Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-				F						P	
Announcer Position	3	1	3	-	-	-	-	-				F						P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.				F						P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	20	1	20	25	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Telecommunication & Audio Visual																				
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F							P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F							P	
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage. Rhythmic as a single venue, the requirement is reduced to 20m²	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F							P	
Audio Control Positions	-	-	-	-	-	-	-	-				F						G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.												
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.												
Technical Operations	2	1	2	4	PA systems required for Technical Operations area. Space required for amplifier/microphone.	Location as required by SPT.	Standard/mains power & FF&E.													
Umpire/Jury/Judges	2	1	2	4	PA systems required for Technical Operations area. Space required for amplifier/microphone.	Location as required by SPT.														
Warm-Up Area	0	0	0	-	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-												
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-												
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-												
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F						G	P	
Wired Communications Control	4	1	4	8	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F						G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F						P	

GYMNASTICS Rhythmic

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play - Technical Table	3	1	3	6	Area/position for collation of results scoring from all Aggregates, Back- Up C & Event Management operational equipment & personnel.	Technical Table on FOP with sport results & sport officials view to all Aggregates.	Cable access to OVR, Main Judges Table & Jury of Appeal.	May occur as a position on the FOP, or in a room with a view to the FOP.											
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Field of Play - Main Judges Table	40	6	240	280	Position/table at each Aggregate for collation of Judges scoring.	1 x Judge Table at each Aggregate.	Applicable for Artistic and Trampoline only. Cable access to Technical Table & Judges Scoring Positions.	-											
Judges Positions 1-6	36	6	216	250	Position at FOP for Judges scoring & equipment.	6 x Judge scoring position at each Aggregate	Applicable for Artistic and Trampoline only. Cable access to Judge Table.	-											
Field of Play - Main Judge - Jury 1 & 2	4	1	4	8	-	-	Applicable for Rhythmic only.	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.	I	F								P	
OVR Provider Work Area	30	1	30	38	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	Rhythmic as a single venue, the requirement is reduced to 25m²	-											
IT Provider Work Area	20	1	20	25	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	F							G	P	
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	150	1	150	180	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	Rythmic as a single venue, the requirement is reduced to 80m ²	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F						G	P
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F						G	P
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-		I		F						G	P
Reprographic Bulk Storage Area	15	1	15	18	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	Rythmic as a single venue, the requirement is increase to 20m ² . High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F						G	P
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-		I		F						G	P
Timing & Scoring Bulk Store	60	1	60	75	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	Rythmic as a single venue, the requirement is reduced to 50m ² . High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.		I		F						G	P
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F						G	P
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.		I		F						P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-											

GYMNASTICS Rhythmic

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-												
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-												
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-												
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-												
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-												
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-												
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-												
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.		I		F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.												
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.		I		F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.												
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.		I		F						G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-												
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.		I		F						G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	50	1	50	125	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	20	1	20	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	20	1	20	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.										P	
Driver Staging	110	1	110	200	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.										P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	30	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-										P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P

Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.	I			F						G	IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.	I			F						P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F			I			P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F			I			P	
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J						P	
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F			I			P	
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F			I			P

Venue Development																			
Site Management Compound	693	1	693	900	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P	
Site Management Area	75	1	75	-	-	-	Enclosed space.	-											
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	30	1	30	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	15	1	15	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	60	1	60	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	115	1	115	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	90	1	90	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	70	1	70	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	70	1	70	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	150	1	150	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F						P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F						P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F						P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-

Venue Management																			
Venue Operations Centre (VOC)	75	1	75	115	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.					F					P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-											
Assigned Desks	24	1	24	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	15	1	15	-	Shared work stations.	-	-	-											
Work Space and Storage	24	1	24	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	50	1	50	60	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	30	1	30	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	200	1	200	240	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	180	1	180	220	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	115	1	115	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	500	1	500	600	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P	
END OF DOCUMENT																			

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation				
Accreditation																							
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																			
Work Area	15	1	15	-																			
Manager Desk or Office & Storage	12	1	12	-																			
Waiting Area	8	1	8	-																			
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F					P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Broadcast																							
Broadcast Compound	-	1	-	3000	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.															
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.															
Broadcast Manager Office	12	1	12	-		-	-	-	-														
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-														
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-															
Kitchen and Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Buffet Line and Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements. Located in temporary structure. Assumes container/trailer unit or tent.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	-															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters. Located in temporary structure. Assumes container/trailer unit or tent.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	-															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.															
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Commentator Control Room (CCR)	60	1	60	75	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.															
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.															
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-															
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J												
Mixed Zone	25 linear mtrs.	1	25 linear mtrs.	170	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J												
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.															

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J			J	I			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J			J	J		R	IOC
Camera Position - Other	4	30	120	270	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J			J	I		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-					J	I	J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.					J	I	J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.					J	I	J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I	J	I			R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F						P

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I		F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J				J	G	R	IOC	
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.											P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P

Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F					P		
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Quantity dependent upon venue capacity.												
Language Services																				
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J			I				G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.

Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.					F					P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	-	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition sch	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	1	2.2 x 6	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J					J		R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J					J		R	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.		I	F		I	I				P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.		I	F		I	I				P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.					F	I				P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-					F	I				P

Merchandise																							
Office, Cash Room & Work Area	12	1	12	15		-	Enclosed space with lockable entry.	Assumes container unit or existing space.							F						P		
Storage	15	2	30	35	An area to manage the retailing of all Olympic merchandise inside the venue.	-	-	Assumes storage containers or existing space. Units provided by vendor. Quantity and location decided by vendor and OCOG.						F							P		
Program Sales Stands/Booths	1	1	1	2		-	Area only.	Gross area is per each P.O.S. and includes service area and queue.						F							P		
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.					I		F							P		
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.					I	J	J						G	R	IOC	
Olympic Family Services																							
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I						F					I	G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-																
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.																
Staff/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol staff and equipment storage.	-	-																
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-																
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)																
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided							F							P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.						J	J								R	IOC
Press Operations																							
Venue Media Centre (VMC)	350	1	350	550	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 150 press and 30 photographers.	Assumes tent.							F						R	IOC	
Reception & Information Desk	18	1	18	-	Welcome desk at the entrance, for information distribution.	-	-																
Storage	4	1	4	-	Equipment storage.	-	-																
Press Manager Office	12	1	12	-	Operational work space.	-	-																
Photo Manager Office	12	1	12	-	Operational work space.	-	-																
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.																
Info Stations	20	1	20	-	Computer stations and printers.	-	-																
Press Work Room or Area	150	1	150	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.															
Photo Work Room or Area	35	1	35	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.																
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-																
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.															
Lounge/Catering Prep	50	1	50	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-																
Toilets	1.5	6	9	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided

Press Conference Room	90	1	90	200	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC	
Seating Area	50	1	50	-	An area for accredited press.	-	Seats and standing room.	-												
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-												
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-												
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-												
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F			I	I				
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF	
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-												
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	In an existing stadium or seating area: 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. Temporary Stands: 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F						R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F						R	IOC,IF	
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided												
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-												
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	Total peak number of Photographers: 80-100. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						R	IOC, IF	
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	-	Seating areas are generally not applicable for outdoor venues.	I		I	F						G	IOC	
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.											P	
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.												F
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												P
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.												
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.												P
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.												P
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.												F, G, P
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-	I			F								P
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-	I			F								P

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Vehicle Permit Check Point and Queue	Varies	Varies	Varies	-	A control area where vehicles entering this exterior perimeter point will be required to display the proper Olympic vehicle permit for access to the venue.	Located outside the venue secure perimeter; normally on access roads to the venue.	Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.										R	IOC
Venue Perimeter Entrances & Security Screening/Search (Pedestrian)	-	-	-	-	Locations where constituent groups will enter through the secure perimeter of the competition venue and access various parts of the venue with an accreditation or a ticket.	Located at the venue secure perimeter.	Enclosed space for screening/search area positions.. Net area for each screening position will accommodate the following: 4 Wanding Stations, OR 1 Magnetometer with 2 Search Tables & 2 Wanding Stations, OR - 1 X-ray Device, 1 Magnetometer & 2 Search Tables.	Assumes tent with 2 retractable side walls. Gross area includes queue. Dependent upon spectator capacity and venue design.											
Athlete / Team	18	1-2	18-36	36-72	-	BOH.	-	-				F						R	IOC
Technical Officials, Judges & Referees	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with Athlete and/or Olympic Family.				F						G	IOC
Olympic Family (IOC, NOC, IF)	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with TO, ENG and/or Press.				F						P	
Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.											
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-											
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.				F	I						
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				J	J					P	
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wanding station).	-	I			F							P
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.				F		I					P
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.				F							P
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				F	I						P
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.											
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1m to 3m width, sometimes used as a secondary service vehicle exit point.	-											
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-											
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.				I	F				G	P	
Sponsor Services																			
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I	F						P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Sport Operations																			
Competition Management	60	1	60	90	A work area for Sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located close to Athlete Area and field of play; may be co-located within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space.	I				F					P	
Competition Manager & Asst. Manager Desks	12	1	12	-	An area for the Manager and Assistant(s) Manager.	-	-	-											
Assigned Work Area	20	1	20	-	Open plan of work stations designated for Sport personnel.	-	-	-											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Area	18	1	18	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-											
Sport Information	20	1	20	30	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located in Athlete Area.	Enclosed space with waiting area and seating.	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J			J						R	IF
Athlete Lounge	200	1	200	250	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	-	Includes: seating area, lounge, Info & Help Desk, info terminal stations.	J			J						R	IF
Athlete Dressing, Locker, Shower, Toilet	45	4	180	300	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area.	Enclosed air-conditioned space. Number of athletes accommodated by size standard is sport specific.	Assumes container units or existing space.	J			J						R	IF
IF & Sport Meeting Room	30	1	30	45	Meeting facility at the venue for the International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Shared meeting room area between IF & Sport to serve various meeting needs.	J			J						G	IF
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	1 competition hall for preliminary rounds and 1 competition hall for quarter finals and finals will be required to hold the Olympic competition.	Reference should be made to IHF guidelines for all FOP technical requirements.											
Playing Surface Dimensions or Area	800	1	800	1200	-	-	40 x 20 = 800 800 + 20 x 20 = 1200 total area	-	F			I						R	IF
Vertical Height Requirement	7m	-	7m	-	-	-	A minimum height of 7 metres is necessary.	-	F			I	I					R	IF
Surface	-	-	-	-	-	-	PVC or wooden; see IHF Technical Requirements.	-	J			J	I					R	IF
Camera Positions - IF /Team	3.5	2	7	-	-	In close proximity to Broadcast and athlete seating area.	-	-	I			F						R	IF
Sports Lighting - Technical	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	15	1	15	18	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

HANBALL Preliminary

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Telecommunication & Audio Visual																				
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F							P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F							P	
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F							P	
Audio Control Positions	-	-	-	-	-	-	-	-				F						G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.												
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.												
Warm-Up Area	2	1	2	4	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-												
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-												
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-												
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F						G	P	
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F						G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F						P	

HANBALL Preliminary

F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play - Statistics Tables	2	2	4	8	Areas/positions for statistics calling & data entry into OVR system.	Positions located at either end of FOP with sport statisticians.	Cable pathway to Technical Table.	May occur as a position on the FOP, or in a room with a view to the FOP.											
Field of Play - Technical Table	3	1	3	6	Area/position for results data entry.	Position located at Technical Table on FOP with sport results & sport officials.	Cable pathway to Statistics Tables, Official Table & OVR Room.	Generally occurs Back of House, in Sport location.											
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards, ball speed guns & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Field of Play - Official Table	2	1	2	4	-	Position located on FOP with sport officials.	Cable pathway to Technical Table & sport specific scoreboards.	-											
Control Room	1.5/pp	1	1.5/pp	3/pp	-	-	-	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.		I	F							P	
OVR Provider Work Area	30	1	30	38	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-											
IT Provider Work Area	20	1	20	25	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.		I	F						G	P	
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	60	1	60	75	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	15	1	15	18	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	30	1	30	38	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F						G	P	
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-

F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-												
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-												
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-												
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-												
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-												
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-												
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-												
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.												
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.												
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-												
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F						G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.										P	
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.										P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-										P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F						G	IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.			I	F						G	IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F						P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F						P	
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J						P	
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F						P	
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F						P

Venue Development																				
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P		
Site Management Area	60	1	60	-	-	-	Enclosed space.	-												
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-												
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-												
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-												
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-												
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.												
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.												
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.												
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.												
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-												
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.												
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.												
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F							P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F							P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F							P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.												
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-

Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P	
END OF DOCUMENT																			

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation					
Accreditation																								
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																				
Work Area	15	1	15	-																				
Manager Desk or Office & Storage	12	1	12	-																				
Waiting Area	8	1	8	-																				
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F						P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Broadcast																								
Broadcast Compound	-	1	-	3000	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.																
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.																
Broadcast Manager Office	12	1	12	-		-	-	-	-															
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-															
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-																
Kitchen and Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Buffet Line and Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements. Located in temporary structure. Assumes container/trailer unit or tent.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	-																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters. Located in temporary structure. Assumes container/trailer unit or tent.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	-																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.																
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Commentator Control Room (CCR)	60	1	60	75	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.																
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.																
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-																
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J													
Mixed Zone	25 linear mtrs.	1	25 linear mtrs.	170	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J													
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.																

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J			J	I			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J			J	J		R	IOC
Camera Position - Other	4	30	120	270	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J			J	I		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-					J	I	J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.					J	I	J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.					J	I	J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I	J	I			R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I		F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J				J	G	R	IOC	
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.					F						P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-	Area in front of waste and recycle bins where material is separated for containment.	-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies	20	A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I		F						P		
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Quantity dependent upon venue capacity.												
Language Services																				
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J			I				G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.					F						P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.												

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.					F					P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	-	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition sch	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	1	2.2 x 6	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J					J		R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J					J		R	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.		I	F		I	I				P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.		I	F		I	I				P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.					F	I				P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-					F	I				P

Merchandise																							
Office, Cash Room & Work Area	12	1	12	15		-	Enclosed space with lockable entry.	Assumes container unit or existing space.													P		
Storage	15	2	30	35	An area to manage the retailing of all Olympic merchandise inside the venue.	-	-	Assumes storage containers or existing space. Units provided by vendor. Quantity and location decided by vendor and OCOG.						F							P		
Program Sales Stands/Booths	1	1	1	2		-	Area only.	Gross area is per each P.O.S. and includes service area and queue.						F							P		
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.					I		F							P		
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.						I	J	J					G	R	IOC	
Olympic Family Services																							
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I											I	G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-																
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.																
Staff/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol staff and equipment storage.	-	-																
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-																
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)																
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided							F							P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.						J	J								R	IOC
Press Operations																							
Venue Media Centre (VMC)	600	1	600	800	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 150 press and 30 photographers.	Assumes tent.							F						R	IOC	
Reception & Information Desk	24	1	24	-	Welcome desk at the entrance, for information distribution.	-	-																
Storage	6	1	6	-	Equipment storage.	-	-																
Press Manager Office	12	1	12	-	Operational work space.	-	-																
Photo Manager Office	12	1	12	-	Operational work space.	-	-																
Olympic News Service (ONS) Work Room or Area	35	1	35	-	Operational work space.	-	Enclosed space.																
Info Stations	28	1	28	-	Computer stations and printers.	-	-																
Press Work Room or Area	240	1	240	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.															
Photo Work Room or Area	50	1	50	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.																
Photographers Check-in & Photo Bib Distribution	12	1	12	-	Area where photographers register and receive/return photo bibs.	-	-																
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.															
Lounge/Catering Prep	100	1	100	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-																
Toilets	1.5	8	12	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided															

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Press Conference Room	150	1	150	280	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC	
Seating Area	100	1	100	-	An area for accredited press.	-	Seats and standing room.	-												
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-												
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-												
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-												
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F			I	I				
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF	
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-												
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F					R	IOC,IF		
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F						R	IOC,IF	
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided												
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-												
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	Total peak number of Photographers: 80-100. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						R	IOC, IF	
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	-	Seating areas are generally not applicable for outdoor venues.	I		I	F						G	IOC	
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.											P	
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.							F					
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												P
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.					J	J						
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.					J	J						P
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.							I	F				P
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.									F		G	P
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-	I		F									P
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-	I		F									P
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.	I	I	F									P

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Vehicle Permit Check Point and Queue	Varies	Varies	Varies	-	A control area where vehicles entering this exterior perimeter point will be required to display the proper Olympic vehicle permit for access to the venue.	Located outside the venue secure perimeter; normally on access roads to the venue.	Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.										R	IOC
Venue Perimeter Entrances & Security Screening/Search (Pedestrian)	-	-	-	-	Locations where constituent groups will enter through the secure perimeter of the competition venue and access various parts of the venue with an accreditation or a ticket.	Located at the venue secure perimeter.	Enclosed space for screening/search area positions.. Net area for each screening position will accommodate the following: 4 Wanding Stations, OR 1 Magnetometer with 2 Search Tables & 2 Wanding Stations, OR - 1 X-ray Device, 1 Magnetometer & 2 Search Tables.	Assumes tent with 2 retractable side walls. Gross area includes queue. Dependent upon spectator capacity and venue design.											
Athlete / Team	18	1-2	18-36	36-72	-	BOH.	-	-				F						R	IOC
Technical Officials, Judges & Referees	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with Athlete and/or Olympic Family.				F						G	IOC
Olympic Family (IOC, NOC, IF)	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with TO, ENG and/or Press.				F						P	
Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.											
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-											
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.				F	I						
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				J	J					P	
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wanding station).	-	I			F						P	
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.				F		I				P	
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.				F						P	
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				F	I					P	
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.											
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1m to 3m width, sometimes used as a secondary service vehicle exit point.	-											
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-											
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.				I	F				G	P	
Sponsor Services																			
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I	F					P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Sport Operations																			
Competition Management	60	1	60	90	A work area for Sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located close to Athlete Area and field of play; may be co-located within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space.	I				F					P	
Competition Manager & Asst. Manager Desks	12	1	12	-	An area for the Manager and Assistant(s) Manager.	-	-	-											
Assigned Work Area	20	1	20	-	Open plan of work stations designated for Sport personnel.	-	-	-											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Area	18	1	18	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-											
Sport Information	20	1	20	30	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located in Athlete Area.	Enclosed space with waiting area and seating.	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J			J					J	R	IF
Athlete Lounge	200	1	200	250	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	-	Includes: seating area, lounge, Info & Help Desk, info terminal stations.	J			J					J	R	IF
Athlete Dressing, Locker, Shower, Toilet	45	4	180	300	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area.	Enclosed air-conditioned space. Number of athletes accommodated by size standard is sport specific.	Assumes container units or existing space.	J			J					J	R	IF
IF & Sport Meeting Room	30	1	30	45	Meeting facility at the venue for the International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Shared meeting room area between IF & Sport to serve various meeting needs.	J			J						G	IF
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	1 competition hall for preliminary rounds and 1 competition hall for quarter finals and finals will be required to hold the Olympic competition.	Reference should be made to IHF guidelines for all FOP technical requirements.											
Playing Surface Dimensions or Area	800	1	800	1200	-	-	40 x 20 = 800 800 + 20 x 20 = 1200 total area	-	F			I		I				R	IF

Lounge - International Technical Officials	80	1	80	85	A rest area for officials.	-	Enclosed space.	Assumes container units or existing space.	J		J							G	IF
Officials Locker Room, Shower, Toilet	25	2	50	100	A change area for officials.	-	Enclosed space.	-	I		F							R	IF
Technical Delegates Office & Work Area	15	1	15	20	Office area for Technical Delegates.	-	Enclosed space. 2 Technical Delegates.	-	I	I	F				I			R	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-	-	I	J	J				J			R	IOC,IF
Sport Presentation																			
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.											
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-			F								P
Announcer Position	3	1	3	-	-	-	-	-			F								P
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.					F						P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	15	1	15	18	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Telecommunication & Audio Visual																				
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F							P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F							P	
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F							P	
Audio Control Positions																				
	-	-	-	-	-	-	-	-				F						G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.												
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.												
Warm-Up Area	2	1	2	4	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-												
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-												
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-												
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F						G	P	
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F						G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play - Statistics Tables	2	2	4	8	Areas/positions for statistics calling & data entry into OVR system.	Positions located at either end of FOP with sport statisticians.	Cable pathway to Technical Table.	May occur as a position on the FOP, or in a room with a view to the FOP.											
Field of Play - Technical Table	3	1	3	6	Area/position for results data entry.	Position located at Technical Table on FOP with sport results & sport officials.	Cable pathway to Statistics Tables, Official Table & OVR Room.	Generally occurs Back of House, in Sport location.											
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards, ball speed guns & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Field of Play - Official Table	2	1	2	4	-	Position located on FOP with sport officials.	Cable pathway to Technical Table & sport specific scoreboards.	-											
Control Room	1.5/pp	1	1.5/pp	3/pp	-	-	-	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.	I	F								P	
OVR Provider Work Area	30	1	30	38	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-											
IT Provider Work Area	20	1	20	25	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	F							G	P	
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											
Results Printing (PRD)	60	1	60	75	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F		G	P		

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-		I		F					G	P	
Reprographic Bulk Storage Area	15	1	15	18	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-		I		F					G	P	
Timing & Scoring Bulk Store	30	1	30	38	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.			I		F				G	P	
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.		I		F						P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-											

HANBALL Finals

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-												
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-												
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-												
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-												
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-												
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-												
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-												
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.												
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.												
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-												
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F						G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-					F						
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.					F					P	
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.					F					P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-					F					P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F		I				G	IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.	I		F							G	IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.	I		F							P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F		I				P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F		I				P	
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-		J	J							P	
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F		I				P	
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F		I				P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Development																			
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P	
Site Management Area	60	1	60	-	-	-	Enclosed space.	-											
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F						P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F						P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F						P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P

Accreditation																								
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																				
Work Area	15	1	15	-																				
Manager Desk or Office & Storage	12	1	12	-																				
Waiting Area	8	1	8	-																				
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Broadcast																								
Broadcast Compound	-	1	-	2500	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.																
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.																
Broadcast Manager Office	12	1	12	-		-	-	-	-															
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-															
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-																
Kitchen and Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Buffet Line and Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.																
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Commentator Control Room (CCR)	45	1	45	55	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.																
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.																
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-																
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J													
Mixed Zone	15	1	15	120	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J													
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.

Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J			J	I			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J			J	J		R	IOC
Camera Position - Other	4	20	80	180	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J			J	I		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-					J	I	J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.					J	I	J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.					J	I	J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I	J	I			R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F						P

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I		F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J					J	G	R	IOC
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.											P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Finance																				
Work Space / Desk	20	1	20	25	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F					P		
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Quantity dependent upon venue capacity.												
Language Services																				
Work Area / Desk	-	-	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J			I				G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.					F						P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.

Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.					F					P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	-	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition sch	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	1	2.2 x 6	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J					J		R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J					J		R	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.		I	F		I	I				P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.		I	F		I	I				P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.					F	I				P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-					F	I				P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	I	J	F	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation		
Merchandise																							
Office, Cash Room & Work Area	12	1	12	15		-	Enclosed space with secure entry.	Assumes container unit or existing space.													P		
Storage	15	2	30	35	An area to manage the retailing of all Olympic merchandise inside the venue.	-	-	Assumes storage containers or existing space. Units provided by vendor. Quantity and location decided by vendor and OCOG.						F							P		
Program Sales Stands/Booths	1	1	1	2		-	Area only.							F							P		
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.				I		F							P		
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.						I	J	J					G	R	IOC	
Olympic Family Services																							
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests. Area to greet Olympic Family and respond to transport requests.	-	Enclosed space.	Assumes tent.	I											I	G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-		-	-																
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.																
Staff/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol staff and equipment storage.	-	-																
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-																
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)																
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided							F							P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.							J	J							R	IOC
Press Operations																							
Venue Media Centre (VMC)	400	1	400	600	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 100 press and 25 photographers.	Assumes tent.							F						R	IOC	
Reception & Information Desk	18	1	18	-	Welcome desk at the entrance, for information distribution.	-	-																
Storage	4	1	4	-	Equipment storage.	-	-																
Press Manager Office	12	1	12	-	Operational work space.	-	-																
Photo Manager Office	12	1	12	-	Operational work space.	-	-																
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.																
Info Stations	20	1	20	-	Computer stations and printers.	-	-																
Press Work Room or Area	170	1	170	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.															
Photo Work Room or Area	35	1	35	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.																
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-																
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.															
Lounge/Catering Prep	70	1	70	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-																
Toilets	1.5	6	9	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided

Press Conference Room	150	1	150	280	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC
Seating Area	100	1	100	-	An area for accredited press.	-	Seats and standing room.	-											
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-											
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-											
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-											
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F			I	I			
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-											
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F					R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F						R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided											
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-											
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	Total peak number of Photographers: 80. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row. See Venue Seating for quantities by sport.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I		I	F						G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																			
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.											
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-											
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-											
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-											
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.											
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-											
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-											
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-											
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.											
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-											
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.											
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.											
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.											
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-											
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-											
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.											
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-											
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.											
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-											
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.											
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-											
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-											
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-											
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	Reference should be made to FIH Facilities and Technical Requirements for the Organisers of Olympic Games.	-		F		I		I	I			R	IF
Playing Surface Dimensions or Area	91.4 x 55	Varies	5027	101.4 x 63 = 6388.2	-	-	FOP and total FOP Requirements. A ball retaining fence or barrier surrounding the overrun area of each field of play and erected to an extra height behind the goal shooting areas for protection of spectators.	The requirement for 1 or 2 competition pitches will vary according to host city climate conditions during the period of the Games. Where it is possible to schedule all matches for men and women on 1 competition pitch (e.g. Sydney), pitch 2 can be used for all warm-ups. Watering facilities capable of equally hydrating the full FOP with overruns within 8 minutes. Seating is close as possible to FOP; no athletic track between pitch and seating area.	F		I		I	I			R	IF	
Surface	-	-	-	-	-	-	A non-sand filled synthetic surface (i.e. water-based installation), without advertising; approved by the F.I.H. and having a Certificate of Compliance issued by F.I.H. (see Technical Specifications of the Sites - Inspection). The surface of the synthetic FOP is to continue with the same qualities of materials, slope and smoothness for a minimum distance of 3 metres before any change in that surface occurs and for a further minimum distance of 2 metres at horizontal surface at each end and 1 metre at each side before any obstruction is encountered (except possibly at the Technical Official's table).	Durable white markings, flush with the surface and clearly visible, inlaid into the carpet. (see Technical Specifications of the Sites - Inspection).	J		J	I		J				R	IF
Orientation	-	-	-	-	-	-	The FOP shall be constructed with the long axis in a North-South direction, subject to tolerances that can actually increase with latitude. However, the maximum tolerance to be allowed is for the long axis to be within an angle of + or - 15E (East or West) of north.	-	J		J	I		I	J			R	IF
Camera Positions - IF /Team	45	2	90	-	Area for cameras used by IF and Team	Area located at the top of spectator stand behind one or both goals.	Specific covered platform for video operators of participating teams, with full viewing capability. Platform should be 15 metres in length x 3 metres deep.	Power is to be available for video and computer equipment. Preferably two tables and chairs to be available for use of video analysts of the participating teams of match in progress.	I		F							G	IF
Sports Lighting - Technical	-	-	-	-	-	-	See Broadcast for lighting specifications.	-											
Warm-Up Area(s)	-	-	-	-	Area where athletes prepare prior to competition.	-	Where it is possible to schedule all matches for men and women on 1 competition pitch (e.g. Sydney), pitch 2 can be used for all warm-ups. However, if both competition pitches are used for competition the format of the match schedule will provide sufficient time between competition matches for appropriate warm-up/cool down on each pitch. .	-											
Warm-up Surface Dimensions or Area	91.4 x 55	1	5027	-	-	Adjacent or in close proximity to Field of Play.	See FOP requirements.	-	J		J		I	J				R	IF
Surface	-	-	-	-	-	-	See FOP surface.	-	J		J	I		J				R	IF
Orientation	-	-	-	-	-	-	See FOP orientation.	-	I		F	I						R	IF
Athlete / Team Seating	-	-	-	-	A designated seating area for athletes.	-	-	-	J		I	J		J					
Same Sport	-	Varies	-	-	-	-	-	-	J		I	J		I				R	IOC,IF

Toilets - Athlete Area	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-	-	May be required for Sport Staff use. Quantity varies according to athlete numbers.			F							P	
Toilets - Near FOP	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-	Required if FOP is not located near Athlete Area.	Assumes temporary units. Quantity varies according to athlete numbers.			F							P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
International Federation																			
IF Area	70	1	70	80	Responsible for administering the respective sport competition, including: enforcement of the rules/regulations, operation and technical control of the overall competition.	Located in close proximity to accredited seating areas.	Enclosed air-conditioned space.	Assumes container units or existing space.	I	I	F							R	IF
IF President's Office	15	1	15	-	-	-	Enclosed space.	-	I	I	F							R	IF
IF Secretary - General/Executive Director's Office	15	1	15	-	-	-	Enclosed space. Two (2) areas each for the Secretary-General and Executive Director.	-	I		F							G	IF
Reception, Secretariat, Waiting & Work Area	40	1	40	-	-	-	Enclosed space.	-	I		F							G	IF
IF Media Office	12	1	12	15	Area for FIH Media personnel.	Located inside IF Centre and/or area.	Enclosed space.		I		F							G	IF
Umpires Manager Offices	20	1	20	30	Debriefing and video analysis after match for umpires.	Located in close proximity to Pitch 1.	Office area for umpire managers and assistant umpire managers.		I		F							G	IF
Officials Locker Room, Shower, Toilet	25	2	50	100	A change area for officials.	In close proximity to FOP.	Enclosed space. Male and female facilities required.	When there is requirement for 2 pitches, 2 change-rooms will be required (separate from team facilities).	I		F							R	IF
Technical Delegates Office & Work Area	15	1	15	20	Office area for Technical Delegates.	Overlooking FOP.	Enclosed space. 2 Technical Delegates.		I	I	F							R	IF
Appeals Room	40	1	40	50	This space is utilised for the resolution of protests and appeals after competition.	-	Enclosed space.		I	I	F							R	IF
Technical Officials Table	3 x 4	2	24	-	A area for an officials table.	Located on FOP sideline at the centre line (position to avoid sun rays and not hindering the spectator sight line).	1 Technical Officials Table per pitch. Covered area with platform with open sides for easy access to FOP area. Platform shall be 25cm in height above FOP. Front of table shall be 4 metres distance from FOP sideline. Seating for 4 officials at a table.	Quantity of TO tables may vary according to final FOP requirements (1 or 2 competition pitches). Refer to FIH Facility and Technical Requirements.	I		F							G	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-		I	J	J							R	IOC,IF
Sport Presentation																			
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.											
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.				F							P	
Announcer Position	3	1	3	-	-	-	-				F							P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.				F						P	
Technology Operations																			
Technology Help Desk	15	1	15	18	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.				F							P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.				F							G	P
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Radio Distribution Room (RDR) Information Technology	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).		I		F						P	
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.		I		F					G	P	
Data Local Area Network (LAN) Management Room & Store Telecommunication & Audio Visual	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F						P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F						P	
Telecomm. Operations & Store Audio Control Positions	20	1	20	25	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F						P	
	-	-	-	-	-	-	-	-				F					G	P	
Venue - Main Pitch	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.											
Venue - Pitch 2 (when applicable)	4	1	4	8	-	-	-	-											
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	-											
Warm-Up Area	2	1	2	4	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-											
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-											
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-											
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F					G	P	
Wired Communications Control	-	-	-	-	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F					G	P	
Venue - Main Pitch	2	1	2	4	-	-	-	-											
Venue - Pitch 2 (when applicable)	2	1	2	4	-	-	-	-											
Temporary PA equipment Room	-	-	-	-	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.				F						P	
Venue - Main Pitch	2	1	2	4	-	-	-	-											
Venue - Pitch 2 (when applicable)	2	1	2	4	-	-	-	-											

HOCKEY

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Technical Table - Main Pitch	3	1	3	6	Area/position for results data entry.	Position located at Technical Table on FOP, or with view to FOP with sport results & sport officials.	Cable pathway to Technical Table.	May occur as a position on the FOP, or in a room with a view to the FOP.											
Technical Table -Pitch 2 (when applicable)	3	1	3	6	-	-	Cable pathway to Statistics Tables, Official Table & OVR Room.	Generally occurs Back of House, in Sport location.											
Statistics Table - Main Pitch	2	1	2	4	Areas/positions for statistics calling & data entry into OVR system.	Positions located at either end of FOP with sport statisticians.	-	-											
Statistics Table - Pitch 2 (when applicable)	2	1	2	4	-	-	Cable pathway to Technical Table.	-											
Timing and Scoring Position	-	-	-	-	Location for event timing/scoring control operations.	Position located on FOP with sport officials.	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Official Table - Main Pitch	2	1	2	4	-	-	-	-											
Official Table - Pitch 2 (when applicable)	2	1	2	4	-	-	-	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff. 1 x OVR room servicing both Pitch 1 & 2. Located in Main Venue.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations for both Pitch 1 & 2, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.										P	
OVR Provider Work Area	18	1	18	23	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-											
IT Provider Work Area	18	1	18	23	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I			F						G	P
Scoreboard Control - Main Pitch	2	1	2	4	Adjacent/co-located with Scoreboard Interface.	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	-	-											
Scoreboard Control - Pitch 2 (when applicable)	2	1	2	4	-	-	-	-											
Scoreboard Interface - Main Pitch	2	1	2	4	Adjacent/co-located with Scoreboard Control.	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	-	-											
Scoreboard Interface - Pitch 2 (when applicable)	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	80	1	80	100	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery. 1 x PRD Servicing HO Venue.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Rooms or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation for both Main & secondary venues.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	20	1	20	25	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	30	1	30	38	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F						G	P	
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-

PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-											
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-											
Power	-	-	-	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, and re-fueling.	Size of Generators will vary depending on volume of critical power that requires "back-up".											
Backbone	-	-	-	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-											
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.											P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.											
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.											P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.											
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.											G P
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-											
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.											G P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.										P	
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.										P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-										P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F						G	IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.			I	F						G	IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F						P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F						P	
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J						P	
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F						P	
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F						P

Venue Development																			
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P	
Site Management Area	60	1	60	-	-	-	Enclosed space.	-											
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F						P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F						P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F						P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-

Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P

Accreditation																								
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										P	-					
Day Pass Issue & Problem Resolution Desk	15	1	15	-																				
Work Area	15	1	15	-																				
Manager Desk or Office & Storage	12	1	12	-																				
Waiting Area	8	1	8	-																				
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.										P	-					
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Broadcast																								
Broadcast Compound	-	1	-	3500	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.																
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.																
Broadcast Manager Office	12	1	12	-		-	-	-																
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-																
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-																
Kitchen and Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Buffet Line and Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements. Located in temporary structure. Assumes container/trailer unit or tent.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.																	
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.																	
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters. Located in temporary structure. Assumes container/trailer unit or tent.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.																	
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.																	
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.																
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Commentator Control Room (CCR)	55	1	55	65	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.																
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.	J	I	J								R	IOC				
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-											G	IOC				
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.											R	IOC				
Mixed Zone	20	1	20	120	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.																
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.											R	IOC

Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J						R	IOC
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-	I	I	J				J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.				J	I		J			G	IOC
Camera Position - Other	4	30	120	270	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions may vary according to actual venue/permanent seating setup.				J	I		J			G	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-				J	I		J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.				J	I		J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.				J	I		J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I		J	I		R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-	I		F							P

Ceremonies																						
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-													P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.													P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-														
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.														
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.														
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-														
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-													P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-													P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I	J	J							J	G	R	IOC	
Cleaning and Waste																						
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.							F						P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-														
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-														
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).														
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.														
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.														
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-														
Doping Control																						
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J	J	J										R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-														
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).														
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).														
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).														
Office / Storage	12	1	12	15	Wash basin for hand sanitisation. Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-														
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I	J	J										R	IOC

Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.										P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.										P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.										P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.										P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.										P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.										P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.										P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators										P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.										P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-										P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.										P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.										P

Finance																				
Work Space / Desk	20	1	20	25	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I		F						P		
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Quantity dependent upon venue capacity.												
Language Services																				
Work Area / Desk	28	1	28	35	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J		I					G	IOC	
Simultaneous Interpretation Booth	2	3	6	18	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J		I					G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.					F							
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.					F					P		
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.

Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-												
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	In an existing stadium or seating area: 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. Temporary Stands: 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F					I	R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F						I	R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided												
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-												
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	Close to competition area. Location to be determine between IF and OCOG.	60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row. See Venue Seating for quantities by sport.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						I	R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	May vary according to lay out.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I		I	F						I	G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.												
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.												
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.												
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.												
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.												
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.												
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-												
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.

Vehicle Permit Check Point and Queue	Varies	Varies	Varies	-	A control area where vehicles entering this exterior perimeter point will be required to display the proper Olympic vehicle permit for access to the venue.	Located outside the venue secure perimeter; normally on access roads to the venue.	Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.										R	IOC
Venue Perimeter Entrances & Security Screening/Search (Pedestrian)	-	-	-	-	Locations where constituent groups will enter through the secure perimeter of the competition venue and access various parts of the venue with an accreditation or a ticket.	Located at the venue secure perimeter.	Enclosed space for screening/search area positions.. Net area for each screening position will accommodate the following: 4 Wanding Stations, OR 1 Magnetometer with 2 Search Tables & 2 Wanding Stations, OR - 1 X-ray Device, 1 Magnetometer & 2 Search Tables.	Assumes tent with 2 retractable side walls. Gross area includes queue. Dependent upon spectator capacity and venue design.											
Athlete / Team	18	1-2	18-36	36-72	-	BOH.	-	-				F						R	IOC
Technical Officials, Judges & Referees	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with Athlete and/or Olympic Family.				F						G	IOC
Olympic Family (IOC, NOC, IF)	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with TO, ENG and/or Press.				F						P	
Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.											
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-											
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.				F	I						
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				J	J					P	
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wanding station).	-	I			F						P	
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.				F		I				P	
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.				F						P	
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				F	I					P	
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.											
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1m to 3m width, sometimes used as a secondary service vehicle exit point.	-											
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-											
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.				I	F				G	P	
Sponsor Services																			
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I	F					P

Technology Operations																			
Technology Help Desk	16	1	16	20	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to Venue Operations Centre (VOC) & Technology Help Desk.	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	16	1	16	20	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P

Telecommunication & Audio Visual																			
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to or within Venue Technology Operations.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-		I		F						P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to or within Venue Operations Centre (VOC).	As TER.	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F						P	
Telecommunications Operations & Store Audio Control Positions	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F						P	
	-	-	-	-	-	-	-	-				F					G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.											
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.											
Warm-Up Area	2	1	2	4	Athlete Call Up PA system required for facilitate call to mat/tatami. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	PA system may also be used for Competition Draw if draw is held in Warm-up area.											
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	General for all venues. Exact location for equipment and scope of system is venue specific.											
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-											
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F					G	P	
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F					G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment. Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play - Tatami 1, 2	2	2	4	8	Areas/positions for results data entry at each Tatami.	Position located at each Tatami on FOP with timing, scoring & sport mat officials.	Cable access to OVR, Main Judges Table & Jury of Appeal.	May occur as a position on the FOP, or in a room with a view to the FOP.											
Field of Play - Official Table	3	1	3	6	Area/position for results data entry and event management.	Position located at Officials Table on FOP.	-	-											
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Field of Play - Tatami 1, 2	2	2	4	8	-	Position located at each Tatami on FOP with data entry & sport Tatami officials.	-	-											
Control Room	0	0	-	-	-	-	-	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with concurrently will require more space for additional OVR equipment.				F						P	
OVR Provider Work Area	20	1	20	25	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	Space required in OVR to support RTDS equipment.	-											
IT Provider Work Area	18	1	18	23	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I			F					G	P	
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											
Results Printing (PRD)	60	1	60	75	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	6	2	12	15	Locations where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics for each FOP/Tatami of JU.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F		G	P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	20	1	20	25	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	30	1	30	38	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.				F					G	P	
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-

CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-											
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-											
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-											
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-											
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-											
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-											
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-											
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I		F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.											
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I		F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.											
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I		F						G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-											
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I		F						G	P

Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.										P	
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.										P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-										P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F						G	IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.	I			F						G	IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.	I			F						P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F						P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F						P	
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J						P	
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F						P	
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F						P

Venue Development																				
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P		
Site Management Area	60	1	60	-	-	-	Enclosed space.	-												
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-												
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-												
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-												
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-												
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.												
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.												
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.												
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.												
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-												
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.												
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.												
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F							P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F							P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F							P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.												
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-											
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.										P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	-											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space. Assumes existing space.	Potential User Groups: 1. Venue Staff daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.										P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.										P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.										P

Accreditation																							
Venue Accreditation Office	40	1	40	100	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-			
Day Pass Issue & Problem Resolution Desk	10	1	10	-																			
Work Area	12	1	12	-																			
Manager Desk or Office & Storage	12	1	12	-																			
Waiting Area	6	1	6	-																			
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-			
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Broadcast																							
Broadcast Compound	-	1	-	2500	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.															
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.															
Broadcast Manager Office	12	1	12	-		-	-	-	-														
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-														
Technical Operations Centre	30	1	30	75	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Broadcast Catering	105	1	105	122	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-															
Kitchen and Prep	15	1	15	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Buffet Line and Dining	90	1	90	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.															
Toilets	1.5	4	6	18	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Commentator Control Room (CCR)	45	1	45	55	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.															
Broadcast Information Office (BIO)	12	1	12	15	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.															
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-															
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J												
Mixed Zone	20	1	20	120	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J												
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Depending upon the nature and proximity of the venue location to others, one set of commentary positions can be used for the competitions.

Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J							
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J						R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J						R	IOC
Camera Position - Other	4	20	80	180	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J						R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-					J	I				G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.					J	I				G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.					J	I				G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I					R	IOC
Catering																			
Catering Compound	394	1	394	600	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P	
Work Areas - Catering Management	24	1	24	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	12	1	12	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	4	152	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	50	1	50	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	54	1	54	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	50	1	50	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F						P

Ceremonies																			
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-			I	F						P	
Ceremonies Staging	20	1	20	25	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.			I	F						P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-											
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.											
Presenters, Medal/Flower staging, Secure medal and flag storage	12	1	12	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.											
Presenter Preparation & Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-											
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I	F							P	
Awards Podium Storage	8	1	8	12	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F						P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I	J	J					J	G	R	IOC
Cleaning and Waste																			
Cleaning & Waste Compound	175	1	175	250	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.				F						P	
Vehicle Staging	50	1	50	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-											
Sorting Area	50	1	50	-	Area for sorting waste.	-	Area only.	-											
Waste & Recycle Containers	15	3	45	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).											
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.											
Equipment Supply & Storage	15	1	15	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.											
Contractor Office	15	1	15	-	Space for management and workforce staging.	-	Enclosed space.	-											
Doping Control																			
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	An Office and storage area will be incorporated into the existing spaces (e.g. waiting area/reception).	J	J	J							R	IOC
Waiting Area/Reception	16	1	16	20	Area where athletes check-in and wait prior to testing.	-	-	-											
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).											
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer. Wash basin for hand sanitisation.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).											
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I	J	J							R	IOC

Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P

Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F					P		
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Quantity dependent upon venue capacity.												
Language Services																				
Work Area / Desk	15	1	15	20	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J			I				G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	500	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	40	1	40	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	25	1	25	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	12	1	12	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	65	1	65	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	50	1	50	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	75	1	75	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	-	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	400	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	18	1	18	36	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.

Look of the Games																				
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.					F					P		
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC	
National Olympic Committee (NOC) Flags	-	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition sch	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC	
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF	
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-												
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L	
Backdrop - Press Conference Room	2.2 x 6	1	2.2 x 6	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I					
Medical Services																				
Athlete Medical	50	1	50	75	An area where Medical provides services to athletes competing at the venue.	Located within the accredited Athlete Area.	Enclosed air-conditioned space.	Assumes container or existing space.	J	J	J					J		R	IF	
Reception & Waiting	10	1	10	-	Area where athletes check-in and wait prior to examination.	-	-	-												
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-												
Examination Area(s)	8	2	16	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-												
Physiotherapy Area(s)	8	1	8	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-												
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J					J		R	IF	
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.												
Spectator Medical	40	1	40	80	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed air-conditioned space. 1 per 20,000 spectators.	Assumes container unit or existing space.		I	F		I	I				P		
Reception & Waiting	10	1	10	-	Area where spectators check-in and wait prior to examination.	-	-	-												
Medical Work Space & Secure Storage	8	1	8	-	Space for Medical workforce.	-	-	-												
Examination Area(s)	8	2	16	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-												
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Triage Station	9	1	9	18	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.		I	F		I	I				P		
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.				F	I	I				P		
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Paved, graveled or grass area with fence, barricade or rope enclosure.	-			F	I	I					P

Merchandise																							
Office, Cash Room & Work Area	12	1	12	15	An area to manage the retailing of all Olympic merchandise inside the venue.	-	Enclosed space with secure entry.	Assumes container unit or existing space.													P		
Storage	15	1	15	20		-	-	Assumes storage containers or existing space.														P	
Program Sales Stands/Booths	1	1	1	2		-	Area only.	Units provided by vendor. Quantity and location decided by vendor and OCOG.														P	
Merchandise Points of Sale (POS)	6	Varies	Varies	18		Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.				I		F							P	
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.	-					I	J	J					G	R	IOC	
Olympic Family Services																							
Olympic Family Lounge	162	1	162	370	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.				I		F						I	G	G	IOC
Welcome Desk & Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-	-															
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.	-															
Staff/Volunteer Room & Storage	9	1	9	-	On-call waiting area for Protocol staff and equipment storage.	-	-	-															
Dining & Lounge	90	1	90	-	Area for dining and lounge.	-	-	-															
Preparation/Buffer set-up/Beverage Area	45	1	45	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)	-															
Toilets	20	1	20	40	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	2 female, 2 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided														P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.	-					J	J								R	IOC
Press Operations																							
Venue Media Centre (VMC)	400	1	400	600	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 100 press and 20 photographers.	Assumes tent. Usually the workroom is at the Equestrian/running venue for the finish of the event. However, could be an existing workroom centrally located to all Mod Pen venues if very close.							F						R	IOC	
Reception & Information Desk	18	1	18	-	Welcome desk at the entrance, for information distribution.	-	-	-															
Storage	4	1	4	-	Equipment storage.	-	-	-															
Press Manager Office	12	1	12	-	Operational work space.	-	-	-															
Photo Manager Office	12	1	12	-	Operational work space.	-	-	-															
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.	-															
Info Stations	20	1	20	-	Computer stations and printers.	-	-	-															
Press Work Room or Area	170	1	170	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.															
Photo Work Room or Area	35	1	35	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.	-															
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-	-															
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.															
Lounge/Catering Prep	70	1	70	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-	-															
Toilets	1.5	6	9	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Press Conference Room	100	1	100	210	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC	
Seating Area	60	1	60	-	An area for accredited press.	-	Seats and standing room.	-												
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-												
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-												
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-												
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F			I	I				
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF	
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-												
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	In an existing stadium or seating area: 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. Temporary Stands: 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F						R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F						R	IOC,IF	
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided												
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-												
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row. See Venue Seating for quantities by sport.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						R	IOC, IF	
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I		I	F						G	IOC	
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																						
Security Command Centre	100	1	100	120	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.											P			
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-														
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-														
CCTV Surveillance & Video Desk	12	1	12	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-														
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.														
Radio Dispatch & Monitoring	12	1	12	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-														
Work Room	40	1	40	-	Open plan of work stations designated for security personnel.	-	-	-														
Secure Storage	8	1	8	-	An area for Security equipment storage.	-	Enclosed, secure space.	-														
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.							F							
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												P		
Briefing and Break Area / Staging Area	75	1	75	-	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.														
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.							J	J				P		
Vehicle Screening & Sanitisation Area	377	1	377	500	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.												P		
Vehicle Queue	100	1	100	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-														
Oversized Vehicle Queue	70	1	70	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-														
Vehicle Sanitisation & Wanding Areas	100	1	100	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.														
Oversized Vehicle (Truck & Bus) Sanitisation	70	-	70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-														
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.														
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-														
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.														
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.												F	G	P
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-

Warm-Up Area(s)	-	-	-	-	Area where athletes prepare prior to competition.	-	For Shoot, Fence, Swim & Run warm-up, they will take place using each competition facility. A separate warm-up area is required for the ride, next to the ride FOP.													
Warm-up Surface Dimensions or Area	-	-	-	-		-			J		J			I	J			R	IF	
Ride	8000	1	8000	-		-	Ride warm-up is located in close proximity to Ride FOP.													
Surface	-	-	-	-		-		Grass and/or sand for Ride.	J		J	I					J	R	IF	
Athlete / Team Seating	-	-	-	-	A designated seating area for athletes.	-			J		J							R	IF	
Same Sport	-	Varies	-	-		-			J		J							R	IOC,IF	
Different Sport	-	Varies	-	-		-			I		I	F						R	IOC	
Toilets - Athlete Area	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-							F						P	
Toilets - Near FOP	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-		Required if FOP is not located near Athlete Area.					F						P	
International Federation																				
IF Area	60	1	60	65	Responsible for administering the respective sport competition, including: enforcement of the rules/regulations, operation and technical control of the overall competition.	Located in close proximity to accredited seating areas.	Enclosed space.	Assumes container units or existing space. Depending on number of venues, if different locations (events not co-located in one venue), there may be a requirement for IF areas, one at Fence/Shoot & one at Ride/Run.	I		I	F							R	IF
IF President's Office	15	1	15	-		-			I		I	F							R	IF
IF Secretary - General/Executive Director's Office	15	1	15	-		-			I		F								G	IF
Reception, Secretariat, Waiting & Work Area	30	1	30	-		-			I		F								G	IF
Jury & Appeals Room	20	1	20	25	This space is utilised for the resolution of protests and appeals after competition.	-	Enclosed space.	Assumes container units or existing space. Depending on number of venues, if different locations (events not co-located in one venue) there should be one Jury & Appeals room at each: Fence/Shoot, Ride/Run.	I			F							R	IF
Officials Lounge	20	1	20	25	A rest area for officials.	-	Enclosed space.	Assumes container units or existing space. Depending on number of venues, if different locations (events not co-located in one venue) there should be one room at each: Fence/Shoot, Ride/Run.	J			J							G	IF
Officials Locker Room, Shower, Toilet	60	1	60	70	A change area for officials.	-	Enclosed space.	Assumes container units or existing space. Depending on number of venues, if different locations (events not co-located in one venue) there should be a facility at each: Fence/Shoot, Ride/Run.	I			F							R	IF
Technical Delegates Office & Work Area	15	1	15	20	Office area for Technical Delegates.	-	Enclosed space. 2 Technical Delegates. Serves all events: Shoot/Fence, Swim, and Ride/Run.	Assumes container units or existing space.	I		I	F							R	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.			I		J	J							R	IOC,IF
Sport Presentation																				
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-		See Technology for additional requirements of Sport Presentation.												
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.						F						P	
Announcer Position	3	1	3	-									F						P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.					F							P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	16	1	16	20	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	16	1	16	20	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Telecommunication & Audio Visual																			
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F							P
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER.	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F							P
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F							P
Audio Control Positions	-	-	-	-	-	-	-	-				F						G	P
Venue	12	3	36	45	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.											
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.											
Warm-Up Area	0	0	0	-	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-											
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-											
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-											
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F						G	P
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F						G	P
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F						P

MODERN PENTATHLON

Principles of Stakeholder Involvement:

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Shooting & Fencing Venue - FE Technical Table	4	1	4	8	Position for collation of results from pistes and data transfer to OVR.	Located with View to FE FOP, adjacent to SH Technical Table.	Cable pathway to all Pistes (8-10)& Main OVR Room.	May occur as a position on the FOP, or in a room with a view to the FOP.											
Shooting & Fencing Venue - SH Technical Table	4	1	4	8	Position collation of automated results from target range and data transfer to OVR.	Located with View to FE FOP, adjacent to FE Technical Table.	Cable pathway to all targets (10) & OVR Room	Generally occurs Back of House, in sport location.											
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP.	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Shooting & Fencing Venue - FE Pistes (8-10)	10	10	100	120	Position for judge & electronic scoring equipment.	Located at each FE Piste on FOP.	Cable access to FE Technical Table.	-											
Swimming Venue Control Room	25	1	25	32	Control location for all Swimming timing, scoring, results operations & equipment, collation of results data and transfer to OVR.	Located with View to Pool.	Cable access to pool & OVR Room.	-											
Equestrian & Running Control Room	20	1	20	25	Control location for all EQ/CC timing, scoring, results operations & equipment, collation of results data and transfer to OVR.	Located with View to EQ/CC course.	Cable access to start clock, sport specific scoreboards (finish) & OVR Room.	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Usually located at Equestrian & Cross Country venue, co-located with EQ/CC Control Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.	I	F								P	
OVR Provider Work Area	20	1	20	25	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-											
IT Provider Work Area	18	1	18	23	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	F							G	P	
Scoreboard Control - Shooting & Fencing Venue	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Control - Swimming Venue	2	1	2	4	-	-	-	-											
Scoreboard Control - Equestrian & Running Venue	2	1	2	4	-	-	-	-											
Scoreboard Interface - Shooting & Fencing Venue	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											
Scoreboard Interface - Swimming Venue	2	1	2	4	-	-	-	-											
Scoreboard Interface - Equestrian & Running Venue	2	1	2	4	-	Adjacent/co-located with Scoreboard Control.	-	-											

MODERN PENTATHLON

Principles of Stakeholder Involvement:

F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	60	1	60	75	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I			F		G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F						G	P
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F						G	P
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-		I		F						G	P
Reprographic Bulk Storage Area	15	1	15	18	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F						G	P
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-		I		F						G	P
Timing & Scoring Bulk Store	50	1	50	60	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.		I		F						G	P
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F						G	P

MODERN PENTATHLON

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology General Infrastructure																			
					Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.		I		F						P	
Cross Connect Frames (CCF)	1	Varies	1	-															
					Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in a manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Cable Pathways	-	Varies	-	-															
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-												
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-												
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-												
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-												
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-												
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-												
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-												
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.												
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.												
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-												
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F						G	P

Ticketing																			
Ticket Box Office	30	1	30	75	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	10	1	10	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	10	1	10	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.										P	
Driver Staging	55	1	55	100	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.										P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	12	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-										P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F						G	IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.	I			F						G	IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.	I			F						P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F						P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F						P	
Press and Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J						P	
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F						P	
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F						P

Venue Development																				
Site Management Compound	348	1	348	520	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P		
Site Management Area	45	1	45	-	-	-	Enclosed space.	-												
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-												
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-												
Response Team & Vendor Staging	18	1	18	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-												
Secure Storage - Site Management	9	1	9	-	Area for storage.	-	-	-												
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.												
Sign/Look Staging, Work Space/Secure Storage	35	1	35	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.												
Material Warehouse/Construction Work Space	55	1	55	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.												
Vendor Secure Storage	30	1	30	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.												
Materials Staging Area	30	1	30	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-												
Exterior Storage Area	30	1	30	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.												
Vehicle Staging	60	1	60	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.												
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F							P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F							P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F							P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.												
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-												

MODERN PENTATHLON

Venue Management																			
Venue Operations Centre (VOC)	45	1	45	70	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	15	1	15	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	6	1	6	-	Shared work stations.	-	-	-											
Work Space and Storage	12	1	12	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	30	1	30	40	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	15	1	15	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	100	1	100	120	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	120	1	120	150	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	76	1	76	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	175	1	175	210	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P	
END OF DOCUMENT																			

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation					
Accreditation																								
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																				
Work Area	15	1	15	-																				
Manager Desk or Office & Storage	12	1	12	-																				
Waiting Area	8	1	8	-																				
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Broadcast																								
Broadcast Compound	-	1	-	5000	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.																
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Assumes container unit.																
Broadcast Manager Office	12	1	12	-		-	-	-	-															
Work Room, Assigned & Unassigned Desks	48	1	48	-		-	-	-	-															
Technical Operations centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-																
Kitchen & Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Buffet Line & Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.																
Toilets	1.5	8	12	36	-	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Secondary Broadcast Compound	-	-	-	1000	Serves as a secondary unit to the main compound to house various broadcast technical needs that are required for Broadcast to cover the full competition FOP or area.	Located at Rowing start area.	Area only. Required on venues where size of FOP or location of Primary Compound exceeds cabling capabilities.	Specific elements are venue/sport specific.																
Toilets	1.5	2	3		Toilet units designated for broadcast personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Commentator Control Room (CCR)	60	1	60	75	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.																
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.																
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-																
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J													
Mixed Zone	25	1	25	170	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J													

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.			I	J						R	IOC	
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.				I	J							
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-				I	J						R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions. The primary source of camera positions are the use of boats.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J							R	IOC
Camera Position - Other	4	35	140	315	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J							R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-							J	I			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.							J	I			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.							J	I			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I		J	I			R	IOC
Catering																				
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.											P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Assumes existing space or container.												
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-												
Catering Contractor	16	1	16	-		-	-	-												
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-												
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.												
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-												
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-												
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.												
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-												
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.												
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-												
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.											P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.												
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.												
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-											P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.				I	F						P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-				I	F							
Anthem Storage	-	-	-	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.	Stored in Audio Control - see Technology Audio Control	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenter Preparation and Dressing	4	2	8	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Rowing Crews Waiting Area & Canoe/Kayak Post-Race Boat Weighing Tent	5 x 16	1	80	100	An area for the rowing crews waiting for their victory ceremony after the race.	-	Enclosed space. See Sport Operations - tent used for Canoe/Kayak weighing of boats after racing.	Assumes tent.	I			J						J	R	IF
Ceremonies Pontoon and Stage	230	1	230	350	-	In front of main grandstand.	The stage could be on land or floating adjacent to the victory ceremony pontoon. Pontoons:victory ceremony - 3m x 54m and the victory ceremony stage - 3m x 20m.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Production.	-			I	F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	Adjacent to FOP.			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J					J	G	R	IOC
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.					F						P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	-	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-	Area in front of waste and recycle bins where material is separated for containment.	-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												

ROWING / CANOE KAYAK FLATWATER

Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.				F						P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.				F						P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.				F						P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.				F						P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.				F						P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.				F						P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.				F						P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators				F						P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.				F						P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-				F						P	
Spectator Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.				F						P	
Hand Wash Stations	1	Varies	Varies	6 (per 20 toilets)	A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.				F						P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Finance																			
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I		F						P	
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Quantity dependent upon venue capacity.											
Language Services																			
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J		I					G	IOC
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J		I					G	IOC
Logistics																			
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.				F						P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.											
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-											
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-											
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-											
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent											
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-											
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-											
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.											
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.											
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.											
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.											
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.				F						P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R- Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Look of the Games																				
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.											P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J							R	IOC	
National Olympic Committee (NOC) Flags	Varies	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition sch	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J					J	R	IOC	
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J					J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-												
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J					J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	-	-	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I					
Medical Services																				
Athlete Medical	75	1	75	110	An area where Medical provides services to athletes competing at the venue.	Located within the accredited Athlete Area.	Enclosed air-conditioned space.	Assumes container or existing space.	J	J	J						J	R	IF	
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-												
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-												
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-												
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-												
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
FISA Doctor Examination Area	10	1	10	-	-	-	-	-												
Athlete Massage Area	100	1	100	150	Area for athlete massages.	Located in the Athlete Area. Adjacent to athlete medical area.	Separate rooms for women and men. Men 60m2 Women 40 m2.	7 massage beds for men, 5 massage beds for women	J		J						J	R	IF	
Finish Area Medical	-	-	-	25	Area where medical personnel can rapidly response to athletes crossing the finish line area.	Located 70-80m beyond finish line.	Enclosed area.	Temporary tent or use of an ambulance vehicle that is able to park in close proximity to the water's edge.	J		J						J	R	IF	
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.												
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed air-conditioned space. 1 per 20,000 spectators.	Assumes container unit or existing space.			I	F		I	I			P		
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-												
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-												
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-												
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.			I	F		I	I			P		
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.				F		I	I			P		
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Paved, graveled or grass area with fence, barricade or rope enclosure.	-				F		I	I			P		

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation		
Merchandise																					
Office, Cash Room & Work Area	12	1	12	15	An area to manage the retailing of all Olympic merchandise inside the venue.	-	Enclosed space with secure entry.	Assumes container unit or existing space.											P		
Storage	15	2	30	35		-	-	Assumes storage containers or existing space.												P	
Program Sales Stands/Booths	1	1	1	2		-	Area only.	Units provided by vendor. Quantity and location decided by vendor and OCOG.												P	
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)		Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.		I		F							P	
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.	-		I	J	J							G	R	IOC
Olympic Family Services																					
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I		I	F						I	G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-	-													
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.	-													
Staff/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol staff and equipment storage.	-	-	-													
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-	-													
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)	-													
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided												P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.	-			J	J							J	R	IOC
Press Operations																					
Venue Media Centre (VMC)	425	1	425	600	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	This space is calculated on the higher demand for Rowing which shares the venue with Canoe/Kayak. Venue press facilities remain the same for both sports. Enclosed space for 110 press and 25 photographers.	Assumes tent.												R	IOC
Reception & Information Desk	18	1	18	-	Welcome desk at the entrance, for information distribution.	-	-	-													
Storage	4	1	4	-	Equipment storage.	-	-	-													
Press Manager Office	12	1	12	-	Operational work space.	-	-	-													
Photo Manager Office	12	1	12	-	Operational work space.	-	-	-													
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.	-													
Info Stations	20	1	20	-	Computer stations and printers.	-	-	-													
Press Work Room or Area	180	1	180	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.													
Photo Work Room or Area	35	1	35	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.	-													
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-	-													
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.													
Lounge/Catering Prep	80	1	80	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-	-													
Toilets	1.5	6	9	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided													

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation		
Press Conference Room	100	1	100	210	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC		
Seating Area	60	1	60	-	An area for accredited press.	-	Seats and standing room.	-													
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-													
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-													
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-													
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F				I	I				
Mixed Zone	25	2	50	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF		
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-													
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.				I	F				I	I	R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.				I	F					I	R	IOC,IF	
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided													
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-													
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	Located on pontoons on the FOP and at the start position. Number vary Pool positions plus others	Total peak number of Photographers: 50. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row. See Venue Seating for quantities by sport.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						I	J	R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Located along course including finish line. Number vary	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I		I	F						I	I	G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.												
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.												
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.												
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.												
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.												
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.												
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-												
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.

Vehicle Permit Check Point and Queue	Varies	Varies	Varies	-	A control area where vehicles entering this exterior perimeter point will be required to display the proper Olympic vehicle permit for access to the venue.	Located outside the venue secure perimeter; normally on access roads to the venue.	Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.				F			I			R	IOC
Venue Perimeter Entrances & Security Screening/Search (Pedestrian)	-	-	-	-	Locations where constituent groups will enter through the secure perimeter of the competition venue and access various parts of the venue with an accreditation or a ticket.	Located at the venue secure perimeter.	Enclosed space for screening/search area positions.. Net area for each screening position will accommodate the following: 4 Wanding Stations, OR 1 Magnetometer with 2 Search Tables & 2 Wanding Stations, OR - 1 X-ray Device, 1 Magnetometer & 2 Search Tables.	Assumes tent with 2 retractable side walls. Gross area includes queue. Dependent upon spectator capacity and venue design.											
Athlete / Team	18	1-2	18-36	36-72	-	BOH.	-	-				F						R	IOC
Technical Officials, Judges & Referees	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with Athlete and/or Olympic Family.				F						G	IOC
Olympic Family (IOC, NOC, IF)	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with TO, ENG and/or Press.				F						P	
Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.											
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-											
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.				F	I						
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				J	J					P	
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wandung station).	-				I	F					P	
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.				F			I			P	
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.				F						P	
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				F	I					P	
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.											
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1m to 3m width, sometimes used as a secondary service vehicle exit point.	-											
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-											
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.				I	F				G	P	
Sponsor Services																			
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I	F					P

Sport Operations																				
Competition Management	87	1	87	110	A work area for Sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located close to Athlete Area and FOP; may be co-located within the Venue Operations Centre & Security Command Centre.	Enclosed space.	Assumes tent. Services both sports: Rowing and Canoeing/Kayak.	I			F						P		
Competition Manager & Asst. Manager Desks	12	2	24	-	An area for the Manager and Assistant(s) Manager.	-	-	-												
Assigned Work Area	24	1	24	-	Open plan of work stations designated for Sport personnel.	-	-	-												
Hot Desks	15	1	15	-	Shared work stations.	-	-	-												
Work Area	24	1	24	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-												
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-												
Sport Information	60	1	60	70	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located adjacent to Athlete Area.	Enclosed space with waiting area and seating.	Services both sports: Rowing and Canoeing/Kayak. Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J		J							R	IF	
Athlete Lounge	200	1	200	250	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	Enclosed space.	Services both sports: Rowing and Canoeing/Kayak. Includes: seating area, lounge, Info & Help Desk, info terminal stations. Team Dining Area - this space/area requirement will be decided on a case by case basis after consultation between the FISA, IOC, and OCOG.	J		J							R	IF	
Athlete Dressing, Locker, Shower, Toilet	250	2	500	600	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area.	Enclosed space. Separate male and female facilities.	Assumes container units or existing space. Men-20 toilets, 15 urinals, 15 washing basins, 150 showers. Women-20 toilets, 20 wash basins, 10 showers.	J		J							R	IF	
IF & Sport Meeting Room (Team Leaders Meeting Room)	30	1	30	45	Meeting facility at the venue for the team leaders, International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Services both Rowing and Canoe/Kayak. Shared meeting room area between IF & Sport to serve various meeting needs.	J		J							G	IF	
Sport Equipment Storage (Rowing & Canoeing)	60	1	60	70	Storage for athlete/team sport equipment.	Located in close proximity to boat storage area and team equipment.	Enclosed space.	Assumes temporary container units or existing space. Services both sports: Rowing & Canoeing/Kayak.	J		J	I						R	IF	
Boat Trailers & Container Storage Area	4000	1	4000	4000	Area for team boat trailers and freight containers to be stored during the Games period.	Located in close proximity within or to venue. Easy access for NOC/Team staff.	Area only. Secured area for unloading and loading of boats and equipment; turnaround areas for vehicle with trailers, stable surface for vehicle access, unloading/loading of boats & equipment.	Team containers generally measure 20-40 foot containers. Boat trailers generally measure 18m x 2.5m. Location may vary depending on layout and landscape of venue; may be located in remote but secure location. Quantity varies according to final team numbers.	J		J							R	IF	
Boat Storage	-	-	-	-	Storage of team boats.	Located near warm-up lake, athlete areas and boathouse.	Open area for boat racks and oar racks.	Normally, areas for Rowing and C/K flatwater are separated.	J		J								R	IF
Rowing - Indoor, in permanent Boathouses	130	8	1250	1500	Permanent building for storage of boats and oars, for boats' and athletes' weighing, ect.	Located minimum 50m from the water edge.	For storage of boats and oars, for boats and athletes weighing, ect.	Services Rowing only.	J	J	J								R	IF
Rowing - Outdoor on Boat Racks	200	30	6000	6500	Generally, 25 -30 boat racks, placed next to the permanent boathouses.	Located minimum 30m from the water edge.	For storage of boats and oars.	Services Rowing only.	J	J	J								R	IF
Canoe / Kayak - In permanent Boathouses	130	4	520	800	Permanent building for storage of boats and paddles.	Located minimum 30m from the water edge.	For storage of boats and oars.	Services Canoeing/Kayak only.	J	J	J								R	IF
Canoe / Kayak - Outdoor, on Boat Racks	900	1	900	4500	Boat racks, placed under cover (tent).	Located minimum 30m from the water edge.	For storage of boats and oars.	Services Canoeing/Kayak only	J	J	J								R	IF
Bicycle Rental Area	-	1	-	100	Bicycles used by team coaches to pursue training and races along the course.	Adjacent to Athlete Areas.	Covered area only for bicycles.	Services both sports: Rowing and Canoeing/Kayak.	I	I	F								R	IF
Boat Numbers Distribution (Rowing)	12	1	12	15	For distribution and collection of the boat numbers during the racing sessions.	Located between the Rowing In/Out pontoons next to the waters edge (Athlete area).	Covered area.	Services Rowing only.	I	I	F								R	IF
Control Commission (Rowing)	12	1	12	15	A space for the Control Commission Officials carrying out their duties during training and racing times.	Located between the Rowing IN/OUT pontoons adjacent to the Boat numbers distribution.	Enclosed space.	Assumes temporary container unit or tent. Services Rowing only												
Athlete Weigh-in (Rowing)	50	1	50	60	An area for weighing of Lightweight rowers and coxswains.	Located in the Rowing Athlete Area.	Enclosed space.	Services Rowing only.	I	I	F								R	IF
Boat Weighing (Rowing)	75	1	75	80	An area for weighing of the rowing boats.	Located adjacent to the rowing boat storage area	Enclosed space.	Recommend existing structure. Services Rowing only.	I	I	F								R	IF
Boat Weighing (C/K Flatwater)	80	1	80	100	An area for weighing of the canoe and kayak boats.	Located in the Canoeing Boat storage area.	Enclosed space.	Services Canoeing/Kayak only.	I	I	F								R	IF
Rowing Crews Waiting Area & Canoe/Kayak Post-Race Boat Boat Weighing	-	-	-	-	-	Located beyond finish line.	See Ceremonies for details.	Services both sports: Rowing and Canoe/Kayak.												

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Rowing Crews Waiting Area & Canoe/Kayak Post-Race Boat Weighing	5 x 16	1	80	100	An area for the rowing crews waiting for their victory ceremony after the race.	-	Enclosed space.	Assumes tent. Tent used for Canoe/Kayak weighing of boats after racing.	I			J				J		R	IF	
Control Commission (Canoe/Kayak)	32	1	32	40	For the Control Commission Officials carrying out their duties during training and racing times and for the Boat numbers distribution..	Located in the Canoeing Boat storage area.	Enclosed space	Services Canoeing/Kayak only.	J			J					J		R	IF
Video Review	100	1	100	110	-	Located in Athlete Area.	Enclosed space.	Recommend existing structure. Services both sports: Rowing and Canoeing/Kayak.	I		I	F							R	IF
Athlete Rest Areas (Rowing & C/K Flatwater)	100	18	1800	2500	An area where athletes can recover, meet and rest at the venue while not training or competing.	Located in Athlete Area.	Enclosed space.	Assumes tent with covered floor space. Services both Rowing and Canoe/Kayak.	I		I	F							R	IF
Gymnasium	200	1	200	250	Area for Athletes to train with ergometers throughout the training and competition period.	Located in Athlete Area.	Enclosed space.	Assumes enclosed tent.	I		I	F							R	IF
Boat Repair	-	-	-	-	-	-	-	Separate facilities for both sports: Rowing and Canoeing/Kayak.												
Rowing	130	1	130	140	Area where the OCOG provide services for major repairs.	Usually located in one of the permanent boathouses. Adjacent to Athlete Areas.	Enclosed space. Usually in one of the permanent boat houses.	Services Rowing only.	I		I	F							R	IF
Canoe / Kayak	2 x 16m ² + 1 x 30m ²	3	62	300	Area where the Boat builders provide repair services to the teams.	Adjacent to the Canoeing Boat storage Athlete Area.	Tents: 2 tents 4m x 4m and 1 tent approx. 5m x 6m.	Services Canoeing only.	I		I	F							R	IF
Boat Builder (Rowing)	18	7	126	1600	Area where the Boat builders provide repair services to the teams.	Adjacent to the Rowing Boat storage Athlete Areas.	Tents, minimum 4m x 4m.	Services Rowing only. Quantity varies according to final team numbers.	I		I	F							R	IF
Aligner's Hut (Rowing)	9	1	9	20	For the operation of the Rowing Judge at the Start and the Aligner.	Located on the start line.	Permanent air-conditioned facility. See Technology - Timing, Scoring, Results.	Assumes existing structure. Services Rowing only. Parking area for internal working vehicles may be necessary in close proximity to the Aligner's Hut / Start Area.	F		I	I			I				R	IF
Timing Hut(s)	-	-	-	-	-	-	See Technology - Timing, Scoring, Results.	-												
Rowing	9	1	9	20	For the operation of the Rowing Timing officials.	Located exactly on the Rowing 500m intermediate line.	See Technology - Timing, Scoring, Results.	Assumes existing structure. Services Rowing only.	F		I	I			I				R	IF
Rowing 1000m & Canoeing/Kayak Start Tower-1000m	9	1	9	20	For the operation of the Rowing Timing officials and the Canoeing Starter.	Located on the Rowing 1000m intermediate line and Canoeing 1000m start line.	See Technology - Timing, Scoring, Results.	Assumes existing structure. Services Rowing and Canoeing.	F		I	I			I				R	IF
Rowing 1500m & Canoeing/Kayak Start Tower/Timing Hut-500m	9	1	9	20	For the operation of the Rowing Timing officials and the Canoeing Starter.	Located on the Rowing 1500m intermediate line and Canoeing 500m start line.	See Technology - Timing, Scoring, Results.	Assumes existing structure. Services Rowing and Canoeing.	F		I	I			I				R	IF
Canoeing/Kayak-250m and 750m	9	1	9	20	For the operation of the Canoeing Timing officials.	Located on the Canoeing 250m and 750 intermediate lines.	See Technology - Timing, Scoring, Results.	Assumes temporary unit. Services Canoeing only.	F		I	I			I				R	IF
Start Tower (Rowing)	9	1	9	-	For the operation of the Rowing Starter	Located approx. in the middle of the course, 40 - 50m beyond the start line	See Technology - Timing, Scoring, Results.	Services Rowing only. Assumes existing structure.	F		I	I			I				R	IF
Start Area (Rowing)									J		J				J				R	IF
Start Fingers	16 x 1	8				Located at the rowing start area.														
Repair Pontoon	3 x 6	1				Located at the rowing start area.														
Rest Area	16	1			Area for sport staff to rest between races.	Located at the rowing start area.														
100m Time Trial (Rowing)	3 x 3	1	9	15	For time trials starting equipment and officials.	Located at the Rowing 100m line.	See Technology - Timing, Scoring, Results.	Assumes temporary unit. Services Rowing only.	F		I	I			I				R	IF

FOP Maintenance and Equipment Storage	90	1	90	140	Storage of equipment required for competition.	Located adjacent to Field of Play or within close proximity.	-	Services both Rowing and Canoeing.	I		F	I						R	IF
Field of Play (FOP)	-	-	-	-	Area where competition is conducted for both Rowing and Canoe/Kayak Flatwater.	-	Reference should be made to FISA and ICF guidelines for all FOP technical requirements.	-											
Dimensions of Competition Area	-	-	-	-	-	-	-	Roads around course: 4m wide, turning points at the start, 500m, before/after bridges, before permanent seating area and beyond finish line. Note: a broadcast road (6.5m wide) may be necessary on the TV coverage side of the course.											
Rowing	2220 x 162	1	359 640	-	Area where competition is conducted for Rowing	-	Racing course distance/area: length = 2000m and width = 108m (minimum requirement).	Length up to 2270m varies depending on the available terrain and design concept. The level of the surrounding bank must be a maximum minimum of 1m above water level.	F		I							R	IF
Canoe/Kayak Flatwater	1500 x 120	1	180 000	-	Area where competition is conducted or Canoe/Kayak Flatwater	-	The minimum dimensions of an Olympic competition course are 1000m in length, 81m in width and 3m in depth along the entire course.	Total area required may be greater than playing surface dimension.	F		I							R	IF
Surface	-	-	-	-	Water	-	Racing course - water with a recommended depth of 3.5m (min. is 3m).	-	J		J	I						R	IF
Orientation	-	-	-	-	-	The longitudinal axes as close as possible to the direction of the prevailing winds.	Parallel to the direction of the prevailing wind.	-	J		J	I						R	IF
Warm-Up Area(s)	-	-	-	-	Area where athletes prepare prior to competition.	-	-	-											
Rowing	1000 x 54	1	54 000	80 000	-	Must be adjacent to the FOP with direct access through 3 channels: beyond the finish line, at the middle of the course and at the start.	Minimum 1200m Length; 150m Width; area for athletes to warm-up, cooling down and canoe training course.	Services both sports: Rowing and Canoeing/Kayak but separate warm-up courses set-ups.	J		J							R	IF
Canoe and Kayak	1000 x 36	1	36 000	60 000	-	Must be adjacent to the FOP with direct access through 2 channels: beyond the finish line and at the middle of the course.	Minimum 1100m long and 46m wide area for athletes to warm-up and for canoe training during rowing competition.	Services Canoeing only.											
Surface	-	-	-	-	Water	-	Water with a 2m depth minimum.	-	J		J	I						R	IF
Orientation	-	-	-	-	-	-	Orientation of warm-up area should be, if applicable, such as north-south axis, parallel to the direction of the prevailing wind.	Must be close to parallel or parallel to the axes of the main course (FOP).	I		F	I						R	IF

ROWING / CANOE KAYAK FLATWATER

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Cooling Down Area	500 x 30	1	15 000	30000		Located with direct access from finish area.	Minimum 600m long and 40m wide area for athletes to cool down after finishing racing.	Services both sports: Rowing and Canoeing/Kayak.											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Sports Lighting - Technical	-	-	-	-	-	-	See Broadcast for lighting specifications.	-											
Athlete / Team Seating	-	-	-	-	A designated seating area for athletes.	-	-	-	J	I	J					J			
Athlete Open Air Viewing Location	200	1	200	250	Simple seating area for teams to use before or after racing.	-	Tables, chairs, umbrellas or a simple cover.	Services both sports: Rowing and Canoeing/Kayak.

Toilets - Athlete Area	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-	-	May be required for Sport Staff use. Quantity varies according to athlete numbers.				F						P	
Toilets - Near FOP	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-	Required if FOP is not located near Athlete Area.	Assumes temporary units. Quantity varies according to athlete numbers.				F						P	
International Federation																			
IF Area (Rowing & Canoeing)	190	1	190	250	Responsible for administering the respective sport competition, including: enforcement of the rules/regulations, operation and technical control of the overall competition.	Located in close proximity to boathouse and finish area.	Enclosed space.	Assumes container units or existing space. Shared facility between Rowing and Canoeing. Preferable in a permanent facility.	I	I	F							R	IF
IF President's Office	15	2	30	-	-	Located in close proximity to finish area with view to FOP.	If finish area is in close proximity to boathouse (max 300m); offices should be located in finish area. If finish area is located far from boathouse, offices should be available at both locations.	Recommend to use an existing space (permanent facility) if possible.	I	I	F							R	IF
IF Secretary-General/Executive Director's Office	15	2	30	-	-	Located in close proximity to finish area with view to FOP.	-	Recommend to use an existing space if possible.	I		F							G	IF
Reception, Secretariat, Waiting & Work Area	80	1	80	-	-	-	-	-	I		F							G	IF
IF Meeting Room	-	-	-	-	-	-	See IF & Sport Meeting room.	-											
Jury & Appeals Area - Finish Tower	-	-	-	-	This space is utilised for the resolution of protests and appeals after competition.	-	See Finish Tower.	-	I		F							R	IF
Lounge - International Technical Officials	120	1	120	240	A rest area for officials.	Located adjacent to IF office area.	-	Recommend to use an existing space if possible. Services both sports: Rowing and Canoeing/Kayak. Assumes container units or existing space.	J		J							G	IF
Officials Locker Room, Shower, Toilet	80	1	80	100	A change area for officials.	-	-	Assumes container units or existing space. Separate men and women lockers may be necessary.	I		F							R	IF
Technical Delegates Office & Work Area	15	2	30	35	Office area for Technical Delegates.	In close proximity to IF office and finish area.	Enclosed space. 4 Technical Delegates. Space for FISA TDs (2) and ICF TDs (2).	Recommend to use an existing space if possible.	I	I	F					I		R	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-	-	I	J	J					J		R	IOC,IF
Sport Presentation																			
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.											
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-			F							P	
Announcer Position	3	1	3	-	-	-	-	-			F							P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.				F						P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	16	1	16	20	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Telecommunication & Audio Visual																			
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F							P
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER.	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F							P
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F							P
Audio Control Positions	-	-	-	-	-	-	-	-				F						G	P
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.											
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.											
Athletes Briefing	2	1	2	4	PA systems required for to facilitate announcements to athletes. Space required for amplifier/microphone.	Within briefing room/area for Athletes.	Standard/mains power & FF&E.	-											
Federation Area	2	1	2	4	PA systems required for Federation Area . Space required for amplifier/microphone.	Location as required by SPT/Federation.	Standard/mains power & FF&E.	-											
Warm-Up Area	2	0	2	4	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-											
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-											
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-											
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F						G	P
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F						G	P
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F						P

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play	0	0	0	-	Areas/positions for results and/or statistics on the FOP.	Ideally located with Timing & Scoring Team, Sport Results Team and Officials.	-	May occur as a position on the FOP, or in a room with a view to the FOP.											
Back of House	0	0	0	-	Area back of house where data entry is performed into the OVR/Results System.	Sport Specific, but can be in warm-up or call areas.	-	Generally occurs Back of House, in sport location.											
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Start Position	1	1	1	2	Position where clock is started for event.	Located with sport at race start position.	Cable access to OVR room between all intermediate timing points, aligner hut & start position	-											
Intermediate Hut Aligner	6	1	6	9	Position where boats are officially aligned using alignment video camera.	Located in line with boats along start position.	-	-											
Intermediate Hut 100m Time Trial Start	6	1	6	9	Time trials starting line with high speed camera. Contingency plan starting position.	Located at 100 meter line from start position.	-	-											
Intermediate Hut 250m	-	-	-	-	Intermediate timing position.	Located at 250 meter line from start position.	-	Intermediate Hut for Rowing (100m) can be moved to 250m position.											
Intermediate Hut 500m	6	1	6	9	Intermediate timing position.	Located at 500 meter line from start position.	-	-											
Intermediate Hut 750m	-	-	-	-	Intermediate timing position.	Located at 750 meter line from start position.	-	Intermediate Hut for Rowing (500m) can be moved to 750m position.											
Intermediate Hut 1000m	6	1	6	9	Intermediate timing position for RO & start position for CF.	Located at 1000 meter line from start position.	-	-											
Intermediate Hut 1500m	6	1	6	9	Intermediate timing position for RO & start position for CF.	Located at 1500 meter line from start position.	Cable access to OVR room between all intermediate timing points, aligner hut & start position	-											
Photo Finish Control Room	6	1	6	9	Location of photo finish viewer/reader equipment.	Located in Finish Tower, top floor.	Cable access to OVR Room & photo finish camera.	-											
Control Room	35	1	35	45	Location for central Timing & Scoring control operations, including Backup C system, Event Management & photo-finish system.	Located in Finish Tower with view to FOP.	Cable access to OVR Room, Photo Finish Control & Intermediate Positions along course	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Located in Finish Tower.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.	I	F								P	
OVR Provider Work Area	25	1	25	32	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-											
IT Provider Work Area	20	1	20	25	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Located in Finish Tower with Sport Production, or with Timing/scoring team. However view to FOP & Public Scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	F							G	P	
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	Varies	1	Varies	-	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-		I		F					G	P	
Reprographic Bulk Storage Area	15	1	15	18	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	20	1	20	25	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-		I		F					G	P	
Timing & Scoring Bulk Store	40	1	40	50	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.		I		F					G	P	
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.		I		F						P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in a manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.														
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.														
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.														

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-												
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-												
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-												
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-												
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-												
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-												
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-												
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.		I		F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.												
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.		I		F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.												
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.		I		F						G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-												
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.		I		F						G	P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue.	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.											P
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.											P
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.											P
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-											P
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							I	P
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							I	P
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F						I	G IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F							G IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.		I		F							G IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F							P
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.		I		F							P
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F							P
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver driver will park.			I	F							P
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F							P
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F							P
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J							P
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F							P
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F							P

Venue Development																			
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.											P
Site Management Area	60	1	60	-	-	-	Enclosed space.	-											
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.		I		F							P
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-		I		F							P
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.		I		F							P
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Venue Management																				
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.											P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-												
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.												
Hot Desks	10	1	10	-	Shared work stations.	-	-	-												
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.												
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.											P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-												
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-												
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.												
Storage	8	1	8	-	Equipment storage area.	-	-	-												
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.											P	
Workforce																				
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.											P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-												
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-												
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-												
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-												
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.											P	
END OF DOCUMENT																				

SAILING

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation					
Accreditation																								
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																				
Work Area	15	1	15	-																				
Manager Desk or Office & Storage	12	1	12	-																				
Waiting Area	8	1	8	-																				
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F					P	-					
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Broadcast																								
Broadcast Compound	-	1	-	2500	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.																
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.																
Broadcast Manager Office	12	1	12	-		-	-	-	-															
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-															
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-																
Kitchen and Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Buffet Line and Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements. Located in temporary structure. Assumes container/trailer unit or tent.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	-																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters. Located in temporary structure. Assumes container/trailer unit or tent.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	-																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.																
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Commentator Control Room (CCR)	45	1	45	55	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.																
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.																
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-																
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J													
Mixed Zone	25	1	25	170	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J													
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.																

SAILING

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J			J	I			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions. The primary source of camera positions are the use of helicopters and boats.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J			J	J		R	IOC
Camera Position - Other	4	20	80	180	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions. The primary source of camera positions are the use of helicopters and boats.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J			J	I		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-					J	I	J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.					J	I	J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.					J	I	J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I	J	I			R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F						P

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I		F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J				J	G	R	IOC	
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.											P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-	Area in front of waste and recycle bins where material is separated for containment.	-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P

Finance																				
Work Space / Desk	20	1	20	25	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F						P	
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Quantity dependent upon venue capacity.												
Language Services																				
Work Area / Desk	-	-	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-			J	J			I				G	IOC
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-			J	J			I				G	IOC
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.

Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-											
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F					R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F						R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided											
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	Boats on FOP.	-	-											
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row. See Venue Seating for quantities by sport.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I		I	F						G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																			
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.											
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-											
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-											
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-											
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.											
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-											
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-											
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-											
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.											
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-											
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.											
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.											
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.											
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-											
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-											
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.											
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-											
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.											
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-											
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.											
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-											
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-											
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-											
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.

Technology Operations																			
Technology Help Desk	16	1	16	20	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P

Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.	I			F						P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER.	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.	I			F						P	
Telecomm. Operations & Store	20	1	20	25	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.	I			F						P	
Audio Control Positions																			
	-	-	-	-	-	-	-	-				F					G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.											
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.											
Warm-Up Area	0	0	0	-	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-											
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-											
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-											
Video Board Control	0	0	0	-	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F					G	P	
Wired Communications Control	0	0	0	-	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F					G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F					P

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play	0	0	0	-	Areas/positions for results and/or statistics on the FOP.	Ideally located with Timing & Scoring Team, Sport Results Team and Officials.	-	May occur as a position on the FOP, or in a room with a view to the FOP.											
Timing and Scoring Position				-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Control Room	30	1	30	38	Location for all DGPS & Telemetry equipment & operations, Timing and Back Up C.	Sport Specific/Venue Specific location. <u>NO view to FOP required.</u>	Cable access to OVR room & RF Antennas required.	May be incorporated into OVR room if feasible.											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.	I	F								P	
OVR Provider Work Area	30	1	30	38	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-											
IT Provider Work Area	18	1	18	23	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	No spectators for SA, therefore no scoreboard required.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	F							G	P	
Scoreboard Control	0	0	0	-	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	0	0	0	-	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											
Results Printing (PRD)	60	1	60	75	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F		G	P		

SAILING

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	-	1	-	-	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	60	1	60	75	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.				F					G	P	
Audio Visual Bulk Store	15	1	15	18	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.		I		F						P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-

CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-												
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-												
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-												
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-												
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-												
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-												
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-												
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cablings) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.												
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cablings) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.												
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cablings) required to suspend PA speakers from venue ceiling structure.	-	-	-												
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F						G	P

Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.											P
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.											P
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.											P
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-											P
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J								P
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J								P
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F							G IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F							G IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.			I	F							G IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F							P
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F							P
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F							P
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F							P
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F							P
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J							P
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F							P
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F							P

Venue Development																				
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P		
Site Management Area	60	1	60	-	-	-	Enclosed space.	-												
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-												
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-												
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-												
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-												
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.												
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.												
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.												
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.												
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-												
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.												
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.												
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F							P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F							P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F							P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.												
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P

Accreditation																							
Venue Accreditation Office	40	1	40	100	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										P	-				
Day Pass Issue & Problem Resolution Desk	10	1	10	-																			
Work Area	12	1	12	-																			
Manager Desk or Office & Storage	12	1	12	-																			
Waiting Area	6	1	6	-																			
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F					P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Broadcast																							
Broadcast Compound	-	1	-	2500	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.															
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.															
Broadcast Manager Office	12	1	12	-		-	-	-	-														
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-														
Technical Operations Centre	30	1	30	75	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Broadcast Catering	105	1	105	122	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-															
Kitchen and Prep	15	1	15	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Buffet Line and Dining	90	1	90	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.															
Toilets	1.5	4	6	18	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Commentator Control Room (CCR)	40	1	40	55	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.															
Broadcast Information Office (BIO)	12	1	12	15	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.															
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-															
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J												
Mixed Zone	20	1	20	120	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J												
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.															

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J							
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J						R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J						R	IOC
Camera Position - Other	4	15	60	135	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions. 15 camera positions each for range and skeet range.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J						R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-					J	I				G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.					J	I				G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.					J	I				G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I					R	IOC
Catering																			
Catering Compound	394	1	394	600	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P	
Work Areas - Catering Management	24	1	24	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	12	1	12	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	4	152	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	50	1	50	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	54	1	54	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	50	1	50	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	20	1	20	25	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	12	1	12	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation & Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I		F							P	
Awards Podium Storage	8	1	8	12	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J					J	G	R	IOC
Cleaning and Waste																				
Cleaning & Waste Compound	175	1	175	250	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.					F						P	
Vehicle Staging	50	1	50	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	50	1	50	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	3	45	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	1	15	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	15	1	15	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	An Office and storage area will be incorporated into the existing spaces (e.g. waiting area/reception).	J		J	J							R	IOC
Waiting Area/Reception	16	1	16	20	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer. Wash basin for hand sanitisation.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F						P	
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Quantity dependent upon venue capacity.												
Language Services																				
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J			I				G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	500	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	40	1	40	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	25	1	25	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	12	1	12	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	65	1	65	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	50	1	50	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	75	1	75	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	-	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	400	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	18	1	18	36	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.												

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.					F					P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	-	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition sch	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	1	2.2 x 6	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	50	1	50	75	An area where Medical provides services to athletes competing at the venue.	Located within the accredited Athlete Area.	Enclosed air-conditioned space.	Assumes container or existing space.	J	J	J					J		R	IF
Reception & Waiting	10	1	10	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	2	16	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	1	8	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J					J		R	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											
Spectator Medical	40	1	40	80	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed air-conditioned space. 1 per 20,000 spectators.	Assumes container unit or existing space.		I	F		I					P	
Reception & Waiting	10	1	10	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	8	1	8	-	Space for Medical workforce.	-	-	-											
Examination Area(s)	8	2	16	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	9	1	9	18	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.		I	F		I					P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.					F	I				P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Paved, graveled or grass area with fence, barricade or rope enclosure.	-				F	I					P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Merchandise																				
Office, Cash Room & Work Area	12	1	12	15	An area to manage the retailing of all Olympic merchandise inside the venue.	-	Enclosed space with secure entry.	Assumes container unit or existing space.					F					P		
Storage	15	1	15	20		-	-	Assumes storage containers or existing space.					F						P	
Program Sales Stands/Booths	1	1	1	2		-	Area only.	Units provided by vendor. Quantity and location decided by vendor and OCOG.					F						P	
Merchandise Points of Sale (POS)	6	Varies	Varies	18		Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.		I		F						P	
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.	-		I	J	J						G	R	IOC
Olympic Family Services																				
Olympic Family Lounge	162	1	162	370	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I		I	F					I	G	G	IOC
Welcome Desk & Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-	-												
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.	-												
Staff/Volunteer Room & Storage	9	1	9	-	On-call waiting area for Protocol staff and equipment storage.	-	-	-												
Dining & Lounge	90	1	90	-	Area for dining and lounge.	-	-	-												
Preparation/Buffer set-up/Beverage Area	45	1	45	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)	-												
Toilets	20	1	20	40	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	2 female, 2 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided				F							P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.	-			J	J				J			R	IOC
Press Operations																				
Venue Media Centre (VMC)	425	1	425	600	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 70 press and 15 photographers. The one press work room serves both the indoor and shotgun/skeet tribunals. Should be centrally located to both competition areas.	Assumes tent.				F						R	IOC	
Reception & Information Desk	18	1	18	-	Welcome desk at the entrance, for information distribution.	-	-	-												
Storage	4	1	4	-	Equipment storage.	-	-	-												
Press Manager Office	12	1	12	-	Operational work space.	-	-	-												
Photo Manager Office	12	1	12	-	Operational work space.	-	-	-												
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.	-												
Info Stations	20	1	20	-	Computer stations and printers.	-	-	-												
Press Work Room or Area	180	1	180	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.												
Photo Work Room or Area	35	1	35	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.	-												
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-	-												
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.												
Lounge/Catering Prep	80	1	80	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-	-												
Toilets	1.5	6	9	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided												

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Press Conference Room	90	1	90	200	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC
Seating Area	50	1	50	-	An area for accredited press.	-	Seats and standing room.	-											
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-											
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-											
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-											
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F			I	I			
Mixed Zone	20 linear mtrs.	2	40 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-											
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F					R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F						R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided											
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-											
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	Total peak number of Photographers: 50. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I		I	F						G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-											

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Security																			
Security Command Centre	100	1	100	120	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.											
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-											
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-											
CCTV Surveillance & Video Desk	12	1	12	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-											
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.											
Radio Dispatch & Monitoring	12	1	12	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-											
Work Room	40	1	40	-	Open plan of work stations designated for security personnel.	-	-	-											
Secure Storage	8	1	8	-	An area for Security equipment storage.	-	Enclosed, secure space.	-											
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.											
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-											
Briefing and Break Area / Staging Area	75	1	75	-	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.											
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.											
Vehicle Screening & Sanitisation Area	377	1	377	500	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.											
Vehicle Queue	100	1	100	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-											
Oversized Vehicle Queue	70	1	70	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-											
Vehicle Sanitisation & Wanding Areas	100	1	100	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.											
Oversized Vehicle (Truck & Bus) Sanitisation	70	-	70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-											
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.											
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-											
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.											
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-											
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-											
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-											
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.											

SHOOTING

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Vehicle Permit Check Point and Queue	Varies	Varies	Varies	-	A control area where vehicles entering this exterior perimeter point will be required to display the proper Olympic vehicle permit for access to the venue.	Located outside the venue secure perimeter; normally on access roads to the venue.	Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.										R	IOC
Venue Perimeter Entrances & Security Screening/Search (Pedestrian)	-	-	-	-	Locations where constituent groups will enter through the secure perimeter of the competition venue and access various parts of the venue with an accreditation or a ticket.	Located at the venue secure perimeter.	Enclosed space for screening/search area positions.. Net area for each screening position will accommodate the following: 4 Wanding Stations, OR 1 Magnetometer with 2 Search Tables & 2 Wanding Stations, OR - 1 X-ray Device, 1 Magnetometer & 2 Search Tables.	Assumes tent with 2 retractable side walls. Gross area includes queue. Dependent upon spectator capacity and venue design.											
Athlete / Team	18	1-2	18-36	36-72	-	BOH.	-	-				F						R	IOC
Technical Officials, Judges & Referees	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with Athlete and/or Olympic Family.				F						G	IOC
Olympic Family (IOC, NOC, IF)	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with TO, ENG and/or Press.				F						P	
Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.											
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-											
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.				F	I						
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				J	J					P	
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wanding station).	-	I			F							P
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.				F		I					P
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.				F							P
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				F	I						P
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.											
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1m to 3m width, sometimes used as a secondary service vehicle exit point.	-											
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-											
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.				I	F				G	P	
Sponsor Services																			
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I	F						P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Sport Operations																			
Competition Management	45	1	45	70	A work area for Sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located close to Athlete Area and FOP; may be co-located within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space.	I				F					P	
Competition Manager & Asst. Manager Desks	12	1	12	-	An area for the Manager and Assistant(s) Manager.	-	-	-											
Assigned Work Area	15	1	15	-	Open plan of work stations designated for Sport personnel.	-	-	-											
Hot Desks	6	1	6	-	Shared work stations.	-	-	-											
Work Area	12	1	12	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-											
Sport Information	20	1	20	25	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located in Athlete Area.	Enclosed space with waiting area and seating.	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J			J						R	IF
Athlete Lounge	100	1	100	125	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	-	Includes: seating area, lounge, Info & Help Desk, info terminal stations.	J			J						R	IF
Athlete Dressing, Locker, Shower, Toilet	40	4	160	200	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area.	Enclosed air-conditioned space. Number of athletes accommodated by size standard is sport specific. Male and Female facilities.	Assumes container units or existing space.	J			J						R	IF
IF & Sport Meeting Room	30	1	30	45	Meeting facility at the venue for the International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Shared meeting room area between IF & Sport to serve various meeting needs.	J			J						G	IF
Equipment Control	20	Varies	Varies	30 (each)	Area for equipment distribution to athletes.	Located adjacent to FOP or within close proximity.	1 for each range. An entrance and exit set-up to efficiently facilitate athlete needs (e.g. like a conveyor belt system).	-	J			J	I					R	IF
Equipment Storage	50	Varies	Varies	65 (each)	Storage area for rifles, pistols, and shotguns and their ammunition.	Located adjacent to FOP or within close proximity.	1 storage are for each range set-up. Additional consideration should be given to the extra kit that is required for rifle events.	Quantity of storage areas will vary depending on the range set-up. Separate spaces for ammunition and guns storage rooms. Local legislation will vary for storage area requirements.	I			F	I	I				R	IF
Repair Room	25	Varies	Varies	35 (each)	-	Located in Athlete Area.	-	Quantity may vary according to number of existing or constructed ranges.	I			F	I					R	IF
Call Area	40	1	40	70	Athlete waiting area.	Located in trap and skeet range.	Required for finals only.	-	I			F	I					R	IF
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	Reference should be made to ISSF guidelines for all FOP technical requirements.	-											
Playing Surface Dimensions or Area	-	-	-	-	-	-	-	10, 25, and 50m pistol/rifle events can be set-up in existing gymnasiums or warehouse facilities that may have the appropriate capacity levels.	F			I						R	IF
10m Range	800	1	800	1216	-	-	Size of shooting range including backstop. Indoor facility. 60 firing positions.	-											
25m Range	1860	1	1860	2263	-	-	Size of shooting range area including backstop. Open air with covered roof. 60 firing positions.	The 25m discipline can be shot on the 50m range. Range requirements: it is not necessary to have 2 ranges for 25m and 50m. An enclosed / indoor facility would be ideal for use year round.											
50m Range	4400	1	4400	5000	-	-	Size of shooting range area including backstop. Open air with covered roof. 80 firing positions.	See above.											
Finals Range	1100	1	1150	1250	-	-	Generally, built indoors and/or open setting for all three distances on one range (10, 25, 50). Size of shooting range area including backstop. Space for 60 targets at 10 and 50; at 25m a minimum of 8 groups of 5 targets each.	Not a requirement to have a separate or permanent finals hall as this can be set-up using the 50m range or it can be a completely temporary facility with temporary seating installations to increase to the appropriate capacity levels.											
Trap and Skeet Range	3465	3	10395	13770	-	-	The shooting area requires 3 ranges (the minimum).	-											
Vertical Height Requirement	2.8m	1	2.8m	-	-	-	A minimum requirement of 2.8m.	-											
Surface	-	-	-	-	-	-	-	-	J			J	I					R	IF

Sports Lighting - Technical	-	-	-	-	-	-	See Broadcast for lighting specifications.	-											
Athlete / Team Seating	-	-	-	-	A designated seating area for athletes.	-	-	-	J	I	J								
Same Sport	-	Varies	-	-	-	-	-	-	J	I	J							R	IOC,IF
Different Sport	-	Varies	-	-	-	-	-	-	I	I	F							R	IOC
Toilets - Athlete Area	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-	-	May be required for Sport Staff use. Quantity varies according to athlete numbers.				F						P	
Toilets - Near FOP	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-	Required if FOP is not located near Athlete Area.	Assumes temporary units. Quantity varies according to athlete numbers.				F						P	
International Federation																			
IF Area	60	1	60	70	Responsible for administering the respective sport competition, including: enforcement of the rules/regulations, operation and technical control of the overall competition.	Located in close proximity to accredited seating areas and range area.	Enclosed space.	Assumes container units or existing space.	I	I	F							R	IF
IF President's Office	15	1	15	-	-	-	-	-	I	I	F							R	IF
IF Secretary - General/Executive Director's Office	15	1	15	-	-	-	-	-	I		F							G	IF
Reception, Secretariat, Waiting & Work Area	30	1	30	-	-	-	-	-	I		F							G	IF
Jury & Appeals & Arbitration Room	30	1	30	45	This space is utilised for the resolution of protests and appeals after competition.	-	Enclosed space.	Assumes container units or existing space.	I		F							R	IF
Competition Committee Office	20	1	20	25	A meeting and work area for the competition committee.	-	Enclosed space.	Assumes container units or existing space.	I		F							G	IF
Officials Lounge	50	1	50	60	A rest area for officials.	-	Enclosed space.	Assumes container units or existing space.	J		J							G	IF
Referees Room	20	1	20	25	Area for referees.	Located in range areas.	Enclosed space.	Assumes container units or existing space.	I		F							G	IF
Technical Delegates Office & Work Area	15	1	15	20	Office area for Technical Delegates.	-	Enclosed space. 2 Technical Delegates.	Assumes container units or existing space.	I	I	F							R	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-	-	I	J	J							R	IOC,IF
Sport Presentation																			
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.											
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-			F							P	
Announcer Position	3	1	3	-	-	-	-	-			F							P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.				F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	16	1	16	20	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Telecommunication & Audio Visual																				
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F							P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F							P	
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F							P	
Audio Control Positions																				
	-	-	-	-	-	-	-	-				F						G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.												
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.												
Trap & Skeet Hut 1	2	1	2	4	Area for audio control equipment and announcer. System used by official to make announcement to athlete/shooter during competition.	At Hut 1 location as advised by Sport.	-	Number of ranges may vary depending on Sport requirements & venue planning												
Trap & Skeet Hut 2	2	1	2	4	-	At Hut 2 location as advised by Sport.	-	-												
Trap & Skeet Hut 3	2	1	2	4	-	At Hut 3 location as advised by Sport.	-	-												
Trap & Skeet Hut 4	2	1	2	4	-	At Hut 4 location as advised by Sport.	-	-												
Athlete Rest Area	2	1	2	4	Athlete Call Up PA system required for facilitate call athletes to range/FOP. Space required for amplifier/microphone.	In Rest Area as advised by Sport.	-	-												
Warm-Up Area	2	1	2	4	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-												
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-												
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	Venue and sport specific.												
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	Requirement based on deployment of Videoboard to ATH (mobile board).				F					G	P		
Wired Communications Control	4	1	4	8	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F					G	P		
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.				F							P	

SHOOTING

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Trap & Skeet Hut/Data Entry Locations	16	4	64	80	Position (4m2) for manual score data entry by officials at each Trap & Skeet range location (4 off).	Located adjacent to each Trap & Skeet range.	Cable pathways to Timing & Scoring Control & sport specific scoreboards for each Trap & Skeet Range.	Number of ranges may vary depending on Sport requirements & venue planning											
Target Range Hut 10m	16	1	16	20	Position for automated results data entry from Target Range.	Located adjacent to each Target Range.	Cable pathway to OVR room.	Number of targets may vary depending on Sport requirements & venue planning											
Target Range Hut 25m	16	1	16	20	-	-	-	-											
Target Range Hut 50m	16	1	16	20	Area back of house where data entry is performed into the OVR/Results System.	Sport Specific, but can be in warm-up or call areas.	-	Generally occurs Back of House, in Sport location.											
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Control Room - Trap and Skeet	30	1	30	38	Location for scoring collation from each range and results operations equipment & personnel.	Located in at Trap & Skeet finals range .	Cable access to each skeet range & OVR room.	Based on 4 x Target locations in ATH. SYD had 8 x Targets.											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.	I	F								P	
OVR Provider Work Area	20	1	20	25	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-											
IT Provider Work Area	18	1	18	23	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	F							G	P	
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	70	1	70	85	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	15	1	15	18	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	50	1	50	60	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F						G	P	
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-											

SHOOTING

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-											
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-											
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-											
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-											
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-											
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-											
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-											
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.											
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.											
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-											
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F						G	P

Ticketing																			
Ticket Box Office	30	1	30	75	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-					F						
Internal Ticket Sales Window(s)	10	1	10	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	10	1	10	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	18	1	18	36	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.					F					P	
Driver Staging	55	1	55	100	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.					F					P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	12	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-					F					P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F		I				G	IOC

Venue Development																			
Site Management Compound	348	1	348	520	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P	
Site Management Area	45	1	45	-	-	-	Enclosed space.	-											
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	18	1	18	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	9	1	9	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	35	1	35	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	55	1	55	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	30	1	30	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	30	1	30	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	30	1	30	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	60	1	60	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F						P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F						P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F						P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	45	1	45	70	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	15	1	15	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	6	1	6	-	Shared work stations.	-	-	-											
Work Space and Storage	12	1	12	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	30	1	30	40	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	15	1	15	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	100	1	100	120	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	120	1	120	150	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	76	1	76	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	175	1	175	210	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P	
END OF DOCUMENT

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Accreditation																				
Venue Accreditation Office	40	1	40	100	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										P	-	
Day Pass Issue & Problem Resolution Desk	10	1	10	-																
Work Area	12	1	12	-																
Manager Desk or Office & Storage	12	1	12	-																
Waiting Area	6	1	6	-																
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.				F						P	-	
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.				F								
Broadcast																				
Broadcast Compound	-	1	-	2500	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.												
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.				J		J				R	IOC	
Broadcast Manager Office	12	1	12	-		-	-	-	-				I		F				G	IOC
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-											
Technical Operations Centre	30	1	30	75	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.				I		F				R	IOC	
Broadcast Catering	105	1	105	122	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-												
Kitchen and Prep	15	1	15	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.											
Buffet Line and Dining	90	1	90	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.											
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements. Located in temporary structure. Assumes container/trailer unit or tent.												
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	-												
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-												
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters. Located in temporary structure. Assumes container/trailer unit or tent.												
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	-												
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-												
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.												
Toilets	1.5	4	6	18	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Commentator Control Room (CCR)	50	1	50	65	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.				I		F				R	IOC	
Broadcast Information Office (BIO)	12	1	12	15	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.				J		J				R	IOC	
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-				J		J				G	IOC	
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J			J	J			R	IOC	
Mixed Zone	20	1	20	120	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J			J	I			R	IOC, IF	
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.				I	J					R	IOC	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J			J	I			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J			J	J		R	IOC
Camera Position - Other	4	25	100	225	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J			J	I		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-					J	I	J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.					J	I	J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.					J	I	J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I	J	I			R	IOC
Catering																			
Catering Compound	394	1	394	600	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P	
Work Areas - Catering Management	24	1	24	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	12	1	12	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	4	152	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	50	1	50	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	54	1	54	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	50	1	50	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F						P	

TABLE TENNIS

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	20	1	20	25	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	12	1	12	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation & Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I									P	
Awards Podium Storage	8	1	8	12	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J				J	G	R	IOC	
Cleaning and Waste																				
Cleaning & Waste Compound	175	1	175	250	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.					F						P	
Vehicle Staging	50	1	50	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	50	1	50	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	3	45	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	1	15	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	15	1	15	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	An Office and storage area will be incorporated into the existing spaces (e.g. waiting area/reception).	J		J	J							R	IOC
Waiting Area/Reception	16	1	16	20	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer. Wash basin for hand sanitisation.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

TABLE TENNIS

Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P	

TABLE TENNIS

Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F					P		
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Dependant upon venue capacity.												
Language Services																				
Work Area / Desk	15	1	15	20	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J			I				G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	500	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	40	1	40	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	25	1	25	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	12	1	12	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	65	1	65	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	50	1	50	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	75	1	75	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	-	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	400	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	18	1	18	36	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.

Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.					F					P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	-	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition sch	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	1	2.2 x 6	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	50	1	50	75	An area where Medical provides services to athletes competing at the venue.	Located within the accredited Athlete Area.	Enclosed air-conditioned space.	Assumes container or existing space.	J	J	J					J		R	IF
Reception & Waiting	10	1	10	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	2	16	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	1	8	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J					J		R	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											
Spectator Medical	40	1	40	80	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed air-conditioned space. 1 per 20,000 spectators.	Assumes container unit or existing space.		I	F		I	I				P	
Reception & Waiting	10	1	10	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	8	1	8	-	Space for Medical workforce.	-	-	-											
Examination Area(s)	8	2	16	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	9	1	9	18	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.		I	F		I	I				P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.				F	I	I				P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Paved, graveled or grass area with fence, barricade or rope enclosure.	-				F	I	I				P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	I	J	F	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Merchandise																						
Office, Cash Room & Work Area	12	1	12	15		-	Enclosed space with secure entry.	Assumes container unit or existing space.							F						P	
Storage	15	1	15	20	An area to manage the retailing of all Olympic merchandise inside the venue.	-	-	Assumes storage containers or existing space. Units provided by vendor. Quantity and location decided by vendor and OCOG.						F							P	
Program Sales Stands/Booths	1	1	1	2		-	Area only.	Gross area is per each P.O.S. and includes service area and queue.						F							P	
Merchandise Points of Sale (POS)	6	Varies	Varies	18	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.					I		F							P	
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.					I	J	J					G	R	IOC	
Olympic Family Services																						
Olympic Family Lounge	162	1	162	370	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I						F				I	G	G	IOC
Welcome Desk & Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-															
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.															
Staff/Volunteer Room & Storage	9	1	9	-	On-call waiting area for Protocol staff and equipment storage.	-	-															
Dining & Lounge	90	1	90	-	Area for dining and lounge.	-	-															
Preparation/Buffer set-up/Beverage Area	45	1	45	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)															
Toilets	20	1	20	40	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	2 female, 2 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided							F						P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.							J	J						R	IOC
Press Operations																						
Venue Media Centre (VMC)	400	1	400	600	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 100 press and 20 photographers.	Assumes tent. Often a shared workroom with another sport in the same venue. This is a recommendation for Table Tennis as a stand alone sport.							F						R	IOC
Reception & Information Desk	18	1	18	-	Welcome desk at the entrance, for information distribution.	-	-															
Storage	4	1	4	-	Equipment storage.	-	-															
Press Manager Office	12	1	12	-	Operational work space.	-	-															
Photo Manager Office	12	1	12	-	Operational work space.	-	-															
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.															
Info Stations	20	1	20	-	Computer stations and printers.	-	-															
Press Work Room or Area	170	1	170	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.														
Photo Work Room or Area	35	1	35	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.															
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-															
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.														
Lounge/Catering Prep	70	1	70	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-															
Toilets	1.5	6	9	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided

F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Press Conference Room	100	1	100	210	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC	
Seating Area	60	1	60	-	An area for accredited press.	-	Seats and standing room.	-												
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-												
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-												
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-												
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F			I	I				
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I	I	F							R	IOC,IF	
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-												
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F						R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F							R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided												
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-												
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	Total number of expected photographers at medal sessions: 80. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J							R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I		I	F							G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	100	1	100	120	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.												
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	12	1	12	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	12	1	12	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	40	1	40	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	8	1	8	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.												
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												
Briefing and Break Area / Staging Area	75	1	75	-	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.												
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.												
Vehicle Screening & Sanitisation Area	377	1	377	500	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.												
Vehicle Queue	100	1	100	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	70	1	70	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	100	1	100	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70	-	70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.												
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-												
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.

Vehicle Permit Check Point and Queue	Varies	Varies	Varies	-	A control area where vehicles entering this exterior perimeter point will be required to display the proper Olympic vehicle permit for access to the venue.	Located outside the venue secure perimeter; normally on access roads to the venue.	Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.										R	IOC
Venue Perimeter Entrances & Security Screening/Search (Pedestrian)	-	-	-	-	Locations where constituent groups will enter through the secure perimeter of the competition venue and access various parts of the venue with an accreditation or a ticket.	Located at the venue secure perimeter.	Enclosed space for screening/search area positions.. Net area for each screening position will accommodate the following: 4 Wanding Stations, OR 1 Magnetometer with 2 Search Tables & 2 Wanding Stations, OR - 1 X-ray Device, 1 Magnetometer & 2 Search Tables.	Assumes tent with 2 retractable side walls. Gross area includes queue. Dependent upon spectator capacity and venue design.											
Athlete / Team	18	1-2	18-36	36-72	-	BOH.	-	-				F						R	IOC
Technical Officials, Judges & Referees	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with Athlete and/or Olympic Family.				F						G	IOC
Olympic Family (IOC, NOC, IF)	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with TO, ENG and/or Press.				F						P	
Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.											
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-											
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.				F	I						
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				J	J					P	
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wanding station).	-	I			F						P	
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.				F		I				P	
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.				F						P	
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				F	I					P	
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.											
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1m to 3m width, sometimes used as a secondary service vehicle exit point.	-											
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-											
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.				I	F				G	P	
Sponsor Services																			
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I	F					P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Sport Operations																			
Competition Management	45	1	45	70	A work area for Sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located close to Athlete Area and FOP; may be co-located within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space.	I				F					P	
Competition Manager & Asst. Manager Desks	12	1	12	-	An area for the Manager and Assistant(s) Manager.	-	-	-											
Assigned Work Area	15	1	12	-	Open plan of work stations designated for Sport personnel.	-	-	-											
Hot Desks	6	1	6	-	Shared work stations.	-	-	-											
Work Area	12	1	12	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-											
Tournament Control	10	1	10	15	An area in the venue for the OCOG Competition management to view the field of play while competition is taking place.	Located in the back of house area with a view overlooking the FOP.	-	-											
Sport Information	20	1	20	25	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located in Athlete Area.	Enclosed space with waiting area and seating.	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J		J							R	IF
Athlete Lounge	100	1	100	125	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	60-70 people.	Includes: seating area, lounge, Info & Help Desk, info terminal stations. A rest area may be required for athletes if the venue is located a long distance from the Olympic Village.	J		J							R	IF
Athlete Dressing, Locker, Shower, Toilet	20	6	120	160	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area.	Enclosed space. Separate male and female facilities may be required.	Assumes container units or existing space.	J		J							R	IF
IF & Sport Meeting Room	40	1	40	45	Meeting facility at the venue for the International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Daily meeting area and for ITTF Executive Committee meetings and ITTF Umpires meeting. Shared meeting room area between IF & Sport to serve various meeting needs.	J		J							G	IF
Gluing Area	25	1	25	35	An area where players can repair and service their equipment during the Olympic Games.	Located in close proximity to the FOP.	Enclosed space. Proper ventilation essential for work being performed.												
Gluing Control	20	1	20	25	-	Located in close proximity to the FOP.	Enclosed space.	-											
Area for:	50	1	50	80	Area where pre-competition requirements are conducted.	Located adjacent to and/or in close proximity to entry of FOP.	Open space for each area.	All areas are always combined together.	J		J							R	IF
Rule 61	-	-	-	-	-	-	-	-											
Umpire Waiting & Control	-	-	-	-	-	-	-	-											
Draw Coaches Seats	-	-	-	-	-	-	-	-											
Ball Selection Area	-	-	-	-	-	-	-	-											
FOP Equipment Storage	70	1	70	110	Storage of equipment required for competition.	Located adjacent to FOP or within close proximity.	Enclosed space.	-	I			F	I					R	IF
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	Reference should be made to ITTF guidelines for all FOP technical requirements.	-											
Playing Surface Dimensions or Area	-	-	-	1200	Specific area required for conducting the sport competition.	-	Court area is 16m x 8m = 128 x 4 courts = 512 Generally, 4 tables for competition and as elimination occurs the number of tables is reduced for finals.	Gross Area: includes FOP (total playing area), surrounding playing space, space for players, coaches, match officials, and Camera/photo area. See ITTF Requirements for air conditioned (AC) temperature control; requires testing and approval by ITTF.	F			I		I	I			R	IF
Surface	-	-	-	-	Type of playing or competition surface required.	-	Floor colour should be dark red or dark blue.	All flooring must be approved by ITTF.	J			J	I					R	IF
Orientation	-	-	-	-	Direction of FOP.	-	No direct sunlight onto FOP area; may require windows to be covered to prevent direct sunlight.	-	J			J	I					R	IF
Sports Lighting - Technical	-	-	-	-	-	-	See Broadcast for lighting specifications.	-											
Jury Platform	8 x 1.5	1	12	20	Area for Jury and TDs.	Located on FOP.	Elevated to have full view of FOP.	-	J			J	I		I	J		R	IF
Referees / Results Platform					Area for referees and information/results person.	Not required on FOP but in close proximity along FOP.	Elevated to have full view of FOP.	-											
Athlete Call Area	35	2	70	120	Area where athletes stage prior to their match.	Located immediately prior to entering the FOP area.	2 rooms required. 1st room w/ air conditioning; waiting area for athletes competing in the next match. 2nd room: an area for organising athletes prior to entering the FOP for their scheduled match (no air conditioning).	Recommend adding a TV w/ real-time results so athletes can view match currently being played.	I			F						R	IF

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	16	1	16	20	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

TABLE TENNIS

Telecommunication & Audio Visual																				
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I			F						P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I			F						P	
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I			F						P	
Audio Control Positions																				
	-	-	-	-	-	-	-	-					F					G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.												
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.												
Warm-Up Area	0	0	0	-	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-												
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-												
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-												
Video Board Control	0	0	0	-	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-					F					G	P	
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-					F					G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F						P	

TABLE TENNIS

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play - Statistics Tables	8	4	32	40	Areas/positions for results and/or statistics on the FOP.	Located at control table behind shooter line. Adjacent to Timing & Scoring.	-	May occur as a position on the FOP, or in a room with a view to the FOP.											
Field of Play - Technical/Jury Table	3	1	3	6	Area back of house where data entry is performed into the OVR/Results System.	Sport Specific, but can be in warm-up or call areas.	-	Generally occurs Back of House, in Sport location.											
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards, ball speed guns & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Field of Play (FOP)	8	8	64	80	Areas/positions for statistics calling & data entry into OVR system.	Located at each TT on FOP with sport statisticians. Located with event Scoring.	Cable pathway to Statistics Table.	Space requirements based on 4 x tables used in competition.											
Control Room	1.5/pp	1	1.5/pp	3/pp	Area/position for results data entry & Event Control operations.	Located at Technical Table on FOP with sport results & sport officials.	Cable pathway to Technical Table & Sport Specific Scoreboards.	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.	I	F								P	
OVR Provider Work Area	20	1	20	25	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-											
IT Provider Work Area	20	1	20	25	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	F							G	P	
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

TABLE TENNIS

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	80	1	80	100	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	15	1	15	18	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	50	1	50	60	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F						G	P	
Audio Visual Bulk Store	15	1	15	18	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-											

TABLE TENNIS

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-											
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-											
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-											
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-											
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-											
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-											
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-											
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.											
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.											
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-											
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F						G	P

TABLE TENNIS

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	30	1	30	75	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-					F						
Internal Ticket Sales Window(s)	10	1	10	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	10	1	10	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	18	1	18	36	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.					F					P	
Driver Staging	55	1	55	100	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.					F					P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	12	1	12	-	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-					F					P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F			I			G	IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.	I			F						G	IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.	I			F						P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F			I			P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F			I			P	
Press and Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J						P	
Security	4	-	-	32	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F		I				P	
Emergency Services	4	-	-	50	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F		I				P	

TABLE TENNIS

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Development																			
Site Management Compound	-	-	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P	
Site Management Area	60	1	60	-	-	-	Enclosed space.	-					F						
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	60	1	60	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	30	1	30	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	30	1	30	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F						P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F						P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F						P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											

TABLE TENNIS

Principles of Stakeholder Involvement:

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	-	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	-	-	-	-	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P	
END OF DOCUMENT																			

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation					
Accreditation																								
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																				
Work Area	15	1	15	-																				
Manager Desk or Office & Storage	12	1	12	-																				
Waiting Area	8	1	8	-																				
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F						P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Broadcast																								
Broadcast Compound	-	1	-	3500	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.																
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.																
Broadcast Manager Office	12	1	12	-		-	-	-	-															
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-															
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-																
Kitchen and Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Buffet Line and Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.																
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Commentator Control Room (CCR)	50	1	50	65	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.																
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.																
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-																
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J													
Mixed Zone	20	1	20	170	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J													
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.																

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J			J	I			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J			J	J		R	IOC
Camera Position - Other	4	20	80	180	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J			J	I		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-					J	I	J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.					J	I	J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.					J	I	J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I	J	I			R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F						P

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I		F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J				J	G	R	IOC	
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.					F						P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F						P	
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Dependant upon venue capacity.												
Language Services																				
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-			J	J			I				G	IOC
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-			J	J			I				G	IOC
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.												

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.					F					P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	Varies	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events) and competition format.	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	-	-	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J							R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J							S	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.			I	F	I					P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.			I	F	I					P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.				F	I					P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-			F	I						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	I	J	F	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Merchandise																						
Office, Cash Room & Work Area	12	1	12	15		-	Enclosed space with secure entry.	Assumes container unit or existing space.							F						P	
Storage	15	2	30	35	An area to manage the retailing of all Olympic merchandise inside the venue.	-	-	Assumes storage containers or existing space. Units provided by vendor. Quantity and location decided by vendor and OCOG.						F							P	
Program Sales Stands/Booths	1	1	1	2		-	Area only.							F							P	
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.				I		F							P	
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.					I	J	J					G	R	IOC	
Olympic Family Services																						
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I			I		F					I	G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-															
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.															
Staff/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol staff and equipment storage.	-	-															
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-															
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)															
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided						F							P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.						J	J							R	IOC
Press Operations																						
Venue Media Centre (VMC)	350	1	350	550	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 90 press and 25 photographers.	Assumes tent. This is assuming that Taekwondo is being held in one dedicated venue.						F							R	IOC
Reception & Information Desk	18	1	18	-	Welcome desk at the entrance, for information distribution.	-	-															
Storage	4	1	4	-	Equipment storage.	-	-															
Press Manager Office	12	1	12	-	Operational work space.	-	-															
Photo Manager Office	12	1	12	-	Operational work space.	-	-															
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.															
Info Stations	20	1	20	-	Computer stations and printers.	-	-															
Press Work Room or Area	150	1	150	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.														
Photo Work Room or Area	35	1	35	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.															
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-															
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.														
Lounge/Catering Prep	50	1	50	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-															
Toilets	1.5	6	9	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided														

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	I	J	F	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Press Conference Room	90	1	90	200	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I					F						R	IOC	
Seating Area	50	1	50	-	An area for accredited press.	-	Seats and standing room.	-														
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-														
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-														
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-														
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-						F			I	I				
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I			I		F						R	IOC,IF	
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-														
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	In an existing stadium or seating area: 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. Temporary Stands: 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.						I	F					R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.						I	F					R	IOC,IF	
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided														
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-														
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	60cm wide x 90cm deep per position, multi-row areas require 60cm riser per rows.	Power, Wireless and data cabling needed to photo positions on FOP.	J			I	J							R	IOC, IF	
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I			I	F							G	IOC	
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.											P	
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.							F					
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												P
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.					J	J						
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.					J	J						P
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.							I	F				P
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.									F		G	P
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-	I		F									P
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-	I		F									P
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.	I	I	F									P

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Vehicle Permit Check Point and Queue	Varies	Varies	Varies	-	A control area where vehicles entering this exterior perimeter point will be required to display the proper Olympic vehicle permit for access to the venue.	Located outside the venue secure perimeter; normally on access roads to the venue.	Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.										R	IOC
Venue Perimeter Entrances & Security Screening/Search (Pedestrian)	-	-	-	-	Locations where constituent groups will enter through the secure perimeter of the competition venue and access various parts of the venue with an accreditation or a ticket.	Located at the venue secure perimeter.	Enclosed space for screening/search area positions.. Net area for each screening position will accommodate the following: 4 Wanding Stations, OR 1 Magnetometer with 2 Search Tables & 2 Wanding Stations, OR - 1 X-ray Device, 1 Magnetometer & 2 Search Tables.	Assumes tent with 2 retractable side walls. Gross area includes queue. Dependent upon spectator capacity and venue design.											
Athlete / Team	18	1-2	18-36	36-72	-	BOH.	-	-				F						R	IOC
Technical Officials, Judges & Referees	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with Athlete and/or Olympic Family.				F						G	IOC
Olympic Family (IOC, NOC, IF)	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with TO, ENG and/or Press.				F						P	
Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.											
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-											
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.				F	I						
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				J	J					P	
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wanding station).	-	I			F							P
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.				F		I					P
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.				F							P
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				F	I						P
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.											
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1m to 3m width, sometimes used as a secondary service vehicle exit point.	-											
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-											
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.				I	F				G	P	
Sponsor Services																			
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I	F						P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Sport Operations																			
Competition Management	75	1	75	80	A work area for Sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located close to Athlete Area and FOP; may be co-located within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space.	I			F						P	
Competition Manager & Asst. Manager Desks	12	1	12	-	An area for the Manager and Assistant(s) Manager.	-	-	-											
Assigned Work Area	24	1	24	-	Open plan of work stations designated for Sport personnel.	-	-	-											
Hot Desks	15	1	15	-	Shared work stations.	-	-	-											
Work Area	24	1	24	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-											
Sport Information	16	1	16	24	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located in Athlete Area.	Enclosed space with a waiting area and seating.	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J			J						R	IF
Athlete Lounge	100	1	100	140	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	-	Includes: seating area, lounge, Info & Help Desk, info terminal stations.	J			J						R	IF
Athlete Dressing, Locker, Shower, Toilet	70	2	140	170	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area.	Enclosed space. Separate male and female facilities required.	Assumes container units or existing space.	J			J						R	IF
IF & Sport Meeting Room	30	1	30	45	Meeting facility at the venue for the International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Shared meeting room area between IF & Sport to serve various meeting needs. Large meeting area requirements can use the VOC Multi-purpose meeting room - See Venue Management.	J			J						G	IF
Sport Equipment Storage	32	1	32	42	Storage for athlete/team sport equipment.	Located adjacent to FOP or within close proximity.	-	Assumes container units or existing space.	J			J	I					R	IF
FOP Equipment & Maintenance Storage	32	1	32	42	Storage of FOP equipment and maintenance equipment.	Adjacent to sport equipment storage.	-												
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	Reference should be made to WTF guidelines for all FOP technical requirements.	-											
Playing Surface Dimensions or Area	144	1	144	-	-	-	Contest mat is 12m x 12m. Competition Platform = 50-60cm height and a 30 degree gradient.	-	F			I						R	IF
Total Required Area Dimensions or Area	400	1	400	-	Area includes FOP (contest area), safety area/safety zone, competition platform/boundary line.	-	Area is 20m x 20m, including 30 degree slope.	-	F			I						R	IF
Vertical Height Requirement	20	1	20	-	-	-	Minimum height over the FOP.	-	F			I	I					R	IF

Lounge - International Technical Officials	40	1	40	45	A rest area for officials.	-	24 judges and 20 officials.	Assumes container units or existing space.	J		J							G	IF
Officials Locker Room, Shower, Toilet	45	2	90	120	A change area for officials.	-	Separate male and female facilities.	-	I		F							R	IF
Technical Delegates Office & Work Area	15	1	15	20	Office area for Technical Delegates.	-	Enclosed space. 2 Technical Delegates.	-											
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-	-	I		J	J			J			R	IOC,IF
Sport Presentation																			
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.											
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-			F							P	
Announcer Position	3	1	3	-	-	-	-	-			F							P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.				F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	15	1	15	18	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Telecommunication & Audio Visual																				
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F							P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F							P	
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F							P	
Audio Control Positions																				
	-	-	-	-	-	-	-	-				F						G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.												
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.												
Warm-Up Area	2	1	2	4	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-												
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-												
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-												
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F						G	P	
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F						G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security. Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided. Information based on 1 x Mat only for competition.	-	I	I	I	F						R	IF, Swatch
Field of Play Control Table	3	1	3	6	Location for event scoring & timing operations, equipment & personnel.	Position adjacent to Mat.	Cable pathway to sport specific scoreboards & Technical Table.	-											
Field of Play - Technical/Jury Table	3	1	3	6	Location for Event management operations.	Position located on FOP with sport officials.	Cable pathway to Technical Table & sport specific scoreboards.	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.										P	
OVR Provider Work Area	30	1	30	38	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-											
IT Provider Work Area	20	1	20	25	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.										G	P
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	60	1	60	75	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	15	1	15	18	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	30	1	30	38	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F						G	P	
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-												
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-												
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-												
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-												
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-												
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-												
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-												
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.												
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.												
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-												
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F						G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.											P
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.											P
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.											P
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-											P
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J								P
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J								P
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.											G IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.											G IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.	I		F								G IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.											P
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
Accessible	-	-	-	-	-	-	-	Part of Spectator total.											P
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F							P
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.											P
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.											P
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J							P
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.											P
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.											P
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.											P
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-											P

Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.		I			F					P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											
Venue Development																			
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.					F					P	
Site Management Area	60	1	60	-	-	-	Enclosed space.	-											
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.		I			F					P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-		I			F					P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below. Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation				
Accreditation																							
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																			
Work Area	15	1	15	-																			
Manager Desk or Office & Storage	12	1	12	-																			
Waiting Area	8	1	8	-																			
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F					P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Broadcast																							
Broadcast Compound	-	1	-	3500	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.															
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.															
Broadcast Manager Office	12	1	12	-		-	-	-	-														
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-														
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Broadcast Catering	140	1	140	180		Located inside Broadcast compound.	Enclosed space.	-	-														
Kitchen and Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Buffet Line and Dining	120	1	120	-	Dining and break area for broadcast personnel.	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.															
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Commentator Control Room (CCR)	55	1	55	70	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.															
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.															
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-															
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J												
Mixed Zone	10-15 linear mtrs.	1	10-15 linear mtrs.	170	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J												
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.

Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J			J	I			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J			J	J		R	IOC
Camera Position - Other	4	20	80	180	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Only 15 positions required for Court 1 facility. Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J			J	I		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-				J	I		J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.				J	I		J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.				J	I		J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I		J	I		R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity.										P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Gross area includes snow removal access.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	Assumes existing space or container.											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.			I		F					P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-			I		F					P

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I		F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J				J	G	R	IOC	
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.											P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P

Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F						P	
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Dependant upon venue capacity.												
Language Services																				
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-			J	J			I			G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-			J	J			I			G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.

Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.					F					P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	Varies	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events) and competition format.	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	-	-	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J							R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J							S	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.			I	F	I					P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.			I	F	I					P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.				F	I					P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-			F	I						P

Merchandise																						
Office, Cash Room & Work Area	12	1	12	15		-	Enclosed space with secure entry.	Assumes container unit or existing space.							F						P	
Storage	15	2	30	35	An area to manage the retailing of all Olympic merchandise inside the venue.	-	-	Assumes storage containers or existing space. Units provided by vendor. Quantity and location decided by vendor and OCOG.						F							P	
Program Sales Stands/Booths	1	1	1	2		-	Area only.	Gross area is per each P.O.S. and includes service area and queue.						F							P	
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.					I		F							P	
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.						I	J	J					G	R	IOC
Olympic Family Services																						
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests. Area to greet Olympic Family and respond to transport requests.	-	Enclosed space.	Assumes tent.	I				I	F					I	G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-		-	-															
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.															
Staff/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol staff and equipment storage.	-	-															
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-															
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)															
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided							F						P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.						J	J							R	IOC
Press Operations																						
Venue Media Centre (VMC)	600	1	600	800	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 155 press and 25 photographers.	Assumes tent. This space is calculated for a Tennis venue where all matches are being played on central and outside courts.							F						R	IOC
Reception & Information Desk	24	1	24	-	Welcome desk at the entrance, for information distribution.	-	-															
Storage	6	1	6	-	Equipment storage.	-	-															
Press Manager Office	12	1	12	-	Operational work space.	-	-															
Photo Manager Office	12	1	12	-	Operational work space.	-	-															
Olympic News Service (ONS) Work Room or Area	35	1	35	-	Operational work space.	-	Enclosed space.															
Info Stations	28	1	28	-	Computer stations and printers.	-	-															
Press Work Room or Area	240	1	240	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.														
Photo Work Room or Area	50	1	50	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.															
Photographers Check-in & Photo Bib Distribution	12	1	12	-	Area where photographers register and receive/return photo bibs.	-	-															
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.														
Lounge/Catering Prep	100	1	100	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-															
Toilets	1.5	8	12	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided

Press Conference Room	150	1	150	280	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC	
Seating Area	100	1	100	-	An area for accredited press.	-	Seats and standing room.	-												
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-												
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-												
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-												
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F			I	I				
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF	
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-												
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F						R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F							R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided												
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-												
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	Key positions located on the FOP.	Total number of expected photographers at medal sessions: 80. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J							R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Placed at corners or ends in seating areas.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I		I	F							G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.										P		
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.							F					
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-							J	J			P	
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.												
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.						J	J			P		
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.							I	F			P	
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.							F		G	P		
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-	I		F					I		P		
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-	I		F					I		P

Sport Information	60	1	60	70	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located in Athlete Lounge area	Area with a desk located in the Athlete Lounge.	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J			J						R	IF
Player Welcome Area	150	1	150	175	An area where players, player escorts and officials gather when each match is called to go to court. Also, it serves as the location where team officials reserve times for the training courts.	Located in the Athlete area with easy access to FOP and back of house areas.	-	-	J			J						R	IF
Athlete Lounge	560	1	560	650	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	Enclosed space.	Includes: seating area, lounge, Info & Help Desk, info terminal stations. Sport Information is co-located in the same area.	J			J						R	IF
Athlete Dressing, Locker, Shower, Toilet	280	2	560	650	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area.	Enclosed space. Male and female facilities.	Assumes container units or existing space.	J			J						R	IF
IF & Sport Meeting Room	30	1	30	45	Meeting facility at the venue for the International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Shared meeting room area between IF & Sport to serve various meeting needs.	J			J						G	IF
Sport Equipment Storage	150	1	150	200	Storage for sport equipment.	Located adjacent to FOP or within close proximity.	Enclosed space.	Temporary unit (tent) or existing space. Preferably a main storage area and 2 smaller storage areas to service the additional courts. Athlete equipment is stored with the athletes in the athlete change room.	J			J	I					R	IF
FOP Equipment Storage	50	1	50	75	Storage of equipment required for competition and other material/products (e.g. water) used during the competition by players.	Located adjacent to FOP or within close proximity.	Equipment for sport stored close to FOP - e.g. Umpires Chairs, Nets.	-	I			F	I					R	IF
Laundry Service and Towels	20	1	20	25	Area where towels can be laundered.	-	Enclosed space.	Higher volume during the early stages of competition.	J			J						R	IF
Ball Persons Areas	50	3	150	200	An area where ball persons can change and relax while working at the venue.	Located in BOH and close proximity to FOP.	1 Ball Persons - lounge. 1 Ball Persons - male change area. 1 Ball Persons - female change area.	-	J			J						R	IF
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	Reference should be made to ITF guidelines for all FOP technical requirements.	-											
Playing Surface Dimensions or Area	263	Varies	263	410	-	-	10 match courts for Olympic competition. 32m x 8.23m. Total area required is 32m x 12.8m. Each side of the FOP/court there shall be a space behind each base line of a minimum of 8.23m and sides are 4.57m. If the courts are side by side the space between must be a minimum of 10.97m.	-	F			I						R	IF
Surface	-	-	-	-	-	-	Refer to ITF Standards; same as a grand slam event.	-	F			I						R	IF
Orientation	-	-	-	-	-	-	North - South Axis.	-	J			J	I					R	IF
Sports Lighting - Technical	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Toilets - Athlete Area	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-	-	May be required for Sport Staff use. Quantity varies according to athlete numbers.				F						P	
Toilets - Near FOP	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-	Required if FOP is not located near Athlete Area.	Assumes temporary units. Quantity varies according to athlete numbers.				F						P	
International Federation																			
IF Area	180	1	180	85	Responsible for administering the respective sport competition, including: enforcement of the rules/regulations, operation and technical control of the overall competition.	Located in close proximity to accredited seating areas.	Enclosed space.	Assumes container units or existing space.	I	I	F							R	IF
IF President's Office	15	1	15	-	-	-	-	-	I	I	F							R	IF
IF Secretary - General/Executive Director's Office	15	1	15	-	-	-	-	-	I		F							G	IF
Reception, Secretariat, Waiting & Work Area	150	1	150	-	An area where IF staff work directly with team officials/players for meal voucher and ticket distribution.	-	-	-	I		F							G	IF
Jury of Appeals Room	20	1	20	20	This space is utilised for the resolution of protests and appeals after competition.	-	Enclosed space.	Assumes container units or existing space.	I		F							R	IF
ITF Tournament Director Office	30	1	30	35	Area for tournament director and workforce.	-	Enclosed space. Office and work area.	See Technology for Public Address Announcer Area, Sound Systems Control Room, Results Print Room, Timing Control Room.	J		J							R	IF
Referees Room	40	1	40	50	Area for head referee and assistant referees. Also for staff who are responsible for booking/allocating practice courts.	-	Enclosed space.	Assumes container units or existing space.	I		F							R	IF
Lounge - Umpires & Linesman	350	1	350	400	Rest area for officials.	-	Enclosed space.	Assumes container units or existing space. Higher volume of umpires and linesman in the early stages of competition.	J		J							G	IF
Umpires & Linesman - Locker Room	50	1	50	75	A change area for officials.	-	Shower, toilets, change areas. Separate Male and Female facilities.	Assumes container units or existing space.	I		F							R	IF
Technical Delegates Office & Work Area	15	1	15	20	Office area for Technical Delegates.	-	Enclosed space. 2 Technical Delegates.	Assumes container units or existing space.	I	I	F							R	IF
Chief of Umpires Office	20	1	20	25	Office for chief umpire.	-	Enclosed space.	Assumes container units or existing space.	I		F							R	IF
Referees Meeting Room	20	1	20	25	Meeting area for referees and chair umpires.	Located adjacent to the Referees room.	Enclosed space.	Assumes container units or existing space.	I	I	F							R	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-	-	I	J	J							R	IOC,IF
Sport Presentation																			
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.											
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-			F							P	
Announcer Position	3	1	3	-	-	-	-	-			F							P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.				F						P	

TENNIS

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	I	J	F	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Technology Operations																						
Technology Help Desk	20	1	20	25	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-						F							P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-						F						G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.														
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.														
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.														
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.														
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.														
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.														
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.														
Radio Distribution Room (RDR)	20	1	20	25	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).			I			F							P	
Information Technology																						
Computer Equipment Room (CER)	16	1	16	20	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.				I		F						G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.						F						G	P	

TENNIS

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Telecommunication & Audio Visual																			
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F						P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER.	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F						P	
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F						P	
Audio Control Positions	-	-	-	-	-	-	-	-				F					G	P	
Field of Play - Courts 4-9	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.											
Field of Play - Courts 1-3	4	1	4	8	-	-	-	-											
Field of Play - Centre/Main Court	4	1	4	8	-	-	-	-											
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.											
Warm-Up Area	0	0	0	-	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-											
Technical Operations	2	1	2	4	PA systems required for Technical Operations area. Space required for amplifier/microphone.	Location as required by SPT.	-	-											
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-											
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-											
Video Board Control	0	0	0	-	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F					G	P	
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	Two systems may be required if one cannot sufficiently provided communications to meet requirements across Preliminaries, Finals and Show Court.				F					G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment. Three areas may be required if one cannot sufficiently provided space for equipment supporting both Preliminaries, Semi Finals and Finals.				F						P	

TENNIS

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play - Courts 4-9	12	6	72	85	Areas/positions for results and/or statistics on the FOP.	FOP located at Control Table with sport officials.	Cable access to sport specific scoreboards & OVR room	May occur as a position on the FOP, or in a room with a view to the FOP.											
Field of Play - Courts 1-3	6	3	18	23	-	-	-	-											
Field of Play - Centre/Main Court	2	1	2	4	-	-	-	-											
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	As noted below.	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards, ball speed guns & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided. Based on 10 courts used for Tennis competition.		I	I	I	F						R	IF, Swatch
Field of Play - Courts 4-9	12	6	72	85	-	FOP located at Control Table with sport officials.	-	-											
Field of Play - Courts 1-3	6	3	18	23	Includes position for "ball speed gun" control for courts 1 & 2 only.	-	-	-											
Field of Play - Centre/Main Court	2	1	2	4	Includes position for "ball speed gun" control.	-	-	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.					I	F				P	
OVR Provider Work Area	30	1	30	38	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	Space required in OVR to support RTDS equipment.	-											
IT Provider Work Area	18	1	18	23	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	4	1	4	8	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.		I	F							G	P	
Scoreboard Control - Centre/Main Court	2	1	2	4	-	-	-	-											
Scoreboard Interface - Centre/Main Court	2	1	2	4	-	-	-	-											

TENNIS

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	160	1	160	190	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F				P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F						G	P
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F						G	P
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F							G	P
Reprographic Bulk Storage Area	30	1	30	38	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F						G	P
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F							G	P
Timing & Scoring Bulk Store	50	1	50	60	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F							G	P
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F						G	P
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-

F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-												
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-												
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-												
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-												
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-												
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-												
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-												
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.		I		F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.												
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.		I		F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.												
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.		I		F						G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-												
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.		I		F						G	P

Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.										P	
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.										P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-										P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F						G	IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.			I	F						G	IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F						P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F						P	
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J						P	
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F						P	
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F						P

Venue Development																			
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P	
Site Management Area	60	1	60	-	-	-	Enclosed space.	-											
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F						P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F						P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F						P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											

TENNIS

Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P	
END OF DOCUMENT																			

Space (Sub-space)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation					
Accreditation																								
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																				
Work Area	15	1	15	-																				
Manager Desk or Office & Storage	12	1	12	-																				
Waiting Area	8	1	8	-																				
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F					P	-					
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Broadcast																								
Broadcast Compound	-	1	-	3000	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.																
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access.					J		J			R	IOC					
Broadcast Manager Office	12	1	12	-		-	-	-	Assumes container unit.					I		F			G	IOC				
Work Room, Assigned & Unassigned Desks	48	1	48	-		-	-	-																
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.					I		F			R	IOC					
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-																
Kitchen & Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Buffet Line & Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.																	
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.																	
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.																
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Secondary Broadcast Compound	-	-	-	2000	Serves as a secondary unit to the main compound to house various broadcast technical needs that are required for Broadcast to cover the full competition FOP or area.	Located adjacent to FOP.	Area only. Required on venues where size of FOP or location of Primary Compound exceeds cabling capabilities.	Specific elements are venue/sport specific.					J		J			R	IOC					
Toilets	1.5	2	3	9	Toilet units designated for broadcast personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Commentator Control Room (CCR)	45	1	45	60	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.					I		F			R	IOC					
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.					J		J			R	IOC					
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-					J		J			G	IOC					
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J		J	J				R	IOC					
Mixed Zone	20	1	20	170	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J		J	I				R	IOC, IF					

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.			I	J						R	IOC
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J							
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J						R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions. The primary source of camera positions are the use of helicopters and boats.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J						R	IOC
Camera Position - Other	4	30	120	270	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions. The primary source of camera positions are the use of helicopters and boats.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J						R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-										G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.										G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.										G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J						R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.					I		F			P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.			I		F					P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-			I		F					P

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I		F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J				J	G	R	IOC	
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.											P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.										P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.										P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.										P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.										P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.										P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.										P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.										P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators										P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.										P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-										P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.										P	
Hand Wash Stations	1	Varies	Varies	20	A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.										P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F					P		
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Dependant upon spectator capacity.												
Language Services																				
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J			I				G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.												

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.										P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	Varies	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events) and competition format.	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	-	-	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J							R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Athlete Massage Area	-	-	-	-	-	-	See Sport Operations.	-	J	J	J					J		R	IF
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J					J		R	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											R
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.			I	F	I					P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.			I	F	I					P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.										P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-				F	I					P

Merchandise																						
Office, Cash Room & Work Area	12	1	12	15		-	Enclosed space with secure entry.	Assumes container unit or existing space.							F						P	
Storage	15	2	30	35	An area to manage the retailing of all Olympic merchandise inside the venue.	-	-	Assumes storage containers or existing space. Units provided by vendor. Quantity and location decided by vendor and OCOG.						F							P	
Program Sales Stands/Booths	1	1	1	2		-	Area only.							F							P	
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.				I		F							P	
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.					I	J	J					G	R	IOC	
Olympic Family Services																						
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests. Area to greet Olympic Family and respond to transport requests.	-	Enclosed space.	Assumes tent.	I			I		F					I	G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-		-	-															
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.															
Staff/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol staff and equipment storage.	-	-															
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-															
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)															
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided						F							P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.						J	J							R	IOC
Press Operations																						
Venue Media Centre (VMC)	600	1	600	800	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 110 press and 30 photographers.	Assumes tent. As a two day event, media centre is often a temporary structure.						F							R	IOC
Reception & Information Desk	24	1	24	-	Welcome desk at the entrance, for information distribution.	-	-															
Storage	6	1	6	-	Equipment storage.	-	-															
Press Manager Office	12	1	12	-	Operational work space.	-	-															
Photo Manager Office	12	1	12	-	Operational work space.	-	-															
Olympic News Service (ONS) Work Room or Area	35	1	35	-	Operational work space.	-	Enclosed space.															
Info Stations	28	1	28	-	Computer stations and printers.	-	-															
Press Work Room or Area	240	1	240	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.														
Photo Work Room or Area	50	1	50	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.															
Photographers Check-in & Photo Bib Distribution	12	1	12	-	Area where photographers register and receive/return photo bibs.	-	-															
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.														
Lounge/Catering Prep	100	1	100	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-															
Toilets	1.5	8	12	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided

I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Press Conference Room	150	1	150	280	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC	
Seating Area	100	1	100	-	An area for accredited press.	-	Seats and standing room.	-												
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-												
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-												
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-												
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F			I	I				
Mixed Zone	25 linear mtrs.	1	25 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF	
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-												
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F						R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F							R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided												
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-												
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	Motor cycle carries pool photographer on the FOP.	Numbers vary according to course/competition management. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J							R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Located at start/finish line and along course.	Special photo stand may need to be built at start/finish. See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I		I	F							G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.										P		
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.							F					
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-											P	
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.					J	J						
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.					J	J					P	
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.							I	F			P	
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.							F			G	P	
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-	I		F								P	
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-	I		F								P	
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.	I	I	F								P

Vehicle Permit Check Point and Queue	Varies	Varies	Varies	-	A control area where vehicles entering this exterior perimeter point will be required to display the proper Olympic vehicle permit for access to the venue.	Located outside the venue secure perimeter; normally on access roads to the venue.	Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.										R	IOC
Venue Perimeter Entrances & Security Screening/Search (Pedestrian)	-	-	-	-	Locations where constituent groups will enter through the secure perimeter of the competition venue and access various parts of the venue with an accreditation or a ticket.	Located at the venue secure perimeter.	Enclosed space for screening/search area positions.. Net area for each screening position will accommodate the following: 4 Wanding Stations, OR 1 Magnetometer with 2 Search Tables & 2 Wanding Stations, OR - 1 X-ray Device, 1 Magnetometer & 2 Search Tables.	Assumes tent with 2 retractable side walls. Gross area includes queue. Dependent upon spectator capacity and venue design.											
Athlete / Team	18	1-2	18-36	36-72	-	BOH.	-	-				F						R	IOC
Technical Officials, Judges & Referees	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with Athlete and/or Olympic Family.				F						G	IOC
Olympic Family (IOC, NOC, IF)	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with TO, ENG and/or Press.				F						P	
Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.											
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-											
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.				F	I						
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				J	J					P	
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wanding station).	-	I			F							P
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.				F		I					P
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.				F							P
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				F	I						P
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.											
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1m to 3m width, sometimes used as a secondary service vehicle exit point.	-											
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-											
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.				I	F				G	P	
Sponsor Services																			
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I	F						P

Sport Operations																			
Competition Management	30	1	30	50	A work area for Sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located close to Athlete Area and FOP; may be co-located within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space.	I			F						P	
Competition Manager & Asst. Manager Desks	12	1	12	-	An area for the Manager and Assistant(s) Manager.	-	-	-											
Work Area	18	1	18	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-											
Sport Information	20	1	20	25	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located in Athlete Area.	-	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J		J							R	IF
Athlete Lounge	100	1	100	150	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	-	Includes: seating area, lounge, Info & Help Desk, info terminal stations.	J		J							R	IF
Athlete Massage Area	100	1	100	175	-	Start and Finish area.	Massage tables with privacy screening.	A secondary facility that may be necessary for team and athlete massage. Assumes temporary units or tent.	J	J	J							R	IF
Athlete Dressing, Locker, Shower, Toilet	30	1	30	50	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area, close to lounge and storage area.	-	Assumes container units or existing space.	J		J							R	IF
IF & Sport Meeting Room	30	1	30	45	Meeting facility at the venue for the International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Shared meeting room area between IF & Sport to serve various meeting needs.	J		J							G	IF
Sport Equipment/Bike Storage/Service	60	1	60	100	A storage area for athlete's bicycles.	Located close proximity to transition area and/or athlete lounge.	A secure area for bicycle and bicycle racks.	Assumes tent.	I		F	I						R	IF
FOP Equipment Storage	50	1	50	65	A storage area for field of play equipment (swim bouys, bike stands, barricades, water coolers, carpet, cones)	Located in close proximity to each FOP.	Enclosed, secure space.	Space should be easily accessible by vehicle.	I		F	I						R	IF
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	Reference should be made to ITU guidelines for all FOP technical requirements.	-											
Warm-up Surface Dimensions or Area	-	-	-	-	-	-	-	-	F		I		I	I				R	IF
Swim	1500	1	1500	-	-	Lake or ocean.	A minimum depth of 1 metre. A distance of 300 metres is required to the first turn buoy; with a maximum of 8 corners (curved, no angles).	Strict water quality tests: e-coli and fecal coliform.											
Start Platform	120	1	120	-	-	Swim course start area.	Swim start: a platform dimension of 60m x 2m, construction design should be stable.	-											
Exit Platform	60	1	60	-	-	Swim course finish area.	-	-											
Bike	40 000	1	40 000	-	-	-	Bike Course: requires a minimum width of 5 metres; 6 to 8 laps to total 40km; with a minimum of 1 hill with an 8% gradient or more, plus technical corners.	-											
Run	10 000	1	10 000	-	-	-	Run: requires a minimum width of 3 metres. 3 to 4 laps to total 10km with a minimum of 1 hill of 8-10% gradient, plus technical corners.	Floating pontoons are not allowed.											
Run Finish Gantry	3m	1	3m	-	-	FOP Finish Area.	3m width.	-											
Run Finish Area	300	1	300	-	-	FOP Finish Area.	Straight area to finish-line; a minimum of 100m in length with no corners.	-											
Transition Area	270	1	270	-	-	Located after swim and bike finish area.	An area of 30m x 9m, carpeted with 1 metre per athlete and free standing bike racks and .45 x .30 x .24 equipment boxes.	Mount and dismount line required - .3m wide - yellow material. Generally, only 1 area required (transition for both bike and run).

International Federation																			
IF Area	-	-	-	-	Responsible for administering the respective sport competition, including: enforcement of the rules/regulations, operation and technical control of the overall competition.	Located in close proximity to accredited seating areas.	Enclosed space.	Assumes container units or existing space.	I		I	F						R	IF
IF President's Office	15	1	15	20	-	-	-	-	I		I	F						R	IF
Referees Room	50	1	50	70	Area for ITOs and NTOs to meet.	-	Enclosed space.	Assumes temporary unit. Space is only used pre-event and post-event and not during race day(s).	I			F						R	IF
Jury Room	-	-	-	-	This space is utilised for the resolution of protests and appeals after competition.	Located IF area.	Enclosed space for hearings.	Use of Technical Delegates office and work area can be used for jury meetings.											
Technical Delegates Office & Work Area	15	1	15	20	Office area for Technical Delegates.	-	Enclosed space. 2 Technical Delegates.	-	I		I	F						R	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-	-	I		J	J				J		R	IOC,IF
Sport Presentation																			
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.											
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-				F						P	
Announcer Position	3	1	3	-	-	-	-	-			F							P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.				F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	20	1	20	25	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	20	1	20	25	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Telecommunication & Audio Visual																				
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F							P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER.	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F							P	
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F							P	
Audio Control Positions																				
	-	-	-	-	-	-	-	-				F						G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.												
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.												
Warm-Up Area	2	1	2	4	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	-												
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-												
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-												
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F						G	P	
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F						G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F						P	

TRIATHLON

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play	0	0	0	-	Areas/positions for results and/or statistics on the FOP.	Ideally located with Timing & Scoring Team, Sport Results Team and Officials.	-	May occur as a position on the FOP, or in a room with a view to the FOP.											
Back of House	0	0	0	-	Area back of house where data entry is performed into the OVR/Results System.	Sport Specific, but can be in warm-up or call areas.	-	Generally occurs Back of House, in Sport location.											
Timing and Scoring Position	SEE OVR Room			-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Field of Play (FOP)	0	0	0	-	-	-	-	-											
Control Room	0	0	0	-	-	-	-	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations & Timing & Scoring Operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff. View of Finish Line required.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.				F						P	
OVR Provider Work Area	30	1	30	38	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	Cable access to transponder/transition areas & start position.	-											
IT Provider Work Area	20	1	20	25	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	4	1	4	8	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.				F					G	P	
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	Varies	1	Varies	-	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F				P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F						G	P
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F						G	P
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F							G	P
Reprographic Bulk Storage Area	15	1	15	18	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F						G	P
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F							G	P
Timing & Scoring Bulk Store	30	1	30	38	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F							G	P
Audio Visual Bulk Store	15	1	15	18	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F						G	P
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-

F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-												
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-												
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-												
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-												
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-												
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-												
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-												
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.												
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.												
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-												
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F						G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.											P
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.											P
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.											P
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-											P
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J								P
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J								P
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.											G IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.											G IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.	I		F								G IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.											P
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.	I		F								P
Accessible	-	-	-	-	-	-	-	Part of Spectator total.											P
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F							P
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.											P
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.											P
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J							P
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.											P
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.											P
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.											P
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I		F								P

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.		I			F					P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											
Venue Development																			
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.					F					P	
Site Management Area	60	1	60	-	-	-	Enclosed space.	-											
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P

Accreditation																							
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																			
Work Area	15	1	15	-																			
Manager Desk or Office & Storage	12	1	12	-																			
Waiting Area	8	1	8	-																			
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F					P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.							F								
Broadcast																							
Broadcast Compound	-	1	-	3500	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.															
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.											R	IOC			
Broadcast Manager Office	12	1	12	-		-	-	-	-														
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-														
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											R	IOC			
Broadcast Catering	140	1	140	180		Located inside Broadcast compound.	Enclosed space.	-	-														
Kitchen and Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Buffet Line and Dining	120	1	120	-	Dining and break area for broadcast personnel.	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements. Located in temporary structure. Assumes container/trailer unit or tent.															
Work Area(s)	20	Varies	Varies	-		-	-	Enclosed space.	-														
Mobile Unit(s)	65	Varies	Varies	-		-	-	Enclosed space.	-														
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters. Located in temporary structure. Assumes container/trailer unit or tent.															
Work Area(s)	20	Varies	Varies	-		-	-	Enclosed space.	-														
Mobile Unit(s)	65	Varies	Varies	-		-	-	Enclosed space.	-														
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.															
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Commentator Control Room (CCR)	60	1	60	75	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.											R	IOC			
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.											R	IOC			
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-											G	IOC			
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J								R	IOC			
Mixed Zone	20	1	20	170	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	<u>Gross area</u> includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J								R	IOC, IF			
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.											R	IOC			

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J			J	I			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J			J	J		R	IOC
Camera Position - Other	4	25	100	225	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions (e.g. crane camera) may vary according to actual venue/permanent seating setup. All positions/functions need approval by the FIVB.	I		I	J			J	I		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-				J	I		J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.				J	I		J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.				J	I		J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I		J	I		R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity.										P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Gross area includes snow removal access.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	Assumes existing space or container.											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.			I		F					P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-			I		F					P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ceremonies																			
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-			I	F						P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.			I	F						P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-											
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.											
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.											
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-											
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I	F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F						P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J				J	G	R	IOC
Cleaning and Waste																			
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.				F						P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-											
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-											
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).											
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.											
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.											
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-											
Doping Control																			
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J	J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-											
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).											
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).											
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).											
Office / Storage	12	1	12	15	Wash basin for hand sanitisation.	-	Enclosed space. Secure storage.	-											
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-											
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J						R	IOC

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.										P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P

Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I		F						P		
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Dependant upon venue capacity.												
Language Services																				
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J			I				G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.												

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.										P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	Varies	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events) and competition format.	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	-	-	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J							R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J							S	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.		I	F	I						P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.		I	F	I						P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.				F	I					P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-			F	I						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation		
Merchandise																					
Office, Cash Room & Work Area	12	1	12	15	An area to manage the retailing of all Olympic merchandise inside the venue.	-	Enclosed space with secure entry.	Assumes container unit or existing space.					F					P			
Storage	15	2	30	35		-	-	Assumes storage containers or existing space.					F						P		
Program Sales Stands/Booths	1	1	1	2		-	Area only.	Units provided by vendor. Quantity and location decided by vendor and OCOG.					F						P		
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)		Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.					I		F			P		
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.	-					I	J	J			G	R	IOC	
Olympic Family Services																					
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.					I		F			I	G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-	-													
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.	-													
Staff/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol staff and equipment storage.	-	-	-													
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-	-													
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)	-													
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided											P		
Protocol flags	-	-	-	-	-	-	See Look of the Games.	-											R	IOC	
Press Operations																					
Venue Media Centre (VMC)	450	1	450	650	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 120 press and 30 photographers.	Assumes tent.											R	IOC	
Reception & Information Desk	18	1	18	-	Welcome desk at the entrance, for information distribution.	-	-	-													
Storage	4	1	4	-	Equipment storage.	-	-	-													
Press Manager Office	12	1	12	-	Operational work space.	-	-	-													
Photo Manager Office	12	1	12	-	Operational work space.	-	-	-													
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.	-													
Info Stations	20	1	20	-	Computer stations and printers.	-	-	-													
Press Work Room or Area	200	1	200	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.													
Photo Work Room or Area	55	1	55	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.	-													
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-	-													
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.													
Lounge/Catering Prep	70	1	70	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-	-													
Toilets	1.5	8	12	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided													

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
IF Press Delegate Room	-	-	-	-	-	-	See International Federation section for details.	-											
Press Conference Room	150	1	150	280	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC
Seating Area	100	1	100	-	An area for accredited press.	-	Seats and standing room.	-											
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-											
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-											
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-											
Backdrop - Press Conference Room	-	-	-	-	-	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	See Look for details.	-				F							
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	-	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-											
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to mixed zone.	In an existing stadium or seating area: 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. Temporary Stands: 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F						R	IOC,IF
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F						R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided											
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-											
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	Peak photo numbers for Volleyball estimated at 100. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I		I	F						G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																						
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.										P				
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-														
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-														
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-														
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.														
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-														
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-														
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-														
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.										F				
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												P		
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.														
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.												P		
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.												P		
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-														
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-														
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.														
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-														
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.														
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-														
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.														
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.												F	G	P
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-														
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-	I			F								P		
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-	I			F								P		
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.	I	I		F								P

Sport Operations																			
Competition Management	75	1	75	115	A work area for Sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located close to Athlete Area and FOP; may be co-located within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space.	I			F						P	
Competition Manager & Asst. Manager Desks	12	1	12	-	An area for the Manager and Assistant(s) Manager.	-	-	-											
Assigned Work Area	24	1	24	-	Open plan of work stations designated for Sport personnel.	-	-	-											
Hot Desks	15	1	15	-	Shared work stations.	-	-	-											
Work Area	24	1	24	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-											
Sport Information	10	1	10	20	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located in Athlete Lounge.	Enclosed space with waiting area and seating.	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J			J						R	IF
Athlete Lounge	100	1	100	125	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	60-70 people.	Includes: seating area, lounge, Info & Help Desk, info terminal stations.	J			J						R	IF
Athlete Dressing, Locker, Shower, Toilet	40	4	160	220	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area.	Enclosed space. Separate male and female facilities.	Assumes container units or existing space. Each room must have 5 showers, 3 toilets, 1 massage table, 15 lockers. Storage area for athlete/team equipment.	J			J						R	IF
IF & Sport Meeting Room	64	1	64	75	Meeting facility at the venue for the International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Shared meeting room area between IF & Sport to serve various meeting needs.	J			J						G	IF
Sport Equipment Storage	40	1	40	50	Storage for athlete/team sport equipment.	Located in change-room area.	-	-	J			J	I					R	IF
FOP Equipment Storage	30	1	30	40	Storage of equipment required for competition.	Located adjacent to FOP or within close proximity.	-	-	I			F	I					R	IF
FOP Maintenance Equipment Storage	30	1	30	40	Storage of equipment required for maintaining the Field of Play.	Located adjacent to FOP or within close proximity.	-	-	I			F	I					R	IF
Sport Entertainment Room	-	-	-	-	-	-	See Sport Presentation for details.	-											
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	Refer to FIVB requirements and FIVB Court layout/design for all technical details.	-											
Playing Surface Dimensions or Area	40 x 27	1	1080	-	-	-	Per venue. Refer to FIVB requirements and FIVB Court layout/design for all technical details.	-	F			I						R	IF
Vertical Height Requirement	12.5m	1	12.5m	-	-	-	-	-	F			I	I					R	IF
Surface	-	1	-	-	-	-	Flooring / Surface requires homologation by the FIVB	-	J			J	I					R	IF
Orientation	-	-	-	-	-	-	Refer to FIVB requirements and FIVB Court layout/design for all technical details.	-	J			J	I					R	IF
Sports Lighting - Technical	-	-	-	-	-	-	See Broadcast for lighting specifications.	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Warm-Up Area(s)	-	-	-	-	Area where athletes prepare prior to competition.	-	Refer to FIVB requirements and FIVB Court layout/design for all technical details.	-												
Warm-up Surface Dimensions or Area	24 x 15	2	720	-	-	Adjacent to Main Court. One to two minutes walking distance.	-	-	J		J							R	IF	
Vertical Height Requirement	7m	1	7m	-	-	-	-	-	J		J	I						R	IF	
Surface	-	2	-	-	-	-	Flooring / Surface requires homologation by the FIVB	-	J		J	I						R	IF	
Stretching Area	16	2	32	40	An area where athletes can stretch prior to competition.	-	Refer to FIVB requirements.	-	J		J	I						R	IF	
Camera Positions - IF and Teams Athlete / Team Seating	20	1	20	25	-	Seating area of venue.	-	Location may opposite to broadcast camera positions (e.g. crane camera); approval of location/position by FIVB.	I			F						R	IF	
Same Sport	-	Varies	-	-	-	A designated seating area for athletes.	-	-	J		I	J						R	IOC,IF	
Different Sport	-	Varies	-	-	-	-	-	-	I		I	F						R	IOC	
Toilets - Athlete Area	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-	-	May be required for Sport Staff use. Quantity varies according to athlete numbers.				F							P	
Toilets - Near FOP	1.5	Varies	Varies	5 (each)	Toilet units designated for athletes.	-	Required if FOP is not located near Athlete Area.	Assumes temporary units. Quantity varies according to athlete numbers.				F							P	
International Federation																				
IF Area	70	1	70	90	Responsible for administering the respective sport competition, including: enforcement of the rules/regulations, operation and technical control of the overall competition.	Located in close proximity to accredited seating areas, control committee offices, Competition Management Offices.	Enclosed space.	Assumes container units or existing space.	I		I	F							R	IF
IF President's Office	15	1	15	-	-	-	-	-	I		I	F							R	IF
IF Secretary - General/Executive Director's Office	15	1	15	-	-	-	-	-	I			F							G	IF
Reception, Secretariat, Waiting & Work Area	40	1	40	-	-	-	-	-	I			F							G	IF
President Meeting Room	-	-	-	-	-	-	See IF & Sport meeting room.	-	I			F							G	IF
IF Press Delegate & Photographer Room	24	1	24	28	An area designated for the IF press delegate and photographer.	Located within Venue Media Centre.	-	-	I			F							G	IF
Control Committee Meeting Room	60	1	60	90	-	Close proximity to Competition Management and FOP.	-	-	I			F							G	IF
Appeal & Jury Room	24	1	24	30	This space is utilised for the resolution of protests and appeals after competition.	-	Enclosed space.	-	I			F							R	IF
Officials Meeting Room	40	1	40	45	Area for officials to conduct meetings.	Located close to the International Officials Lounge and possibly having a temporary partition for the Referee Manager office	Officials (Referees, line judges and scorers) Meeting Room.	Assumes container units or existing space.	I			F							R	IF
Technical Delegates Office & Work Area	15	1	15	20	Office area for Technical Delegates.	-	Enclosed space. 2 Technical Delegates.	-	I		I	F							R	IF
Lounge - Officials	100	1	100	120	Area for IF Officials lounge (Referees, Judges, etc.).	Adjacent to IF offices and close proximity to FOP.	Enclosed space.	Assumes container units or existing space.	I		I	F							R	IF
Officials Locker Room, Shower, Toilet	30	2	60	100	A change area for officials.	-	Enclosed space.	-	I			F							R	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-	-	I		J	J							R	IOC,IF
Sport Presentation																				
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.												
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-				F							P	
Announcer Position	3	1	3	-	-	-	-	-				F							P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.				F							P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	15	1	15	18	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	20	1	20	25	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Telecommunication & Audio Visual																			
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.	I			F						P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.	I			F						P	
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.	I			F						P	
Audio Control Positions	-	-	-	-	-	-	-	-				F					G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.											
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.											
Warm-Up Area	2	1	2	4	Athletes' call up system.	Warm-up Area/Court	Standard/mains power & FF&E.	-											
Athlete Briefing	2	1	2	4	PA systems required to facilitate briefings to athletes. Space required for amplifier/microphone.	Within Athlete Briefing area for Volleyball.	Standard/mains power & FF&E.	-											
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-											
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-											
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	Separate camera for spectators entertainment to feed the video board.	I			F					G	P	
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F					G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F					P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Timing, Scoring and Results Operations																				
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	Refer to FIVB requirements and FIVB Court layout/design for exact locations.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch	
Field of Play - Statistics Tables	2	2	4	8	Areas/positions for statistics calling & data entry into OVR system.	Positions located at either end of FOP with sport statisticians.	Cable pathway to Technical Table.	May occur as a position on the FOP, or in a room with a view to the FOP.												
Field of Play - Technical Table	3	1	3	6	Area/position for results data entry & ball speed gun control operations.	Position located at Technical Table on FOP with sport results & sport officials.	Cable Pathway to Statistics Tables , Official Table, sport specific scoreboards, speed guns & OVR Room.	Generally occurs Back of House, in Sport location.												
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards, ball speed guns & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided. If a second court is required , data entry positions to be duplicated as Main Court.	Refer to FIVB requirements and FIVB Court layout/design for exact locations.	I	I	I	F						R	IF, Swatch	
Field of Play - Official Table	2	1	2	4	Area on Official table for judge/referee and scoring & timing equipment.	Position located on FOP with sport officials.	Cable pathway to Technical Table.	-												
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment. If a second court is required, it is possible that additional OVR space may be required near the court. This would be a reduced size OVR room with minimal equipment deployed.										P		
OVR Provider Work Area	20	1	20	25	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-												
IT Provider Work Area	20	1	20	25	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-												
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	I		F						G	P	IF
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-												
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-												

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	60	1	60	75	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	6	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	15	1	15	18	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	30	1	30	38	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F						G	P	
Audio Visual Bulk Store	15	1	15	18	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in a manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-											
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-											
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-											
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-											
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-											
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-											
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-											
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F						P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.											
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.											
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F					G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-											
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F					G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.										P	
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.										P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-										P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F						G	IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.	I		F							G	IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.	I		F							P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F						P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F						P	
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J						P	
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F						P	
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Venue Development																				
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.										P		
Site Management Area	60	1	60	-	-	-	Enclosed space.	-												
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-												
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-												
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-												
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-												
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.												
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.												
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.												
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.												
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-												
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.												
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.												
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F							P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F							P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F							P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.												
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-												

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P	
END OF DOCUMENT																			

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation					
Accreditation																								
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																				
Work Area	15	1	15	-																				
Manager Desk or Office & Storage	12	1	12	-																				
Waiting Area	8	1	8	-																				
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.											P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Broadcast																								
Broadcast Compound	-	1	-	4000	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.																
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access.											R	IOC				
Broadcast Manager Office	12	1	12	-		-	-	-	Assumes container unit.											G	IOC			
Work Room, Assigned & Unassigned Desks	48	1	48	-		-	-	-	-															
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											R	IOC				
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-																
Kitchen & Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Buffet Line & Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.																
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.																
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Commentator Control Room (CCR)	50	1	50	65	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area	Enclosed space with incoming television cable.	Assumes existing space or container unit.											R	IOC				
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.											R	IOC				
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-											G	IOC				
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J								R	IOC				
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	120	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	2 showers next to mixed zone area for athletes to use if necessary prior to entering the mixed zone.	I	I	J								R	IOC, IF				
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.											R	IOC				

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J								
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions	1 position = uses 1 seat in existing seating bowls.	-			I	J						R	IOC	
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J						R	IOC	
Camera Position - Other	4	30	120	270	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions (e.g. crane camera) may vary according to actual venue/permanent seating setup. All positions/functions need approval by the FIVB.	I		I	J						R	IOC	
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-				J	I		J				G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.				J	I		J				G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.				J	I		J				G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I		J	I			R	IOC
Catering																				
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.					I	F					P	
Work Areas - Catering Management	28	1	28	-	Operational work space(s).	Generally, located in Catering Compound or possible the VOC.	Enclosed space.	Assumes existing space or container.												
Organising Committee Catering Manager	-	-	-	-		-	See Venue Management - VOC.	-												
Catering Contractor	16	1	16	-		-	-	-												
Beverage Contractor	12	1	12	-		-	-	-												
Dry, Cold & Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.												
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-												
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-												
Kitchen & Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.												
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-												
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.												
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-												
Spectator Points of Sale (P.O.S.)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P		
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.												
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.												
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F							P

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Work space for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation & Dressing	4	2	8	-	A dressing and preparation area for Presenters.	In close proximity to FOP.	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	In close proximity to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-												
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-											P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J					J	G	R	IOC
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.											P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Wash basin for hand sanitisation.	-	Enclosed space. Secure storage.	-												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies	20	A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F						P	
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Dependent upon spectator capacity.												
Language Services																				
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J			I				G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	An area where packages or other items are delivered when they arrive outside the venue delivery schedule times.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.												

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Look of the Games																				
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.										P		
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC	
National Olympic Committee (NOC) Flags	-	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events) and competition format.	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC	
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF	
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-												
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L	
Backdrop - Press Conference Room	2.2 x 6	1	2.2 x 6	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I					
Medical Services																				
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J							R	IF	
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-												
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-												
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-												
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-												
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Athlete Physiotherapy Area	-	-	-	-	-	-	See Sport Operations.	-	J	J	J					J		R	IF	
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J							S	IF	
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.												
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.			I	F	I					P		
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-												
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-												
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-												
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.			I	F	I					P		
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.				F	I					P		
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-				F	I					P		

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Merchandise																				
Office, Cash Room & Work Area	12	1	12	15	An area to manage the retailing of all Olympic merchandise inside the venue.	-	Enclosed space with secure entry.	Assumes container unit or existing space.					F					P		
Storage	15	3	15	45		-	-	Assumes storage containers or existing space.					F						P	
Program Sales Stands/Booths	1	1	1	2		-	Area only.	Units provided by vendor. Quantity and location decided by vendor and OCOG.					F						P	
Merchandise Points of Sale (POS)	6	Varies	Varies	18		Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.		I		F						P	
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.	-		I	J	J						G	R	IOC
Olympic Family Services																				
Olympic Family Lounge	319	1	319	700	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I		I	F					I	G	G	IOC
Welcome Desk & Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-	-												
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.	-												
Staff/Volunteer Room & Storage	16	1	-	-	On-call waiting area for Protocol staff and equipment storage.	-	-	-												
Dining & Lounge	190	1	-	-	Area for dining and lounge.	-	-	-												
Preparation/Buffer set-up/Beverage Area	95	1	-	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)	-												
Toilets	40	1	40	80	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided.				F							P	
Protocol flags	-	-	-	-	-	-	See Look of the Games	-			J	J				J			R	IOC
Press Operations																				
Venue Media Centre (VMC)	450	1	450	650	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 120 press and 30 photographers.	Assumes tent.				F						R	IOC	
Reception & Information Desk	18	1	18	-	Welcome desk at the entrance, for information distribution.	-	-	-												
Storage	4	1	4	-	Equipment storage.	-	-	-												
Press Manager Office	12	1	12	-	Operational work space.	-	-	-												
Photo Manager Office	12	1	12	-	Operational work space.	-	-	-												
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.	-												
Info Stations	20	1	20	-	Computer stations and printers.	-	-	-												
Press Work Room or Area	200	1	200	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.												
Photo Work Room or Area	55	1	55	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.	-												
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-	-												
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.												
Lounge/Catering Prep	70	1	70	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-	-												
Toilets	1.5	8	12	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided.												
IF Press Delegate Room	-	-	-	-	-	-	See International Federation section for details.	-

Press Conference Room	150	1	150	280	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences or other technical meetings.	I			F						R	IOC
Seating Area	100	1	100	-	An area for accredited press.	-	Seats and standing room.	-											
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-											
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-											
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-											
Backdrop - Press Conference Room	-	-	-	-	-	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	See Look for details.	-				F			I	I			
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	-	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-											
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to mixed zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F					R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F						R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided											
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-											
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	Located on FOP.	Approx. 100 photographers expected at peak finals periods. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	-	Seating areas are generally not applicable for outdoor venues.	I		I	F						G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.											P	
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	-	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages)	Dependent on Host City / Country / Risk Assessment												
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												P
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.												
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.												P
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.												P
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitization	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Staff staging and break enclosed space.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.												P
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-	I			F								P
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-	I			F								P
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.	I		I	F								P

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Vehicle Permit Check Point and Queue	Varies	Varies	Varies	-	A control area where vehicles entering this exterior perimeter point will be required to display the proper Olympic vehicle permit for access to the venue.	Located outside the venue secure perimeter; normally on access roads to the venue.	Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.										R	IOC
Venue Perimeter Entrances & Security Screening/Search (Pedestrian)	-	-	-	-	Locations where constituent groups will enter through the secure perimeter of the competition venue and access various parts of the venue with an accreditation or a ticket.	Located at the venue secure perimeter.	Enclosed space for screening/search area positions.. Net area for each screening position will accommodate the following: 4 Wanding Stations, OR 1 Magnetometer with 2 Search Tables & 2 Wanding Stations, OR - 1 X-ray Device, 1 Magnetometer & 2 Search Tables.	Assumes tent with 2 retractable side walls. Gross area includes queue. Dependent upon spectator capacity and venue design.											
Athlete / Team	18	1-2	18-36	36-72	-	BOH.	-	-				F						R	IOC
Technical Officials, Judges & Referees	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with Athlete and/or Olympic Family.				F						G	IOC
Olympic Family (IOC, NOC, IF)	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with TO, ENG and/or Press.				F						P	
Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.											
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-											
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.				F	I						
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				J	J					P	
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wanding station).	-	I			F							P
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.				F		I					P
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.				F							P
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				F	I						P
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.											
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1 m to 3m width, sometimes used as a secondary service vehicle exit point.	-											
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-											
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.				I	F				G	P	
Sponsor Services																			
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I	F						P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Sport Operations																			
Competition Management	60	1	60	90	A work area for Sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located close to Athlete Area and FOP; may be co-located within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space.	I			F						P	
Competition Manager & Asst. Manager Desks	12	1	12	-	An area for the Manager and Assistant(s) Manager.	-	-	-											
Assigned Work Area	20	1	20	-	Open plan of work stations designated for Sport personnel.	-	-	-											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Area	18	1	18	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	Daily IF and OCOG Competition Management staff (min. 20 persons), Technical Meeting (min. 180 persons) meetings. The press conference or VOC multi-purpose room can be used also for such a meeting.											
Sport Information	25	1	25	35	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located in the Athlete Lounge.	Enclosed space with waiting area and seating.	Includes: information boards, pigeon holes, Info & Help desk, work area, info terminal stations & storage.	J		J							R	IF
Athlete Lounge	200	1	200	240	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	-	Includes: seating area, lounge, Info & Help Desk, info terminal stations.	J		J							R	IF
Player Call Desk	-	-	-	-	An area where athletes can sign-in and sign-out when arriving and departing the venue.	Loated in Athlete lounge.	-												
Physiotherapy Area(s)	40	2	80		Area where physiotherapy occurs.	Adjacent to Athlete Medical.	Massage tables with privacy screening.	Assumes container units or existing space.											
Athlete Dressing, Locker, Shower, Toilet	60	2	120	160	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area.	Enclosed space. Separate male and female facilities.	Assumes container units or existing space. It is recommended to provide 2 showers that players can use immediately after play; in close proximity to mixed zone.	J		J							R	IF
Players Pre & Post Game Relaxation Rm.	50	2	100	115	Area for athlete preparation prior to match.	In close proximity to Athlete Lounge and locker areas and Athlete Medical area.	Enclosed space. A location where athletes can concentrate prior to the match; as well as after the match has concluded. Separate male and female facilities.	-	I		F							G	IF
IF & Sport Meeting Room	80	1	80	95	Meeting facility at the venue for the International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Shared meeting room area between IF & Sport to serve various meeting needs.	J		J							G	IF
Sport Equipment Storage	40	1	40	50	Storage for athlete/team sport equipment.	Located adjacent to FOP or within close proximity.	-	-	J		J	I						R	IF
FOP Equipment Storage	30	1	30	40	Storage of equipment required for competition.	Located adjacent to FOP or within close proximity.	-	-	I		F	I						R	IF
FOP Maintenance Equipment Storage	30	1	30	40	Storage of equipment required for maintaing the Field of Play.	Located adjacent to FOP or within close proximity.	-	-	I		F	I						R	IF
Sport Entertainment Room	-	-	-	-	-	-	See Sport Presentation for details.	-											
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	Refer to FIVB requirements and FIVB Court layout/design for all technical details.	-											
Playing Surface Dimensions or Area	26 x 18	1	468	-	-	-	Per venue: Court area: 16 x 8. Competition area: 26 x 18.	1-2 Main Courts may be required.	F		I			I	I			R	IF
Total Required Area Dimensions or Area	36-40 x 26-28	1	936-1120	-	-	-	36min.-40max. x 26min. - 28max. Area including the competition court and surface between the bleachers and banners.	Homologation required by the FIVB. Including free zone area around playing court (5m) and the free passage way between the free zone and the spectators area; this may vary from 3m-6m on the side of the time-out.	F		I			I	I			R	IF
Surface	-	1	-	-	-	-	Sand requires homologation by the FIVB.	Refer to FIVB requirements and FIVB Court layout/design for all technical details.	J		J	I		J				R	IF
Orientation	-	-	-	-	Orientation of FOP area.	-	According to sun effects, shadow, wind, and television requirements. Refer to FIVB requirements and FIVB Court layout/design for all technical details.	-	J		J	I		I	J			R	IF
Sports Lighting - Technical	-	-	-	-	-	-	See Broadcast for lighting specifications.	-											
Camera Positions - IF and Teams	20	1	20	25	-	Seating area of venue.	-	Location may opposite to broadcast camera positions (e.g. crane camera); approval of location/position by FIVB.	I		F							R	IF

IF Press Delegate & Photographer Room	30	1	30	35	An area designated for the IF press delegate and photographer.	Located within Venue Media Centre.	-	-	I		F							G	IF
Control Committee Meeting Room	60	1	60	90	An area where the control committee meets daily. This space is utilised for the resolution of protests and appeals after competition.	In close proximity to Competition Management and FOP.	-	-	I		F							G	IF
Appeal & Jury Room	24	1	24	30	-	-	Enclosed space.	Also for a debriefing area for referees.	I		F							G	IF
Officials Meeting Room	50	1	50	65	Area for officials to conduct meetings.	Located close to the International Officials Lounge.	Enclosed space. Officials (Referees, line judges and scorers) Meeting Room. A temporary partition required to separate the Referee Manager's office.	Assumes container units or existing space.	I		F							R	IF
Technical Delegates Office & Work Area	15	1	15	20	Office area for Technical Delegates.	Adjacent to control committee and FIVB delegate offices.	Enclosed space. 2 Technical Delegates.	-	I	I	F							R	IF
Lounge - Officials	100	1	100	120	Area for IF Officials lounge (Referees, Judges, etc.).	Adjacent to IF offices and close proximity to FOP.	Enclosed space.	Assumes container units or existing space.	I	I	F							R	IF
Officials Locker Room, Shower, Toilet	60	2	120	130	Referees, Line Judges, scorers locker rooms.	-	Enclosed space.	Assumes container units or existing space.	I		F							R	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-	-	I	J	J							R	IOC,IF
Sport Presentation																			
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.											
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-			F							P	
Announcer Position	3	1	3	-	-	-	-	-			F							P	
Sport Entertainment Room	60	1	60	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	In close proximity to FOP; easy access if possible.	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.				F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	16	1	16	-	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium Security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	-	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium Security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	20	1	20	25	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	16	1	16	-	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	-	LAN monitoring room and associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Telecommunication & Audio Visual																				
Telecomm. Equipment Room (TER) Primary	36	1	36	-	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.	I			F						P		
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.	I			F						P		
Telecomm. Operations & Store	25	1	25	-	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.	I			F						P		
Audio Control Positions																				
Venue	4	1	4	-	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.				F					G	P		
Press Conference	4	1	4	-	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.												
Warm-Up Area	2	1	2	-	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Warm-Up Area/Court	Standard/mains power & FF&E.	-												
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-												
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-												
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	Separate camera for spectators entertainment to feed the video board.	I			F						G	P	
Wired Communications Control	2	1	2	-	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location if located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F						G	P	
Temporary PA equipment Room	2 min	1	2 min	-	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F					P		

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Timing, Scoring, & Results Operations																				
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	Refer to FIVB requirements and FIVB Court layout/design for exact locations.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Where Data Entry outdoors, adequate weather (rain/sun) protection for equipment/workstations to be provided. If a second court is required , data entry positions to be duplicated as Main Court.	I	I	I	F						R	IF, Swatch	
Field of Play - Statistics Tables	2	2	4	-	Areas/positions for statistics calling & data entry into OVR system.	Positions located at either end of FOP with sport statisticians.	Cable pathway to Technical Table.	May occur as a position on the FOP, or in a room with a view to the FOP.												
Field of Play - Technical Table	3	1	3	-	Area/position for results data entry & ball speed gun control operations.	Position located at Technical Table on FOP with sport results & sport officials.	Cable Pathway to Statistics Tables , Official Table, sport specific scoreboards, speed guns & OVR Room.	Generally occurs Back of House, in Sport location.												
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security. Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards, ball speed guns & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided. If a second court is required , data entry positions to be duplicated as Main Court.	-	I	I	I	F						R	IF, Swatch	
Field of Play - Official Table	2	2	4	-	-	Position located on FOP with sport officials.	Cable pathway to Technical Table.	-												
On Venue Results (OVR)	61	1	61	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment. If a second court is required, it is possible that additional OVR space may be required near the court. This would be a reduced size OVR room with minimal equipment deployed.										P		
OVR Provider Work Area	18	1	18	-	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	-	-												
IT Provider Work Area	18	1	18	-	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-												
Scoreboard Control	4	1	4	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations and 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	I		F						G	P	IF
Scoreboard Control	2	1	2	-	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator and workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-												
Scoreboard Interface	2	1	2	-	Area for interface equipment (PC workstations) linking OVR system and Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-												

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	60	1	60	-	Location for hard copy results production and distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area and position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	3	1	3	-	Location where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	-	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	-	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	-	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	15	1	15	-	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	-	In venue storage and workshop for timing equipment, spare parts and small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	40	1	40	-	Storage area for large crates and containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F						G	P	
Audio Visual Bulk Store	15	1	15	-	Storage area for large crates and containers used for video boards, PA equipment and TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required to distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and easy cable access from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable & weatherproof. May require fan or dedicated A/C depending upon room location and / or configuration. Fully redundant power (mains & generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of Power from Data/Voice and Audio Visual Cabling	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in a manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed & removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	"											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	"											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	"											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	"											
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	"											
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-											
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-											
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-											
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-											
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-											
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.											
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to Video Control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.											
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to Video Control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to / from audio / PA amplification system and / or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-											
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna and mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to / from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F						G	P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with accessible access to internal and external service window. Dependent upon spectator capacity, venue layout and footprint and spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.										P	
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.										P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside Venue Secure Perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-										P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from each Host City, based on vehicle / bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J							P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J							P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F						G	IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.			I	F						G	IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have a drop-off in close proximity to accredited entry point and then driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F						P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F						P	
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J						P	
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes circulation.				F						P	
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes circulation.				F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Venue Development																				
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works, and number of contractors.										P		
Site Management Area	60	1	60	-	-	-	Enclosed space.	-												
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-												
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-												
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-												
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-												
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.												
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.												
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.												
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.												
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-												
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.												
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles												
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I			F							P	
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I			F							P	
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I			F							P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.												
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-												

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-											
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.										P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	1 person.	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.										P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.										P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon workforce numbers..										P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation				
Accreditation																							
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																			
Work Area	15	1	15	-																			
Manager Desk or Office & Storage	12	1	12	-																			
Waiting Area	8	1	8	-																			
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F					P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Broadcast																							
Broadcast Compound	-	1	-	2500	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.															
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.															
Broadcast Manager Office	12	1	12	-		-	-	-															
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-															
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-															
Kitchen and Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Buffet Line and Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.															
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Commentator Control Room (CCR)	50	1	50	60	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.															
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.															
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-															
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J												
Mixed Zone	20	1	20	170	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J												
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.															

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J			J	I			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J			J	J		R	IOC
Camera Position - Other	4	20	80	180	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J			J	I		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-					J	I	J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.					J	I	J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.					J	I	J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I	J	I			R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity.		I		F						P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F						P

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I		F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J				J	G	R	IOC	
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.											P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

WEIGHTLIFTING

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.										P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.										P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.										P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.										P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.										P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.										P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.										P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators										P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.										P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-										P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.										P	
Hand Wash Stations	1	Varies	Varies	20	A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.										P

Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F						P	
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Dependant upon venue capacity.												
Language Services																				
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-			J	J			I				G	IOC
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-			J	J			I				G	IOC
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.												P
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.												P
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.												

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.					F					P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	Varies	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events) and competition format.	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	-	-	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J							R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J							S	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.		I	F	I						P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.		I	F	I						P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.				F	I					P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-			F	I						P

Merchandise																						
Office, Cash Room & Work Area	12	1	12	15		-	Enclosed space with secure entry.	Assumes container unit or existing space.							F						P	
Storage	15	2	30	35	An area to manage the retailing of all Olympic merchandise inside the venue.	-	-	Assumes storage containers or existing space. Units provided by vendor. Quantity and location decided by vendor and OCOG.						F							P	
Program Sales Stands/Booths	1	1	1	2		-	Area only.	Gross area is per each P.O.S. and includes service area and queue.						F							P	
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.					I		F							P	
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.					I	J	J					G	R	IOC	
Olympic Family Services																						
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I						F				I	G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-															
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.															
Staff/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol staff and equipment storage.	-	-															
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-															
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)															
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided							F						P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.						J	J							R	IOC
Press Operations																						
Venue Media Centre (VMC)	450	1	450	650	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 145 press and 25 photographers.	Assumes tent.							F						R	IOC
Reception & Information Desk	18	1	18	-	Welcome desk at the entrance, for information distribution.	-	-															
Storage	4	1	4	-	Equipment storage.	-	-															
Press Manager Office	12	1	12	-	Operational work space.	-	-															
Photo Manager Office	12	1	12	-	Operational work space.	-	-															
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.															
Info Stations	20	1	20	-	Computer stations and printers.	-	-															
Press Work Room or Area	200	1	200	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.														
Photo Work Room or Area	55	1	55	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.															
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-															
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.														
Lounge/Catering Prep	70	1	70	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-															
Toilets	1.5	8	12	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided

Press Conference Room	150	1	150	280	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC	
Seating Area	100	1	100	-	An area for accredited press.	-	Seats and standing room.	-												
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-												
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-												
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-												
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F			I	I				
Mixed Zone	15-20 linear mtrs.	1	15-20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I	I	F							R	IOC,IF	
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-												
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.			I	F						R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.			I	F							R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided												
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-												
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	Total number of expected photographers at medal sessions: 80. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J	I	J								R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I	I	F								G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.										P		
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.							F					
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-											P	
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.					J	J						
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.					J	J					P	
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.							I	F			P	
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.										F	G	P
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-	I		F							I	P	
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-	I		F							I	P

F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Technology Operations																			
Technology Help Desk	16	1	16	20	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing & Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	16	1	16	20	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

WEIGHTLIFTING

Telecommunication & Audio Visual																			
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F							P
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER.	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F							P
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F							P
Audio Control Positions																			
	-	-	-	-	-	-	-	-				F						G	P
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.											
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.											
Warm-Up Area	2	1	2	4	Athlete Call Up PA system required for facilitate call to mat. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	PA system may also be used for Competition Draw if draw is held in Warm-up area.											
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-											
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-											
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F						G	P
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F						G	P
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F						P

WEIGHTLIFTING

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play - Mat 1, 2, 3	3	3	9	12	Areas/positions for results data entry at each mat.	Position located at each Mat on FOP with timing, scoring & sport mat officials.	-	May occur as a position on the FOP, or in a room with a view to the FOP.											
Field of Play - Official Table	3	1	3	6	Area/position for results data entry and event control.	Position located at Officials Table on FOP.													
Weigh-In & Draw Data Entry	4	4	16	20	Athletes' weigh-in & competition draw are performed by Sport every 2nd day of competition for WR & data to be entered into OVR system by OVR provider. Workspace required for operators & data entry workstations at each weigh-in draw location.	Usually draw & weigh-in performed in warm-up area of venue.	Number of positions for weigh-in & draw data entry may change depending on sport requirements.	Occurs Back of House in weigh in area. If data entry is not performed "live" during the weigh in, then data may be passed manually to OVR provider after completion of the weigh in by Sport, who then input to system within the OVR room.											
Timing and Scoring Position	-	-	-	-	Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment. Adequate weather (rain/sun) protection for equipment/workstations to be provided.	-	I	I	I	F						R	IF, Swatch
Field of Play - Mat 1, 2, 3	3	3	9	12	-	Position located at each Mat on FOP with timing, data entry & sport mat officials.	-	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.	I	F								P	
OVR Provider Work Area	20	1	20	25	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	Space required in OVR to support RTDS equipment.	-											
IT Provider Work Area	18	1	18	23	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Broadcast Graphics Support Room	25	1	25	32	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results.	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	F							G	P	
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

WEIGHTLIFTING

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	60	1	60	75	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	9	3	27	34	Locations where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics for each FOP/Mat of WR.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	12	1	12	15	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	40	1	40	50	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F						G	P	
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-											

WEIGHTLIFTING

F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-												
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-												
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-												
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-												
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-												
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-												
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-												
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I		F								P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.												
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I		F								P	
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboards cannot be suspended from ceiling structure.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.												
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I		F							G	P	
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.												
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-												
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I		F							G	P

Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.											P
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.											P
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.											P
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-											P
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J								P
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J								P
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.											G IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.											G IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.	I		F								G IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.											P
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
Accessible	-	-	-	-	-	-	-	Part of Spectator total.											P
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver driver will park.			I	F							P
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.											P
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.											P
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J							P
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.											P
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.											P
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.											P
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-			I	F							P

WEIGHTLIFTING

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.		I			F					P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											
Venue Development																			
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.					F					P	
Site Management Area	60	1	60	-	-	-	Enclosed space.	-											
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											

WEIGHTLIFTING

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P	
END OF DOCUMENT																			

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation				
Accreditation																							
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										P	-				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																			
Work Area	15	1	15	-																			
Manager Desk or Office & Storage	12	1	12	-																			
Waiting Area	8	1	8	-																			
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	-	Enclosed space. Required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F					P	-				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Broadcast																							
Broadcast Compound	-	1	-	4000	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.															
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Gross area includes snow removal access. Assumes container unit.										R	IOC				
Broadcast Manager Office	12	1	12	-		-	-	-	-										G	IOC			
Work Room, Assigned and Unassigned Desks	48	1	48	-		-	-	-	-														
Technical Operations Centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										R	IOC				
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-															
Kitchen and Prep	20	1	20	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Buffet Line and Dining	120	1	120	-		-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.														
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.															
Work Area(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.															
Toilets	1.5	8	12	36	Toilet units designated for broadcast personnel.	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Commentator Control Room (CCR)	55	1	55	65	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.										R	IOC				
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Located near commentator positions and CCR	Enclosed space.	Assumes existing space or container unit.										R	IOC				
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-										G	IOC				
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J							R	IOC				
Mixed Zone	20 linear mtrs.	1	20 linear mtrs.	170	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J							R	IOC, IF				
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in seating areas with view to FOP and covered when possible.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Outdoor commentator positions should have the option of cover for protection from various weather conditions (e.g. sun, rain). Space for commentator positions may vary according to actual venue/permanent seating setup.										R	IOC				

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located at the rear of the commentator grouping so as not to disrupt the FOP view of other commentator positions.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	A com-cam position equals 2 adjacent commentator positions.			I	J			J	I			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J	I		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval. Space for camera positions may vary according to actual venue/permanent seating setup.	J		I	J			J	J		R	IOC
Camera Position - Other	4	30	120	270	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	Space for camera positions may vary according to actual venue/permanent seating setup.	I		I	J			J	I		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-					J	I	J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.					J	I	J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.					J	I	J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I	J	I			R	IOC
Catering																			
Catering Compound	565	1	565	850	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P	
Work Areas - Catering Management	28	1	28	-		-	Enclosed space.	Assumes existing space or container.											
Organising Committee Catering Manager	-	-	-	-		Located in Venue Operations Centre.	See Venue Management - VOC.	-											
Catering Contractor	16	1	16	-		-	-	-											
Beverage Contractor	12	1	12	-	Operational work space(s).	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	-	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	See Look for details.	-		I		F						P

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	For the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule; to coordinate location of podium, procession, and recession route, and location of flagpoles.	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I									P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J					J	G	R	IOC
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	350	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity.											P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	-	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	-	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	-	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-		-	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	-	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	-	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.					F					P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.					F					P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.					F					P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.					F					P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.					F					P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.					F					P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators					F					P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.					F					P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-					F					P	
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.					F					P	
Hand Wash Stations	1	Varies	Varies		A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.					F					P

Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I			F					P		
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Generally located inside venue perimeter and outside venue perimeter.	Area only.	Dependant upon venue capacity.												
Language Services																				
Work Area / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre.	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference needs.	-		J	J			I				G	IOC	
Logistics																				
Logistics Compound	-	1	Varies	650	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Area	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF&E).	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.											P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.

Look of the Games																			
Work Area and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.					F					P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC
National Olympic Committee (NOC) Flags	Varies	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events) and competition format.	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and back of locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-											
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J				J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	-	-	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I				
Medical Services																			
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J							R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J							S	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.											
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.		I	F	I						P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-											
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-											
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-											
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.		I	F	I						P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.				F	I					P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-			F	I						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Merchandise																				
Office, Cash Room & Work Area	12	1	12	15		-	Enclosed space with secure entry.	Assumes container unit or existing space.					F					P		
Storage	15	2	30	35	An area to manage the retailing of all Olympic merchandise inside the venue.	-	-	Assumes storage containers or existing space. Units provided by vendor. Quantity and location decided by vendor and OCOG.				F						P		
Program Sales Stands/Booths	1	1	1	2		-	Area only.					F						P		
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.		I		F						P		
Outlets' Look	-	-	-	-	Look required for concessionaire units.	-	Venue merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.			I	J	J						G	R	IOC
Olympic Family Services																				
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I		I	F					I	G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-													
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.													
Staff/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol staff and equipment storage.	-	-													
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-													
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Staff/Volunteer, Athlete, Media)													
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided				F							P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.				J	J							R	IOC
Press Operations																				
Venue Media Centre (VMC)	400	1	400	600	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Confer	Close proximity to Press Tribune, Press Conference room, and Mixed Zone area.	Enclosed space for 150 press and 30 photographers.	Assumes tent.				F							R	IOC
Reception & Information Desk	18	1	18	-	1	-	-													
Storage	4	1	4	-	Equipment storage.	-	-													
Press Manager Office	12	1	12	-	Operational work space.	-	-													
Photo Manager Office	12	1	12	-	Operational work space.	-	-													
Olympic News Service (ONS) Work Room or Area	25	1	25	-	Operational work space.	-	Enclosed space.													
Info Stations	20	1	20	-	Computer stations and printers.	-	-													
Press Work Room or Area	170	1	170	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.												
Photo Work Room or Area	35	1	35	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.													
Photographers Check-in & Photo Bib Distribution	9	1	9	-	Area where photographers register and receive/return photo bibs.	-	-													
Locker Area	1	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.												
Lounge/Catering Prep	70	1	70	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-													
Toilets	1.5	6	9	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided												

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	I	J	F	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Press Conference Room	100	1	100	210	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I				F							R	IOC	
Seating Area	60	1	60	-	An area for accredited press.	-	Seats and standing room.	-														
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-														
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-														
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-														
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-						F			I	I				
Mixed Zone	15-20 linear mtrs.	1	15-20 linear mtrs.	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I			I	F							R	IOC,IF	
Press Tribune	-	-	-	-	A section of the seating area dedicated to accredited journalists and photographers; both tabled and non-tabled positions.	-	Tabled seating is fitted out with telephones, television monitors, power and other press facilities (indoor venues). For outdoor venues, these services will exist in VMC.	-														
Press Tabletop Seating	Varies	Varies	Varies	-	-	Easy access from Venue Media Centre and direct access if possible to Mixed Zone.	<u>In an existing stadium or seating area:</u> 1 seat wide (folding chairs at 60 cm spacing) x 2 existing rows deep (1 row for the seat and 1 row for the table top built over the seats) 50 cm deep tabletop per position, each position = 2 stadium seats. <u>Temporary Stands:</u> 1 seat (folding chairs at 60 cm spacing) x 2 rows deep of proposed seating system (normally 150 cm-170 cm deep).	The tables for Press Tribunes can be built in a continuous line, but the seating is three stand alone chairs. Placing of Press Tribunes is done in collaboration with Broadcasting to ensure a proportion of the tables have good centre line position.					I	F						R	IOC,IF	
Press Seating (non-tabled)	Varies	Varies	Varies	-	An area for accredited press.	Normal seating adjacent to tabletop seating.	1 existing seat = 1 position. Temporary Stands: 1 seat per proposed seating system = 1 position.	Good access to Press Work Room and Mixed Zone. Not all these seats may be needed for early preliminary sessions.					I	F						R	IOC,IF	
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided														
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-														
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	In close proximity to FOP.	Total number of expected photographers at medal sessions: 80. 60cm wide x 90cm deep per position, multi-row areas require 60cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J			I	J							R	IOC, IF	
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	See Venue Seating for quantities by sport.	Seating areas are generally not applicable for outdoor venues.	I			I	F							G	IOC	
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.										P		
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Area	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Dog Cage(s)	4	Varies	Varies	8 (each)	Holding area for security dogs.	-	Area only for enclosed portable units (e.g. cages).	Dependent upon Host City/Country / Risk Assessment.							F					
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-											P	
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing staff before and after shifts.	-	Enclosed space.	Assumes tent.					J	J						
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.					J	J					P	
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.							I	F			P	
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.									F		G	P
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-	I		F								P	
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-	I		F								P	
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.	I	I	F								P

Sport Operations																			
Competition Management	60	1	60	90	A work area for Sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located close to Athlete Area and field of play; may be co-located within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space.	I				F					P	
Competition Manager & Asst. Manager Desks	12	1	12	-	An area for the Manager and Assistant(s) Manager.	-	-	-											
Assigned Work Area	20	1	20	-	Open plan of work stations designated for Sport personnel.	-	-	-											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Area	18	1	18	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-											
Sport Information	40	1	40	50	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located in Athlete Area.	Enclosed space with waiting area and seating.	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J									R	IF
Athlete Lounge	150	1	150	190	An area where athletes can relax at the venue while not training or competing.	Located in Athlete Area.	-	Includes: seating area, lounge, Info & Help Desk, info terminal stations.	J									R	IF
Athlete Dressing, Locker, Shower, Toilet	30	2	60	80	Change-room facilities to accommodate athletes at the venue during competition and training.	Located in Athlete Area.	Enclosed space. Separate male and female facilities.	Assumes container units or existing space.	J									R	IF
Athlete Weigh-in	20	1	20	25	A room and a waiting area for official weigh-in.	Located in close proximity to Athlete change rooms and FOP.	A room and a waiting area for official weigh-in.	The drawing is viewed by competitors and officials, normally watching in the stands on a video screen.	J									R	IF
IF & Sport Meeting Room	30	1	30	45	Meeting facility at the venue for the International Federation and Competition Management.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Shared meeting room area between IF & Sport to serve various meeting needs.	J									G	IF
FOP Equipment Storage	75	1	75	100	Storage of equipment required for competition.	Located adjacent to FOP or within close proximity.	Enclosed space.	-	I									R	IF
Field of Play (FOP)	-	-	-	-	Area where competition is conducted.	-	Reference should be made to FILA guidelines for all FOP technical requirements.	-											
Playing Surface Dimensions or Area	12 x 12	3	432	26 x 52 = 1352	-	-	3 mats for Olympic Competition; a mat with a 9 metre diameter and a 1.5m border of the same mat thickness is required. Total mat area = 12m x 12m. Total area requirement: 26 x 52 metres. Raised platform requirements: 14x40, with a height not greater than 1.10m. If the border or free space around the mat does not equal 2m, the platform shall be equipped with 45° degree sloping panels.	See FILA requirements for more specific FOP requirements.	F									R	IF
Vertical Height Requirement	-	-	-	-	-	-	See FILA requirements	-	F									R	IF
Surface	-	-	-	-	-	-	Mat and flooring near mat shall be covered with a soft covering fastened into place.	-	J									R	IF
Orientation	-	-	-	-	-	-	See FILA requirements	-	J									R	IF
Sports Lighting - Technical	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Technology Operations																			
Technology Help Desk	16	1	16	20	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support staff & manager.	-				F						P	
Venue Technology Operations (VTO)	25	1	25	32	OCOG Technology Operations area. Operational work space for entire Venue Technology team, including Partners & contractors.	Adjacent to or within Venue Operations Centre (VOC).	Medium security - lockable room. Air-conditioned as office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	-				F					G	P	
OCOG Venue Technology Work Area	-	1	-	-	Work space for Venue Technology Manager, Assistant Venue Technology Manager, Technology Workforce Manager and associated volunteer(s).	-	-	Work space size may be dependent upon workforce per shift.											
AV Contractor Work Area	-	1	-	-	Work space for AV contractors/Technicians.	-	-	Work space size may be dependent upon workforce per shift.											
IT Provider Work Area	-	1	-	-	Work space for IT workforce and "home base" for IT volunteers.	-	-	Work space size may be dependent upon workforce per shift.											
Reprographic Provider Work Area	-	1	-	-	Work space for reprographic contractors/technicians	-	-	Work space size may be dependent upon workforce per shift.											
Mobile Phone Provider Work Area	-	1	-	-	Workspace for mobile phone provider.	-	-	Work space size may be dependent upon workforce per shift. Charging area for Venue Operations workforce phones may be required.											
Wired Communications Provider Work Area	-	1	-	-	Work space for Wired Communications contractors/technicians.	-	-	Work space size may be dependent upon workforce per shift.											
Timing and Scoring/OVR Provider Work Area	-	1	-	-	Work space for OVR/Timing & Scoring contractors/technicians.	-	-	May not be required if adequate working space is allocated in OVR room.											
Radio Distribution Room (RDR)	15	1	15	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).	I			F						P	
Information Technology																			
Computer Equipment Room (CER)	16	1	16	20	Location for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room and Telecommunications TER Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.	I			F					G	P	
Data Local Area Network (LAN) Management Room & Store	25	1	25	32	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational staff & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces.				F					G	P	

WRESTLING

Telecommunication & Audio Visual																				
Telecomm. Equipment Room (TER) Primary	36	1	36	45	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	Raised flooring is preferable for cabling distribution, but not essential.		I		F							P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER.	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F							P	
Telecomm. Operations & Store	25	1	25	32	Operational space for Telecommunications technical staff and associated storage for spare parts.	Adjacent to TER.	As TER with adequate FF&E to support operational staff & storage.	If located adjacent to TER, power supply boards, UPS units & A/C services can be common for both spaces.		I		F							P	
Audio Control Positions																				
	-	-	-	-	-	-	-	-				F						G	P	
Venue	4	1	4	8	Area within Sport Production, location for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Production. Can be on FOP, in stands or in a booth with view to FOP.	High Security. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	Storage for country anthems.												
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), air-conditioned, waterproof. Work space & FF&E for operator.	PA system may also be used for Competition Draw if draw is held in Press Conference room.												
Warm-Up Area	2	1	2	4	Athlete Call Up PA system required for facilitate call to mat. Space required for amplifier/microphone.	Within Warm-up area for Athletes.	Standard/mains power & FF&E.	PA system may also be used for Competition Draw if draw is held in Warm-up area.												
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-												
Workforce Break/Dining	2	Varies	Varies	-	Area within Staff Break/Training room where audio control equipment is installed to facilitate meetings/training of large numbers of staff.	Workforce break/dining areas.	Standard/mains power & FF&E.	-												
Video Board Control	4	1	4	8	Location of video control for video board or video projection system. Operations integral with those of Sport Production.	Ideally with Sport Production. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F						G	P	
Wired Communications Control	2	1	2	4	Location of wired communications master control station and support technician. System essential to operations of both Sport Production and Results/FOP management.	Near to or within Sport Production is preferable. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Production, Broadcast Graphics Room & Results Printing required. Workspace & FF&E for one technician, control equipment, spare parts and containers/boxes for equipment.	-				F						G	P	
Temporary PA equipment Room	2 min	1	2 min	4 min.	Temporary location for installation of PA active equipment (amplifiers etc) for venue PA system.	In existing PA equipment room, if applicable. May be located under venue seating/tribunes if existing room not available.	High Security. Fully redundant power (mains & standby generator) to equipment. Good cable access to speaker location and PA/Audio Control position required. Equipment installed in racks. Each rack set is 1000H x 600W x 600 D maximum.	Number of racks will depend on size of system deployed. Generally venues with large geographic area (outdoor) require larger installation and therefore more racks of amplifier equipment.					F						P	

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Results Data Entry Position	-	-	-	-	Location(s) for event results and/or statistics data entry during competition.	As noted below.	High Security. Fully redundant power (mains & generator) with UPS to all results data entry equipment/workstations. Space & FF&E for all data entry personnel & results management staff.	Adequate weather (rain/sun) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, Swatch
Field of Play - Mat 1, 2, 3	3	3	9	12	Areas/positions for results data entry at each mat.	Position located at each Mat on FOP with timing, scoring & sport mat officials.	-	May occur as a position on the FOP, or in a room with a view to the FOP.											
Field of Play - Official Table	3	1	3	6	Area/position for results data entry and event control.	Position located at Officials Table on FOP.	-	-											
Weigh-In & Draw Data Entry	4	4	16	20	Athletes' weigh-in & competition draw are performed by Sport every 2nd day of competition for WR & data to be entered into OVR system by OVR provider. Workspace required for operators & data entry workstations at each weigh-in draw location.	Usually draw & weigh-in performed in warm-up area of venue.	Number of positions for weigh-in & draw data entry may change depending on sport requirements.	Occurs Back of House in weigh in area. If data entry is not performed "live" during the weigh in, then data may be passed manually to OVR provider after completion of the weigh in by Sport, who then input to system within the OVR room.											
Timing and Scoring Position					Location(s) for event timing & scoring personnel & equipment during competition.	Sport Specific. However, all locations must have view to FOP	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards & OVR room. Space & FF&E for operators and equipment.	-	I	I	I	F						R	IF, Swatch
Field of Play - Mat 1, 2, 3	3	3	9	12	-	Position located at each Mat on FOP with timing, data entry & sport mat officials.	-	-											
On Venue Results (OVR)	-	-	-	-	Location is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	Easy access to FOP critical for technical and results staff.	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Space & FF&E required for high density of computer workstations, racks for servers and working space for technicians, operators and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or venues where two sports occur concurrently will require more space for additional OVR equipment.			I	F						P	
OVR Provider Work Area	20	1	20	25	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO/CIS/PRD etc).	Ideally adjacent to IT provider work area.	Space required in OVR to support RTDS equipment.	-											
IT Provider Work Area	18	1	18	23	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Broadcast Graphics Support Room	25	1	25	32	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results.	-											
Scoreboard Control	-	-	-	-	Location of scoreboard control operations. Operations integral with those of Sport Production, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.										G	P
Scoreboard Control	2	1	2	4	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	2	1	2	4	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	60	1	60	75	Location for hard copy results production & distribution. Location of high intensity work involving many staff preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area & position for the Print Distribution Workstation (IDS interface) equipment and operator.	Near/adjacent to Press Workroom, access to Press Tribunes, Broadcast Commentary Positions, Sport Information Desk, Doping & Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specification. Space & FF&E required for equipment and operational staff as well as space for 1 x pallet of paper to support print/copy operations.	-	I	I	I	F						R	IF, Swatch
TV Graphics Interface	9	3	27	34	Locations where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics for each FOP/Mat of WR.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operators & good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	15	1	15	18	Location for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
IT Bulk Storage	30	1	30	38	Storage area for all spare IT equipment & associated boxes/containers.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to IT provider at all times.				F					G	P	
Reprographic Primary Storage Area	12	1	12	15	Primary storage/technical area in-venue for reprographic provider. Storage for spare parts, additional devices and consumables serving primarily Results Printing Operations.	In venue location adjacent to, or within Results Printing Room.	High Security - lockable. Standard office environment with standard power. Workspace & FF&E for one technician.	-	I		F						G	P	
Reprographic Bulk Storage Area	12	1	12	15	Storage area for bulk paper allocated to venue (multiple pallets).	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of paper required to support venue operations.				F					G	P	
Timing and Scoring Workshop	10	1	10	13	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Timing & Scoring Bulk Store	40	1	40	50	Storage area for large crates & containers used for scoreboards and bulk equipment. Must be accessible to OVR provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of Timing & Scoring equipment deployed to venue. May be combined with Timing & Scoring Workshop if location & size of space meet requirements for venue.	I		F						G	P	
Audio Visual Bulk Store	30	1	30	38	Storage area for large crates & containers used for video boards, PA equipment & TV boxes. Must be accessible to Video/Public address provider at all times.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	Quantity of audio/video equipment deployed to venue.				F					G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required to distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closet. CCFs are to be installed in locations that allow for easy access for service technicians and which allow for easy cable access both from TER room and to user device locations.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Work Room.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in an manner which allows for easy access and repair/replacement. Legacy installations are to be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to existing venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-											

WRESTLING

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-											
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-											
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-											
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-											
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-											
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-											
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-											
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.											
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the videoboard. Required for outdoor venues where the videoboard cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each videoboard.											
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Production on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-											
Mobile Phone Infrastructure (antenna)	-	Varies	-	-	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F						G	P

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Adjacent to the secure perimeter; near the spectator entry point of the venue	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.											P
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s)	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.											P
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.											P
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-											P
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J								P
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J								P
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F							G IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F							G IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.			I	F							G IOC
Spectator and Staff Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F							P
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F							P
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Surface areas paved or gravel.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F							P
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F							P
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F							P
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J							P
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F							P
Emergency Services	-	-	-	50 (each)	-	Generally located inside the Secure Venue Perimeter.	-	Includes vehicle circulation.				F							P
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.											P
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-											P

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G- GenericSpace	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.		I			F					P	
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											
Venue Development																			
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Dependent upon venue footprint, extent of temporary works and number of contractors.					F					P	
Site Management Area	60	1	60	-	-	-	Enclosed space.	-											
Site Manager & Assistant Site Manager(s) Work Area	12	1	12	-	Work and meeting area for the Site Manager and Assistant Site Manager.	-	-	-											
Site Administration Desk & Work Area	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty staff and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container units or existing space. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit or existing space.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space.	Assumes tent or canopy with 2 side walls. Area for carpentry, painting and general construction. Storage for non-weather proof materials.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container units or existing space.											
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											

WRESTLING

Space (Sub-space(s))	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G- GenericSpace	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.										P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-					F						
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	8-10 people.											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue staff and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Area	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	Sun screen, daily news letter, competition schedule, etc.	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during their shift.	A location that will provide easy access to all workforce for breaks and meals; will vary according to venue layout/size.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P	
END OF DOCUMENT																			

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R - Requirement, G - Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation				
Accreditation																							
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											P				
Day Pass Issue & Problem Resolution Desk	15	1	15	-																			
Work Space	15	1	15	-																			
Manager Desk or Office & Storage	12	1	12	-																			
Waiting Area	8	1	8	-																			
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	Located in the Back of House area, on the perimeter of an accredited area and/or entry.	Enclosed space. May be required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.				F							P				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.				F											
Broadcast																							
Broadcast Compound	-	1	-	5000	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, normally in the Back of House area, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.															
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.				I		F				G	IOC				
Broadcast Manager Office	12	1	12	-	-	-	-	-															
Work Room, Assigned & Unassigned Desks	48	1	48	-	-	-	-	-															
Technical Operations centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.				I		F				R	IOC				
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-															
Kitchen & Prep	20	1	20	-	-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Buffet Line & Dining	120	1	120	-	-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.															
Work Space(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.															
Work Space(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.															
Toilets	1.5	8	12	36	-	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Secondary Broadcast Compound	-	-	-	230	Serves as a secondary unit to the main compound to house various broadcast technical needs that are required for Broadcast to cover the full competition FOP or area.	Located adjacent to FOP.	Area only. Required on venues where size of FOP or location of Primary Compound exceeds cabling capabilities.	Specific elements are venue/sport specific.				J		J				R	IOC				
Toilets	1.5	2	3	-	Toilet units designated for broadcast personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Commentator Control Room (CCR)	10	1	10	15	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in Back of House area, in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.				I		F				R	IOC				
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Back of House area; located near commentator positions and CCR.	Enclosed space.	Assumes existing space or container unit.				J		J				R	IOC				
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-				J		J				G	IOC				
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J			J				R	IOC				

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Mixed Zone	50	1	50	100	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Located in the Back of House, adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I		J				J			R	IOC, IF
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in cabins and/or container units with view to FOP and finish areas.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Commentator positions at outdoor venues are normally located in temporary cabin/container/trailer units.			I	J			J			R	IOC
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	Located in cabins and/or container units with view to FOP and finish areas.	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	-			I	J			J				
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J			R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval.	J		I	J			J			R	IOC
Camera Position - Other	4	35	140	315	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	-	I		I	J			J			R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-				J	I		J			G	IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.				J	I		J			G	IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.				J	I		J			G	IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography, in conjunction with OBS and IFs.	J		J	I			J	I		R	IOC
Catering																			
Catering Compound	565	1	565	1020	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity.		I		F						P	
Work Spaces - Catering Management	28	1	28	-	Operational work space(s).	Located in Back of House area.	Enclosed space.	Gross area includes snow removal access.											
Organising Committee Catering Manager	-	-	-	-	-	Located in Venue Operations Centre.	See Venue Management - VOC.	Assumes existing space or container.											
Catering Contractor	16	1	16	-	-	-	-	-											
Beverage Contractor	12	1	12	-	-	-	-	-											
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.											
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-											
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-											
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.											
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-											
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.											
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-											
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary).	Located in the Front of House, in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P	
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	Located in the Front House area, adjacent to spectator points of sale.	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	Located in the Front House area, adjacent to spectator points of sale.	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.											
Outlets' Look	-	-	-	-	-	-	See Look for details.	-	I		F							P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ceremonies																			
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-			I	F						P	
Ceremonies Staging	36	1	36	45	Area to coordinate ceremonies; e.g. podium, procession, recession route and flags. .	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.			I	F						P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-											
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.											
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.											
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-											
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I	F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-		I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I	J	J						G	R	IOC
Cleaning and Waste																			
Cleaning & Waste Compound	252	1	252	420	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House (BOH) area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity. Gross area includes snow removal access.				F						P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	BOH	Area only.	-											
Sorting Area	72	1	72	-	Area for sorting waste.	BOH	Area only.	-											
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	BOH	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).											
Compactor Unit	25	Varies	Varies	-	-	BOH	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.											
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	BOH	Enclosed space.	Assumes container unit.											
Contractor Office	18	1	18	-	Space for management and workforce staging.	BOH	Enclosed space.	-											
Doping Control																			
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J	J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-											
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).											
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).											
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer. Wash basin for hand sanitisation.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).											
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-											
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I	J	J							R	IOC

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	C - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.										P	
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large group.	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.					F					P	
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.										P	
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.										P	
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.										P	
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.										P	
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.										P	
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators										P	
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.										P	
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-										P	
Spectator Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.										P	
Hand Wash Stations	1	Varies	Varies	6 (per 20 toilets)	A chemical unit used in the absence of potable water.	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.										P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R - Requirement, G - Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Finance																				
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I		F							P	
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Located in Front of House, both inside venue perimeter and outside venue perimeter.	Area only.	Quantity dependent upon venue capacity.		I		F							P	
Language Services																				
Work Space / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre (VOC).	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-			J	J			I			G	IOC	
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference need	-			J	J			I			G	IOC	
Logistics																				
Logistics Compound	-	1	-	780	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access. Secondary Compound Area - an additional compound area may be necessary for staging or storage of equipment that is in close proximity to FOP and/or the finish area.											P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.												
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-												
Team Staging/Work Space	33	1	33	-	Space for staging and a work area.	-	-	-												
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-												
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (FF)	-	Enclosed space.	Assumes tent												
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-												
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-												
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.												
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.												
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.												
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.												P
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.												

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Look of the Games																				
Work Space and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.											P	
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J					J		R	IOC	
National Olympic Committee (NOC) Flags	Varies	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events) and competition format.	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.			J	J				J		R	IOC	
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and Back of House locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J				J	G	R, P	IOC, IF	
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals.	-												
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH).	Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J					J	G	R	IOC, L
Backdrop - Press Conference Room	2.2 x 6	1	2.2 x 6	-	Look item for Press Conference behind the dais.	Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-				F		I	I					
Outlets' Look	-	-	-	-	Look required for concessionaire units.	Located in FOH.	Venue catering and merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.	-	I			F							P	
Medical Services																				
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J		J	J							R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-												
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-												
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-												
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-												
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J		J	J							S	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.												
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.			I	F		I					P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-												
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-												
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-												
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.		I	F		I						P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only. For Winter Games, the ambulances may need heated shelters or access to electrical outlets for block heaters and protection from snow and ice.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.				F		I				P		
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-			F		I						P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R - Requirement, G - Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Merchandise																				
Office, Cash Room & Work Space	12	1	12	15	An area to manage the retailing of all Olympic merchandise inside the venue.	-	Enclosed space with secure entry.	Assumes container unit or existing space.				F						P		
Storage	15	2	30	35	-	-	-	Assumes storage containers or existing space.				F						P		
Program Sales Stands/Booths	1	1	1	2	-	-	Area only.	Units provided by vendor. Quantity and location decided by vendor and OCOG.				F						P		
Merchandise Points of Sale (POS)	6	Varies	Varies	18 (each)	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.	I			F						P		
Outlets' Look	-	-	-	-	-	-	See Look for details.	-	I	J	J							G	R	IOC
Olympic Family Services																				
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I		I	F						G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-	-												
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.	-												
Workforce/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol workforce and equipment storage.	-	-	-												
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-	-												
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Workforce/Volunteer, Athlete, Media)	-												
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided				F							P	
Protocol flags	-	-	-	-	-	-	See Look of the Games.	-			J	J							R	IOC
Press Operations																				
Venue Media Centre (VMC)	903	1	903	1150	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Conference Room and Photo Positions.	Close proximity to Press Conference Room and Mixed Zone area.	Enclosed space for press and photographers.	Based on the concept and plan for the Games, if the mountain venues and city venues, including the Main Press Centre, are separated by more than one hour of travel time, a mountain sub-MPC will need to be established. The size of this facility should be no less than 3,000 sq. m. plus adjacent transport hub and logistics compound. This facility will offer additional facilities and services for the media in the mountains, including private rental offices, image centre, extended operating hours and catering. The site of the sub-MPC should be that of the Venue Media Centre for the Alpine skiing events.				F						R	IOC	
Reception & Information Desk	30	1	30	-	Welcome desk at the entrance, for information distribution.	-	-	-												
Storage	10	1	10	-	Equipment storage.	-	-	-												
Press Manager Office	15	1	15	-	Operational work space.	-	-	-												
Photo Manager Office	15	1	15	-	Operational work space.	-	-	-												
IF Media Office	15	1	15	-	Operational work space.	-	-	-												
Olympic News Service (ONS) Work Room or Area	30	1	30	-	Operational work space.	-	Enclosed space.	-												
Info Stations	30	1	30	-	Computer stations and printers.	-	-	-												
Press Work Room or Area	400	1	400	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.												
Photo Work Room or Area	140	1	140	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.	-												
Photographers Check-in & Photo Bib Distribution	20	1	20	-	Area where photographers register and receive/return photo bibs.	-	-	-												
Locker Area	1.5	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.												
Lounge/Catering Preparation	180	1	180	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-	-												
Toilets	1.5	12	18	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided

Press Conference Room	230	1	230	340	An area for media to conduct formal interviews with athletes at the venue.	Generally located in close proximity to FOP/athlete areas for easy access by coaches/athletes/teams.	Enclosed space with consideration to outside noise levels. Broadcast level lighting, audio system and backdrop required.	Assumes tent; fitted with tables, chairs, Look of the Games backdrop, camera platforms. May be used by press staff for meetings between press conferences.	I			F						R	IOC
Seating Area	180	1	180	-	An area for accredited press.	-	Seats and standing room.	-											
Dais	-	1	-	-	A platform from which interviews are conducted.	-	2.4 m x 6 m x 60 cm high platform with 1 stair. 3.6 m table, 8 chairs & step and repeat backdrop.	-											
Camera Platform	-	1	-	-	Area for broadcast camera positions.	-	Camera Positions, 1.8 m x 6 m x 60 cm high platform.	-											
Audio Amplifier Rack and Speaker stands	-	-	-	-	Area for amplifier rack and speakers.	-	See Technology for Amplifier Rack details.	-											
Backdrop - Press Conference Room	-	-	-	-	-	-	See Look for details.	-				F			I	I			
Mixed Zone	200	1	200	-	An area where media conducts brief, informal interviews of the athletes at the end of the event.	Located in Back of House adjacent to FOP, along athlete route from FOP to athlete area.	Area only. See also Broadcast requirements.	Area requirements for press only, not including broadcast requirements.	I		I	F						R	IOC,IF
Press Tribune	-	-	-	-	A section of the standing in the Mixed Zone area (outdoor venues) and of the seating (indoor venues) dedicated to accredited journalists and photographers.	-	For outdoor venues telephones, television monitors, power and other press facilities are existing in the VMC.	-											
Standing Area in the Mixed Zone	Varies	Varies	Varies	-	An area for accredited press.	For outdoor venues, located near finish area or outrun of course area.	An open, corralled area.	Exceptions may exist at various venues.			I	F						R	IOC,IF
Toilets	1.5	Varies	Varies	-	Toilet units designated for press.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided											
Photographers Positions	-	-	-	-	Positions for photographers provided within the venue with view of FOP.	-	-	-											
Field of Play	Varies	Varies	Varies	-	Positions for photographers on/around the FOP.	Located along FOP.	60 cm wide x 90 cm deep per position, multi-row areas require 60 cm riser per row.	Power, Wireless and data cabling needed to photo positions on FOP.	J		I	J						R	IOC, IF
Seating area(s)	Varies	Varies	Varies	-	Positions for photographers within seating area.	Normal seating areas.	-	Seating areas are generally not applicable for outdoor venues.	I		I	F						G	IOC
Lighting	-	-	-	-	-	-	See Broadcast for lighting specifications.	-

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.											P	
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Space	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of security radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												P
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing workforce before and after shifts.	-	Enclosed space.	Assumes tent.					J	J						
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.						J	J					P
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.												P
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.												
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-	I											P
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-						F						P
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-						J	J					P
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.												P

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator Government	OBS-OBO	IPC	G - Generic Space	R - Requirement, G - Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Vehicle Permit Check Point and Queue	Varies	Varies	Varies	-	A control area where vehicles entering this exterior perimeter point will be required to display the proper Olympic vehicle permit for access to the venue.	Located outside the venue secure perimeter; normally on access roads to the venue.	Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.									G	P	
Venue Perimeter Entrances & Security Screening/Search (Pedestrian)	-	-	-	-	Locations where constituent groups will enter through the secure perimeter of the competition venue and access various parts of the venue with an accreditation or a ticket.	Located at the venue secure perimeter.	Enclosed space for screening/search area positions.. Net area for each screening position will accommodate the following: 4 Wanding Stations, OR - 1 Magnetometer with 2 Search Tables & 2 Wanding Stations, OR - 1 X-ray Device, 1 Magnetometer & 2 Search Tables.	Assumes tent with 2 retractable side walls. Gross area includes queue. Dependent upon spectator capacity and venue design.											
Athlete / Team	18	1-2	18-36	36-72	-	BOH.	-	-	I			F							P
Technical Officials, Judges & Referees	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with Athlete and/or Olympic Family.	I			F							P
Olympic Family (IOC, NOC, IF)	18	1-2	18-36	36-72	-	BOH.	-	Entrance can be combined with TO, ENG and/or Press.	I		I	F							P
Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.				F		I			R		IOC
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-											
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.				F						R	IOC
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				F						G	IOC
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wanding station).	-				F							P
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.											
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.											
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				I		F			G	P	
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.				F		I					P
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1m to 3m width, sometimes used as a secondary service vehicle exit point.	-											
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-											
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.											
Sponsor Services																			
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I		F					P

Sport Operations																			
Competition Management	50	1	50	65	A work area for sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located in Back of House, in close proximity to athlete area and FOP; may be co-located within the Venue Operations Centre (VOC).	Enclosed space.	Area/space requirements may vary according to venue layout/FOP layout, alpine disciplines or other ski disciplines sharing venues, and/or the host city venue setup/agreement.	I									P	
Competition Manager & Asst. Manager Desks	15	1	15	-	An area for the manager and assistant(s) manager.	-	-	-											
Assigned Work Space	10	1	10	-	Open plan of work stations designated for Sport personnel.	-	-	-											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space	15	1	15	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-											
Sport Information	20	1	20	25	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located adjacent to athlete area.	Enclosed space with waiting area and seating.	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J		J							R	IF
Results Posting Area	3	1	3	-	An area for posting race results.	Located adjacent to athlete area.	Area only.	-											
Athlete Lounge	140	1	140	180	An area where athletes, coaches, and service personnel can relax at the venue while not training or competing.	Located in athlete area or in close proximity.	Enclosed space.	Includes: seating area, lounge, Info & Help Desk, info terminal stations.	J		J							R	IF
Athlete Wax Cabins	-	-	-	-	Change-room facilities to accommodate athletes at the venue during competition and training; additionally, a separate area used by the service personnel and coaches for working on equipment and waxing skis.	Located in athlete area, adjacent to FOP.	Enclosed space; large compound like area for containers and/or trailers. Level surface area for placement of containers and/or trailers. with easy access for vehicles. Measurement for each cabin is 67m ² . Separate male and female facilities required.	Number of cabins will vary according to final team/athlete numbers. Gross area may vary according to placement of containers; Gross area should include the area required for snow removal equipment/vehicles. Assumes cabins/container units.	J		J							G	IF
Downhill and Super-G Events	67	Varies	Varies	120 (each)	-	-	-	-											
Ski Manufacturer Cabin	-	-	-	-	An area where ski equipment manufacturers provide services to athletes.	Located in the Back of House, in close proximity to Athlete areas.	Enclosed space; an area for placement of containers and/or trailers.	Number will vary according to number of manufacturer requests. Assumes cabins/container units.	J		J							G	IF
Downhill and Super-G Events	35	Varies	Varies	60 (each)	-	-	-	-											
IF & Sport Meeting Room	30	1	30	45	Meeting facility at the venue for team captains and other sport related meeting needs.	Located in close proximity to the IF Area and Competition Management area.	Enclosed space.	Shared meeting room area between IF & Sport to serve various meeting needs.	J		J							G	IF
Sport Equipment Storage	60	1	60	90	Storage for athlete/team sport equipment.	Located in athlete areas.	Enclosed, secure space.	-	J		J	I						R	IF
Overnight Ski Storage	60	2	120	180	Storage for ski equipment.	Located near FOP finish area.	Enclosed, secure space.	-	J		J	I						G	IF
FOP Equipment Storage Area	30	2	60	60	Storage of equipment required for utilised by sport in running competition.	Located in BOH, near FOP finish area.	Securable storage area for equipment (e.g. gates, rakes, shovels).	-	I		F	I						R	IF

International Federation																			
IF Area	90	1	90	135	Responsible for administering the respective sport competition, including: enforcement of the rules/regulations, operation and technical control of the overall competition.	Located in the Back of House, within the competition management area and in close proximity to athlete areas.	Enclosed space.	Assumes container units or existing space.	I		I	F						R	IF
IF President's Office	15	1	15	-	An office area for IF President.	-	Enclosed space.	Assumes container units or existing space.	I		I	F						R	IF
IF Secretary-General/Executive Director Office	15	1	15	-	-	-	-	Assumes container units or existing space.	I			F						G	IF
Reception, Secretariat, Waiting & Work Space	40	1	40	-	-	-	-	-	I			F						G	IF
IF Meeting Room	-	-	-	-	-	-	See IF & Sport Meeting Room.	-											
Jury Room	15	2	30	40	This space is utilised for jury meetings during training and competition days and the resolution of protests and appeals after competition.	Located in the Back of House, within the competition management area and in close proximity to athlete areas.	Enclosed space.	Assumes container units or existing space.	I			F						R	IF
Video Room	10	2	20	30	Area utilised by technical officials for video reviews of competition.	Located in Back of House, adjacent to Jury Room.	Enclosed space.	Assumes container units or existing space.											
Lounge - International Technical Officials	15	1	15	20	A rest area for officials.	In close proximity to FOP.	Enclosed space.	Assumes container units or existing space.	J		J							G	IF
Seeding / Draw Room	-	-	-	-	Area for team captain meetings involving coaches and team officials.	IF & Sport Meeting Room.	See IF & Sport Meeting Room.	-											
Technical Information Centre	10	1	10	15	An area for distributing information to officials and competition management.	-	-	Recommend to combine with Sport Information area.											
Officials Locker Room, Shower, Toilet	20	1	20	25	Change-room for officials.	Located in Back of House, in close proximity to FOP.	-	Assumes container units or existing space. Separate men and women lockers may be necessary.	I			F						R	IF
Race Director/Technical Delegates Office/Work Space	15	1	15	20	Office area for Race Director, Technical Delegates.	In close proximity to IF President/Secretary General office area.	Enclosed space.	Assumes container units or existing space.	I		I	F						R	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-	-	I		J	J						R	IOC,IF
Sport Presentation																			
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.											
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-				F						P	
Announcer Position	3	1	3	-	-	-	-	-				F						P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.					F					P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R - Requirement, G - Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation	
Technology Operations																				
Technology Help Desk	20	1	20	24	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support workforce & manager.	The Help Desk and LAN Management may share a common space if necessary (e.g. when rooms or space are limited).				F						P		
Venue Technology Operations (VTO)	35	1	35	40	OCOG Technology Operations area. Operational work space for entire Venue Technology team, .	Adjacent to or within Venue Operations Centre (VOC).	Medium Security - lockable room. Air-conditioned office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	No specific spaces for partners and contractors. Time and Scoring partner (e.g. OMEGA) will use the OVR room. When not in direct operation, partner technicians can stand-by in the Technicians Intervention room.				F					G	P		
Technicians Intervention Room	35	1	35	40	A stand-by area for partner technicians when not in direct operation.	Located in close proximity to the VTO.	Enclosed space. Table and chairs. Shared area, separate desks not necessary.	-				F						G	P	
Radio Distribution Room (RDR)	30	1	30	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).				I	F						P	
Information Technology																				
Computer Equipment Room (CER)	15	1	15	25	Area for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room.	High Security - lockable room. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	The TER and CER may share a common space if necessary (e.g. when rooms or space are limited). Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.				I	F					G	P	
Data Local Area Network (LAN) Management Room & Store	30	1	30	35	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational workforce & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces. The Help Desk and LAN Management may share a common space if necessary (e.g. when rooms or space are limited).				F						G	P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R - Requirement, G - Guideline, P - Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Telecommunication & Audio Visual																			
Telecomm. Equipment Room (TER) Primary	45	1	45	50	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room.	High Security - lockable room. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	The TER and CER may share a common space if necessary (e.g. when rooms or space are limited). Raised flooring is preferable for cabling distribution, but not essential.	I		F							P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER.	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.	I		F							P	
Audio Control Positions	-	-	-	-	-	-	-	-			F							G	P
Venue	4	1	4	8	Area for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Presentation. Can be on FOP, in stands or in a booth with view to FOP.	High Security-lockable room. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	-											
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), HVAC, weatherproof. Work space & FF&E for operator.	-											
Athletes Briefing	2	1	2	4	PA systems required for to facilitate announcements to athletes. Space required for amplifier/microphone.	Within briefing room/area for athletes.	Standard/mains power & FF&E.	-											
International Federation Area	2	1	2	4	PA systems required for Federation Area. Space required for amplifier/microphone.	Location as required by Sport/International Federation.	Standard/mains power & FF&E.	-											
Warm-Up Area	2	1	2	4	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Located in athlete warm-up area.	Standard/mains power & FF&E.	-											
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-											
Workforce Break/Dining	2	Varies	Varies	-	Area within break/dining area where audio control equipment is installed to facilitate meetings/training of large numbers of workforce.	Workforce break/dining areas.	Standard/mains power & FF&E.	-											
Video Board Control	10	1	10	12	Area of video control for video board or video projection system. Operations integral with those of Sport Presentation.	Located within Sport Presentation area. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-			F							G	P
Wired Communications Control	5	1	5	8	Area of wired communications master control station and support technician. System essential to operations of both Sport Presentation and Results/FOP management.	Located near or within Sport Presentation is recommended. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Presentation, Broadcast Graphics Room & Results Printing required.	-			F							G	P

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R - Requirement, G - Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Timing, Scoring and Results Operations																			
Timing and Scoring Position	-	-	-	-	Area(s) for event timing & scoring personnel & equipment during competition.	Located adjacent and/or close to FOP.	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards, speed guns & OVR room. Space & FF&E for operators and equipment.	Where timing and scoring take place outdoors, adequate weather (rain/sun/snow) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, OMEGA
Start Area	1	1	1	2	Position where clock is started for event.	Located with sport at race start position.	Cable access to OVR room between all intermediate timing points, aligner hut & start position.	-											
Control Room	30	1	30	35	Area for central Timing & Scoring control operations, including Backup C system, Event Management & photo-finish system.	Located near finish area with view to FOP.	Cable access to OVR Room, Photo Finish Control & Intermediate Positions along course.	-											
Finish Area	1	1	1	2	-	-	-	-											
On Venue Results (OVR)	-	-	-	-	Area is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	-	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Adequate space and FF&E for high density of computer workstations, racks for servers and working space for technicians, operators, and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or where two sports occur concurrently will require more space for additional OVR equipment.	I	F								P	IF, OMEGA
OVR Provider Work Space	30	1	30	32	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO, CIS, PRD, etc.).	Ideally adjacent to IT provider work area.	-	-											
IT Provider Work Space	20	1	20	25	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-											
Scoreboard Control	-	-	-	-	Area for scoreboard control operations. Operations integral with those of Sport Presentation, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Adequate space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I	F							G	P	IF, OMEGA
Scoreboard Control	10	1	10	12	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-											
Scoreboard Interface	4	1	4	6	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R - Requirement, G - Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	Varies	1	Varies	-	Area for hard copy results production & distribution. Location of high intensity work involving many workforce preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area, room for Print Distribution Workstation (IDS interface) equipment and operator.	Located adjacent or in close proximity to Press Workroom. Easy access to Press Tribunes, Broadcast Commentary positions, Sport Information, Doping and Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specifications. Adequate space for interface equipment and graphics operators and good cable access to OVR room. Adequate space for staff and FF&E required for operational staff as well as 1 pallet of paper to support print/copy operations.	-	I	I	I	F				I		R	IF
TV Graphics Interface	6	1	6	9	Area where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operations and good cable access to OVR room.	-				I		F			G	P	
Technology Storage																			
Technology General Storage	60	1	60	75	Area for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
Timing and Scoring Storage & Workshop	20-30	1	20-30	25-35	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.	-	I		F						G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required to distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closets.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Workroom.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in a manner which allows for easy access and repair/replacement. Legacy installations should be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to the existing structure or venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.	-	-	-											
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.	-	-	-											
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.	-	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-											
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-											
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-											
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-											
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-											
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-											
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-											
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.											
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the video board. Required for outdoor venues where the video boards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each video board.											
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Presentation on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F						G	P
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-											
Mobile Phone Infrastructure (antenna)	15	1	15	25	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F					G	P	

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Located in Front of House, adjacent to the secure perimeter; near the spectator entry point of the venue.	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.											P
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s) & Will Call	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.											P
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.											P
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-											P
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J								P
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J								P
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.											G IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.											G IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.			I	F							G IOC
Spectator and Workforce Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.											P
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F							P
Accessible	-	-	-	-	-	-	-	Part of Spectator total.											P
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Area only. Surface areas paved or gravel/hard pack surface.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F							P
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.											P
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.											P
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J							P
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.											P
Emergency Services	-	-	-	50 (each)	-	Generally located inside the secure venue perimeter.	-	Includes vehicle circulation.											P
Vehicle Chain-up Area	-	-	-	700	Area that vehicles (cars, buses, etc.) use to install chains onto vehicle tires.	Located along venue access road.	-	Required only for mountain venues in which the access road has slope exceeding an 8% grade on gravel surface or 10% grade on paved road surface. May be dependent upon local legislation and/or requirements.											P

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	C - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Development																			
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Gross area includes snow removal access. Dependent upon venue footprint, extent of temporary works and number of contractors.											P
Site Management Area	60	1	60	-	-	-	Enclosed space.	Assumes container unit/trailer or tent.											
Site Manager & Assistant Site Manager(s) Work Space	12	1	12	-	Work and meeting area for the Site Manager and additional staff.	-	-	-											
Site Administration Desk & Work Space	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty workforce and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container unit/trailer or tent. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit/trailer or tent.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space. Area for carpentry, painting and general construction. Storage for non-weather proof materials.	Assumes tent or canopy with 2 side walls.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container unit/trailer or tent or existing space.											
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.	I		F								P
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-	I		F								P
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.	I		F								P
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.											P
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-											
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.											P
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	-											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre or in close proximity to VOC.	Enclosed space.	Assumes existing space or tent. Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.											P
Snow Removal Compound	-	-	-	-	A service area where the snow removal contractor operates at the venue and performs the snow removal.	Located in the BOH area; adjacent to or within the Logistics or Waste Management compounds.	-	-											
Equipment Storage	15	1	15	-	Area for storage of snow removal equipment.	-	May require covered and enclosure.	-											
Truck & Equipment Staging	50	Varies	Varies	-	Area for staging of snow removal vehicles and equipment	-	May require covered and enclosure.	Number required may vary according to layout and/or size of venue.											
Supply Storage Area	50	Varies	Varies	-	Area for storage of supplies that may be required for snow removal (i.e. salt).	-	May require covered and enclosure.	Number required may vary according to layout and/or size of venue.											
Snow Storage / Removal Area	-	-	-	200-2000	An area or location where snow can be stored after it is removed from operational areas of the venue.	Located outside of operational areas of the venue.	Area only for dumping of snow removed areas of the venue. May require multiple locations that may exist off venue or outside the venue perimeter.	Area requirements will be based on size of venue. Snow removal may require hauling/transport to off venue location.											
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.											P
Check-In Area	96	1	96	-	Area to log-in venue workforce and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Space	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during shifts.	A location that will provide easy access to all venue workforce for breaks and meals; will vary according to venue layout/distances.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.											P

Space Sub-space(s)	Net Area - D107	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation					
Accreditation																							
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space. Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										P					
Day Pass Issue & Problem Resolution Desk	15	1	15	-																			
Work Space	15	1	15	-																			
Manager Desk or Office & Storage	12	1	12	-																			
Waiting Area	8	1	8	-																			
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	Located in the Back of House area, on the perimeter of an accredited area and/or entry.	May be required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F						P				
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Broadcast																							
Broadcast Compound	-	1	-	5000	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, normally in the Back of House area, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements.															
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.					I						G IOC				
Broadcast Manager Office	12	1	12	-	-	-	-	-															
Work Room, Assigned & Unassigned Desks	48	1	48	-	-	-	-	-															
Technical Operations centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.					I						R IOC				
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-															
Kitchen & Prep	20	1	20	-	-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Buffet Line & Dining	120	1	120	-	-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.															
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.															
Work Space(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.															
Work Space(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.															
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-															
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.															
Toilets	1.5	8	12	36	-	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.															
Commentator Control Room	10	1	10	15	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in Back of House area, in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.					I						R IOC				
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Back of House area; located near commentator positions and CCR.	Enclosed space.	Assumes existing space or container unit.					J						R IOC				
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-					J						G IOC				
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J								R IOC				
Mixed Zone	25	1	25	90	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Located in the Back of House, adjacent to the FOP.	Gross area includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I	I	J								R IOC, IF				
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in cabins and/or container units with view to FOP and finish areas.	Each position = 2m x 2m (4m ²), this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Commentator positions at outdoor venues are normally located in temporary cabin/container/trailer units.											R IOC				

BIATHLON

Principles of Stakeholder Involvement:
I-Input, J-Joint Decision, F-Final Decision

Space Sub-space(s)	Net Area - D107	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G - Generic Space Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	-	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	-			I	J			J			
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J			J		R	IOC
Camera Position - Field of Play	4	Varies	Varies	9 (each)	Areas within the FOP selected for broadcast camera positions.	Located within the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	FOP Camera positions are dependent upon production plans and IF approval.	J		I	J			J		R	IOC
Camera Position - Other	4	35	140	315	Areas around the FOP selected for broadcast camera positions.	Located outside the FOP boundaries.	Each position = 2m x 2m, each camera location may have multiple positions.	-	I		I	J			J		R	IOC
Radio Frequency (RF) Broadcast Tower	4	1	4	9	An area where a unit for transmitting broadcast camera signals to the broadcast compound is placed.	May be located on roof of existing or temporary structures.	Height varies depending on terrain, structure, etc. Unobstructed view to camera transmitter required for transmission.	-							J	I		G IOC
Cable Route(s)	-	-	-	-	A designated pathway(s) for the distribution of broadcast cabling.	Positioned along building or fence lines, underground conduits, or overhead structures.	Generally may require conduit and/or cable ramps under roads, paths, etc.	See also Technology requirements.							J	I		J IOC
Cable Bridge(s)	72	Varies	Varies	72 (each)	A structure for routing cable pathways over walking areas, roadways, or other obstacles.	Located in Back of House areas; adjacent to the Broadcast Compound.	Over major pedestrian route or any vehicular route. Clear span generally 10m and clear height 5m.	Assumes route under bridge and vehicle barricades in area requirement.							J	I		J IOC
Lighting	-	-	-	-	Lighting level required to properly film and photograph the FOP.	-	Not less than 1400 lux averaged in the same venue (measured on a vertical scale for still photography).	Adjusted to the specific technical requirements of the sport and the venue for broadcasting and press photography	J			J	I		J	I		R IOC
Catering																		
Catering Compound	565	1	565	1020	A service area where the catering contractor operates at the venue; consisting of site sheds, portable cabins, refrigeration trucks or storage units, dry storage areas and temporary kitchens/food preparation areas.	Located in the Back of House area with easy access for deliveries; sometimes co-located with Logistics and Cleaning and Waste as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Area will be dependent upon venue capacity, level of catering activity. Gross area includes snow removal access.		I		F						P
Work Spaces - Catering Management	28	1	28	-	Operational work space(s).	Located in Back of House area.	Enclosed space.	Assumes existing space or container.										
Organising Committee Catering Manager	-	-	-	-	-	Located in Venue Operations Centre.	See Venue Management - VOC.	-										
Catering Contractor	16	1	16	-	-	-	-	-										
Beverage Contractor	12	1	12	-	-	-	-	-										
Dry, Cold and Ice Storage	38	6	228	-	Storage for food and beverage items.	-	Enclosed space.	Power, generally container and/or trailer units.										
Vehicle Staging	90	1	90	-	Parking area for product distribution vehicles which generally remain inside the venue.	-	Area only.	-										
Resupply Bay	60	1	60	-	Loading and unloading parking space for vehicles from outside the venue.	-	Area only.	-										
Kitchen and Preparation Area	80	1	80	-	An area where food handling and preparation occurs.	-	Enclosed space.	Assumes containers or tent.										
Uncovered Storage	75	1	75	-	Outdoor storage of material and products.	-	Area only.	-										
Toilets	1.5	2	3	-	Toilet units designated for catering personnel.	-	-	Assumes temporary units. Accessible toilets should be provided.										
Hand Wash Station	1	1	1	-	Chemical unit used in conjunction with chemical toilets, and in the absence of potable water.	-	Chemical or plumbed unit.	-										
Spectator Points of Sale (P.O.S)	6	Varies	Varies	18 (each)	Concessionaire units (existing or temporary). The temporary holding and distribution of potable water in accordance with local health code standards.	Located in the Front of House, in close proximity to spectator seating.	Generally, unit may be trailer or tent with equipment, container's). 1 P.O.S. per 400 spectators.	Gross area includes service area and queue. Quantity dependent upon venue capacity and level of catering activity.		I		F						P
Potable Water Supply Tank(s)	8	Varies	Varies	20 (each)	The temporary holding and distribution of potable water in accordance with local health code standards.	Located in the Front House area, adjacent to spectator points of sale.	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.										
Gray Water Storage Tank(s)	8	Varies	Varies	20 (each)	The temporary holding of waste water in accordance with local health code standards.	Located in the Front House area, adjacent to spectator points of sale.	Required where no utility infrastructure exists.	Quantity dependent upon venue capacity and level of catering activity.										
Outlets' Look	-	-	-	-	-	-	See Look for details.	-		I		F						P

Ceremonies																				
Ceremonies Presentation Area	20	1	20	30	The area for the staging of Victory Ceremonies of all Olympic finals in accordance with the competition schedule.	Located adjacent to or on the FOP.	Assumes area only. Location should be visible from the seating areas and from the Sport Production control room.	-											P	
Ceremonies Staging	36	1	36	45	Area to coordinate ceremonies; e.g. podium, procession, recession route and flags. .	Adjacent to or close to FOP.	Consists of coordinator work space with area for anthem storage, secure storage, preparation and dressing area; see below for additional details.	Assumes existing space or container.											P	
Manager Desk	6	1	6	-	Workspace for Manager.	-	-	-												
Anthem Storage	-	-	-	-	Storage for each nation's anthem.	-	Stored in the Sport Production Control Room - see Sport Presentation. Secure storage required.	Varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format.												
Presenters, Medal/Flower staging, Secure medal and flag storage	22	1	22	-	Area for staging, secure storage for medals and flags on ceremonies day.	In close proximity to FOP.	Enclosed space. Secure storage.	Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events), and competition format. Medals storage is not required for those venues where the medal ceremony will take place at another location.												
Presenter Preparation and Dressing	4	2	8	-	A dressing and preparation area for Presenters.	-	Pipe and drape/temporary walling adequate for privacy, 1 female 1 male.	-												
Mascot Dressing Room	9	1	9	12	A dressing and preparation area for Mascots.	Close to FOP.	Limited use, may be shared with other space. See Sport Presentation.	-		I		F							P	
Awards Podium Storage	12	1	12	15	Storage for awards podium.	Adjacent to FOP.	Varies from sport to sport.	-			I	F							P	
Victory Ceremony Flag Poles	32	1	32	35	Area for flag poles or a suspended structure for holding and raising flags.	Adjacent to FOP.	3 - 9m high poles with 2m spacing or suspended from ceiling structure.	Generally, 3 flag poles will be required and 4th should be available in the event of a draw.	I		J	J					G	R	IOC	
Cleaning and Waste																				
Cleaning & Waste Compound	252	1	252	420	A service area where the Cleaning and Waste contractor operates at the venue and performs the cleaning, removal and disposal of waste. Consisting of site shed, waste containers, storage area, and recycling/waste sorting area.	Located in the Back of House (BOH) area with easy access to all areas of the venue; sometimes co-located with Logistics and Catering as one compound area.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements; sometimes a remote location will be considered for certain waste functions (e.g. sorting)	Compound may be split into operations and storage locations. Size dependant upon venue capacity. Gross area includes snow removal access.											P	
Vehicle Staging	72	1	72	-	Parking area for collection vehicles which generally remain inside the venue.	BOH	Area only.	-												
Sorting Area	72	1	72	-	Area for sorting waste.	BOH	Area only.	-												
Waste & Recycle Containers	15	4	60	-	Area in front of waste and recycle bins where material is separated for containment.	BOH	Area for containers.	Assumes 30 cubic meter capacity each. Secondary container units may be necessary in Event Services area and in major Back of House functions (e.g. Catering, Logistics, Broadcast).												
Compactor Unit	25	Varies	Varies	-	-	BOH	Used in place of container units in areas which can not be serviced frequently.	Assumes 30 cubic meter capacity each. Power requirement for compactor motor.												
Equipment Supply & Storage	15	2	30	-	Space for cleaning equipment and paper product.	BOH	Enclosed space.	Assumes container unit.												
Contractor Office	18	1	18	-	Space for management and workforce staging.	BOH	Enclosed space.	-												
Doping Control																				
Doping Control	Varies	1	Varies	Varies	An area where testing of a certain number of athlete urine samples is performed. A designated process of testing is carried out at the venue to ensure compliance of the current testing requirements.	Back of house location, in close proximity athlete areas and mixed zone.	Enclosed air-conditioned space with secure entry.	-	J		J	J							R	IOC
Waiting Area/Reception	26	1	26	30	Area where athletes check-in and wait prior to testing.	-	-	-												
Urine Processing Room(s)	12	Varies	Varies	15 (each)	Area where athlete urine samples are provided and sealed.	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Blood Processing Room(s)	15	Varies	Varies	20 (each)	Area where athlete blood samples are provided and sealed	-	Enclosed space. Secure storage.	Assumes 1 space in area requirements. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Toilet(s) & Sink(s)	5	Varies	Varies	8 (each)	Toilet units designated for Doping Control only. Where athlete urinates under direct observation of Doping Control Officer. Wash basin for hand sanitisation.	-	Toilet located in separate room from sink to avoid tampering with samples.	Assumes 1 space in area requirement. Accessible toilets facilities should be provided. Quantity varies and is dependent on testing operation (e.g. peak number of tests per hour).												
Office / Storage	12	1	12	15	Work and storage space for Doping Manager.	-	Enclosed space. Secure storage.	-												
Athlete Tagging	4	1	4	6	A waiting area where doping escorts identify athletes for Doping Control.	Located at/near FOP exit/finish area.	Area only.	-	I		J	J							R	IOC

Event Services																			
Event Services Manager Desk	6	1	6	10	Work space for Event Services Manager.	In Venue Operations Centre (VOC) or other BOH/Operational area.	Enclosed space.	May require additional space for Assistant Manager.											P
Sector Coordinator Staging/Work Area	24	1	24	30	Space for staging and a work area.	-	-	-											
Equipment Storage and Distribution	20	1	20	25	Area for storage and distribution of equipment.	-	-	Secure storage may be required. Generally, large equipment needs (i.e.-metal barricades will be stored in the Logistics Compound).											
Briefing Area	Varies	Varies	Varies	-	Area for briefing of workforce pre-shift.	Generally located in spectator seating areas or see Multi-purpose Room under Venue Management.	Seating area (outside or inside) necessary for a large	Competition Schedule - can hold briefing in spectator seating area if only 1 session per day. Size requirement may be dependent upon spectator capacity.											P
Public Information	36	1	36	108	An information desk available to spectators for Olympic event information; open throughout the event to service spectator queries or concerns.	Adjacent to and accessible prior to entering the seating areas.	Enclosed and covered space; gross area includes queue(s).	Assumes 3 sided tent or existing space with cover. Some venue designs may require 1 or more locations inside and/or outside the secured perimeter. Dependent upon spectator capacity and venue footprint/layout.											P
Information Desk	-	-	-	-	-	-	-	-											
Lost and Found	-	-	-	-	A holding area for items found in the venue.	-	-	-											
Assisted Listening Device Rental	-	-	-	-	An area where listening devices are provided to spectators.	-	-	-											
Wheelchair Storage	6	1	6	12	An area to store wheelchairs.	-	-	Will depend on level of service at venue.											P
Ticket Rip	3	Varies	Varies	9 (each)	An area after the security screening point where, on entry to the venue, the ticket is ripped.	Inside venue perimeter, after spectator entry point.	Barricade line creating 2m deep chutes; located between screening/search area and spectator plaza.	Total number generally 50% of security screening positions.											P
Stroller Storage	Varies	Varies	Varies	72 (each)	An area designated for the temporary storage of children's strollers.	In close proximity to seating area.	Designated area/location cannot interrupt pedestrian/spectator flow to seating areas.	Size will vary (i.e.-barricaded area under roof/overhang near entry of seating area). Quantity dependent upon spectator capacity.											P
Water Station(s)	36	Varies	Varies	108 (each)	A distribution point of drinking water in accordance with local health code standards.	Located in FOH and away from concession area as not to interfere with concession operations.	Area only.	Estimate 1 per 5,000 spectators. Will vary according to local legislation.											P
Payphones	2	Varies	Varies	72 (each)	Area for placement of public telephones.	Located inside and outside the secure perimeter	Area only.	Outside Phones: assumes 8 phones in each unit, 1 unit per 20,000 spectators; Inside Phones: assumes 8 phones in each unit, 1 unit per 10,000 spectators											P
Spectator Shade and Shelter	Varies	Varies	Varies	72 (each)	Supplementary temporary structures for spectator comfort.	Located between spectator entry, seating areas and spectator service amenities.	Covered area. 1m ² per person.	Quantity determined by climate and competition schedule; can pertain to indoor venues with long walk-ups from transport drop zone. Spectator rest stops may be necessary in extended venue walk-ups; will depend on venue layout distance and local legislation.											P
Designated Smoking Areas	36	1	36	-	Designated smoking zones for constituent groups.	Located away from seating areas and food service areas; both Front of House and Back of House locations.	Uncovered area with barricades or rope and sign(s).	-											P
Spectator Toilets	1.5	Varies	Varies	5 (each) 6 (per 20 toilets)	Toilet units designated for spectators.	Located in FOH, close proximity to seating and spectator amenities.	-	Assumes temporary units. Accessible toilet facilities are generally 1% of the spectator capacity and at least one (1) unit per toilet bank location. Total number of toilets are generally based on spectator capacity, duration of event including event load-in/load-out time period.											P
Hand Wash Stations	1	Varies	Varies	6 (per 20 toilets)	A chemical unit used in the absence of potable water	Located in FOH, close proximity to seating and spectator amenities.	Chemical or plumbed unit. Not required if temporary toilets include hand washing unit.	Assumes temporary units.											P

Finance																			
Work Space / Desk	-	-	-	-	A work space where the Venue Finance Manager manages all financial transactions and assists the Venue Manager with all budget matters of the venue for the Olympic Games period.	Located in the Venue Operations Centre.	See Venue Management - Venue Operations Centre.	-		I		F						P	
Automated Teller Machines (ATM)	2	Varies	Varies	72	An area for the placement of a portable ATM.	Located in Front of House, both inside venue perimeter and outside venue perimeter.	Area only.	Quantity dependent upon venue capacity.		I		F						P	
Language Services																			
Work Space / Desk	20	1	20	25	Area where Language Service is provided to athletes, Olympic Family and, generally, to accredited media.	May be integrated into Venue Operations Centre (VOC).	Includes a desk for a translator(s) and waiting/staging area for interpreters.	-		J	J			I				G	IOC
Simultaneous Interpretation Booth	Varies	Varies	Varies	3 (each)	A space where simultaneous interpretation services are set-up to meet the needs of Sport and Press.	Generally located in Press Conference rooms.	Requirement based on Sport and Press Conference ne-	-		J	J			I				G	IOC
Logistics																			
Logistics Compound	-	1	-	780	A service area where Logistics will operate at the venue, including management of furniture/equipment, asset tracking, storage, scheduling and receiving all deliveries to the venue and general handling of all equipment movements within the venue on behalf of all Functional Areas.	Located in the Back of House (BOH) area with easy access for deliveries; generally may be located with Catering and Cleaning & Waste as one compound area at the venue.	Area only. Surface area paved or gravel with heavy duty load capacity. Gross area does not include service vehicle access requirements.	Compound may be split into operations and storage locations. Size may vary according to venue capacity. Gross area includes snow removal access.					F					P	
Logistics Centre	60	1	60	-	-	-	Enclosed space.	Assumes container units or tent.											
Logistics Manager & Assistant Manager(s) Work Space / Desk	12	1	12	-	Space for logistics management.	-	-	-											
Team Staging/Work Space	33	1	33	-	Space for staging and a work area.	-	-	-											
Secure Storage & Equipment Sign-out	15	1	15	-	Area for storage.	-	Storage for tools.	-											
Warehouse Storage	90	1	90	-	Storage area for furniture, fixtures, and equipment (F	-	Enclosed space.	Assumes tent											
Storage Yard	75	1	75	-	Outside storage area within compound.	-	Area only.	-											
Vehicle Staging	100	1	100	-	Area for vehicle movement and turnaround.	-	Area only; delivery unloading.	-											
Fuel Tank(s)	9	Varies	Varies	25 (each)	An area where containers are installed for the refueling of vehicles.	-	Area only; may require cover dependant on climatic conditions.	In accordance with local safety codes. Quantity dependant upon venue layout and distances.											
Waste Bin	15	Varies	Varies	-	Large bins for waste storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.											
Recycle Bin	15	Varies	Varies	-	Large bins for recyclables storage.	-	May be 8 or 30 cubic meter unit.	Quantity dependant upon venue layout and distances.											
Toilets	1.5	2	3	-	Toilet units designated for logistics personnel.	Located in BOH compound areas.	-	Assumes temporary units. Accessible toilets should be provided.											
Material Transfer Area (MTA)	-	1	-	575	Generally for deliveries to the venue that may take place after hours or not within the logistics delivery window period.	Adjacent to venue perimeter; near Back of House (BOH) entry/vehicle screening area.	Area only. Surface area paved or gravel with heavy duty load capacity. Operated in conjunction with venue security operations.	Includes Delivery Vehicle Queue & Off-load, Security Screening, Staging & Logistics Vehicle Queue & on-load and toilets.				F						P	
X-Ray Area	36	1	36	72	Device for screening of boxes/bags/hard goods coming into the venue.	-	May be added as a component of security screening.	Assumes enclosed tent.

Look of the Games																				
Work Space and Secure Storage	-	-	-	-	An area in which to prepare and coordinate installation of all venue Look items.	-	See Venue Development.	See Venue Development.										P		
Protocol Flags	-	4-6	-	-	An area where protocol flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas and next/near venue entry.	9m high poles with 3m spacing.	For more specific detail (flags required, order, etc.), please reference the Technical Manual on Protocol.	J	J	J						J	R	IOC	
National Olympic Committee (NOC) Flags	Varies	-	-	-	An area where NOC flags are hung or suspended.	Generally located close or adjacent to FOP, within view of seating areas.	Height of flagpoles varies according to flag sizes (ratio: length of the flag should be at least 25% the height of the pole). 9m high poles with 2m spacing. Number of flags varies by number of participating nations, teams, individuals, competition schedule (multiple events) and competition format.	Flags, generally, attached to back of seating structure and/or suspended from ceiling structure.		J	J						J	R	IOC	
Look Elements	-	-	-	-	Look items that are placed in the venue.	Generally in Front of House and Back of House locations that are visible by spectators.	Elements include banners, flags, sport banners, seating structure screening, gateway portals and fence fabric.	-	I	I	J	J					J	G	R,P	IOC, IF
FOP	-	-	-	-	Look items for the FOP.	FOP.	Elements include FOP surrounds, FOP marker/distance banners and Start/Finish portals. Located in Spectator Transportation Zone(s), Spectator Entry(s) and concourse areas.	Quantity varies according to venue layout/area of venue.		I	J	J					J	G	R	IOC, L
Sponsor Recognition Elements	Varies	Varies	Varies	-	Look items specifically for sponsor recognition.	Located in the Front of House (FOH) Located in Press Conference room.	Fixed on stand or against wall behind top table in Press Conference room.	-												
Backdrop - Press Conference Room	2.2 x 6	1	2.2 x 6	-	Look item for Press Conference behind the dais.	Located in FOH.	Venue catering and merchandise facilities located in the Front of House areas will be fitted out with approved Look to be installed for the Games period.	-												
Outlets' Look	-	-	-	-	Look required for concessionaire units.	Located in FOH.	-	-	I				F						P	
Medical Services																				
Athlete Medical	65	1	65	100	An area where Medical provides services to athletes competing at the venue.	Located in Back of House within the accredited athlete area.	Enclosed space.	Assumes container or existing space.	J	J	J							J	R	IF
Reception & Waiting	12	1	12	-	Area where athletes check-in and wait prior to examination.	-	-	-												
Medical Work Space & Secure Storage	10	1	10	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-												
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-												
Physiotherapy Area(s)	8	2	16	-	Area where physiotherapy occurs.	-	Massage tables with privacy screening.	-												
Toilets	1.5	2	3	-	Toilet units designated for athletes and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
FOP/Finish Area Medical	18	1	18	36	Area for immediate treatment of athletes throughout the competition.	-	Enclosed space.	Assumes tent or existing space.	J	J	J								S	IF
Toilets	1.5	2	3	-	Toilet units designated for medical personnel.	-	-	Assumes temporary units.												
Spectator Medical	50	1	50	100	An area where Medical provides related services to the primary constituent group, spectators, but also provides services to all other constituents at the venue.	Located in the Front of House area; in close proximity to spectator seating areas.	Enclosed space. 1 per 20,000 spectators.	Assumes container unit or existing space.			I	F		I					P	
Reception & Waiting	12	1	12	-	Area where spectators check-in and wait prior to examination.	-	-	-												
Medical Work Space & Secure Storage	12	1	12	-	Space for Medical workforce.	-	Enclosed space and secure storage.	-												
Examination Area(s)	8	3	24	-	Area where medical examinations occur.	-	Examination tables with privacy screening.	-												
Toilets	1.5	2	3	-	Toilet units designated for spectators and medical personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Triage Station	36	1	38	72	Additional space to treat minor medical needs of spectators.	Located in the Front of House.	Covered space. May be used to supplement Spectator Medical Reception function.	Assumes canopy structure.			I	F		I					P	
Ambulance Staging	-	Varies	-	30 (each)	Parking area for ambulance vehicle(s).	Adjacent to FOP access and Athlete Medical.	Area only. For Winter Games, the ambulances may need heated shelters or access to electrical outlets for block heaters and protection from snow and ice.	2 units may be required depending on distance and access between functions. When planning, consideration should be given on the locations/distances of the FOP, Athlete Medical, Spectator Medical and egress from venue and finally the ambulance access route out of venue.											P	
Helicopter Landing Pad or Zone	-	1	1000	-	Large, open area for helicopter landing/staging.	-	Area only. Paved, graveled or grass area with fence, barricade or rope enclosure.	-											P

Merchandise																				
Office, Cash Room & Work Space	12	1	12	15	An area to manage the retailing of all Olympic merchandise inside the venue.	-	Enclosed space with secure entry.	Assumes container unit or existing space.					F					P		
Storage	15	2	30	35	-	-	-	Assumes storage containers or existing space.				F						P		
Program Sales Stands/Booths	1	1	1	2	-	-	Area only.	Units provided by vendor. Quantity and location decided by vendor and OCOG.				F						P		
Merchandise Points of Sale (POS) Outlets' Look	6	Varies	Varies	18 (each)	Concessionaire units.	Located in Event Services areas; adjacent to seating areas.	1 P.O.S. per 800 spectators.	Gross area is per each P.O.S. and includes service area and queue.		I		F						P		
Olympic Family Services																				
Olympic Family Lounge	240	1	240	500	An area that may serve food or beverages to appropriately accredited persons; where accredited access is limited to certain accredited dignitaries, Olympic Family members, and invited guests.	-	Enclosed space.	Assumes tent.	I		I	F						G	G	IOC
Welcome Desk and Transportation Desk	6	1	6	-	Area to greet Olympic Family and respond to transport requests.	-	-	-												
Protocol Manager Office	12	1	12	-	Work space for the Protocol Manager to meet requests from dignitaries or Olympic Family members.	-	Enclosed space for meetings or resolution to diplomatic and/or other matters.	-												
Workforce/Volunteer Room and Storage	12	1	12	-	On-call waiting area for Protocol workforce and equipment storage.	-	-	-												
Dining and Lounge	140	1	140	-	Area for dining and lounge.	-	-	-												
Preparation/Buffer set-up/Beverage Area	70	1	70	-	An area to prepare and serve food/beverage.	-	Generally, a kitchen facility/setup is not necessary as this may be centrally located with other food service functions (e.g. Workforce/Volunteer, Athlete, Media)	-												
Toilets	30	1	30	60	Toilet units designated for Olympic Family.	Located in close proximity to lounge area.	4 female, 4 male, generally not shared with other constituent groups.	Assumes container unit or existing space. Accessible toilet facilities should be provided											R	IOC
Protocol flags																				
Protocol flags	-	-	-	-	-	-	See Look of the Games.	-			J	J							R	IOC
Press Operations																				
Venue Media Centre (VMC)	890	1	890	1140	The VMC serves as a daily work area for accredited media covering the sports competition. The Work Room is equipped with much of the same equipment and services found at the MPC. Other VMC facilities in outdoor venues include Mixed Zone, Press Conference Room and Photo Positions.	Close proximity to Press Conference Room and Mixed Zone area.	Enclosed space for press and photographers.	Assumes tent.				F						R	IOC	
Reception & Information Desk	30	1	30	-	Welcome desk at the entrance, for information distribution.	-	-	-												
Storage	10	1	10	-	Equipment storage.	-	-	-												
Press Manager Office	15	1	15	-	Operational work space.	-	-	-												
Photo Manager Office	15	1	15	-	Operational work space.	-	-	-												
IF Media Office	15	1	15	-	Operational work space.	-	-	-												
Olympic News Service (ONS) Work Room or Area	30	1	30	-	Operational work space.	-	Enclosed space.	-												
Info Stations	30	1	30	-	Computer stations and printers.	-	-	-												
Press Work Room or Area	400	1	400	-	Work area for press.	-	Enclosed space. 1 work position per 60 cm x 90 cm table, 1 telephone per 3 positions, Wireless, task lighting. Space will include area for copy equipment set-up.	Various OCOG staff (eg IOC Media Relations) will work within this area.												
Photo Work Room or Area	140	1	140	-	Work area for photographers.	Photo area can be within the press work area but close to Photo Manager's office. Alternatively, can be in adjacent space separate from press if extra space is required.	Enclosed space. 1 work position per 90 cm x 120 cm table, 1 telephone per 3 positions, Wireless, task lighting.	-												
Photographers Check-in & Photo Bib Distribution	20	1	20	-	Area where photographers register and receive/return photo bibs.	-	-	-												
Locker Area	1.5	Varies	Varies	-	Secure storage for photographer (and journalist) equipment.	-	Half-height lockers (Size: 40 cm x 40 cm x 70 cm).	Quantity dependant upon final press and photographers numbers.												
Lounge/Catering Preparation	180	1	180	-	Includes minor food preparation, pay counter, self-serve tables, vending machines and seating area.	-	-	-												
Toilets	1.5	10	15	-	Toilet units designated for the Venue Media Centre.	-	-	Assumes container unit or existing space. Accessible toilet facilities should be provided

Security																				
Security Command Centre	120	1	120	145	The central area where Security Operations will handle all venue security throughout the Olympic period, which may include: security inspections, perimeter protection, safety and response, dignitary protection, and emergency management.	Generally, located in or adjacent to the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon spectator capacity / venue footprint / cultural context.												
Venue Security Manager & Asst. Mngr. Space	15	1	15	-	An area for the Venue Security Manager and assistant(s).	-	-	-												
Security Work Space	15	1	15	-	An area for additional security agencies.	-	-	-												
CCTV Surveillance & Video Desk	15	1	15	-	An area for the monitoring and control of the venue closed circuit surveillance cameras.	-	-	-												
CCTV Cameras	-	-	-	-	Closed circuit surveillance cameras.	FOH and BOH; outside and inside venue perimeter. Exact locations dependent on venue layout.	Usually mounted on existing or temporary structures, some may require 6-9m poles.	Locations and quantities per venue configuration.												
Radio Dispatch & Monitoring	15	1	15	-	An area for the monitoring and control of security communication and the distribution/return of security radios.	-	-	-												
Work Room	50	1	50	-	Open plan of work stations designated for security personnel.	-	-	-												
Secure Storage	10	1	10	-	An area for Security equipment storage.	-	Enclosed, secure space.	-												
Major Incident Room	-	-	-	-	Meeting area during a crisis management situation.	Located generally in the Venue Operations Centre or within close proximity to Venue Operations Centre or Security Command Centre.	Meeting room area; see Venue Management - Multi-Purpose Room.	-												
Briefing and Break Area / Staging Area	140	1	140	170	Area for briefing workforce before and after shifts.	-	Enclosed space.	Assumes tent.												
Observation Positions	4	Varies	Varies	-	Raised platforms or existing spaces for the purpose of monitoring crowds and specific areas of the venue.	Located at various points around the venue.	Located minimum of 2m above observed area. Assumes scaffolding or existing spaces.	Dependent upon spectator capacity, cultural context.												
Vehicle Screening & Sanitisation Area	569	1	569	800	An area where selected vehicles will be required to pass through a vehicle check point with a designated level of security inspection performed.	Located away from Venue Secure Perimeter, distance dependent on security policy.	Area only. Surface area paved or gravel with heavy duty load capacity.	Dependent upon spectator capacity, cultural context; venue design, host government practices.												
Vehicle Queue	175	1	175	-	Area where vehicles line-up prior to entering screening area.	-	Area only.	-												
Oversized Vehicle Queue	140		140	-	For large vehicles or delivery trucks that may be required to enter the venue.	-	Area only.	-												
Vehicle Sanitisation & Wanding Areas	150		75	-	Screening and/or inspection positions for all vehicles entering the venue.	-	Covered area.	Assumes canopy with 2 side walls. Number of search bays will be dependent on the determined vehicle search intensity (level) required.												
Oversized Vehicle (Truck & Bus) Sanitisation	70		70	-	Screening and/or inspection positions for large vehicles.	-	Area only.	-												
Observation Platform	4	Varies	Varies	16 (each)	Raised platform or existing space for the purpose of checking the tops of large vehicles.	-	1.2m x 1.2m x 4m high.	Assumes scaffold structure.												
Security Office	15	1	15	-	A work space for vehicle screening personnel.	-	Enclosed space for staging and break.	-												
Toilets	1.5	2	3	-	Toilet units designated for vehicle screening personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.												
Vehicle Entrances & Exits	-	-	-	-	Locations where vehicles will enter through the secure perimeter and access various areas of the venue (e.g. resupply/fuel truck, broadcast compound, deliveries). An exit route and point will be required for vehicles departing the venue.	Located at the venue secure perimeter and/or venue screening area for constituents.	-	Dependent upon spectator capacity and venue design.												
Athlete Area	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Broadcast Compound	6 linear mtrs.	Varies	Varies	-	-	Located in BOH	Minimum gate width recommended = 6m.	-												
Emergency-Security, Fire, Medical	6 linear mtrs.	Varies	Varies	-	-	Located throughout venue.	Minimum gate width recommended = 6m.	-												
Operations Load-In/Out	6 linear mtrs.	Varies	Varies	-	-	Located in BOH.	Minimum gate width recommended = 6m.	Minimum gate width recommended = 6m.

Broadcast	18	1-2	18-36	45-90	-	BOH.	-	If possible, direct access from outside venue perimeter into Broadcast Compound.				F		I					R	IOC
ENG (Electronic News Gathering)	18	1-2	18-36	45-90	-	BOH; located in close proximity to Venue Broadcast Compound.	-	-												
Press and Photographer	18	1-2	18-36	36-72	-	BOH; located in close proximity to Venue Media Centre.	Space and facilities sufficient to ensure minimum delays Entry should be exclusive to Media (Press and Broadcast).	If possible, direct access from outside venue perimeter into Venue Media Centre.					F						R	IOC
Workforce (Staff/Volunteer/Contractor/Vendor)	18	2-3	36-54	90-135	-	BOH or possibly FOH.	-	-				F							G	IOC
Spectator / Sponsors	18	Varies	Varies	54	-	FOH.	Generally, a special access or operations gate for entry is provided to persons with accessible requirements; part of total spectator requirement, 1 position per 10 000 spectators (only bag search/hand wanding station).	-				F								P
Toilets	1.5	Varies	Varies	5 (each)	Toilet units designated for spectators entering the venue.	Located outside the venue perimeter.	1 per 2,000 spectators.	Assumes temporary units. Accessible toilet facilities should be provided.												
Exception Gate	Varies	Varies	Varies	-	Access gate for designated accredited personnel.	FOH; located adjacent to primary spectator entrance.	Spectator exit gate may be used depending on venue layout.	Used only by authorised workforce.												
X-ray of bags	36	Varies	Varies	72 (each)	Device for screening bags/equipment coming into the venue.	FOH and BOH.	Covered.	-				I		F				G	P	
Venue Perimeter Exits (Pedestrian)	-	-	-	-	Locations where constituent groups will exit through the secure perimeter of the competition venue to the transport loading areas or vehicle parking areas.	-	-	Dependent upon spectator capacity and venue design.				F		I						P
Accredited Exits	1-3 linear mtrs.	Varies	Varies	-	-	Located at each security screening area for accredited constituents.	1m to 3m width, sometimes used as a secondary service vehicle exit point.	-												
Spectator Exits	6 linear mtrs.	Varies	Varies	-	-	Located on the outbound direction of spectator transportation systems.	6m each, number varies per concourse design.	-												
Workforce (Staff/Volunteer/Contractor/Vendor)	Varies	Varies	Varies	-	-	Through the check-out portion of the Workforce Centre.	-	Size dependant upon total workforce numbers.												
Sponsor Services																				
Sponsor Seating	Varies	-	Varies	-	Seating area from which to view the FOP.	Located within spectator seating areas.	-	Part of spectator total.				I		F						P

Sport Operations																			
Competition Management	50	1	50	65	A work area for sport personnel to ensure the competition and training elements of the venue are prepared and operational according to the IF requirements of the sport.	Located in Back of House, in close proximity to athlete area and FOP; may be co-located within the Venue Operations Centre (VOC).	Enclosed space.		I				F					P	
Competition Manager & Asst. Manager Desks	15	1	15	-	An area for the manager and assistant(s) manager.	-	-	-											
Assigned Work Space	10	1	10	-	Open plan of work stations designated for Sport personnel.	-	-	-											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space	15	1	15	-	Non-designated work positions and equipment.	-	Copier, Fax, Storage.	-											
Conference Area or Room	-	-	-	-	Area for meetings.	-	See Venue Management - Multi-Purpose Room.	-											
Chief of Competition Offices	15	2	30	-	Area where the Teams get main information and direct communicated to competition secretary and competition committee.	Located in back of house, in close proximity to jury and timing room.	Enclosed space.	Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	I				F					P	
Chief of Competition	-	-	-	-	An office for chief of competition.														
Chief of Stadium	-	-	-	-	An office for chief of stadium.														
Sport Staff room and Radio Testing area	60	1	60	65	Working rooms for sport staff and radio checks.	In close proximity to FOP.	Enclosed space.	Assumes container units or existing space.	J				J					G	IF
Sport Information	20	1	20	25	An area where competition information and services for the National Olympic Committees competing at the venue is available.	Located adjacent to competition office and athlete areas.	Enclosed space with waiting area and seating.	Area where teams receive information from the competition secretary and competition committee. Includes: information boards, pigeon holes, Info & Help Desk, work area, info terminal stations & storage.	J				J					R	IF
Results Posting Area	3	1	3	-	An area for posting competition results.	Located adjacent to athlete area.	Area only.	-											
Athlete Lounge	140	1	140	180	An area where athletes can relax at the venue while not training or competing.	Located in athlete area.	Enclosed space.	Includes: seating area, lounge, Info & Help Desk, info terminal stations.	J				J					R	IF
Athlete Wax Cabins	30	Varies	Varies	60 (each)	Change-room facilities to accommodate athletes at the venue during competition and training; additionally, a separate area used for working on equipment and waxing skis.	Located in athlete area, adjacent to FOP.	Enclosed space; large compound like area for containers and/or trailers. Level surface area for placement of containers and/or trailers. with easy access for vehicles. Measurement for each cabin is 30m ² . Separate male and female facilities required.	Number of cabins will vary according to final team/athlete numbers. Generally, an estimated quantity of 30 wax cabins may be necessary. Gross area may vary according to placement of containers; Gross area should include the area required for snow removal equipment/vehicles. Assumes cabins/container units.	J				J				R	IF	
Chief of Course Office	15	1	15	20	An office area for chief of course.	Located in the Back of House/athlete areas; in close proximity to FOP.	Enclosed space.	Assumes permanent or temporary structure.	J				J					R	IF
Chief of Range Office	15	1	15	20	An office area for range official.	Located in close proximity to the shooting range.	Enclosed space.	Assumes permanent or temporary structure.	J				J					R	IF
Chief of Range Storage	15	1	15	20	Area for technical equipment storage.	Located in close proximity to the shooting range.	Enclosed space.	Assumes permanent or temporary structure.	J				J					R	IF
Final Waxing Canopy	10	1	10	15	An area utilised by ski technicians for final ski preparations e.g. applying a final coat of wax on competition skis.	Located in the Back of House, near course start.	Area only with cover.	Assumes temporary structure.	J				J					R	IF
Ski Wax Testing/Warm-up Area	3200	1	3200	3500	An area where athletes and/or equipment managers or manufacturing companies can test to ensure the correct wax has been applied to skis.	Located near FOP.	Area with warm-up course.	-	J				J					R	IF
Ski Manufacturing Cabins	30	Varies	Varies	60 (each)	An area where manufactures provide services to athletes.	Located in the Back of House, in close proximity to Athlete areas.	An area for placement of containers and/or trailers.	Number of cabins will vary according to agreed manufacturing numbers. Generally, an estimated quantity of 10 cabins may be necessary.	J				J					R	IF
Ski Marking Area	20	1	20	25	An area used by competition officials to mark competition skis.	Located before entrance to start area.	Area only with cover.	Assumes temporary structure.	J				J					R	IF
IF & Sport Meeting Room	100	1	100	150	Meeting facility at the venue for teams and other sport related meeting needs.	Located in the competition management area.	-	Assumes container units or existing space. May be used for video review / working area.	J				J					R	IF
Store for Ammunition and Rifles	40	1	40	50	Storage area in separate building or safety room for ammunition and rifles.	Located near shooting FOP.	-	-	J				J					R	IF
FOP Equipment Storage Area	55	1	55	65	Storage of equipment required for utilised by sport in running competition.	Located in Back of House, adjacent to Field of Play/stadium area or within close proximity.	Securable storage area for equipment (e.g. gates, rakes, shovels).	-	I				F	I				R	IF

International Federation																				
IF Area	90	1	90	135	Responsible for administering the respective sport competition, including: enforcement of the rules/regulations, operation and technical control of the overall competition.	Located in the Back of House, within the competition management area and in close proximity to athlete areas.	Enclosed space.	Assumes container units or existing space.	I		I	F							R	IF
IF President's Office	15	1	15	-	An office area for IF President.	-	Enclosed space.	Assumes container units or existing space.	I		I	F							R	IF
IF Secretary-General/Executive Director Office	15	1	15	-	-	-	-	Assumes container units or existing space.	I		F								G	IF
Reception, Secretariat, Waiting & Work Space	40	1	40	-	-	-	-	-	I		F								G	IF
IF Meeting Room	-	-	-	-	-	-	See IF & Sport Meeting Room.	-												
Competition Jury Room	45	1	45	55	This space is utilised for the resolution of competition protests after the competition concludes.	Located in close proximity to finish area, timing area and competition offices.	Enclosed space.	Assumes container units or existing space.	I		F								R	IF
Room for International Referees	25	1	25	30	A meeting room for referees.	Located in close proximity to finish area, timing area and competition offices.	Enclosed space.	Assumes container units or existing space.	I		F								R	IF
Seeding / Draw Room	-	-	-	-	Area for meetings involving coaches and team officials.	IF & Sport Meeting Room.	See IF & Sport Meeting Room.	-												
Technical Information Centre	10	1	10	15	An area for distributing information to officials and competition management.	-	Recommend to combine with Sport Information area.	-												
Officials Locker Room, Shower, Toilet	20	1	20	25	Change-room for officials.	Located in Back of House, in close proximity to FOP.	-	Assumes container units or existing space. Separate men and women lockers may be necessary.	I		F								R	IF
Technical Delegates Office/Work Space	15	1	15	20	Office area for Technical Delegates.	In close proximity to IF President office area.	Enclosed space.	Assumes container units or existing space.	I		I	F							R	IF
IF Stands and Judges/Officials Seating	-	Varies	-	-	A designated seating area for IF Officials.	Located in accredited seating area.	-	-	I		J	J							R	IOC,IF
Sport Presentation																				
Sport Presentation	23	1	23	-	Area that produces all audiovisuals and entertainment for athletes and spectators present at the competition venue.	-	-	See Technology for additional requirements of Sport Presentation.												
Sport Production Control Room	20	1	20	-	An area that is required for event day announcing and music production.	Located near timing and scoring with a good view of the FOP.	Enclosed space with windows that open for hearing general audio on the FOP. The area interfaces with timing, results, scoreboard/video board, and sound system control.	-											P	
Announcer Position	3	1	3	-	-	-	-	-											P	
Sport Entertainment Room	40	1	40	80	Space used by colour guard, mascot dressing, entertainers used for breaks in competition, between sessions, half time, etc. Staging for large groups.	-	Enclosed space, consisting of work area, green room, entertainer staging and dressing and prop storage. See Venue Management - Multi-purpose Room.	Assumes container unit or existing space.											P	

Space <small>Sub-space(s)</small>	Net Area - D107	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G - Generic Space Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L- Legislation
Technology Operations																		
Technology Help Desk	20	1	20	24	Help desk supporting all services and deliverables of OCOG Technology, including rate card devices and services. Staff accept calls for technology issues/problems, assign the issue a "ticket" within issues management system/database and advise appropriate personnel on venue to attend to issue. All issues tracked through to resolution.	Adjacent to or within Venue Technology Operations.	Medium security - lockable room, or within securable VTO. Standard office environment with workspace & FF&E to support multiple workstations, phone support workforce & manager.	The Help Desk and LAN Management may share a common space if necessary (e.g. when rooms or space are limited).					F					P
Venue Technology Operations (VTO)	35	1	35	40	OCOG Technology Operations area. Operational work space for entire Venue Technology team, .	Adjacent to or within Venue Operations Centre (VOC).	Medium Security - lockable room. Air-conditioned office environment, adequate FF&E to support Technology operational staff & shared administrative facilities such as PC Workstations, Help Desk Workstation(s), Copy/Fax/Print, CATV, Lockable cabinets/cupboards & white marker board.	No specific spaces for partners and contractors. Time and Scoring partner (e.g. OMEGA) will use the OVR room. When not in direct operation, partner technicians can stand-by in the Technicians Intervention room.					F				G	P
Technicians Intervention Room	35	1	35	40	A stand-by area for partner technicians when not in direct operation.	Located in close proximity to the VTO.	Enclosed space. Table and chairs. Shared area, separate desks not necessary.	-					F				G	P
Radio Distribution Room (RDR)	30	1	30	18	Room for storage, distribution and charging of assigned radio units for venue workforce.	Preferable to be near or adjacent to Workforce Check-in area, or area that is easily accessible to all venue workforce (staff, volunteers & contractors).	Medium Security - lockable room. A/C and general office environment. Adequate FF&E and workspace for operator. Racks for radio storage.	Room may also be used as a general technology storage area for spare devices such as TVs & hand held phones. Size of room is dependant on quantity of radio devices deployed to venue and method of storage (on table or in racks).		I		F						P
Information Technology																		
Computer Equipment Room (CER)	15	1	15	25	Area for all active IT equipment, including servers for Games Network and Administrative systems.	Adjacent to LAN Management room & Telecommunications TER Room.	High Security - lockable room. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT provider specification. Cable Access to TER Room. Workspace & FF&E for 2 technicians.	The TER and CER may share a common space if necessary (e.g. when rooms or space are limited). Raised flooring is preferable for cabling distribution, but not essential. Size of room will vary based on quantity of equipment racks installed. Generally rack requirements range between 4 - 8 at competition venues.		I		F					G	P
Data Local Area Network (LAN) Management Room & Store	30	1	30	35	LAN monitoring room & associated storage space for spare IT equipment.	Adjacent to CER Room.	As CER with adequate FF&E for operational workforce & storage.	If located adjacent to CER, power supply boards, UPS units & A/C services can be common for both spaces. The Help Desk and LAN Management may share a common space if necessary (e.g. when rooms or space are limited).					F				G	P

BIATHLON

Space <small>Sub-space(s)</small>	Net Area - D107	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Telecommunication & Audio Visual																			
Telecomm. Equipment Room (TER) Primary	45	1	45	50	Includes telecommunications equipment (PABX, structured cabling racks for data & voice, patching boards, active hardware (routers, switchers, etc.) and CATV venue head end for the on-Venue CATV distribution.	Adjacent to CER room & Telecommunications Operations Room.	High Security - lockable room. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet Telecom provider specification. Cable access to all CCF locations & CER. Working space for 2 technicians minimum.	The TER and CER may share a common space if necessary (e.g. when rooms or space are limited). Raised flooring is preferable for cabling distribution, but not essential.		I		F						P	
Telecomm. Equipment Room (TER) Secondary	36-50	Varies	Varies	-	Additional room required to house infrastructure to support mobile communications network.	Adjacent to TER and Telecommunications Operations.	As TER.	Requirement to be determined based on existing mobile infrastructure installed. Where there is no coverage or coverage is limited, additional infrastructure is required.		I		F						P	
Audio Control Positions	-	-	-	-	-	-	-	-				F					G	P	
Venue	4	1	4	8	Area for audio control & playback equipment and audio operators.	Area to be located as specified by Sport Presentation. Can be on FOP, in stands or in a booth with view to FOP.	High Security-lockable room. Fully redundant power (mains & generator), water proof, good cable access to control console & playback equipment. Space & FF&E for mixing console (1 000W x 800D), playback rack (700Hx600Dx600w) and operators (2) maximum.	-											
Press Conference	4	1	4	8	Area for audio control equipment (mixing board, amplifier) and operator to support Press Conferences.	Within Press Conference room (at rear).	Medium Security. Fully redundant power (mains & standby), HVAC, weatherproof. Work space & FF&E for operator.	-											
Athletes Briefing	2	1	2	4	PA systems required for to facilitate announcements to athletes. Space required for amplifier/microphone.	Within briefing room/area for athletes.	Standard/mains power & FF&E.	-											
International Federation Area	2	1	2	4	PA systems required for Federation Area . Space required for amplifier/microphone.	Location as required by Sport/International Federation.	Standard/mains power & FF&E.	-											
Warm-Up Area	2	1	2	4	PA systems required for Warm-up areas to facilitate announcements to athletes. Space required for amplifier/microphone.	Located in athlete warm-up area.	Standard/mains power & FF&E.	-											
Venue Perimeter (Exit/Entry)	Varies	Varies	Varies	-	Venue Perimeter for Event Services' announcements to spectators at entry/exit.	Security screening entrance (mag & bag); venue entry/exit locations.	Standard/mains power & protection from weather to be provided.	-											
Workforce Break/Dining	2	Varies	Varies	-	Area within break/dining area where audio control equipment is installed to facilitate meetings/training of large numbers of workforce.	Workforce break/dining areas.	Standard/mains power & FF&E.	-											
Video Board Control	10	1	10	12	Area of video control for video board or video projection system. Operations integral with those of Sport Presentation.	Located within Sport Presentation area. View to FOP & video board/projection screen is essential.	High Security. Fully redundant power (mains & generator) to control equipment. Weatherproofing if control location is located outdoors. Space & FF&E for both control equipment & operators (2) maximum.	-				F					G	P	
Wired Communications Control	5	1	5	8	Area of wired communications master control station and support technician. System essential to operations of both Sport Presentation and Results/FOP management.	Located near or within Sport Presentation is recommended. Otherwise can be located in VTO or other secure location.	Medium Security. Fully redundant power (mains & standby generator) to control equipment. Weatherproofing in control location is located outdoors. Good cable access to FOP, OVR Room, Sport Presentation, Broadcast Graphics Room & Results Printing required.	-				F					G	P	

BIATHLON

Space Sub-space(s)	Net Area - D107	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G - Generic Space Requirement, G-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation		
Timing, Scoring and Results Operations																				
Timing and Scoring Position	-	-	-	-	Area(s) for event timing & scoring personnel & equipment during competition.	Located adjacent and/or close to FOP.	High Security Fully redundant power (mains & generator) with UPS to all timing & scoring equipment. Cable access to sport specific scoreboards, speed guns & OVR room. Space & FF&E for operators and equipment.	Where timing and scoring take place outdoors, adequate weather (rain/sun/snow) protection for equipment/workstations to be provided.	I	I	I	F						R	IF, OMEGA	
Start Area	1	1	1	2	Position where clock is started for event.	Located with sport at race start position.	Cable access to OVR room between all intermediate timing points, aligner hut & start position.	-												
Control Room	35	1	35	40	Area for central Timing & Scoring control operations, including Backup C system, Event Management & photo-finish system.	Located near finish area with view to FOP.	Cable access to OVR Room, Photo Finish Control & Intermediate Positions along course.	-												
Finish Area	1	1	1	2	-	-	-	-												
On Venue Results (OVR)	-	-	-	-	Area is central compilation point for results operations. Space should be divided into two sections 1) for the OVR Provider 2) IT/Information Diffusion Provider.	-	High Security - lockable. Fully redundant power (mains & generator) with UPS to both Mains and Standby power boards. A/C to meet IT/OVR provider specification. Cable access to FOP/Results, Timing & Scoring Data Entry Locations, Broadcast Compound, scoreboard control, CER/TER rooms. Adequate space and FF&E for high density of computer workstations, racks for servers and working space for technicians, operators, and managers.	1) If sport is RTDS & or CIS then additional space is required to house equipment to support and monitor these systems. 2) If OVR is combined with Timing & Scoring or Scoreboard Operations, then will need a view to the FOP. 3) Sports with multiple FOP, or where two sports occur concurrently will require more space for additional OVR equipment.	I	F								P	IF, OMEGA	
OVR Provider Work Space	25	1	25	30	Work area within OVR Location for OVR Provider technicians and managers where compilation of data from competition on FOP occurs, print of result for Technical Delegate sign-off occurs and data sent to IT provider for Information Diffusion (IDS) to information systems (INFO, CIS, PRD, etc.).	Ideally adjacent to IT provider work area.	-	-												
IT Provider Work Space	20	1	20	25	Work area within OVR Location for IT provider to monitor flow of data from OVR provider system to IDS.	Ideally adjacent to OVR provider work area.	-	-												
Scoreboard Control	-	-	-	-	Area for scoreboard control operations. Operations integral with those of Sport Presentation, data provided from OVR System. Space for both Control and Interface workstations & 2 x operational personnel.	Ideally with Sport Production, or with Timing/scoring team. View to FOP & public scoreboards is essential.	High Security. Fully redundant power (mains & generator) with UPS all scoreboard control & interface workstations. A/C to meet OVR provider specification. Cable access to scoreboards, & OVR room. Adequate space & FF&E for control equipment & operators (2) maximum.	If Control & Interface positions cannot be co-located, then Interface equipment to be installed to OVR Room. Control position must always have view to FOP & Scoreboards.	I			F						G	P	IF, OMEGA
Scoreboard Control	10	1	10	12	Area (Control position) for Public Scoreboard. Position for Scoreboard Operator & workstation control PCs.	Adjacent/co-located with Scoreboard Interface.	-	-												
Scoreboard Interface	4	1	4	6	Area for interface equipment (PC workstations) linking OVR system & Scoreboard Control workstation.	Adjacent/co-located with Scoreboard Control.	-	-												

BIATHLON

Space Sub-space(s)	Net Area - D107	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G - Generic Space	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Results Printing (PRD)	Varies	1	Varies	-	Area for hard copy results production & distribution. Location of high intensity work involving many workforce preparing results for distribution. Within location are to be areas for results printing, copying, compilation/organisation of reports, runners seating area, room for Print Distribution Workstation (IDS interface) equipment and operator.	Located adjacent or in close proximity to Press Workroom. Easy access to Press Tribunes, Broadcast Commentary positions, Sport Information, Doping and Olympic Family for results delivery.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS provided for PRD Workstation only. Increased power specifications (Amps) may be required to support high speed copy devices. A/C to meet IT/OVR provider specifications. Adequate space for interface equipment and graphics operators and good cable access to OVR room. Adequate space for staff and FF&E required for operational staff as well as 1 pallet of paper to support print/copy operations.		I	I	I	F					I	R	IF
TV Graphics Interface	6	1	6	9	Area where OVR provider installs and operates Results Interface equipment to provide results data for TV Graphics.	Location within Broadcast Graphics Room or Technical Operations Centre (TOC), as specified by Host Broadcast Organisation.	High Security - lockable. Fully redundant power (mains & generator) all equipment in room, UPS TV Graphics Workstation & equipment. All environmental specifications to meet Host Broadcaster specifications. Space for interface equipment and graphics operations and good cable access to OVR room.					I		F			G	P	
Technology Storage																			
Technology General Storage	60	1	60	75	Area for storage of general technology spares/items such as extra TV units, cables, boxes etc.	Location within Logistics Compound, or in close proximity to VTO.	High Security - lockable. Weatherproof, standard mains power provided.	Space should be accessible to Venue Technology at all times.				F					G	P	
Timing and Scoring Storage & Workshop	20-30	1	20-30	25-35	In venue storage & workshop for timing equipment, spare parts & small containers/boxes.	Located in a position that is easily accessible to FOP & OVR rooms.	High Security - lockable. Standard office environment with standard power. Adequate work space & FF&E for two technicians.		I		F						G	P	
Technology General Infrastructure																			
Cross Connect Frames (CCF)	1	Varies	1	-	Intermediate network distribution location. Usually installed as a temporary cabinet containing racks of active and passive equipment required to distribute LAN cabling services to user locations. Permanent installations may be installed as a cupboard or closets.	CCFs are to be located in the best possible position for cabling distribution to user device locations areas. May be located centrally in a zone with multiple service locations, or within a dedicated location with a high volume of services, such as a Press Workroom.	High Security - lockable and weatherproof. May require fan or dedicated A/C depending on room location and/or configuration. Fully redundant power (mains and generator) to all CCF units/cabinets, rack-mounted UPS required to be installed inside cabinet.	Location of CCF units/cabinets will vary in size and location depending on the venue Local Area Network (LAN) design. Cabinets vary from wall hung 10 rack unit cabinets to larger 30 rack unit cabinets or purpose built closets/rooms.	I		F							P	
Cable Pathways	-	Varies	-	-	Permanent or temporary infrastructure installed to facilitate the running of cabling throughout the venue. Installed as cable trays, conduit, hangers or via other systems depending on specification of cable and distance required. The term cable pathway is also used to describe access pathways (holes) in walls/floors to allow for cabling distribution.	Cable pathways should be in areas that are accessible to technicians, either in ceiling areas, under raised floors or running neatly around working areas and between rooms.	High Security. To be installed so that cables cannot be interfered with adhering to regulations regarding segregation of power from data/voice and audio-visual cabling.	Quantity of cabling and cable pathway solutions are venue specific. Existing infrastructure should be used wherever possible and care taken to ensure that all cables are installed in a manner which allows for easy access and repair/replacement. Legacy installations should be installed as permanent while temporary (overlay) should be installed using methods which are easily installed and removed minimising potential damage to the existing structure or venue.				F						P	
Data Voice	-	-	-	-	Cable pathways to facilitate distribution of data and voice services throughout the venue, including cabling for all Games Network IT devices and telephones.														
Backbone	-	-	-	-	Pathways required to facilitate bulk cabling from TER to CCF locations. Usually cable tray or conduit.														
Horizontal	-	-	-	-	Pathways required to facilitate cabling from CCF to user device locations. Usually conduit, duct, wall hangers or cable ties.

Principles of Stakeholder
I-Input, J-Joint Decision,
F-Final Decision

Space Sub-space(s)	Net Area - D107	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G - Generic Space	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
CATV	-	-	-	-	Cable pathways to facilitate distribution of CATV (coaxial) cabling from TER to amplifiers and TV units.	-	-	-											
Timing & Scoring	-	-	-	-	Cable pathways from scoring devices to OVR room and sport specific scoreboards.	-	-	-											
PA/Audio	-	-	-	-	Cable pathways from Broadcast TOC to audio control location and from audio control position to equipment location (amplifiers) & audio speakers.	-	-	-											
Video	-	-	-	-	Cable pathways from Broadcast TOC to Video Control location and from Video Control location to video board/projection unit.	-	-	-											
Power	-	-	-	-	Cable pathways to facilitate distribution of all power services from venue mains to sub-distribution boards and end user locations.	-	Total segregation from all other technology cabling. Secure & weatherproof. Utmost care and safety to be undertaken when dealing with all power cabling.	-											
Backbone	-	-	-	-	Cable pathways from venue mains & generator boards to sub-distribution boards throughout venue.	-	-	-											
Horizontal	-	-	-	-	Cable pathways from mains & generator sub-distribution boards to user locations throughout venue.	-	-	-											
Scoreboard Infrastructure	-	-	-	-	Infrastructure required to support public scoreboards and sport specific scoreboards as detailed in venue design.	All scoreboards infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power for scoreboards, cable pathways to/from boards to scoreboard control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing and Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of scoreboard support structure & scoreboard.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard. Required for outdoor venues where the scoreboards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and sport specific scoreboards from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each scoreboard.											
Video Board/Projection Infrastructure	-	-	-	-	Infrastructure required to support video boards and/or video projection systems as detailed in venue design.	All video board/projection infrastructure affinity is directly subject to requirements for viewing the boards by public, athletes and media on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F							P
Footings	-	Varies	-	-	Structural concrete footings to facilitate installation of video board support structure & video board.	-	-	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the video board. Required for outdoor venues where the video boards cannot be suspended from ceiling structure.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend public and video boards and/or video projection systems from venue ceiling structure.	-	-	Extent of rigging required will depend largely on structural capacity of existing ceiling structure & fixing points available on each video board.											
Audio/PA System Infrastructure	-	-	-	-	Infrastructure required to support audio/PA speakers.	All Audio/PA infrastructure affinity is directly subject to requirements for deployment of systems to support Event Services & Sport Presentation on a sport specific basis.	Adequate power, cable pathways to/from boards to video control location. Weatherproofing as specified for boards installed outdoors.	The extent of infrastructure and power required will depend on exact requirements for each board provided by the Timing & Scoring/OVR contractor.	I			F					G		P
Poles	-	Varies	-	-	Poles to facilitate installation of speakers in outdoor areas such as outdoor competition areas, common domains, venue security screening locations and/or venue entrance/exit locations.	-	Cable pathways to/from audio/PA amplification system and/or control location.	Design of footings is venue/scoreboard specific depending on the engineering requirements to support the scoreboard.											
Rigging/Suspension	-	Varies	-	-	Rigging (winches, chain motors, chain/cabling) required to suspend PA speakers from venue ceiling structure.	-	-	-											
Mobile Phone Infrastructure (antenna)	15	1	15	25	Infrastructure required to support installation of additional radio antenna & mobile phone cells within venue, or in surrounding venue "common domain" outdoors.	As required to maximise reception for venue radio system and/or mobile phone services.	Adequate power at antenna or mobile cell locations. Cable pathways to/from TER room.	For outdoor installations poles may be required to facilitate installation. Extent of requirements depends on existing coverage in venue or general Olympic precinct/complex.	I			F					G		P

Ticketing																			
Ticket Box Office	40	1	40	100	An area at the venue where Olympic tickets are sold.	Located in Front of House, adjacent to the secure perimeter; near the spectator entry point of the venue.	Gross area includes internal & external queue.	Assumes container unit with disabled access to internal and external service window. Dependant upon venue layout and footprint, spectator access point locations.										P	
Manager Office & Secure Storage	10	1	10	-	Work space and storage area for spectator tickets, ticket sales cash and documentation.	-	-	-											
Internal Ticket Sales Window(s)	15	1	15	-	Sales and problem resolution positions which face inside venue.	Inside venue perimeter.	6 windows, includes 1 at accessible height.	-											
External Ticket Sales Window(s) & Will Call	15	1	15	-	Sales and collection of tickets positions which face outside venue.	Outside venue perimeter.	6 windows, includes 1 at accessible height.	-											
Transport																			
Transport Area	25	1	25	50	An area where the venue Transport Manager will oversee the venue transport operations.	Generally located outside the secure perimeter.	Enclosed space. Space includes: Transport Manager desk, crew staging & break, secure storage.	Assumes container unit/trailer or tent. Dependent upon venue capacity and venue layout.										P	
Driver Staging	80	1	80	150	A break area for drivers that may be required to wait for passengers or be on-call for various transport assignments.	Located outside secure perimeter.	Covered area.	Assumes canopy with 2 side walls.										P	
Toilets	1.5	2	3	-	Toilet units designated for transport personnel.	-	Located outside venue secure perimeter.	Assumes temporary units. Accessible toilet facilities should be provided.											
Storage Yard	-	1	-	20	Holding area for various venue transport equipment (e.g. cones, barricades, signs).	May be located within the logistics compound area.	Fenced or barricaded area.	-										P	
Loading areas	-	-	-	-	An area where constituents will arrive to and depart from the venue by the constituent and/or Olympic transport system.	Adjacent to the secure perimeter and in close proximity to venue entry points.	Surface areas paved or gravel with heavy duty load capacity.	Area will vary from Host City, based on vehicle/bus types and local transportation legislation.											
Athlete Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.	J		J						I	P	
Team Vehicle - Van	-	1	-	100 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation. May only be applicable for certain sports.	J		J						I	P	
IOC, NOC, IF (Olympic Family) - Vehicle	-	1	-	50 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.			I	F						P	
ENG (Electronic News Gathering) - Uplink Van	-	1	-	30 (each)	-	-	-	Does not include vehicle circulation.				F					I	G	IOC
Media Shuttle - Bus	-	1	-	175 (each)	-	-	Includes pedestrian queue & staging area for equipment.	Does not include vehicle circulation.				F						G	IOC
Press Film Courier - Motorcycle or Vehicle	-	1	-	30 (each)	Pick-up location at the venue for the Olympic film courier.	Located in close proximity to Venue Media Centre.	-	Does not include vehicle circulation.	I		F							G	IOC
Spectator and Workforce Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.				F						P	
Sponsor Shuttle - Bus	-	1	-	120 (each)	-	-	Includes pedestrian queue.	Does not include vehicle circulation.	I		F							P	
Accessible	-	-	-	-	-	-	-	Part of Spectator total.				F						P	
Parking Areas	-	-	-	-	Designated parking areas at the venue for key accredited constituents.	Located adjacent to secure perimeter, generally inside the secure perimeter and/or secure parking areas.	Area only. Surface areas paved or gravel/hard pack surface.	Venue layout will determine amount of parking available at the venue.											
Olympic Family (IOC, NOC, IF)	-	-	-	32 (each)	-	Drop-off point located in close proximity to accredited entry.	Area only for parking.	May have drop-off in close proximity to accredited entry point and then driver will park.			I	F						P	
Broadcast	-	-	-	32 (each)	-	-	Generally, broadcast operations requires vehicle parking at the venue.	Some spaces for operational vehicles may be necessary in the Broadcast compound.				F					I	P	
ENG (Electronic News Gathering)	-	-	-	32 (each)	-	ENG drop-off located in close proximity to the Broadcast compound.	Area only for parking.	Generally, may have an ENG drop-off in close proximity to the Broadcast compound.				F						P	
Press & Photographer	-	-	-	32 (each)	-	-	Generally, media operations requires vehicle parking at the venue (including rate card).	-			J	J						P	
Security	-	-	-	32 (each)	-	Allocated an operational amount for inside the venue perimeter.	-	Includes vehicle circulation.				F					I	P	
Emergency Services	-	-	-	50 (each)	-	Generally located inside the secure venue perimeter.	-	Includes vehicle circulation.				F					I	P	
Vehicle Chain-up Area	-	-	-	700	Area that vehicles (cars, buses, etc.) use to install chains onto vehicle tires.	Located along venue access road.	-	Required only for mountain venues in which the access road has slope exceeding an 8% grade on gravel surface or 10% grade on paved road surface.				F						P	
								May be dependent upon local legislation and/or requirements.				F						P

Venue Development																			
Site Management Compound	503	1	503	650	A service area where Site Management & Construction will operate at the venue, duties include management and maintaining all site activities (e.g. repairs/modifications to temporary and/or permanent facilities) and ensuring the safety of the venue by performing daily inspections of all areas and facilities.	Located in the Back of House area with easy access to various areas of the venue; generally may be located with Logistics or others as one compound area at the venue.	-	Gross area includes snow removal access. Dependent upon venue footprint, extent of temporary works and number of contractors.											
Site Management Area	60	1	60	-	-	-	Enclosed space.	Assumes container unit/trailer or tent.											
Site Manager & Assistant Site Manager(s) Work Space	12	1	12	-	Work and meeting area for the Site Manager and additional staff.	-	-	-											
Site Administration Desk & Work Space	12	1	12	-	Space to receive and log requests for maintenance and repair, store and review venue drawings and technical documents, manage keys and locking systems, work area for additional staff.	-	-	-											
Response Team & Vendor Staging	24	1	24	-	On-site permanent and temporary facilities for specialty workforce and general labor crew to be on-call.	-	-	-											
Secure Storage - Site Management	12	1	12	-	Area for storage.	-	-	-											
Construction Management Area	30	1	30	-	Meeting space for the facilities construction management team and work crew.	-	Enclosed space. Area for office, staging and a secure storage area.	Assumes container unit/trailer or tent. Contractor usually installs container units at their own cost.											
Sign/Look Staging, Work Space/Secure Storage	50	1	50	-	Area for holding, sorting, repairing of event signs, look materials and tools.	-	-	Assumes container unit/trailer or tent.											
Material Warehouse/Construction Work Space	80	1	80	-	The storage of bulk and finish construction materials. Area for the performance of various construction tasks, carpentry, painting, and assembly.	-	Enclosed space. Area for carpentry, painting and general construction. Storage for non-weather proof materials.	Assumes tent or canopy with 2 side walls.											
Vendor Secure Storage	60	1	60	-	Area for containers, usually provided by the various temporary construction sub-contractors.	-	Enclosed space.	Assumes container unit/trailer or tent or existing space.											
Materials Staging Area	50	1	50	-	Area for the off-loading and loading of bulk construction materials.	-	Area only.	-											
Exterior Storage Area	50	1	50	-	Outdoor storage of material and products.	-	Area only.	Weatherproof area for large and bulk materials.											
Vehicle Staging	90	1	90	-	Parking area for specialty and work vehicles which operate inside and the immediate area outside the venue.	-	Area only.	Service, Repair & Specialty vehicles.											
Toilets	1.5	2	3	-	Toilets units designated or shared with other compound personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.											
Power Bulk Store	15	1	15	18	Storage area for bulk electrical items, such as cable reels & spare distribution boards.	Bulk Storage location within Logistics Compound. Preferably near other Technology Bulk Storage locations.	High Security - lockable. Weatherproof. Fork lift/pallet jack access essential.	May be combined with Power Workshop if location & size of space meet requirements for venue.											P
Power Workshop & Store	9	1	9	12	In venue storage area for spare electrical equipment & consumables workshop for electrical technicians.	Located in a position that is easily accessible to venue mains power boards and generators.	High Security - lockable. Standard office environment with general power. Workspace & FF&E for two technicians.	-											P
Power Generators Location	Varies	4	Varies	-	Outdoor space for power generators; may require conduit and/or cable ramps under roads, paths, etc.	As noted below.	Area where generators are installed to be secure and easily accessible to allow for installation, removal and service. Space should be allowed around generators for technicians, re-fueling, and snow removal.	Size of Generators will vary depending on volume of critical power that requires "back-up". See Technology Infrastructure for cabling pathway information.											P
Venue	Varies	2	Varies	-	Generators supporting critical venue operations including all primary technology spaces, results timing and scoring services, venue audio and video services.	Within the secured fence line. Adjacent to venue.	-	Generators also provide primary source of power to one half of the FOP lighting.											
Broadcast Compound	Varies	2	Varies	-	Generators supporting all broadcast technical spaces and other areas as specified by Host Broadcaster.	Within Broadcast Compound.	-	-											

BIATHLON

Space Sub-space(s)	Net Area - D107	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Venue Management																			
Venue Operations Centre (VOC)	60	1	60	90	An area that serves as the central location at the venue from where the Venue Manager will coordinate the operations of the venue team during the Games time period; key functional work areas may also be located within the VOC, along with venue team meeting/briefing areas.	Located in the Back of House area, generally in a central location with convenient access to all operational areas.	Enclosed space.	Assumed container units or existing space. Dependent upon venue capacity and venue layout.					F					P	
Venue Manager and Asst. Manager Work Space	12	1	12	-	An area for Manager and Assistant(s) Manager.	-	-	-											
Assigned Desks	20	1	20	-	Open plan work stations designated for Functional Area personnel.	-	-	Assigned work areas or desks in the VOC may vary among functional areas.											
Hot Desks	10	1	10	-	Shared work stations.	-	-	-											
Work Space and Storage	18	1	18	-	Non-designated work positions.	-	-	Copier, fax, storage. Lockable cabinets.											
Venue Communication Centre (VCC)	40	1	40	50	Serves as the hub for all operational communication in support of the venue team; coordinates all venue radio communications.	Generally, adjacent to the Venue Operations Centre and Security Command Centre; may be under a single roof within the Venue Operations Centre.	Enclosed space.	Assumes container units or existing space. Dependent upon venue capacity.					F					P	
Venue Communication Manager	4	1	4	-	An area for the VCC Manager.	-	-	-											
Mail & Fax Desk	4	1	4	-	Area for receiving, logging and sorting incoming and outgoing mail & facsimile.	-	-	-											
Communication Operators (VCC Operators)	24	1	24	-	Area for assigned radio talk group operators/monitors and telephone communication line operators.	-	-	-											
Storage	8	1	8	-	Equipment storage area.	-	-	-											
Multi-purpose Room (MPR)	150	1	150	180	Serves as a space which can be shared by all Functional Areas at the venue for meetings and other related needs.	Located in the Venue Operations Centre or in close proximity to VOC.	Enclosed space.	Potential User Groups: 1. Venue Workforce daily briefing. 2. Security Briefing. 3. Sport Operation meeting room. 4. Major Incident room. 5. Entertainment staging.					F					P	
Snow Removal Compound	-	-	-	-	A service area where the snow removal contractor operates at the venue and performs the snow removal.	Located in the BOH area; adjacent to or within the Logistics or Waste Management compounds.	-	-											
Equipment Storage	15	1	15	-	Area for storage of snow removal equipment.	-	May require covered and enclosure.	-											
Truck & Equipment Staging	50	Varies	Varies	-	Area for staging of snow removal vehicles and equipment	-	May require covered and enclosure.	Number required may vary according to layout and/or size of venue.											
Supply Storage Area	50	Varies	Varies	-	Area for storage of supplies that may be required for snow removal (i.e. salt).	-	May require covered and enclosure.	Number required may vary according to layout and/or size of venue.											
Snow Storage / Removal Area	-	-	-	200-2000	An area or location where snow can be stored after it is removed from operational areas of the venue.	Located outside of operational areas of the venue.	Area only for dumping of snow removed areas of the venue. May require multiple locations that may exist off venue or outside the venue perimeter.	Area requirements will be based on size of venue. Snow removal may require hauling/transport to off venue location.											
Workforce																			
Workforce Area	150	1	150	180	An area that serves as the central point where all venue workforce check-in and may exit the venue or check-out if necessary; from this point workforce deploy to their respective functional area; meal privileges/coupons may be distributed at this time.	Adjacent to the venue perimeter where the workforce can access without entering the venue; in close proximity to workforce entrance and Venue Accreditation Office.	Enclosed space.	Assumes tent.					F					P	
Check-In Area	96	1	96	-	Area to log-in venue workforce and contractors by day or shift.	-	Check-in desks.	-											
Workforce Manager Office	12	1	12	-	Office area for Workforce Manager.	-	-	-											
Information Desk, Lost & Found & Work Space	12	1	12	-	An area where venue information is available to workforce and also serves as non-designated work positions.	-	-	-											
Distribution Desk	6	1	6	-	Area for distribution of goods (e.g. sunscreen, daily venue news letter) to workforce.	-	-	-											
Workforce Break & Dining Area	335	1	335	400	The space where workforce meals are served and where workforce can break during shifts.	A location that will provide easy access to all venue workforce for breaks and meals; will vary according to venue layout/distances.	Enclosed space.	Includes Seating Area, Buffet, Food Preparation Area, Packaged Snacks & Beverage Area & Voucher Take and Queue. Dependent upon venue workforce numbers.					F					P	
END OF DOCUMENT																			

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS-OBO	IPC	G - Generic Space	R-Requirement, G- Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation					
Accreditation																								
Venue Accreditation Office	50	1	50	125	Area where accreditation personnel maintain the integrity of the accreditation pass operating system while accommodating the needs of accredited persons at the venue, such as pass activation and temporary access solutions (e.g. day pass) into the venue or into zones within the venue.	Adjacent to the venue perimeter where constituents can access without entering the venue; in close proximity to Workforce entrance and Workforce check-in area.	Enclosed space. Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.											P					
Day Pass Issue & Problem Resolution Desk	15	1	15	-																				
Work Space	15	1	15	-																				
Manager Desk or Office & Storage	12	1	12	-																				
Waiting Area	8	1	8	-																				
Secondary Accreditation Office	9	1	9	30	Same as above but with minimal operations taking place.	Located in the Back of House area, on the perimeter of an accredited area and/or entry.	May be required in venues which have large distances between accredited entrances, generally over 300m.	Located in temporary structure. Assumes container/trailer unit or tent.					F						P					
Toilets	1.5	2	3	9	Toilet units designated for constituent groups entering the venue and accreditation workforce.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.						F										
Broadcast																								
Broadcast Compound	-	1	-	5000	An area for mobile units for both the Host Broadcaster and Rightsholding Broadcasters, along with other operational services and technical needs required for broadcast at the venue.	Located inside the venue, normally in the Back of House area, as close as possible to the Competition facility or tribune areas and FOP areas for easy access.	Area only. Level surface area paved or gravel with heavy duty load capacity. Secure access for entry and exit into the compound area.	Gross area does not include service and production truck access requirements. Gross area includes snow removal access.									J	J	R	IOC				
Broadcast Management Office	60	1	60	150	Space for the broadcast management and administrative team.	Located near entrance to compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										I	F	G	IOC			
Broadcast Manager Office	12	1	12	-	-	-	-	-																
Work Room, Assigned & Unassigned Desks	48	1	48	-	-	-	-	-																
Technical Operations centre	40	1	40	100	An area where the final point of signal quality control takes place before transmission from the venue; acts as the interface point for all multilateral and unilateral audio/video signals.	Located inside Broadcast compound.	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.										I	F	R	IOC			
Broadcast Catering	140	1	140	180	Dining and break area for broadcast personnel.	Located inside Broadcast compound.	Enclosed space.	-																
Kitchen & Prep	20	1	20	-	-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.																
Buffet Line & Dining	120	1	120	-	-	-	-	Located in temporary structure. Assumes container/trailer unit or tent.																
Host Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for the primary broadcast entity.	Located inside Broadcast compound.	-	Quantity will vary according to the number of HB venue staff & mobile unit venue requirements.																
Work Space(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Unilateral Broadcaster Area	85	Varies	Varies	175 (each)	Area of broadcast compound designated for independent rights holding broadcasters.	Located inside Broadcast compound.	-	Quantity will vary according to the number of independent rights holding broadcasters.																
Work Space(s)	20	Varies	Varies	-	-	-	Enclosed space.	Located in temporary structure. Assumes container/trailer unit or tent.																
Mobile Unit(s)	65	Varies	Varies	-	-	-	Enclosed space.	-																
Power Generator(s)/Backup Power Generator(s)	30	Varies	Varies	75 (each)	Independent fuel operated power source.	Located inside Broadcast compound; easy access for refueling trucks.	-	Quantity will vary according to the power requirements for Broadcast at venue.																
Toilets	1.5	8	12	36	-	Located inside Broadcast compound.	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Secondary Broadcast Compound	-	-	-	230	Serves as a secondary unit to the main compound to house various broadcast technical needs that are required for Broadcast to cover the full competition FOP or area.	Located adjacent to FOP.	Area only. Required on venues where size of FOP or location of Primary Compound exceeds cabling capabilities.	Specific elements are venue/sport specific.										J	J	R	IOC			
Toilets	1.5	2	3	-	Toilet units designated for broadcast personnel.	-	-	Assumes temporary units. Accessible toilet facilities should be provided.																
Commentator Control Room (CCR)	10	1	10	15	An area that serves as the main hub to the host broadcaster's commentator system; all commentator units monitored and controlled in this area.	Located in Back of House area, in close proximity to commentator position area.	Enclosed space with incoming television cable.	Assumes existing space or container unit.										I	F	R	IOC			
Broadcast Information Office (BIO)	20	1	20	25	Space for broadcast management and team meetings.	Back of House area; located near commentator positions and CCR.	Enclosed space.	Assumes existing space or container unit.										J	J	R	IOC			
Broadcast Graphics Support Room	25	1	25	30	An area where real-time results information is fed into specific broadcast equipment.	-	Space for equipment and personnel to monitor real-time results feed.	-										J	J	G	IOC			
Pre & Post Competition Interview Area	9	1	9	9	An area for rightsholders to conduct stand-up interviews before and after competition.	Located near FOP entrance and exit.	An area only; may require two areas if the FOP entry and FOP exit are not the same location.	Additional lighting may be required for indoor venues.	J	I	J									R	IOC			

BOBSLEIGH / LUKE / SKELETON

Space Sub-space(s)	Net Area - m ²	Quantity	Total Net Area - m ²	Gross Area Requirement - m ²	Functional Description	Affinity	Functional Requirements	Other Variables	IF	Sponsor	IOC	OCOG	Venue Owner/Operator	Government	OBS/OBO	IPC	G - Generic Space	R-Requirement, G-Guideline, P-Precedent	Source of Requirement or Guideline: IOC, IF, L-Legislation
Mixed Zone	25	1	25	90	An area where broadcasters and accredited media have the opportunity to conduct flash interviews with the athletes as they exit the FOP.	Located in the Back of House, adjacent to the FOP.	<u>Gross area</u> includes space required for Broadcast Positions, ENG Positions, Press/Radio & Photo Positions, Athlete and Media movement, Technical Storage Area and Cable paths.	The mixed zone is designed according to IOC rules.	I		I	J						R	IOC, IF
Commentator Position	4	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters.	Located in cabins and/or container units with view to FOP and finish areas.	Each position = <u>2m x 2m (4m²)</u> , this includes a working desk with 3 persons seated in chairs, plus circulation space (e.g. for information officers).	Commentator positions at outdoor venues are normally located in temporary cabin/container/trailer units.			I	J						R	IOC
Com-Cam Position (Commentator-Camera)	8	Varies	Varies	-	An area for designated tabled positions for independent rights holding broadcasters which includes space for a camera position.	-	Each position = 2m wide x 4m deep (8m ²), this includes a working desk with 3 persons seated in chairs and a space behind for camera/on air interviews.	-			I	J							
Observer Seating	0.5	Varies	Varies	-	Viewing seats for broadcast personnel.	Adjacent to Commentator positions.	1 position = uses 1 seat in existing seating bowls.	-			I	J						R	IOC
