How many years of Londoners lives, approximately, have been lost by your delay?

Brian Coleman & LFEPA Expenses

Question No: 1720 / 2011

[John Biggs](#)

Your office was quoted as saying: 'The Mayor is disappointed with Brian Coleman, does not approve of his extravagant expenses and has made this clear to him. Only members of the London Fire and Emergency Planning Authority, however, can tighten the expenses regime

Delayed responses to questions

Question No: 1728 / 2011

[Navin Shah](#)

Thank you for your two answers to my question 1400/2011, but why the failure to respond to my question 1399 / 2011. which requests no factual information and relates directly to services under your control? Is your failure to respond further indication of your contempt for Jubilee line users?

A Good Day for Bad News

Question No: 1729 / 2011

[Navin Shah](#)

When did it become clear the upgrade works on the Jubilee line would go on beyond Easter Monday? I have repeatedly tabled questions asking if this would be the case, yet I received no notification before the 28th of April, and I have seen no explanatory materials, or your standard apologetic letter, on London Underground property. Were you hoping this would be

overshadowed by the Easter holidays and the collective effervescence of the Royal Wedding? Is hoping Londoners won't notice your lack of grip over this project emblematic of your attitude towards your constituents?

Given your strong opinions on the firm, would the Mayor care to comment on last year's findings of the Charity Commission, that the Garfield Weston Foundation, owners of Fortnum's, broke charity law in regard to donations totaling £900,000 made to the Conservative Party between 1993 and 2007?

Incapacity Benefit and Mental Health

Given the connections between income inequality and health inequalities, as detailed in your Health Inequalities Strategy, are you concerned that welfare reforms could see increasing levels of mental illness in London?

Tube Station Platform Announcements

Question No: 1735 / 2011

[Navin Shah](#)

I have been contacted by constituents living next to West Harrow tube station who are continuously disturbed by tannoy announcements. I was reminded that you have previously pledged to 'reduce the number of pointless announcements at open-air Tube stations in order to reduce noise pollution for local residents', yet I have two sets of residents at West Harrow and Kingsbury stations who still have to listen to endless, loud and disruptive announcements. My constituents have battled with this problem for a number of years so the new procedure implemented in 2008 to 'ensure consistency and rapid resolution of complaints' is clearly not working. Can you assure me that TfL will meet with residents at West Harrow and Kingsbury to sort of these problems and ensure that the problem does not recur in another two years time?

Police Numbers

Question No: 1736 / 2011

[Navin Shah](#)

Why are you slashing budgets and reducing the number of officers and PCSOs in Brent?

London Fire Brigade Control Centre

Question No: 1737 / 2011

[John Biggs](#)

Do you remain confident that the agreed bid will proceed in its current form? What is the greatest risk its success faces?

Question No: 1740 / 2011

[John Biggs](#)

Do you still anticipate the Royal Parks becoming a Mayoral Agency? If so, when? If not, why has this changed?

Olympic Births

[John Biggs](#)

What special privileges will be enjoyed by children born on December 20th 2004? Were promises made which will now not be kept and if so why has this happened?

At what point, if any, did Dan Ritterband, your Director of Marketing and former Visit London Board Member, inform you that the number of staff that would be affected if London & Partners did not take on Visit London’s pension liabilities is not 39, as you recently stated in a letter to me and as was maintained by Dame Judith Mayhew-Jonas at the EDCST committee of 24.05.11, but is, in fact, 177 people (39 who transferred to London & Partners; 40 current members in receipt of a pension and 98 deferred members who have rights under the scheme but have not yet retired)?

Visit London 7

Question No: 1797 / 2011

[Len Duvall](#)

There are possible scenarios: the first in which the London & Partners board (whose appointments were approved by you) failed to consider the implications of taking a decision that would put Visit London in to administration, thereby 'dumping' its pension liabilities; or the second in which London & Partners were fully aware of the of the likely human impact of Visit London going in to administration but took a decision to prioritise its immediate needs over its moral duty to those who had worked hard (both employees and unpaid creditors) to promote London to the world. Will you please look into this matter and ask London Buses to reconsider this proposal in light of the concerns raised?
