## Appendix 2

### Notes

\* Data was extracted from CRIS MIS on 15/06/2017 for the period 01/04/2014 to 31/05/2017. Data is subject to changes over time as records are updated with the details of ongoing investigations.

\* Data is limited to those records where the following feature code is present: 'GW: Suspect Riding Moped - Scooter - Motorcycle at time of offence'

\* Data for Sanction Detections is grouped by the month in which the detection was generated - this may well be some time after the offence was committed.

**This data has been extracted from CRIS using a feature code which identifies it as "moped enabled crime". One of the actions of Operation Venice (late 2015) was to promote the use of this code – it is likely this has contributed to the increase in recordings under this feature code.**

Police forces in the United Kingdom are routinely required to provide crime statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the crime data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.
