

## **Estate regeneration projects where the GLA approved funding prior to introducing the Resident Ballot Requirement on 18 July 2018**

**Last updated: 28/01/2026**

**Covers up to: 31/12/2025**

This list contains details of planned or current estate regeneration projects named in a signed funding contract with the GLA, and the decisions associated with them, prior to 18 July 2018. The list contains information that the GLA receives from an Investment Partner at a particular point in time and may no longer be accurate where plans for projects change.

Projects on this list may be subject to the Resident Ballot Requirement unless the GLA Investment Partner has secured an exemption from the GLA, or the project falls beyond the scope of the requirement of the ballot funding condition. The approximate number of homes listed for each project below includes both affordable homes the GLA is funding and other homes being delivered without GLA funding (such as private homes). As of October 2025, the GLA will no longer be updating the approximate number of new homes on projects for which it has already approved funding. Residents, or others, looking for further information about regeneration projects on this list should speak to their landlord.

Estate/project Name	Other/ previous names (if known)	Borough	Approximate number of new homes (including homes both with and without GLA funding)	GLA Decision	Date decision signed	Date contract signed
