(By email)

Our Ref: MGLA060720-6834

14 July 2020

Dear [REDACTED]

Thank you for your request for information which the Greater London Authority (GLA) received on 3 July 2020. Your request has been dealt with under the Environmental Information Regulations (EIR) 2004.

You asked for:

*My request is for all information - legislation which will be implemented from 2025 and how this will affect those living, directly. Within the congestion zone. I understand the ULEZ will be expanded from 2021. What is not clear is if residents living in the congestion zone will have to have a pure electric vehicle or can they carry on using their Euro 4 petrol or Euro 6 diesel. Or if they are forced to buy a pure electric vehicle will they be able to drive within the congestion zone with a discount or exemption.*

*Please understand. I am referring to information for residents living within the congestion zone - Central London on and after 2025. Not the expanded ULEZ from 2021.*

Our response to your request is as follows:

The information you are seeking is available on the TfL website: <http://content.tfl.gov.uk/lez-scheme-order.pdf>

The Mayor's Transport Strategy and London Environment Strategy are also relevant to your request:
