Section: [3.12.4](#)

It is absolutely crucial that included in this section is nightclubs. In fact, all licensed premises should be included - as 'bars' are a generic term that some do not consider 'pubs', have later opening hours and have assortment of live and recorded music and contribute to the cultural and economic fabric of our city and boroughs. Please insert "nightclubs and all licensed premises" for the avoidance of doubt. Almost 50% of nightclubs have closed in the last 10 years and in London we have had 10 key ones close and several over 1000 capacity leaving an enormous and glaring shortfall to our overall ecosystem. Many thanks, Alan D Miller
