

Prioritise the installation of defibrillators in key locations in London

Key information

Publication type: General

Publication status: Adopted

Publication date: Friday 14 March 2025

d

The London Assembly **Health Committee** has written to the Mayor, urging him to prioritise the installation of defibrillators in key locations in London. The letter follows a visit to Liverpool Street station to learn about the use of defibrillators in TfL stations, during which the Committee had the opportunity to meet with staff from the station and London Ambulance Service (LAS), and to take part in lifesaver training from LAS paramedics.
