Dear

Thank you for your request for information which the Greater London Authority (GLA) received on 8 June 2022. Your request has been considered under the Freedom of Information Act 2000.

You requested:

On 29th April 2013 an event was presented by Title X Technology Ltd at which the then Mayor of London spoke. On the sponsorship board "Mayor of London" branding is clearly visible. On an archived copy of the event website "Mayor of London" is listed as a sponsor of the event which "Title X Technology presents". (See screenshots below)

It is in the public domain that London and Partners provided sponsorship money to later events, and these have a "London and Partners" logo displayed, not the "Mayor of London" logo. The later events were apparently run by Innotech Network Ltd.

- 1. Looking particularly at GLA's finance records, what records exist showing the cost of sponsorship of the 29th April 2013 event by GLA and/or the Mayor's office?*
- 2. Please disclose all records still held of GLA's interaction with Title X Technology Ltd.*
- 3. What was the total cost to GLA of tickets to this event? Ticket prices are shown as between £75 and £250.*

To assist you in locating this information, it may be that GLA has looked before at payments to "Innotech Network Ltd" given the presence of a logo "Innotech". The archived event website makes it clear that this specific event is presented by "Title X Technology Ltd" and not "Innotech Network Ltd".

Our response to your request is as follows:

I have reviewed the event as it appears on youtube¹ and note that the date the video was uploaded was the 29 April 2013 and the date of the event is 26 April 2013. The records we hold in relation to this have previously been disclosed at [FOI - Arcuri, Innotech, Playbox and Hacker House \[Oct 2020\] | London City Hall](#)
