The APS is a new name for the annual Labour Force Survey, which it replaced in 2004. Economic activity, employment and inactivity rates all express estimates as a percentage of the working age population. Unemployment rates express the number unemployed as a percentage of the labour force (ie the economically active population).

Note 1: Totals for each category may vary from the total prison population because for some groups the numbers have been rounded to the nearest ten and where the number in a group is less than five it has not been recorded, therefore actual figures may be higher or lower than the rounded figures.

Note 2: Not all prisoners in London's prisons are from London, in 2005 it was estimated that 15 per cent of the prisoners in London's prisons were from outside London. See State of Equality in London, London Equalities Commission, 2007
