

# GREATER **LONDON** AUTHORITY

[REDACTED]  
(By email)

Our ref: MGLA150921-3078

Date: 29 September 2021

Dear [REDACTED]

Thank you for your request for information which the GLA received on 15 September. Your request has been dealt with under the Environmental Information Regulations (EIR) 2004.

You asked for;

- the record for the parts (areas) of Greater London exceeding the legal limits for NO<sub>2</sub>(Nitrogen Dioxide).
- the records for the roads in Greater London with the highest concentration of NO<sub>2</sub>.

Our response to your request is as follows:

You can find the monitoring data which show the areas and roads that exceed the legal limits for NO<sub>2</sub> in London at a number of sources:

- London Air: <https://www.londonair.org.uk/LondonAir/Default.aspx>
- Air Quality England: <https://www.airqualityengland.co.uk/>
- Breathe London: <https://www.breathelondon.org/>

The London Air Quality Network on London Air also show modelled data by street.  
<https://www.londonair.org.uk/london/asp/annualmaps.asp>

You may also find the following reports useful:

- Air Quality in London Impact Evaluation: <https://www.london.gov.uk/what-we-do/environment/pollution-and-air-quality/air-quality-london-2016-2020>
- The London Atmospheric Emissions Inventory:  
<https://data.london.gov.uk/dataset?q=laei>

London boroughs are also responsible for providing annual status reports. Many of these are published online, and all boroughs hold this information and be able to provide on request.

If you have any further questions relating to this matter, please contact me, quoting the reference at the top of this letter.

Yours sincerely

**Senior Policy and Programmes Officer**

If you are unhappy with the way the GLA has handled your request, you may complain using the GLA's FOI complaints and internal review procedure, available at:
