published [GLA ASF Funding and Performance Management Rules for Grant Providers 2024-25](#). You are also confirming that supporting evidence is available regarding delivery to date.

Data for Programme Funding, Good Work Job Outcomes, Learning Support and Learner Support will populate automatically based on your R06 ILR return. Please note, these fields will show £0.00 until the R06 data is pushed into GLA-OPS. This will be done by Tuesday, 11 February 2025.

Note: the 'Of which' amounts you submit for subcategories of Programme Funding, Learning Support and Learner Support must tally up to the total amount for each associated category; otherwise, the block status will remain incomplete, and the following error message will show at the bottom of the Funding Claims block table. **'The sum of 'of which' sub-category splits must sum to the total for the category'.**

The sum of "of which" sub-category splits must sum to the total for the category

E.G. **Programme Funding:** the total category amount will be populated automatically based on your R06 ILR return. The 'Of which' subcategory amounts you submit must add up to match the total category amount:
