

2.1.59 Leaver Thomas Estuary
as it is. More industries? No
to any more building - A13 +
M25 too crowded, the Plan
is encouraging to restrict new
farming families - milk farms have
been shut down already by
the government

Re the SPD's "wider City Region
& beyond" strictly means Essex
& other counties. No to more
building on A13 housing or
other local Plan areas. We want
to keep our counties green, not
covered by houses, flats, high
roads etc.

2.3.3 there are buildings for the
whole of building, as proposed
in the Plan, there are limits.

Dear Sir
Re. London Plan
25.2.18

To start with P1 992 the
intensity use of land to high
density development is to increase,
& construct too many dwellings &
park in too many people = No.
From Bilt must not be built on

P1 994 46,000 homes per year
for 20 yrs, No to 270,000 homes;
would cover all some counties.
270,000 more cars? No.

2.1.30 Lee Valley - no to more
traffic, which would spill out
on to all other adjacent roads
which are already too congested.

3
Nagure 2.15 lower Thames
clearing. This will ruin the
country side of hundreds of
acres in Essex alone - all
around the area wildlife will be
murdered + exterminated, & too much
noise from traffic will ruin thin green
farmland, the areas of A127 &
A13 by pollution

More population = more pollution
of all kinds, more smelting to
burn animals, too much concrete
England would be ruined.
Habit is an example of great
smelting.

Yours sincerely

S. HIANE

Dear Sir,

26.2.18

Re Rd 92,

We agree that the Green Belt
must not be built over every-
where. However, on Google
properties can be found listed
in detail, where owners want
to offer for sale for building
their homes which are in Green
Belt.

The whole intentions of London Plan
are to build anywhere & every-
where. We don't want Essex
or LB becoming to become

recovered with roads, houses & flats. He went to live in green, pleasant areas with trees, hedges & fields among the houses was which have grown up over the last 50-80 yrs. Sadly, our green areas are disappearing; particularly Hand Hill area

Oct 502 2.2.1

We are agriinte border expanding rapidly; it is big enough already & need expand no further. Household net increasing 'more & more pollution' No to that.

No to any increase in population in the S.E. No yours sincerely

[Redacted] (S. Harris)

Due to rise in Crime Rate, & not enough police officers employed to investigate some crimes, government needs no increase in population. Government needs to keep up numbers in the police forces to protect the public, by junking the police services adequately. No to 452 - not needed

Among the chapters, there is no mention of the NHS or hospitals, which are more needed than more housing.
