

REQUEST

(1A) The complete and unaltered "deck of 'slides' " as shown to the attendees of the meeting, referenced above.

My request is for these slides in their native file format. For instance, if the slides were assembled into a Microsoft PowerPoint presentation, then this request should return a Microsoft PowerPoint file.

Again, if these slides were subsequently altered or updated, my request is for the slides before any such changes were made.

(1B) Should the search for information requested at (1A) be colocated with updated versions of the presentation, I also request the updated versions, again in native file format. However, I do not wish to increase the search burden; hence, again, (1B) is only for any updated versions found in the same search location as the specific file requested under (1A).

(2) Please identify the name and title of the primary MOPAC representative who fielded questions in conjunction with BoCo Wingrove.
