Subject: RE: link to rough sleeping map

[REDACTED]

This is really good. The only thing I would like to see is either the post-code or the name of the individual hotspots on the borough maps. This would allow us to quickly narrow down the locations.

We will use the maps in our authorities for deployment and briefings. Neither will be in the public domain but both would be susceptible to production on foot of a FOI request.

Regards,

[REDACTED]

Dear All,

Really good to see you all just now, and thanks for coming to the meeting.

Please see below with the link to the rough sleeping map, could you send back any additional requests for what this could show by the end of next week (8th May) and we will try and get these added if possible.
