Morning [redacted]
It certainly will touch on group-based. Including group based CSE within the context of street gangs and the overlap with CCE. I don't have a ToR yet, we are meeting to try to finalise next week so I can update you then. Our discussions won't surprise you: the need to include CCE and CSE and the overlap whilst ensuring we have understanding of the different themes and problem profiles within each subset. We had a product for a couple of years - but the LRO team and [redacted] are keen to build on that to improve it. We will use the product to drive Makesafe action. This is something that HMICFRS picked up on in the 2023 audit and is high priority.
Another issue is actually getting of the data of course - again, I am meeting with the analysts next week to finalise.
I'm sorry I can't give you more firm answers, but I would only be telling you what I want to achieve as I need to know from the analysts what is actually possible!
We are indeed free at 1 next Wednesday and I should be able to update you more then as I will have met with the analysts in the morning.

[redacted] thanks so much for this – it sounds like really great work.
I am interested to see the reference to the MPS CE problem profile, and also the CSE problem profile and wondered if you had any information on the scope/ ToRs for these, and also the schedule for when these may be ready?
Also re the CSE problem profile, I am assuming that will touch on group-based CSE?
One last thing – I am not sure of the acronyms LI or MIST - if you could let me know.
Are we meeting next week Wednesday at 1pm – I could put that in diaries if its ok with you both?
Thanks so much [redacted] and have a lovely evening.
[redacted]
The Child Exploitation training team as part of OP Aegis have delivered face to face Child Exploitation Awareness Training to 11,434 officers and staff across ALL 12 BCUs and specialist areas. This includes all ERPT officers, NPT, LI, PP, Proactive, Street Duties, Safer Transport Teams (STT), MIST.

No worries!
Hope this helps:
Operation Makesafe enables forces to empower businesses and their staff to identify potential victims of CSE and report their concerns to the police. By encouraging hotel staff to be our eyes and ears we can prevent children becoming victims, disrupt the perpetrators of child sexual exploitation and seek to

prosecute those responsible. The Met LRO team are linked in with Hydrant Programme and are engaged members of the Makesafe National Working Group to ensure that we utilise best practice. A review of our CSE problem profile has already been commissioned as part of a wider piece of work around the MPS CE problem profile which will ensure that our Makesafe activity is intelligence led going forward.
Operation Makesafe involves police officers or staff providing training to hotel employees to raise awareness of child sexual exploitation. The MPS often provide hotels with resources to promote Operation Makesafe to staff and guests. Officers from neighbourhood policing teams, specialist child sexual exploitation teams and the LRO team have built positive relationships with hotel staff & partners to support improved information sharing.
The Child Exploitation training team as part of OP Aegis have delivered face to face Child Exploitation Awareness Training to 11,434 officers and staff across ALL 12 BCUs and specialist areas. This includes all ERPT officers, NPT, LI, PP, Proactive, Street Duties, Safer Transport Teams (STT), MIST. Specialist units included, TSG (All 4 bases trained), MIT South, Specialist Crime, County Lines (SOC)
Almost all BCU SLT have also received same Awareness training highlighting how to 'Spot the Signs' of Exploitation and know how to report. The presentation covered most of the HMIC recommendations, including Language Matters and Op Makesafe.
During these presentations Op Makesafe was explained, raising awareness of the importance of raising awareness to business partners and encouraging NPTs to play the animated OP Makesafe video at an opportunity with business partners to raise awareness of CE in the community. This resulted in some officers playing this OP Makesafe video in their local shopping centres, putting chairs out, encouraging shoppers and partners to stop and watch. One officers has also played the OP Makesafe video on the side of the Mets Video Van in busy area. Some great initiatives as a result of our presentations.
The MPS accepts that everyone has a role to play in supporting Operation Makesafe. Met call handlers have received specialist training to identify calls relating to Child Exploitation and provide the appropriate advice and police response.
Neighbourhood police and CET officers can develop positive relationships with hotels to provide support and a trusted face to raise concerns with. Response officers can look closer at calls they respond to at hotels to check that child sexual exploitation isn't taking place as a hidden crime.
Driven by the LRO team, CET officers also support their colleagues to understand their role in preventing child sexual exploitation as well as delivering training and awareness raising sessions to hotel staff.
Central LRO CET are monitoring and leading on Makesafe activity Pan-London, including co-ordinating the bi-annual Makesafe awareness weeks, collaborating with partners including the National Makesafe working Group, the Hydrant Programme, MOPAC and third sector, and designing IT improvements so that Makesafe activity can be accurately recorded and quality assessed (this includes recording activity and data dashboards).
The next Maksafe week is in March - more than happy to have a chat with you about that next week - we have started to work with CSC to think about how to design in and ensure governance etc, now that we have the new Connect recording system. Exciting!

Subject: Operation Makesafe
Good morning[redacted] hope that you are well.
You will remember we met a few weeks ago about the training that you are delivering across the Met on recognising/reporting child exploitation. (I also attended one of your training sessions.
I wanted to ask if you also lead on Operation Makesafe, and if so, could I put in a short meeting for us to discuss – I would like to find out more about the programme and how it is delivered.
Operation Makesafe: protecting children | Metropolitan Police
Thanks Jo, look forward to hearing from you
