

**Notes**

Live data was extracted from METSTATS2 on the 5th December 2017.

The data set is a count of all confirmed and classified notifiable offences where there is present at least one branch flag which indicates a hate crime definition. Please note that it is possible a single offence has multiple flags added to it, which fall into multiple definitions. For that reason the individual totals should **not** be added together.

The hate crime categories and the flags searched for are;
