

List of ERDF beneficiaries for London, England (last updated March 2016)

This table lists the organisations that have been awarded ERDF contracts under the London ERDF 2007-13 programme. It is split by ERDF Priority & Theme.

Priority 1 : Business innovation, and research & promoting eco-efficiency

Theme 1 : Developing a culture of, and capacity for, creating and using innovation throughout London's businesses to create sustainable economic growth

ERDF Bidding Round	Priority & Theme	Name of beneficiary organisation	Name of project	Geographical coverage	Description (in project's own words)	Year of allocation/year of final payment	ERDF amount awarded	Other public funding allocated	Private funding allocated	Voluntary funding allocated	Total amount paid at the end of the project	Project contact name	Contact email
1	1.1	Mazorca Projects Ltd, 138, Kingsland Road, London E2 8DY	Innovation Collaboration for Networks for Smart Growth	Pan London	To assist disadvantaged design micro-enterprises access the competitive global market-place through smart growth - so minimising negative environmental and economic impacts by encouraging innovation, collaborative networks and responsibility.	2008-2011	£665,280	£125,374	£539,906	£0	£575,998	Dieneke Ferguson	dieneke@mazorcaprojects.com
1	1.1	University of East London Docklands Business Units University Way E16 2PD	Lightbulb Express	Pan London	This is an experimental project aiming to pilot more effective ways of supporting sole trader (ST) and micro enterprise (ME) Inventors; to ensure that support organisations and ST&ME Inventors can work together to increase the flow of new products and innovations. We propose to develop a bespoke set of tools (including distance and e-resources), to provide a roadmap for ST&ME Inventors/Inventor Clubs and advisors to follow as they take innovations through definition stage, market research and, perhaps, prototyping. We will test and refine these tools on a small cohort of ST&ME Inventors; if the results are positive we will then propose a higher volume London-Wide ST&ME Inventor Support Programme.	2009-2010	£74,150	£74,151	£0	£0	£67,786	Martin Longstaff	m.longstaff@uel.ac.uk
1	1.1	Four Corners 121 Roman Road E2 9QN	Photo Imaging Network	Tower Hamlets	Photo Imaging Network is a specialist development programme for 180 micro businesses/sole traders working in the high-growth Photo Imaging sector, that addresses business needs to adapt to new challenges brought about by the rapidly transforming digital landscape. It will be delivered pan-London, with a strategic focus in East London. The project addresses the significant sectoral under-representation of BAME, women and disabled creative entrepreneurs, providing specialist support measures to overcome barriers to economic stability and growth. Actions include workshops covering the digital production process and distribution platforms, showcasing, business networking and development of innovative product including a prototype web marketing tool.	2009-2012	£150,000	£0	£0	£150,000	£147,041	Carla Mitcell	carla@fourcornersfilm.co.uk
1	1.1	Global Action Plan 9 Kean Street WC2B 4AY	Smartworks	Pan London	SmartWorks will provide innovative support around Eco Efficiency to SMEs across London, engaging them through strategic partnerships with selected London Boroughs and large procurers. By providing both bespoke one-to-one specialist environmental mentoring and establishing collaborative networks between procurers and SMEs the project will: • Achieve measured improvements in SME environmental and financial performance • Increase SME awareness of and receptivity to technologies that will enable them to operate more eco-efficiently including renewable energy • Create increased knowledge sharing and awareness of environmental and business growth opportunities amongst SMEs • Support minority-owned businesses and those in disadvantaged areas of London	2008-2012	£424,645	£66,001	£150,000	£209,645	£401,798	Ellen Dobbs	ellen.dobbs@globalactionplan.org.uk
1	1.1	Wandsworth Borough Council Wandsworth High Street SW18 2PU	Go Green Plus	Wandsworth, Merton, Sutton, Kingston, Lambeth, Richmond	Go Green Plus will deliver 'green' support to 400 SMEs in town centres and disadvantaged areas in Wandsworth, Sutton, Merton, Kingston, Richmond and Lambeth. BME, women and disabled business owners will be engaged through targeted marketing and outreach. Specialist advisers will work with 400 SMEs on action plans to reduce their carbon footprint, supporting them to review progress on implementing their action plans and providing one to one mentoring. The project will also support collaborative self help for eco-efficiency and will explore potential for 'green clustering'. It will support networking and promotional events. It will deliver an independent evaluation to inform a robust sustainability strategy.	2009-2012	£1,142,519	£949,012	£193,507	£0	£614,973	Brian Albuquerque	Balbuquerque@wandsworth.gov.uk
2	1.1	Global Action Plan 9 Kean Street WC2B 4AY	Environmental Savings through ICT	Pan London	Environmental savings through ICT will provide innovative support around ICT efficiency and collaborative networking to SMEs across London, engaging them through strategic partnerships and targeted events. By providing various levels of support including bespoke one-to-one ICT environmental mentoring the project will: • Achieve measured improvements in SME performance through improved use of ICT • Increase SME awareness of and receptivity to technologies enabling them to operate more eco-efficiently and improve business flexibility around the effects of climate change • Increase knowledge sharing around environmental and business growth opportunities amongst SMEs • Support minority-owned businesses and those in disadvantaged areas of London	2009-2013	£355,464	£0	£0	£355,462	£355,446	Ellen Dobbs	ellen.dobbs@globalactionplan.org.uk
1	1.1	Centre for Environment & Safety Management for Business (CESMB) - Middlesex University The Burroughs NW4 4BT	Ecovate Advance Phase II	Pan-London but with stronger focus on areas identified by delivery partners as in need of support including North West, Thames Gateway, East London boroughs	Ecovate offers practical support for businesses to improve their environmental innovation performance, investigate opportunities for improved waste, energy and water management, identify cost benefits and options for green technologies and materials. Businesses can undertake an environmental review and up to 5 days tailored support including: Development of an environmental policy; Support for waste minimisation, separate waste activity; Assistance with energy reduction, energy efficiency and green technology; efficient technologies and supporting grants; Reduction of carbon footprint; Brokerage of appropriate service suppliers (recyclers, energy suppliers etc); Legislative guidance; Support for greening the supply chain.	2008-2012	£1,813,831	£985,567	£524,737	£303,526	£1,342,070	Ankit Kapasi	a.kapasi@mdx.ac.uk
5	1.1	Greater London Authority City Hall SE1 2AA	Business Food Waste Solutions Delivery	Pan London	The project will deliver advice and support to London's food sector SMEs, to help them identify and implement measures that reduce their costs related to the production and management of food waste - also leading to significant environmental and social benefits. The businesses will typically include restaurants, food preparation and catering facilities, business canteens, small hotels and markets. Through the measures implemented and by stimulating 'green' markets, the project is anticipated to provide significant financial and environmental benefits.	2012-2015	£500,000	£500,000	£0	£0	£359,407	Andrew Richmond	andrew.richmond@london.gov.uk
4	1.1	London Borough of Islington Upper Street N1 1XR	Green Light North London	Pan London with a focus on Islington, Enfield, Waltham Forest, Haringey, Hackney, Camden, Barnet	Green Light North London (GLNL) is a new project bringing both cutting edge and experienced partners in North London together for the first time. The project has identified and will target two hard to reach sectors: shared/serviced tenanted SMEs and light industrial process SMEs. GLNL aims to help North London SMEs reduce their carbon output and improve their resource efficiency, profitability and reputation. Through handholding and tailored business support, GLNL will enable businesses to quantify their environmental impact then implement practical changes to their business practices with the multiple benefits of reducing carbon emissions and saving energy, resources and cash.	2011-2014	£612,466	£512,466	£100,001	£0	£556,927	Michael Calderbank	Michael.Calderbank@islington.gov.uk
1	1.1	University of East London Docklands Business Units University Way E16 2PD	Innovation for Growth	Brent, Ealing, Harrow, T/Hamlets, Hackney, W/Forest, Newham, Redbridge, Barking & Dagenham, Havering, Lewisham, Greenwich	To raise awareness, build confidence and identify innovation opportunities for businesses that have previously had very little experience of undertaking innovation or engaging with the knowledge base.	2008-2011	£319,332	£319,332	£0	£0	£298,137	Martin Longstaff	m.longstaff@uel.ac.uk
1	1.1	Climate Energy Stephenson House Cherry Orchard Road Croydon CR0 6BA	Urban Regional Business Advice Network	Pan London	SMEs from across London will be provided CEN's specialist environmental knowledge accumulated across 10 years in the sector. 81 SMEs from across London will be supported to achieve a step change in their environmental performance. Participating organisations will be supported to reduce their resource consumption and to realise the bottom line benefits of improved environmental performance. Through site audits, and remote advice covering performance areas including transport, energy efficiency, renewable energy, procurement, waste management, and water efficiency. Formal CSR reporting frameworks will be established, in-depth sustainability reports produced and comprehensive Climate Change Action Plan put in place.	2008-2012	£154,560	£154,560	£0	£0	£151,563	Tristan Heath	tristan@cen.org.uk
1	1.1	London Borough of Croydon Taberner House Park Lane Croydon CR9 3JS	Inspire South London	Croydon, Bromley, Sutton, Merton, Kingston, Richmond	Inspire South London (ISL) is a new programme designed to address the barriers to innovation and environmental management faced by south London SMEs, particularly those led by BAME, women and disabled entrepreneurs. Working closely with Business Link, ISL will combine the expertise of specialist business support organisations with the local knowledge, routes to market and feedback loops of local boroughs. Fostering a culture of, and capacity for, innovation and sustainable growth within SMEs will be core to ISL's service, which will also facilitate cross-sector collaboration opportunities, access to new markets, across London (through horizontal project links), and provide innovation service differentiation.	2008-2013	£958,806	£386,480	£572,326	£0	£954,177	Lisa McCance	Lisa.McCance@croydon.gov.uk
4	1.1	Wandsworth Borough Council Wandsworth High Street SW18 2PU	Greening SMEs	Wandsworth, Southwark, Kensington & Chelsea, Barking & Dagenham, Richmond and Merton	Greening SMEs will improve the environmental performance of 250 SMEs in Wandsworth, Southwark, Kensington & Chelsea, Barking & Dagenham, Richmond and Merton, through a one to one support service for businesses delivered by a team of specialist advisers. The project will undertake 'green' diagnostics with each business, develop an environmental improvement action plan and support businesses to implement these. The project will target SMEs located within the partner boroughs with an additional focus on businesses which are owned/managed by women and by people from black, Asian and other ethnic minority communities.	2012-2015	£617,478	£303,138	£201,735	£112,609	£559,472	Brian Albuquerque	Balbuquerque@wandsworth.gov.uk

ERDF Bidding Round	Priority & Theme	Name of beneficiary organisation	Name of project	Geographical coverage	Description (in project's own words)	Year of allocation/year of final payment	ERDF amount awarded	Other public funding allocated	Private funding allocated	Voluntary funding allocated	Total amount paid at the end of the project	Project contact name	Contact email
1	1.1	Park Royal Partnership Monarch House Victoria Road W3 6UR	Food Innovation and Development Centre	Pan London	Implementing the recommendations of the FPFLDA-funded Grant Thornton study into the food sector's needs. This project will pilot a food innovation centre in Park Royal and begin to affect the necessary transformational changes required. It will act as an essential test bed for a full-scale physical centre, the development of which is the ultimate goal. With food and drink businesses under siege from economic, social and environmental factors, an innovative approach to support is required. The pilot will establish: - potential economic return on investment - joint venture options with the private sector the right mix of technical and innovation-led services	2009-2011	£200,000	£0	£200,000	£0	£180,000	Mohit Garg	MGarg@parkroyal.org
1	1.1	North London Chamber of Commerce Enfield Business Centre Hertford Road EN3 5JH	Argall BID Eco-Efficient	London Borough of Waltham Forest	This business led project will improve and enhance the industrial environment, attract inward investment and create sustainable economic growth. The project will carry out a free energy survey of businesses within the Argall Business Improvement District (BID) in Waltham Forest. The project will encourage recycling and energy efficiency. It will also identify other innovation and environmental opportunities and signpost the businesses to specialist providers such as the Centre for Environment and Safety Management for Business (CESMB) at Middlesex University. Direct benefits will be helping make local SMEs in sectors vital to London more efficient through innovation, and more eco-efficient through increased environmental awareness and action.	2009-2012	£145,851	£61,256	£84,593	£0	£71,783	Huw Jones	hjones@nlcc.co.uk
2	1.1	University College London Gower Street WC1E 6BT	Selected Management Interims for London Enterprises	Pan London	Small businesses frequently face new challenges as they grow. These require an ever-changing set of management talents that they often lack the resources to engage with. As workloads increase, approaches which have worked well in the past start failing. Teams and people get overwhelmed and systems start to buckle. SMILE will help London-based SMEs to overcome these hurdles. In so doing, it will help avoid business failures, preserve jobs and create new opportunities for growth for the companies that take part. SMILE will provide access to part-time and interim managers for potential high-growth businesses support the growth of London's economy.	2009-2012	£482,546	£267,070	£215,576	£0	£335,632	Timothy Barnes	tbarnes@ucl.ac.uk
1	1.1	Paddington Development Trust 242 Acklam Road W10 5JJ	Creative Futures Partnership	Westminster, Kensington and Chelsea, Hammersmith, Brent	The Creative Futures Partnership (CFP) will provide an integrated innovations development service to creative and media industries across West London, home to a large section of London's creative entrepreneurs. CFP will provide specialist skills, knowledge, networking, technology training, marketing and business planning through a unique partnership including Paddington Development Trust, Photobell Business Centre, University of Westminster, Fine Art Foundation and the London Film Makers Convention. All participating businesses will be offered free specialist environmental auditing and advisory services by Julia's Bicycle, developed specifically for the creative industries to assist in the reduction of greenhouse gas emissions.	2009-2012	£518,935	£354,323	£24,690	£139,921	£269,021	Ola Badamosi	ola@pdt.org.uk
5	1.1	University of the Arts - London College of Fashion 182 Mare Street E8 3RE	Innovation Agency	Pan London	The Innovation Agency will support London's fashion designers to innovate their businesses by creating new global business opportunities in response to the emerging worldwide demand to access fresh talent. It will support and guide fashion SMEs to develop multi-service, multi-revenue and multi-channel access to their businesses - across wholesale, e-commerce and consultancy/collaboration/licensing operations. It will advise on new business and funding models, product innovation, partnership building, and monetizing fashion IP assets in order to strengthen and grow SME businesses. The Agency will also be marketing the talent of London's SMEs to potential clients, partners and collaborators, to secure new business.	2012-2015	£990,000	£990,000	£0	£0	£990,000	Kobirul Islam	k.islam@fashion.arts.ac.uk
2	1.1	Newham College of Further Education East Ham Campus High Street South E6 6ER	Innovate HER	Newham, Tower Hamlets, Hackney	This project will support 120 women led SME's from East London to identify and develop innovative services, products and/or business models and use them to grow their businesses and create employment opportunities among many of the most disadvantaged communities and groups in London. The project will be led by Newham College of Further Education working with PROWESS, Business Link in London, and the London Boroughs of Newham and Tower Hamlets, and a key output will be the creation and mainstreaming of a Women's Business Innovation Network which will support women led SME's and carry forward the activities post project.	2009-2012	£370,000	£370,000	£0	£0	£341,983	Julia Bollam	Julia.Bollam@newham.ac.uk
2	1.1	University of the Arts - London College of Fashion 182 Mare Street E8 3RE	Maximising The Designer Fashion Economy	Pan London	This is an innovation project focusing on: Business Support, Business Innovation and Business Growth. It provides a business development platform for entrepreneurial designer fashion SMEs located in London. It will be delivered by the Centre for Fashion Enterprise, who's USP is its unique understanding of, and ability to provide a 360° business platform for these businesses and access high level sector experts and networks. Support is tailored to each business at their different stages of business development and growth. It provides sustainable results that continue to grow well beyond the period of direct Centre for Fashion Enterprise support.	2009-2012	£585,000	£585,000	£0	£0	£531,048	Kobirul Islam	k.islam@fashion.arts.ac.uk
2	1.1	The Theatres Trust Charitable Fund 22 Charing Cross Road WC2H 0QL	ECOVENUE	Pan London	Ecovene is a theatre-specific, environmental business support project for 46 theatre and performing arts venues across London. It aims to achieve quantifiable improvements in the environmental performance of London's theatres, renowned worldwide. Theatres will be provided with advice to develop Environmental Policies and achieve Display Energy Certificates (DECs). Savings made will help to deliver the Mayor of London's Green Theatre Plan, which aims to help theatres achieve reductions in carbon emissions by 60% from 1990 levels by 2025. Ecovene will be delivered by The Theatres Trust, the National Advisory Public Body for Theatres and will run until 2012.	2009-2012	£375,628	£0	£375,627	£0	£343,954	Mhora Samuel	mhora.samuel@theatrust.org.uk
2	1.1	University of East London Docklands Business Units University Way E16 2RD	M-Com	Newham, Tower Hamlets, Barking and Dagenham, Redbridge, Greenwich, Lewisham, Hackney, Havering	M-Com is an 18 month experimental project which aims to develop and test an m-commerce toolkit that will assist manufacturing and service based SMEs in adopting m-commerce innovation; allowing access to new markets and improvements in business processes. The project will assist 12 SMEs within South and East London to access m-commerce expertise within UEL's School of Computing Information Technology and Engineering. Businesses will be supported via a 3 stage process: - Stage 1: M-commerce innovation needs - assessment - Stage 2: Design and development of the toolkit - Stage 3: Implementation, testing and evaluation	2009-2011	£108,902	£108,902	£0	£0	£108,760	Martin Longstaff	m.longstaff@uel.ac.uk
2	1.1	South London Business Ltd Cygnet House 12-14 Sydenham Road Croydon CR9 2ET	Build South London	South London	Build South London is a focal point for construction activity in south London - a route to market for all construction related business support and supply chain opportunities. The network is led by main contractors, local and regional business support organisations, local boroughs and small local construction businesses. Through a series of events and workshops BSL offers local construction SMEs business support, plus an online network offering further opportunities for some 750 construction companies across south London to engage with one another and secure new business. The project is expected to safeguard or create 90 jobs in the local construction industry.	2009-2013	£248,354	£0	£255,816	£0	£197,155	Rose Saunders	r.sauanders@southlondonbusiness.co.uk
2	1.1	London Borough of Sutton 24 Denmark Road SMS 2JG	Greening Businesses in Hackbridge	Sutton	This project helps businesses to reduce their impact on the environment, save money and develop sustainable products and services. We seek opportunities for industrial symbiosis between one business as a raw material for another. We future-proof local business by equipping SMEs with the skills they need to develop Hackbridge as a sustainable One Planet Community.	2010-2012	£82,300	£90,749	£0	£0	£81,736	Jackie Gordon	Jackie.Gordon@sutton.gov.uk
2	1.1	London Borough of Camden Angle Street WC1H 9EQ	Jewellery Connections	Camden, Islington	The project will improve the competitiveness of technical manufacturers and designer-makers providing services in the jewellery sector and associated industries through fostering innovation in jewellery product development, design, manufacturing and access to market. The project will deliver business advice and guidance that fostering innovation, linking to the Business Expertise strand of the Business Support Simplification Process. The project will encourage collaboration within the jewellery sector and with allied industries and support the creation of new supply chains within a sector which historically has suffered from fragmentation and a culture of closed networks. The project will offer a comprehensive package of technical support to businesses seeking to innovate ranging from initial business planning and market analysis through to promotion, marketing and retail merchandising.	2009-2011	£245,218	£160,629	£84,586	£0	£228,580	Kate Gibbs	Kate.Gibbs@camden.gov.uk
1	1.1	Greater London Enterprise Ltd 20 New City Court St Thomas Street SE1 9RS	E-Innovate: Building Innovation in BAME Businesses	Pan London	E-Innovate extends innovation support services to businesses owned by women, disabled and BAME groups across London. These businesses are under-represented in services that support innovation and the exploitation of new ideas. E-Innovate will address the under investment in innovation common among these businesses and increase the participation of BAME led firms, to link them with knowledge bases and research centres. Through a web-portal, businesses will be able to access support, exchange best practice and network leading to successful collaborations.	2009-2015	£1,946,181	£0	£1,946,180	£0	£1,769,101	Peter Thackwray	peter.t@gle.co.uk
2	1.1	London Development Agency City Hall SE1 2AA	London Manufacturing Advisory Service	Pan London	MAS is a pan-London SFB programme which aims to promote lean manufacturing by improving productivity and competitiveness in targeted SMEs through better quality management and a more efficient use of their resources. MAS will provide companies with varying levels of specific support including an enquiry service, workshops, business process reviews and access to manufacturing consultancy expertise. By working with other related projects, MAS services will benefit its users, their workforces and supply chains, other manufacturing SMEs and London's key manufacturing sectors, among others. MAS will provide direct business support to at least 600 SMEs helping to create new employment, improved productivity, safeguarding existing jobs and additional growth.	2009-2011	£737,074	£737,074	£0	£0	£726,087	Julie Sexton	julie.sexton@london.gov.uk
2	1.1	Newham College of Further Education East Ham Campus High Street South E6 6ER	Showcasing Innovation	Pan London	This project will support 120 SMEs from priority sectors across London in understanding new technologies in relation to Nano coating and RFID (Radio Frequency Identification), reviewing the potential use of these technologies in their business and making use of them to grow their business. The project will be led by Newham College of Further Education, making use of their highly innovative RFID Discovery Lab facilities, and will be supported by a separate project which includes the Computer Technology Industry Association, Low Carbon Innovation Network and CISC0 Systems, as well as Business Link in London.	2009-2012	£389,390	£389,390	£0	£0	£360,084	Julia Bollam	Julia.Bollam@newham.ac.uk

ERDF Bidding Round	Priority & Theme	Name of beneficiary organisation	Name of project	Geographical coverage	Description (in project's own words)	Year of allocation/year of final payment	ERDF amount awarded	Other public funding allocated	Private funding allocated	Voluntary funding allocated	Total amount paid at the end of the project	Project contact name	Contact email
2	1.1	British Print Industries Federation 2-35 Farringdon Road EC1M 3JF	Greening The Print Industry	Hackney, Islington, Tower Hamlets, Camden	Greening the Print Industry will assist print companies to improve their environmental practice. Companies will be provided with environmental audits and advice over time on how to cut down on harmful environmental substances, such as volatile inks, and make reductions in greenhouse gas emission, reduce waste make use of new technology that has fewer negative environmental effects, such as digital print. The project will assist companies to meet current and future standards of environmental accreditation in order that beneficiaries will be able to meet with demands of purchasers, many of whom require environmental accreditation as a condition of trade.	2009-2012	£311,152	£0	£311,152	£0	£308,638	Steve Walker	Steve.Walker@bpiif.org.uk

Priority 1 : Business innovation, and research & promoting eco-efficiency

Theme 2 : Leveraging value from London's world class knowledge base to benefit London's economy

ERDF Bidding Round	Priority & Theme	Name of the beneficiary organisation	Name of the project	Geographical coverage	Description (in project's own words)	Year of allocation/year of final payment	ERDF amount awarded	Other public funding allocated	Private funding allocated	Voluntary funding allocated	Total amount paid at the end of the project	Project contact name	Contact email
4	1.2	British Library 96 Euston Road NW1 2DB	Innovating for Growth	Pan London	The British Library's Business & IP Centre's 'Innovating for Growth' project will provide high quality business and intellectual property advice and support services to help ambitious SMEs to innovate, to grow and to create new jobs in the knowledge economy in London. Between 2011 and 2014 the project will support 150 growth SMEs from across London with end-to-end relationship management. Services will be provided by the British Library's expert staff and carefully selected delivery partners in the nationally renowned and highly accessible Business & IP Centre.	2011-2015	£1,038,271	£1,038,271	£0	£0	£980,070	Christina Murphy	christina.murphy@bl.uk
2	1.2	London Metropolitan University 41 Commercial Road E1 1LA	Innovate London	Pan London	Innovate London will connect SME businesses to the knowledge community, including businesses owned by women, and by BAME and disabled people, through a unique, collaborative, business support and networking environment involving three Innovation Centres – Accelerator (London Metropolitan University), London Knowledge Innovation Centre (London South Bank University and Business Extra) and Thames Innovation Centre (TIC), Further Education Colleges and other strategic partners. This collaboration will create a critical mass of business innovation and environmental management support for SMEs, resulting in the development and delivery of innovative products, processes and services, improving efficiency and supporting business growth and new supply chain opportunities.	2009-2013	£829,725	£0	£829,725	£0	£522,225	Peter Chivers	p.chivers@londonmet.ac.uk
1	1.2	UCL/Advances on behalf of University College London	Higher Education London Outreach	Pan London	HELO will benefit London businesses through the business enhancing capabilities of two of London's leading higher education institutions. UCL is ranked as a global top-ten university and London Business School is consistently placed in the top-five business schools worldwide. But many local businesses have often faced difficulties in accessing these potentially powerful resources. HELO will bridge the gap between the knowledge held within these world-class research institutions and the London SME's that could benefit most from it, using an existing network of SME's and support agencies enabling them to prosper and transform both themselves and their communities.	2009-2012	£615,897	£324,366	£291,532	£0	£296,091	Timothy Barnes	tbarnes@ucl.ac.uk
4	1.2	Ravensbourne 6 Penrose Way SE10 0EW	Digital Media Innovation Consultancy	Pan London	Ravensbourne is the UK's leading digitally focused HEI. Its mission is to enable the creative exploitation of digital technologies across the design, media, communications sectors and beyond. The Digital Media Innovation Consultancy project will focus on assisting SMEs to understand and commercially exploit new and emerging digital developments, especially 3D, Red, 360degrees production, postproduction, distribution and workflows, multiplatform user experience and the business opportunities arising from these technologies, including new business models concerning the monetisation of content through social and connected media platforms.	2012-2014	£799,999	£800,001	£0	£0	£613,088	Fraser Burrill	fburrill@rave.ac.uk
5	1.2	Brunel University ML353 Kingston Lane Uxbridge UB8 3PH	Co-Innovate	West London boroughs: Brent, Ealing, Hammersmith & Fulham, Harrow, Hillingdon and Hounslow; however, the project will also be promoted to SMEs throughout London.	Co-Innovate will improve access and accelerate the transfer of knowledge and research excellence from Brunel University to SMEs in West London. The project will provide design-led innovation, advice and guidance to SMEs, utilising a collaborative open innovation approach with support from lab facilities, testing and prototyping. Targeted at growing and emerging sectors, the Co-Innovate platform will create new and distinctive journeys to enable SMEs to build relationships and access research expertise and design facilities. Co-Innovate will result in helping 15 SMEs developing new products, processes or services resulting from knowledge exchange activities, creating 20 new jobs and 12 innovation jobs.	2012-2015	£500,001	£499,999	£0	£0	£445,065	Paul Davies	Paul.davies@Brunel.ac.uk
2	1.2	Westminster City Council Westminster City Hall 64 Victoria Street SW1E 6QP	Environmental Performance of BIDs	Westminster, Lambeth, Southwark, Camden, Islington	Environmental Performance of BIDs (EPB) works through the Business Improvement District structure to provide real environmental gains to the small and medium enterprises within those areas and to the wider London environment. The project will provide a range of additional and innovative measures to improve environmental performance, including advice sessions, audits, environmental management system support, improved partnership working and the option for SMEs to progress through BS 8555 or ISO 14001. The project demonstrates its commitment to equalities through targeting support particularly at businesses led by people from BAME backgrounds, women and disabled entrepreneurs.	2009-2013	£1,447,209	£691,848	£755,362	£0	£975,717	Alison Lawrence	alawrence@westminster.gov.uk
4	1.2	University of the Arts - London College of Fashion 182 Mare Street E8 3RE	Designer / Manufacturer Innovation Support Centre (DISC)	Pan London	DISC offers access to a specialist knowledge transfer platform designed to strengthen the link between LCF experts and SMEs. DISC will have a team of high-end and added-value designer fashion manufacturing, production management, technical, business management, and sustainability experts. The three phase programme will transform causes of market failure into sustainable and growing sources of competitiveness, business growth and inclusive job creation. Phase 1, Inspire, will increase awareness of the opportunities to exploit new technologies, collaborate with other SMEs and engage with HEIs. Phase 2, Fuse, will enable SMEs to share and develop innovation ideas. Phase 3, Create, will enable SMEs to develop innovative ideas into new products, processes and services and business models.	2011-2015	£1,426,379	£1,309,124	£117,255	£0	£1,341,411	Jan Miller	jan@janmiller.co
1	1.2	London Development Agency City Hall SE1 2AA	Knowledge Connect	Pan London	Knowledge Connect is a project focusing on business demand for knowledge transfer, looking to significantly scale up the number of new business / knowledge base collaborations in London, specifically among SMEs that have not previously worked with knowledge base organisations. The project will recruit and target those businesses that have potential to use collaboration opportunities to initiate new R&D activities and innovation. The project is designed to improve access to knowledge transfer for disadvantaged SMEs by providing specialist support in recruitment, mentoring, tackling cultural barriers, accessing knowledge transfer grants, improving collaboration readiness and networking opportunities.	2008-2011	£2,277,715	£2,411,956	£0	£0	£2,272,448	James Spacey	james.spacey@london.gov.uk
5	1.2	Lancaster University University House Bailrigg Lancaster LA1 4YW	London Fuse	Pan London	The project will address market failures affecting London's SMEs in the creative, digital and ICT industries (CDIT) through collaboration with the knowledge base. The three phase programme will transform causes of market failure into sustainable and growing sources of competitiveness, business growth and inclusive job creation. Phase 1, Inspire, will increase awareness of the opportunities to exploit new technologies, collaborate with other SMEs and engage with HEIs. Phase 2, Fuse, will enable SMEs to share and develop innovation ideas. Phase 3, Create, will enable SMEs to develop innovative ideas into new products, processes and services and business models.	2012-2015	£2,901,973	£2,279,336	£622,637	£0	£2,869,268	Helen Fogg	h.fogg@lancaster.ac.uk
1	1.2	University of East London Docklands Business Units University Way E16 2RD	Innovation Associates Programme	Pan London	The Innovation Associates Programme aims to work with London-based SMEs addressing problems or opportunities within their businesses which require innovative responses. Small and medium-sized organisations often don't possess the specific skills or expertise in-house which are required to realise ideas; therefore this programme aims to match the skills and scale of students based at the University of East London, Kingston University and Goldsmiths University with such businesses and projects.	2008-2011	£410,256	£453,499	£0	£0	£406,593	Martin Longstaff	m.longstaff@uel.ac.uk
1	1.2	Ravensbourne 6 Penrose Way SE10 0EW	Commercialising Digital Technology	The project coverage will be mainly, but not exclusively, Bromley, Lewisham and Greenwich	Ravensbourne is the UK's leading creative digitally focused HEI. Its mission statement and USP focus on the creative commercial exploitation of digital technology across design, broadcasting and new media. Delivers with Skillset and international media partners. Historically, Ravensbourne works with SMEs to improve their take up of new technology. Various methods will be used, one to one advice, seminars, networking, content creation events, and business incubation. Some examples of content are: understanding HD technology and how to penetrate HD markets, understanding and exploitation of new digital platforms (tv – web – cell phones); create content and sell to programme commissioners; work on collaborative business ventures.	2008-2012	£857,209	£775,745	£81,446	£0	£749,134	Fraser Burrill	fburrill@rave.ac.uk
1	1.2	Urban Futures Unit A012 5 Clarendon Road N22 6XJ	Developing Opportunities	Enfield, Haringey and Waltham Forest	The Developing Opportunities project provides a collaborative delivery of innovation support. Part of a suite of innovation projects in the Upper Lee Valley designed to provide cohesive, comprehensive and consistent support to SMEs to develop creative solutions to business problems. The project specifically brokers business relationships between the HEI sector and the business community. This will result in strengthening the capacity of Middlesex University to work with businesses to create commercially valuable knowledge and implementation strategies.	2009-2012	£130,001	£0	£129,999	£0	£62,791	Dean Heath	dean.heath@urbanfutures.org.uk

ERDF Bidding Round	Priority & Theme	Name of beneficiary organisation	Name of project	Geographical coverage	Description (in project's own words)	Year of allocation/year of final payment	ERDF amount awarded	Other public funding allocated	Private funding allocated	Voluntary funding allocated	Total amount paid at the end of the project	Project contact name	Contact email
1	1.2	London Metropolitan University 41 Commercial Road E1 1LA	Digital Design & Manufacturing	City Fringe and Thames Gateway Boroughs	London Metropolitan University's Metropolitan Works is the largest HE based facility providing business access to digital design, rapid prototyping and manufacturing technologies. RP and RM are attractive to SMEs as they enable big savings in time and cost in developing products for market. Key Sectors: Furniture and product design, Jewellery, Engineering, Architecture, Polymers, Fashion. "Digital Design and Manufacturing" will offer support to SMEs. 1) Introduction to digital design (CAD) and manufacturing (CAM) technologies through events, seminars, demonstrations, disseminating how the technology works, commercial advantages etc 2) Intensive business support of up to 5 days, managing product development and realisation.	2009-2012	£680,211	£680,213	£0	£0	£440,970	Peter Chivers	peter.chivers@londonmet.ac.uk
2	1.2	Park Royal Partnership Monarch House Victoria Road W3 6UR	Collaborate to Compete	Pan London	Collaborate to Compete is an ambitious project that brings together the three vital elements to make business collaboration networks succeed: businesses, the knowledge base and mechanisms to share knowledge. Whilst all three elements the results are likely to be disappointing. Businesses will be drawn from the specialist manufacturing, creative industries, food and drink and transport and logistics sectors across West London. The project will create a legacy by engaging a wide range of partners and services that will continue to operate after the lifetime of the project.	2009-2012	£202,190	£73,232	£128,958	£0	£111,006	Naima O. Milsom	naima.omasta-milsom@bbv.co.uk
2	1.2	London Thames Gateway Development Corporation City Hall SE1 2AA	FLASH	Pan London	The FLASH (Facilitation, Learning And Sharing) project supports the Thames Gateway Institute for Sustainability in delivering economic development in the London Thames Gateway over the next three years. FLASH will identify and develop new opportunities for SMEs to innovate and collaborate with the knowledge base and large corporate organisations in the field of sustainability; in addition FLASH will share with SME's innovations and best practices, resulting in a significant and lasting impact on their business and environmental performance.	2009-2013	£4,999,999	£4,900,001	£0	£100,000	£4,577,558	Stella Okeahialam	Stella.Okeahialam@instituteofsustainability.org.uk
2	1.2	Tower Hamlets College 112 Poplar High Street E14 0AF	F.E. Supporting Innovation	Newham and Tower Hamlets	This project will increase the number of SMEs in Inner East London investing in innovative activities and practices by creating knowledge transfer capacity in Further Education Colleges, building on the potential of FE to reach enterprises not otherwise engaged in KTP initiatives. The project is led by Tower Hamlets College with a partnership which includes FE, HE and local authority partners, and it will use the capacity developed to support 55 SMEs in Tower Hamlets and Newham. It will also build an innovative FE Knowledge Hub which will provide continued support to SMEs beyond 2011.	2009-2012	£300,000	£230,296	£0	£69,704	£182,240	Gerry McDonald	Gerry.McDonald@tower.ac.uk

Priority 2 : Access to new markets and access to finance

Theme 1 : Enabling access to appropriate investment finance to support innovation and growth

ERDF Bidding Round	Priority & Theme	Name of the beneficiary organisation	Name of the project	Geographical coverage	Description (in project's own words)	Year of allocation/year of final payment	ERDF amount awarded	Other public funding allocated	Private funding allocated	Voluntary funding allocated	Total amount paid at the end of the project	Project contact name	Contact email
7	2.1	Capital Enterprise, 29 Gordon Square, London, WC1H 0PP	Capital's Accelerator Programme	Pan London	The London Accelerator Programme (LAP) will provide a new co-ordinated service offer of support to 200 London pre-revenue and seed stage SMEs access and benefit from accelerator programmes and seed investment. LAP will also create a network of Accelerators, Seed Investors and partners that will improve these programmes' collective effectiveness.	2013-2015	£1,926,837	£300,290	£1,626,549	£0	£1,906,338	Carly Lloyd	carly@capitalenterprise.org
8	2.1	London South Bank University, 103 Borough Road, London, SE1 0AA	Investment Escalator	Pan London	The Investment Escalator will target 320 eligible SME businesses of which a minimum of 200 will receive at least 12 hours of specific, focused, business support interventions to de-risk their investment proposals, articulate their growth aspirations and provide a clear business case for investment support, to overcome key barriers they face in accessing investment finance. The Investment Escalator will be delivered in partnership by London South Bank University (LSBU - lead Partner) and South Bank University Enterprise Ltd (SBUEU). Quantitative and qualitative data will be collected to meet ERDF monitoring, reporting and audit requirements and to evidence impact and achievement	2013-2015	£395,127	£0	£395,127	£0	£394,456	Kajal Gotecha	gotechak@lsbu.ac.uk
1	2.1	Tower Hamlets College 112 Poplar High Street E14 0AF	Access to Finance for Growth	Pan London with particular focus on disadvantaged areas of East London	The main aim of this project is to provide investment readiness planning and finance brokerage services to provide SMEs with the capacity to create jobs in disadvantaged communities particularly enterprises owned by women, BME and disabled people. A network of financial advisors, coaches and mentors will be recruited from major banking and financial sector partners who have committed to the project including HSBC and Barclays Bank. Their active participation will also raise awareness in the investment community of social and other investment opportunities in SMEs from disadvantaged areas and groups.	2009-2012	£600,000	£540,000	£60,000	£0	£265,279	Gerry McDonald	Gerry.McDonald@tower.ac.uk
2	2.1	Centre for Engineering and Manufacturing Excellence (CEME) Marsh Way Rainham RM13 8EU	CEME Gateway to Investment	Pan London	The Gateway to Investment project will provide bespoke innovation support and advice to enable technology sector SMEs to access investment finance from a variety of public and private sector sources. It will provide specialist advisors to work with SMEs, deliver a range of investment events and workshops and provide support to enable SMEs to pitch to sources of investment. Success will be measured in terms of numbers of SMEs supported, jobs created and the number actually receiving investment finance.	2010-2013	£165,632	£37,000	£128,634	£0	£68,300	Tom Ashby	tom.ashby@cemre.co.uk
2	2.1	Bromley College of Further and Higher Education Rookery Lane Bromley BR2 8HE	South London SME Finance Brokerage	Richmond, Kingston, Merton, Sutton, Bromley	The South London SME Finance Brokerage project breaks down the barriers that SMEs face in the changing economic climate through tried and tested partnership working led by Bromley College/Business Focus, Merton Chamber of Commerce and Pwenta. Hard to reach SMEs including BME, women and disabled groups will be targeted through established business and community networks, and given advice and guidance by business mentors in business planning, and supported in accessing investment finance, breaking down barriers that these groups usually face. The project is centrally driven by equal opportunities based approach to business management and environmentally sustainable methods to business growth.	2009-2012	£1,049,999	£105,000	£945,001	£0	£310,670	Sarah Murrison	sarah.murrison@bromley.ac.uk
2	2.1	London Borough of Croydon Taberner House Park Lane Croydon CR9 3JS	Finance for Change	Croydon	The Access to Finance programme will identify SMEs in Croydon who are unaware of their options for investment finance and need intensive a flexible support to increase the likelihood of them gaining investment finance. In the current economic climate, and in view of the plethora of reported 'packages' from central government it is vital that SMEs are aware of how to access the support. These SMEs will receive advice and support to enable them to understand their options for getting the finance they need to grow a business. The project will help facilitate the introduction to potential sources of finance.	2009-2013	£785,094	£183,647	£601,447	£0	£666,204	Lisa McCance Mavis Kustor	Lisa.McCance@croydonedc.co.uk Mavis.Kustor@croydongov.uk
3	2.1	SME Wholesale Finance 20 Orange Street WC2H 7EF	London SME Investment Fund	Pan London	This project will enable the establishment of a fund to provide equity finance to viable businesses that can demonstrate attractive growth prospects but are unable to raise funding from private sector sources due to the well documented Funding Gap that exists in the market. By funding this investment fund, the barriers facing entrepreneurs and SME owner managers from under-represented groups (e.g. women, lone parents, ethnic minorities, the disabled, 18-30s (young people) and the over 50's) will support enterprise start-up and growth. The investment criteria are designed to maximise the impact of the fund on the growth and development prospect of key sectors such as Financial Services, Information Technology, Creative Industries and 'Digital Economy'.	2011-2015	£9,000,000	£2,804,041	£6,195,959	£0	£9,000,000	Margarita Rodriguez Piza	maggie.rodriguez-piza@smewfi.co.uk
2	2.1	Enterprise Enfield Enfield Business Centre 201 Herford Road Enfield EN3 5JH	Investing for Success	Barnet, Brent, Enfield, Hackney, Haringey, Harrow, Hillingdon, Hounslow, Islington, Waltham Forest	To provide a complete programme of targeted investment support to equalities groups, by using established relationships with community organisations in some of the most deprived London boroughs. The programme is designed to meet the needs of start-up businesses, high growth businesses, and those requiring specialised investment solutions such as equity and/or angel funding as well as mezzanine finance. During the delivery, it will also include personal coaching and mentoring for appropriate beneficiaries.	2009-2013	£1,350,001	£568,435	£781,564	£0	£1,155,939	Philippa Brent	pbrent@enterpriseenfield.org
1	2.1	HBV Enterprise 34-38 Dalston Lane E8 3AZ	Access to Finance – Enabling Enterprise	Pan London	Raising finance can be challenging to anyone. Our client group, with external barriers (e.g. low collateral, lack of knowledge of business infrastructures, lack of financial contribution) and personal inhibitors (lack of self-belief and esteem) finds it even more difficult. Hands-on pre finance support, concentrating on the barriers facing entrepreneurs and SME owner managers from under-represented groups (e.g. women, lone parents, ethnic minorities, the disabled, 18-30s (young people) and the over 50's) will support enterprise start-up and growth. The project will also improve links between mainstream local finance institutions and SME owner-managers in need of enterprise finance.	2009-2014	£214,999	£0	£215,001	£0	£214,738	Viv Abbott	viv@hbv.org.uk

ERDF Bidding Round	Priority & Theme	Name of beneficiary organisation	Name of project	Geographical coverage	Description (in project's own words)	Year of allocation/year of final payment	ERDF amount awarded	Other public funding allocated	Private funding allocated	Voluntary funding allocated	Total amount paid at the end of the project	Project contact name	Contact email
1	2.1	Greater London Enterprise Ltd 20 New City Court St Thomas Street SE1 9RS	Mentoring for Success	Pan London	Mentoring4Success provides experienced mentors to build trusted relationships to entrepreneurs with a key focus on businesses from key under-represented groups with a view to improving their capacity to communicate and present their business proposition to investors and lenders. This will result in increased access to investment capital and growth for these businesses. Mentoring will also be offered post finance to target businesses to enable them to successfully utilise the investment, and giving confidence to lenders and investors. The project will add value to existing programmes and integrate with Access to finance and other related finance advisory schemes across London.	2009-2012	£607,728	£303,862	£303,863	£0	£596,425	Monica Montero	monica.m@gle.co.uk
2	2.1	London Development Agency City Hall SE1 2AA	Solution for Business – Investment Readiness	Pan London	Providing investment readiness support to London SMEs (over three years), the project will work with the finance market and partners to address barriers faced by SMEs in accessing private sector equity and growth finance. The aim: reduce risk for private sector and improve success rate of companies seeking investment by subsidising preparation of investment proposals and improving knowledge to meet investor requirements. SMEs will progress from an 'introduction to investment' workshop to specialist support and 1-1 coaching as appropriate. High growth, Intellectual Property-rich, and early stage SMEs are targeted. Outreach and tailored support for BAME, women, and disabled-led companies will be provided.	2010-2012	£961,696	£961,696	£0	£0	£956,695	Simon Littlewood Stephanie Hofmann	simon.littlewood@uk.gt.com stephanie.hofmann@uk.gt.com
2	2.1	London Development Agency City Hall SE1 2AA	Solution for Business – Finance Readiness	Pan London	The project will provide specialist finance readiness support to London SMEs as part of the BSSP 'Solutions for Business - Understanding Finance for Business' product. It will address barriers faced in accessing debt and other finance.	2010-2012	£922,364	£922,364	£0	£0	£921,825	Simon Littlewood Stephanie Hofmann	simon.littlewood@uk.gt.com stephanie.hofmann@uk.gt.com
2	2.1	Leonard Cheshire Disability 66 South Lambeth Road SW8 1RL	ENABLED4GROWTH	Pan London	ENABLED4GROWTH is a specialist service that will strengthen the capacity for business growth of 700 disabled entrepreneurs in London by helping them to secure funding to expand. Leonard Cheshire Disability will deliver two hour introductory workshops, followed by one to one advice - drawing on specialist best practice disability business support - to prepare propositions for grants, loans and investment. Regular, one day brokerage events will provide disabled entrepreneurs with the opportunity to present their finance propositions to investors as well as to raise awareness of the capacity, success and opportunities of disabled enterprises to the investment sector, reducing attitudinal barriers to the funding of disabled entrepreneurs.	2009-2012	£476,964	£0	£0	£476,965	£444,368	Ben Hatt	ben.hatt@LCDisability.org
5	2.1	East London Small Business Centre Ltd Universal House 88-94 Wentworth Street E1 7SA	A2F for Creative Industries	Pan London	This project will provide access to finance/business support/ business planning for creative sector industry businesses starved of funding. East London Small Business Centre and ArtCo Trading Ltd which is a subsidiary company of Arts Council England are providing a new loan fund specifically for the creative industries to support and add value to this access to finance project. We are combining our organizational strengths to support the growth and sustainability of this creative sector, as added value to the project loans will be made available to viable existing creative businesses, based on the strength of their business plan.	2012-2014	£500,000	£0	£500,000	£0	£419,669	Laurie Wiseman	lauriew@gseast.org
2	2.1	East London Small Business Centre Ltd Universal House 88-94 Wentworth Street E1 7SA	Access to Finance for SMEs	Pan London	This project will work with and support SMEs wishing to raise finance of up to £10,000 and help them by becoming finance ready and address the market failure of existing businesses in accessing financial packages. With the current downturn in the economy small businesses are finding it increasingly difficult to access funding through the banks, therefore this project will work with clients on developing viable business plans and financials forecasts. All sources of funding will be explored and clients supported on presentation skills of raising finance from funders. Clients will have far greater opportunity of accessing finance especially through ELSCB's loan funds and/or a financial package from ELSCB's loan funds and bank finance.	2009-2014	£295,000	£0	£295,000	£0	£294,980	Laurie Wiseman	lauriew@gseast.org

Priority 2 : Access to new markets and access to finance

Theme 2 : Improving SMEs access to new market opportunities

ERDF Bidding Round	Priority & Theme	Name of the beneficiary organisation	Name of the project	Geographical coverage	Description (in project's own words)	Year of allocation/year of final payment	ERDF amount awarded	Other public funding allocated	Private funding allocated	Voluntary funding allocated	Total amount paid at the end of the project	Project contact name	Contact email
1	2.2	HBV Enterprise 34-38 Dalston Lane E8 3AZ	New Markets For Hackney Enterprise	Hackney	The project will work closely with Hackney Council's Enterprise Network to recruit local SMEs operating in disadvantaged communities, many of whom are currently unable to access development support existing to assist with competitiveness and new market opportunities such as internationalisation, procurement and supply chain development, and environmental enterprise. A range of proven support tools will be used to build confidence, knowledge and capacity, so that SMEs are enabled to directly enter new markets, or access support projects that will help them progress and become 'fit to supply'. Project partners will provide high level support and access to tangible supply opportunities.	2009-2013	£276,000	£276,001	£0	£0	£275,876	Viv Abbott	Viv@hbv.org.uk
2	2.2	London Borough of Camden Argle Street W1H 8EQ	iCam 2	Camden & Islington	The Camden & Islington Sustainable Procurement Project is an integrated service run by a team very experienced business support and procurement experts that will implement an innovative outreach and support programme designed to enable SME's, particularly those that are minority led, to become 'fit to supply' sustainable goods and services to a new easily accessible supply chain created by the projects partnership with major public and private sector organisations in the borough of Camden and Islington.	2009-2011	£205,218	£193,495	£0	£11,719	£190,832	Kate Gibbs	kate.gibbs@camden.gov.uk
1	2.2	Greater London Enterprise Ltd 20 New City Court St Thomas Street SE1 9RS	Global London	Pan London	The aim of the GLOBAL London project is to promote social and economic cohesion by enhancing high-level sustainable growth, competitiveness and productivity of new and established businesses in London, strengthening existing entrepreneurs and creating more and better jobs through international trade opportunities.	2009-2014	£4,958,097	£0	£4,993,998	£0	£4,674,523	Monica Montero	monica.m@gle.co.uk
1	2.2	Social Enterprise London CIC 21 Garden Walk EC2A 3EQ	Tender Readiness for Social Enterprise	Pan London	A ground breaking project designed to assist social enterprises to access new markets and diversify funding streams whilst maintaining their social purpose. Using a comprehensive and co-ordinated package of specialist support, managers and leaders from social enterprises will be supported to capacity build their organisations to access new markets through tendering and improved marketability. Awareness raising activities will be complemented by holistic 1:1 support from specialist advisers plus mentoring from mainstream business leaders, resulting in social enterprises being tender ready. Underpinned by sustainability collaborations of social enterprises and mainstream business will access to new markets enabling tenders to be successful.	2008-2011	£1,500,000	£723,760	£550,000	£226,239	£1,475,506	Sue Potter	sue@sel.org.uk
1	2.2	London Development Agency City Hall SE1 2AA	Supply London (Phase 2)	Pan London	Supply London is a major 2.5 year programme designed to coincide with the launch of public sector and Olympic contracts on CompeteFor. Supply London aims to increase the likelihood of SMEs, particularly diverse SMEs, to succeed in their bids by developing their strengths to identify opportunities, complete PQOs and successfully bid for contracts to both public procurers and private sector contractors and sub-contractors. Supply London will address both 'hard' skills (such as bid-writing skills and understanding how to build consortia) and 'soft' skills such as pitching and making the most of networking such as meeting buyers.	2008-2011	£1,155,872	£1,155,872	£0	£0	£1,098,822	Martin Coats	martin.coats@pera.com
1	2.2	South East Enterprise Limited 26 Burney Street SE10 8EX	Sustainable Sales Growth Challenge	Greenwich and Lewisham	This project provides a focus on growth built upon new market opportunities. SME's will be assisted to identify and exploit new market opportunities that exist in South East London, the Thames Gateway and beyond. These opportunities include underserved markets, the growth in demand for environmental products and services, opportunities stemming from local regeneration and the further potential for international sales. The businesses will benefit from bespoke support, master classes and coaching to assist their business growth.	2008-2011	£240,998	£240,998	£0	£0	£240,869	Jane Holman	jh@seenterprise.co.uk
5	2.2	Newham College of Further Education East Ham Campus High Street South E6 6ER	Fit for Legacy	Pan London	Fit for Legacy will support SMEs based in East London to take advantage of new market opportunities presented by the continuing programme of regeneration across the London Thames Gateway including the emerging Tech City, Royals Enterprise Zone, Green Enterprise District, Barking Riverside and emerging Creative and Cultural Industries Quarter, Stratford City Phase 2, and the London Legacy Development Corporation's development programme. The project will provide information and awareness on business-to-business and business-to-government procurement opportunities, and practical advice and support needed to build SME business capacity to win contracts within these supply chains.	2012-2015	£973,000	£707,118	£265,882	£0	£764,648	Julia Bollam	Julia.Bollam@newham.ac.uk

ERDF Bidding Round	Priority & Theme	Name of beneficiary organisation	Name of project	Geographical coverage	Description (in project's own words)	Year of allocation/year of final payment	ERDF amount awarded	Other public funding allocated	Private funding allocated	Voluntary funding allocated	Total amount paid at the end of the project	Project contact name	Contact email
1	2.2	University of East London Docklands Business Units University Way E16 2RD	Eureka	Barking & Dagenham, Newham, Havering, Tower Hamlets, Hackney, W/Forest, Havering, Kingston Upon Thames	The project will set up and run an Environmental Technologies (ET) network, connecting SMEs with knowledge from within UEL's Sustainability Research Institute, KnowledgeEast, Kingston University, WestFocus. The network will offer advice, peer support and supply chain connections to help SMEs access new market opportunities. It will form the business application network for HE expertise and knowledge, including learning generated out of its activities (i.e. knowledge on sustainability good practice from the regeneration of the Gateway), in tandem with the vision for the Sustainable Industries Park (SIP) to position East London as the focus for ET business.	2008-2011	£334,132	£334,132	£0	£0	£312,618	Martin Longstaff	m.longstaff@uel.ac.uk
2	2.2	Greater London Enterprise Ltd 20 New City Court St Thomas Street SE1 9RS	Diverse Supply Links	Pan London	Diverse Supply Links project engages with London's priority groups, delivering awareness-raising and advice and enabling London SMEs to understand and exploit supply chain opportunities through community business networks. The project strengthens London-diverse SMEs by helping them get ready to supply, to access procurement opportunities, and to develop and improve their environmental performance (thus leading to sustainable growth). It is delivering 310 businesses assisted, creating 45 new jobs and safeguarding 80 jobs and generating £2.9m sales through procurement. It is also improving the performance of 150 SMEs through introducing them to the benefits of supplier diversity and good green credentials.	2009-2012	£315,607	£0	£251,358	£64,250	£289,981	Nicola Mitchell	nicola.m@gle.co.uk
7	2.2	Newham College of Further Education East Ham Campus High Street South E6 6ER	Creative Hub	Pan London	The Creative Hub project will support SMEs in the creative sector e.g. designer/makers in developing their routes to market. We will provide expert advice and guidance at our bespoke premises including the Fashion and Textile Museum, Soho and Westminster industry focused business centres and the University of East London's Falpad. The project will enable the SME to look at market gaps, locate new customer bases, identify and exploit new trading places and capitalise on new media opportunities to grow their business thus safeguarding and creating new jobs.	2013-2015	£550,000	£550,000	£0	£0	£530,506	Julia Bollam	Julia.Bollam@newham.ac.uk
7	2.2	London Training and Employment Network 3 Highbury Crescent NE 1RN	SMEs Growth Access Project	Pan London	The SMEs Growth Access Project (GAP) aims to support SMEs/micro businesses to grow their business and customer bases through widening their access to procurement and supply chain opportunities. The primary focus for the project is BAME and women owned SMEs from across London. The target SMEs will be operating in sectors where BAME and women owners have traditionally operated and which offer supply chain and growth opportunities. These sectors include fashion/hair and beauty, specialist and niche food processing and manufacturing. GAP will also deliver to SMEs operating in sectors where there are new and emerging opportunities for BAME and women owned businesses, including, for example, renewable energy and green technologies.	2013-2015	£700,000	£700,000	£0	£0	£461,553	Toyin Fagbemi	toyin@ltn.org.uk
1	2.2	London Training and Employment Network 3 Highbury Crescent NE 1RN	Cultural Business Investment	Islington, Hackney, Tower Hamlets, Haringey	The CBI project addresses the economic and marketing barriers faced by a large number of BAME and female owned SMEs within the fashion, craft, beauty to cultural business clusters in specific deprived areas of London. Through initiating cross-sector collaborations and value-added specialist knowledge transfer, it will offer product targeting/differentiation, product branding, consumer-focused promotions, marketing advice and joint sales initiatives to support economic rejuvenation, competitiveness and sustainable growth of 250 cultural, creative and related service industries within the east, north and surrounding boroughs of London, including those in the Olympic zones of Hackney, Tower Hamlets and Newham.	2009-2012	£650,000	£199,996	£299,992	£150,012	£648,944	Toyin Fagbemi	toyin@ltn.org.uk
1	2.2	Newham College of Further Education East Ham Campus High Street South E6 6ER	Fit for Business	The 4 Olympic boroughs of East/north east of London; Tower Hamlets, Hackney and Waltham Forest	'Fit for Business' will assist 350 SMEs in 4 Olympic boroughs to become 'fit to supply' enabling them to take advantage of emerging opportunities through regeneration initiatives including the 2012 Olympics/Paralympics, Thames Gateway, Stratford City, the Royal Docks developments and other growth markets in the City and east London. It will achieve this through a comprehensive and tailored programme of business action planning, counselling/mentoring, and support in marketing, branding, procurement and related areas. The project is sponsored by a powerful cross-sectoral partnership including Business Link, Previata, Deltaclub, THC, Bova Landlease and BAME and women's business organisations.	2008-2011	£510,000	£261,703	£248,297	£0	£488,897	Julia Bollam	Julia.Bollam@newham.ac.uk
1	2.2	Newham College of Further Education East Ham Campus High Street South E6 6ER	London Style	Pan London	This project provides specialist business support to design SMEs in the Fashion, Jewellery and Accessories sector enabling them to access new markets in the fashion industry supply chain including overseas markets. It meets the growing demand for products, demonstrating high ethical and environmental standards. Supported by a powerful cross-sector partnership, it is delivered from the Academy at the Fashion and Textile Museum (FTM), a unique London-based hub for the fashion industries. FTM resources are used to develop and showcase new designs and products, through exhibitions, computer sales with its latest industry CAD/CAM software, fully-equipped production workshops and the FTM archive.	2008-2011	£700,000	£628,861	£71,138	£0	£670,619	Julia Bollam	Julia.Bollam@newham.ac.uk
7	2.2	Greater London Authority City Hall SE1 2AA	The Mayor's Export Challenge	Pan London	The most widely experienced barriers to trade relate to the bureaucracy of doing business overseas e.g. customs procedures or different legal and tax structures. (UKTI, 2011). In practice businesses report risk, cultural and financial barriers to trading. Some of these barriers stem from systemic issues within the business. The lack of understanding about the true costs and benefits of trade might be due to market failure in information (asymmetry including lack of awareness of market). There might also be market power issues where there are barriers to entry and incumbent or local businesses are perceived to be in a better position to win contracts	2013-2015	£721,249	£721,251	£0	£0	£454,930	Jennifer Holmes	jennifer.holmes@london.gov.uk
1	2.2	East London Small Business Centre Ltd Universal House 88-94 Wentworth Street E1 7SA	Access to New Markets for the Fashion Sector	Tower Hamlets, Newham	This project will provide hands on business support for young/designers/makers in the clothing industry based in Tower Hamlets/Newham, working towards accessing new markets, future growth and sustainability, with an emphasis on viability during a difficult economic downturn in the economy. Thereby, increasing business and employment opportunities culminating in strengthening the boroughs economic and business base. The objective of the project is to promote designs by opening up opportunities created by marketing opportunities, ability to embrace change, supporting clients at events, introducing networking events and working with other international trade teams. ELSSBC will continue to support viable clothing businesses with short term clothing loan funds to service orders and loans for expansion when needed.	2009-2012	£149,499	£0	£149,499	£0	£148,317	Laurie Wiseman	lauriew@gpeast.org
1	2.2	West London Business 1 Lampton Road Hounslow TW3 1JB	Gateway Asia	West London; Ealing, Hillingdon, Hounslow, Brent, Harrow, Hammersmith and Fulham and in South London; Croydon and the surrounding area	Gateway Asia will provide a targeted, coherent package of support for BAME businesses and other SMEs to address barriers of accessing international markets, focusing particularly on emerging markets like India and China to increase business performance, encourage two way trade, investment and joint ventures. The project will deliver 200 Businesses Assisted, Create 60 jobs and generate £1.4m sales in new markets. It will provide a co-ordinated, well-designed programme building on existing activities delivered by UKTI (e.g. Passport to Export, High Growth Markets programme) and delivered by an experienced partnership that understands the potential of the market.	2009-2012	£600,000	£103,379	£496,621	£0	£599,157	Frank Wingate	fwingate@westlondon.com
3	2.2	British Fashion Council Somerset House WC2R 1LA	Accessing International Markets: International Showcasing for British Designers	Pan London	An innovative and experimental international marketing and sales project promoting London's creative fashion design talent to key audiences. The project consists of two key strands of activity: 1. Digital showcase: enabling and supporting designers to access new markets through the international digital promotion of their businesses; 2. London showrooms: enabling and supporting designers to showcase, market and sell their designs in key international cities. Business support underpins both strands, enabling designers to fully understand and maximise the opportunities provided.	2011-2015	£1,218,000	£0	£1,218,000	£0	£1,192,511	Simon Ward	Simon.Ward@britishfashioncouncil.com
2	2.2	North London Business Heron House Hales Wither Ferry Lane N17 9NF	Exporting Success - The Export Escalator	Haringey, Enfield and Waltham Forest, with additional delivery in Islington, Camden, Barnet, Hackney, and some pan-London.	A programme led by North London Business, through a partnership with the UKTI, Previata, Delta Club, North London Chamber of Commerce, Tottenham Partnership, Argal B2D Company and the Enfield Enterprise Agency. Our 'Export Escalator' will assist local SME's in identifying and realising their export potential. The activities include: business engagement, diagnostic review, export potential report; 4 new Export Clubs, with dedicated export desks; training programme (export strategy, export communications review and export marketing scheme) and mentoring. Supporting 500 SME's, with 25% increasing export activities and generating new sales revenues of £5million. Haringey, Enfield and Waltham forest will partner.	2009-2012	£687,101	£110,000	£577,099	£0	£591,500	Richard Hobday	r.hobday@nrlondon.co.uk
2	2.2	London Borough of Hillingdon Civic Centre High Street Uxbridge UB8 1UW	Heathrow Area Supply Chains	Pan London	The project will assist 250 SMEs in Hillingdon, Ealing and Hounslow to access major local supply chains, including those at Heathrow Airport and in the public sector. It will be delivered by a partnership led by the London Borough of Hillingdon, and including BAA Heathrow, that has been collaborating since 1997 on supply chain programmes in the Heathrow area. The project builds on the experience gained by partners over the last 12 years to create a programme that will add measurable value for local SMEs.	2009-2012	£295,000	£127,000	£180,000	£0	£281,425	Inga Spencer	ispencer@hillingsdon.gov.uk
2	2.2	London Borough of Croydon Taberner House Park Lane Croydon CR9 3JS	Built to Compete	Croydon	By providing targeted and in-depth advice and guidance to 140 Croydon-based SMEs the Built to Compete project will equip them to enter into the supply chains of major public and private sector organisations and lever in £5 million worth of new business into the borough over the next 3 years. The project will work with SMEs to help them to develop key policies and procedures, develop bid and tender writing skills and bring together major buyers with the SMEs of Croydon, all with one thing in mind - to do business together.	2009-2012	£300,000	£300,000	£0	£0	£283,121	Lisa McCance Mavis Kustitor	Lisa.McCance@croydonedc.co.uk Mavis.Kustitor@croydongov.uk
5	2.2	Greater London Enterprise Ltd 20 New City Court St Thomas Street SE1 9RS	Emerging Growth	Pan London	Emerging Growth will reach London's priority groups and sectors delivering new, additional, intensive and bespoke support to enable SMEs to understand and seize international sales opportunities in emerging markets and to connect with and benefit fully from established mainstream trade support services. The project will connect priority companies to the mainstream business support services, using tried and tested client engagement and delivery models providing more intensive assistance. The project will overcome barriers to international trade, assisting 260 businesses, creating 40 jobs in addition to safeguarding 40 jobs and generating £4m sales in new markets.	2013-2015	£1,525,000	£0	£1,525,000	£0	£1,472,044	Monica Montero	monica.m@gle.co.uk

5	2.2	University of East London Docklands Business Units University Way E16 2RD	Make it Global	Pan London	The project aims to achieve business growth and sustainable internationalisation through the realisation of women-led business potential, capabilities and opportunities. Led by UEL's Centre of Excellence for Women's Entrepreneurship (CEWE) in partnership with the European Business Network, Newham College of Further Education and Kingston University, this is London's first dedicated initiative to encourage the internationalisation of women-led, growth orientated SMEs. SMEs will have an opportunity to benefit from a six-stage package of specialist support which will provide access to transnational business networks, experts within the HE/FE knowledge base and brokered entry to new markets.	2012-2014	£745,481	£645,481	£100,000	£0	£552,817	Martin Longstaff	m.longstaff@uel.ac.uk
5	2.2	London Borough of Croydon Taberner House Park Lane Croydon CR9 3J5	Built to Compete 2	Croydon	The project's overall aim will be to create new market opportunities via physical regeneration projects for SMEs which will in turn create and safeguard jobs. Project activity will focus on supporting SMEs to build their capability in tendering for and winning contracts whilst assisting them to become sustainable businesses. We will stimulate demand by using Sustainable Procurement as a catalyst and driver for change, building an existing relationships with our private sector partners through the promotion of "diverse" supply chains. Demand and supply is then brought together through other brokerage activities, with SMEs being supported to make the most of these opportunities.	2012-2014	£429,000	£250,000	£179,000	£0	£265,490	Dayo Ogunmuyiwa	dayo.ogunmuyiwa@croydon.gov.uk
5	2.2	Westminster City Council Westminster City Hall 64 Victoria Street SW1E 6QP	Developing Supply Chains in Central London	Camden, City of London, Hammersmith & Fulham, Islington, Kensington & Chelsea, Lambeth, Southwark, Wandsworth and Westminster	Developing Supply Chains in Central London' will widen access to procurement and supply chain opportunities in 10 Central London boroughs. This will include sourcing low carbon opportunities, developing sustainable supply chains and creating green jobs across all sectors. The project will also focus on the creative and digital industries. The project will adopt a dual approach – working both with SME suppliers and buyers. Suppliers will become more fit to supply and win new contracts. The benefits of local and sustainable procurement will be highlighted to major buyers and the project will broker links between suppliers and buyers through identification of pipeline contracts and "matching" activities.	2013-2015	£716,556	£559,307	£157,250	£0	£405,542	Ananthy Murthy	amurthy@westminster.gov.uk
5	2.2	Space 129-131 Mare Street E8 3RH	New Creative Markets	Pan London	New Creative Markets (NCM) will assist small creative companies in the digital image, design, designer making and visual arts sectors to access markets currently closed to them by lack of market knowledge and lack of the means to penetrate those markets. New Creative Markets will harness the expertise of four creative agencies (Space, Craft Central, Four Corners, Photofusion) to enable beneficiaries to understand and sell into creative markets and achieve raised turnover and growth.	2012-2015	£1,000,001	£0	£0	£999,999	£911,810	Florence Harmelin	florence@spacestudios.org.uk
5	2.2	Royal Borough of Greenwich Woolwich Centre 35 Wellington Street SE18 6HQ	Digital Accelerator Programme	Pan London	The Digital Accelerator Programme aims to make a significant contribution to the growth of Greenwich Peninsula as an emerging location for Digital Business. The project will support high growth established SMEs in the Digital sector to develop applications and access new market opportunities. Based at the Greenwich Digital Enterprise Centre, the project will be delivered in partnership with industry leading organizations such as Cisco, Living Plan IT, Infusion and Ravensbourne. A particular focus for new market opportunities will be around the application of Digital Technologies to urban living, smart connected communities and to deliver green and environmental objectives.	2013-2015	£425,001	£424,999	£0	£0	£369,262	Mac Wenham	mac.wenham@royalgreenwich.gov.uk
5	2.2	British Fashion Council Somerset House WC2R 1LA	Growing British Designers International Sales	Pan London	This project supports fashion designer businesses to increase their international presence and sales through a collective showroom for London designers across key and emerging international markets. The project will also support designers to showcase more than two collections each year through a new initiative: London Collections. These initiatives will be underpinned by market reports, pre and post-event seminars, business support and mentoring to help designers achieve their full international sales potential.	2012-2015	£4,481,409	£0	£4,481,409	£0	£4,367,880	Simon Ward	Simon.Ward@britishfashioncouncil.com
7	2.2	The Prince's Trust, 9 Eldon Street, London, EC2M 7LS	Enterprise in the City	Pan-London	'Enterprise in the City' will deliver a programme of tailored and flexible post-start support to 800 young entrepreneurs supporting their business to sustain and grow. 175 jobs will be created, 320 businesses assisted to improve performance and at least £1,586,130 CVAs will be added to the local economy.	2013-2015	£615,554	£170,424	£445,128	£0	£587,601	Ciara Devlin	Ciara.Devlin@princes-trust.org.uk
8	2.2	LB Enfield, Civic Centre, Silver Street, Enfield, EN1 3XA	Retrofit London	Project delivery will take place in: Enfield, Haringey, Waltham Forest and Lewisham	Support 175 SMEs in Enfield, Haringey, Waltham Forest and Lewisham to access new markets, particularly those driven by the carbon reduction and energy saving agenda; enabling them to meet gateway requirements to join supply chains, secure £900k sales safeguard 35 jobs and create 25 new jobs.	2013-2015	£525,000	£427,405	£97,595	£0	£523,473	Fiona Crehan	fiona.crehan@enfield.gov.uk
8	2.2	Harrow College, Harrow-on-the-Hill Campus, Lowlands Road, Harrow, HA1 3AQ	Gateway Asia II	West London: The delivery focus will be on the West London boroughs: Ealing, Hillingdon, Hounslow, Harrow, Brent and Barnet but as in Gateway Asia I, the project will also be promoted to SMEs throughout London, specifically East and Central London.	Gateway Asia II, led by Harrow College, is a partnership of public and private sector organisations all with extensive experience of enterprise support, development and exporting. The project builds on the success of the original Gateway Asia programme and will assist 110 SMEs accelerate export and bi-lateral trade opportunities in emerging markets, specifically the Asian Diaspora and East and West Africa. ERDF funding will be used to implement a multi-pronged programme to engage and support SMEs enhance knowledge and export skills in the emerging countries. The project will primarily target SMEs who have some awareness of trading opportunities but face strategic barriers to growth, by building knowledge and capacity to connect SMEs to opportunities in emerging markets, as well as those that are new to overseas trade.	2014-2015	£800,000	£480,000	£120,000	£0	£127,978	Steven Porter	sporter@harrow.ac.uk
1	2.2	Westminster City Council Westminster House 64 Victoria Street SW1E 6QP	Supply Cross River	Lambeth, Southwark, City of Westminster and the City of London	Supply Cross River will open up the enormous purchasing power of companies and organisations in Westminster, City, Lambeth and Southwark to SMEs across the sub-region, creating local supply chains and spreading growth. It will help SMEs to access private and public sector contracts through 'fit to supply' support and will promote supplier diversity and sustainable procurement to major buyers. By mapping contract and supply chain opportunities and matching them to SME profiles it will increase the amount of contracts won, sales generated and improve business performance. Working at a sub-regional level, it will embed sustainable procurement practices into the central London economy.	2008-2012	£1,010,910	£1,010,911	£0	£0	£999,787	Ananthy Murthy	amurthy@westminster.gov.uk

1	3	London Borough of Bexley Wyncham House 207 Longlands Road Sidcup DA15 7JH	Belvedere Green Links	Bexley	The project will provide environmental and transportation improvements to the Belvedere Employment Area as a major step in implementing the Belvedere Development Framework. It will improve connectivity within the area by providing an internal link road and access to transport termini and open space. It will enhance the environmental quality of the area creating an attractive environment for investors. The project is sponsored by the London Borough of Bexley in partnership with Communities and Local Government and London Development Agency Thames Gateway Parklands.	2008-2012	£2,892,923	£6,459,821	£0	£0	£2,676,139	Jacky Bayne	Jacky.bayne@bexley.gov.uk
n/a	3	DLR, PO Box 154 Castor Lane E14 0DX	Cable Car	Greenwich, Newham	The Cable Car will achieve sustainable private sector business growth within economically and socially deprived areas of East London. It will facilitate sustainable and heighten perceptions of the area, the development underway and its enormous future potential by improving the quality of the built environment and encouraging firms to remain in and locate to two of London's key Opportunity Areas. The Cable Car will drive economic growth by creating 316 new jobs, safeguarding 175 jobs and triggering 101,855 new cross-river work-related trips.	2011-2015	£7,999,999	£44,805,281	£0	£0	£7,870,194	Andy Coombe	andycoombe@tfl.gov.uk
1	3	Land Trust 110 Buckingham Palace Road SW1W 9SA	Dagenham Washlands	Barking and Dagenham & Havering	The Dagenham Washlands Enhancement Project will provide 53 ha of multifunctional open space within Dagenham whilst protecting public and private sector investments valued at £1.5 billion. The project seeks to improve, enhance and manage landholding in perpetuity, delivering a range of economic, social and environmental benefits. The project accords with key elements of the Government's 'Parklands' strategy with an aim to: - provide strategic access corridors along the river tributaries and green areas; - manage water collection, cleansing and flood risk with multifunctional spaces and; - provide a beautiful, diverse and managed landscape to the highest standards for people and wildlife.	2009-2012	£1,571,212	£2,917,964	£0	£0	£1,374,532	Jonathan Duckler	jonathanduckler@landrestorationtrust.org.uk

1	3	London Borough of Havering Mercury House Mercury Gardens Romford RM1 3SL	Rainham Gateway Greenspace	Havering	The project entails physical improvement works to the buffer zone between the Rainham Employment Area and the western edge of Wildspace and the proposed Rainham Marsh Local Nature Reserve. The works will substantially improve the setting of the employment site; improving its environmental quality, increasing its attractiveness for inward investors and providing direct access to the adjoining nature reserve for employees and the general public. It is being sponsored by the London Borough of Havering in collaboration with the RSPB, LTGDC and others and represents the culmination of over five years partnership working.	2008-2012	£931,076	£1,308,318	£0	£420,802	£931,074	Robert Flindall	bob.flindall@havering.gov.uk
1	3	Ravensbourne 6 Penrose Way SE10 0EW	Ravensbourne Business Eco- Incubator	Greenwich	Ravensbourne College is relocating to the Greenwich Peninsula. As part of this move, the College will be creating 600m2 of new, eco-efficient space for SMEs in a state of the art building. Situated in a location providing a high quality, sustainable environment, ERDF monies will be used to ensure the provision of low carbon incubator space, incorporating new technologies and a suite of environmentally sustainable features which will improve businesses' environmental performance. The facility will positively contribute to the climate change agenda and the protection of natural resources, and will promote environmental awareness and best practice to its users.	2008-2012	£1,526,000	£2,834,001	£0	£0	£1,398,722	Fraser Burrill	fburrill@rave.ac.uk
1	3	Park Royal Partnership Monarch House Victoria Road W3 6UR	Sustaining Park Royal's Business Environment	Brent, Ealing, Hammersmith & Fulham	This project will facilitate job sustainability and job creation on the Park Royal Estate through improving access to employment sites and public realm improvements including creating accessible green spaces, improved lighting and targeted grant support to facilitate environmentally sound business improvements. Working with the private sector, it will deliver environmental improvements that are aligned to developments on the Park Royal Industrial Estate to address the physical degradation and decline of the area that impacts on inward investment and employee recruitment and retention. It will deliver significant tangible outputs including the creation of 80 jobs, 150 SMEs assisted and 4,000m2 of new floorspace.	2008-2010	£812,500	£389,000	£778,500	£0	£197,000	Howard Beaumont	hbeaumont@parkroyal.org
1	3	London Borough of Tower Hamlets Mulberry Place 5 Clove Crescent E14 1BY	Whitechapel Enterprise & Employment Centre	Whitechapel Ward in Tower Hamlets	The project is a BAME community-led partnership between the Council and voluntary sector providers to reconfigure the Whitechapel Centre to create much needed affordable and sustainable workspace, training and community facilities which will result in an income-generating asset. It will include: 462 sq m of additional lettable space for businesses and social enterprises. The main development proposal includes: 837 sq m of workspace, 69 sq m of new business training/meeting space and 329 sq m of exhibition space at roof level. Enterprise support programmes will support the growth of local businesses, particularly start-ups, women's and social enterprises and local entrepreneurs. Work with young people will meet the needs of our young population, in particular tackling youth unemployment and inactivity. A 'Community Hub' will address worklessness.	2009-2012	£499,701	£890,818	£0	£0	£497,893	Chris Holme	chris.holme@towerhamlets.gov.uk
n/a	3	European Investment Bank 100 Boulevard Konrad Adenauer Luxembourg L-2950	JESSICA Holding Fund	Pan London	The aim of the JESSICA scheme is to establish a £100m investment vehicle - JESSICA Holding Funding - that will provide repayable investments for environmentally sustainable infrastructure. The JESSICA Holding fund, which is managed by the EIB, will make contributions to two smaller funds, called urban development funds (UDFs), one focusing on decentralised energy systems/district heating and the other on waste infrastructure. The UDFs will, in turn, provide funding for infrastructure projects in the form equity, loan or guarantee.	2009-2015	£60,000,000	£60,000,000	£0	£0	£60,000,000	Frank Lee	lee@eib.org
