Dear Sir Madam

I am concerned that Mayor Sadiq Khans plan for the metropolis, doesn't include building genuine social housing. I'm informed by social housing campaigners, that so-called affordable housing is typically let at £223per week for a 2 bed flat. This compares with existing social housing let at £ 103 per week.

The health and social costs of poor housing, falling disproportionately on the shoulders of poor people, the very people creating the wealth in goods and services, which keep our city going.

Regards
