

RE: MGLA120719-7348 FW: FOI request

The Mayor does not hold records of all student accommodation in London. However, through the London Development Database, we collect information on student accommodation in planning permissions granted. These are then tracked through to completion. The attached spreadsheet contains two worksheets:

- 1 Student accommodation completed
2. Student accommodation currently granted planning permission or under construction (the pipeline)

The spreadsheet includes the address and the number of rooms. The completion date is included on the completions worksheet. We don't however hold any information on ownership or a projected completion date for schemes in the pipeline.
