**Subject:** Green spaces in London

Re the new plan

Please ensure that:

- a) Green belts are preserved. We need our lungs.
- b) New developments have spaces for gardens, trees and play spaces and allotments too.
- c) Brownfield sites are rehabilitated to provide housing. This may cost more than using green land, but in the end it will be cost-effective as people will be happier and healthier if they have places to go outdoors, especially children. Also the air will be cleaner if pollution absorbing greenery is planted.

Mrs Julia Lafene
