

## REQUEST

I am requesting under the Freedom of Information Act, any records you may hold on:

Planning, scheduling, and where appropriate, cancellation, of meetings of the Community Monitoring Network (CMN) in the years 2019 and 2020 up to execution of this request

Minutes of the CMN in the year 2020 up to the execution of this request.

## RESPONSE

Thank you for your Freedom of Information (FOI) request of 26 August to the Mayor's Office for Policing And Crime (MOPAC). I apologise for the delay in replying to you. I confirm that MOPAC does hold information relating to your request, as set out below:

### Meetings in 2019

23/01/2019
24/04/2019
26/06/2019
23/10/2019

### Meetings in 2020

23/01/2020
25/03/2020
29/04/2020
30/09/2020
18/11/2020

### Community Monitoring Network notes

All of the notes are publicly available from 2018 & 2019 and can be found through this link:

<https://www.london.gov.uk/what-we-do/mayors-office-policing-and-crime-mopac/community-safety/stop-and-search-community-monitoring-network#acc-i-57398>

The notes from January are available on the MOPAC stop and search page as above and are also attached for ease. The April notes will be uploaded by the end of October when they have been signed off by Community Monitoring Network.

### Planning, scheduling, cancellation

The meetings are scheduled and agreed on at the end of the previous year with the Chair of the Community Monitoring Network and the Metropolitan Police Service Central Stop and Search team. This is usually done verbally or through email. The meetings are attended by a selection of guests who are agreed on by the Mayor's Office for Policing And Crime, Chair and Vice Chair. No Community Monitoring Network meetings have been cancelled in the last three years.

If you are unhappy with the response to your Freedom of Information requests, please see the MOPAC website on what the next steps are at:

<https://www.london.gov.uk/what-we-do/mayors-office-policing-and-crime-mopac/governance-and-decision-making/freedom-information>
