Sir Edward Lister
Chief of Staff and Deputy Mayor for Policy & Planning
City Hall
London
SE1 2AA

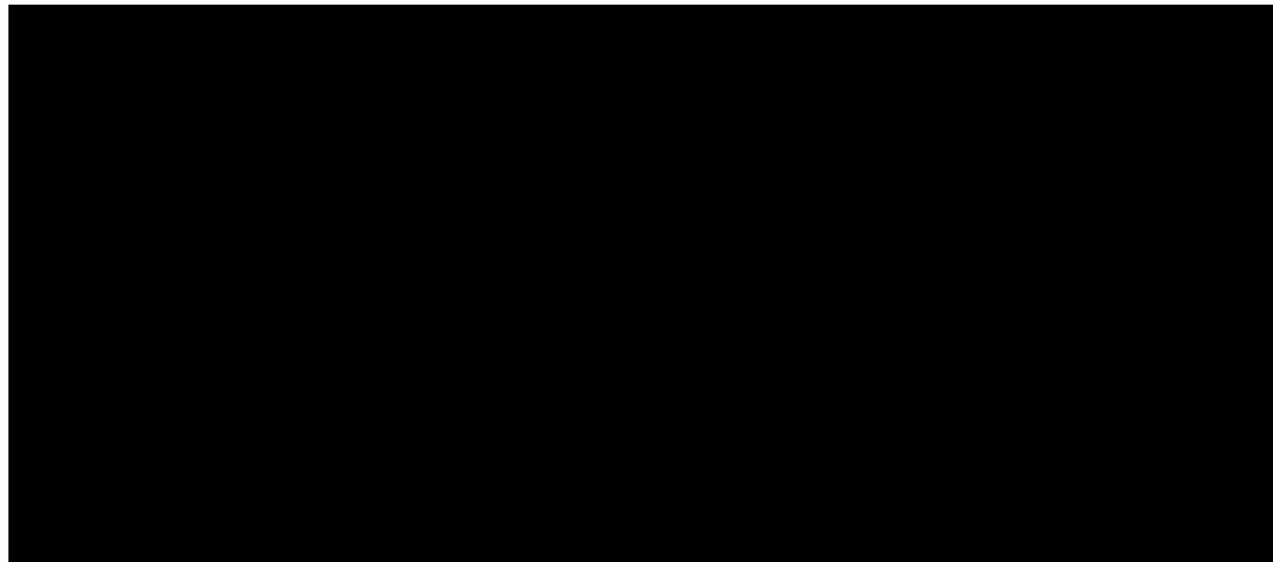

2nd March 2015

Dear Edward,

I have been thinking of what we would want to see for Nine Elms over the next 12 months to firmly irrevocably settle things.

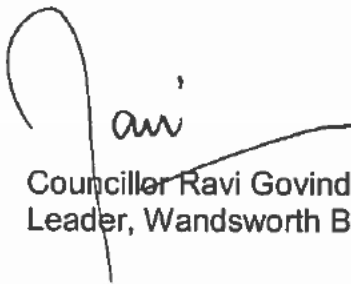

You will have heard that the Nine Elms bridge has received 74 design entries which have been exhibited at venues on both sides of the river. It would be good to have GLA's continued active and public engagement with the bridge competition and potential planning application design and public support and advocacy for the transport case for the bridge. In due course it would be great to have advice and support on next steps and in particular establishing a Trust (or other appropriate structure) to take forward fundraising for the bridge (and potentially on-going management and maintenance).

I appreciate this is quite a list but that is because we have so much yet to do to realise the big vision we have for Nine Elms.

Yours sincerely,

Councillor Ravi Govindia
Leader, Wandsworth Borough Council
