Subject: Consultation on the Draft London Plan

I am writing to oppose the proposed 60% increase in Havering's Housing targets. This will lead to the overdevelopment of existing and new developments leading to poor service provision (transport and infrastructure) and insufficient parking spaces.

I also oppose the proposed 'limited release' (loss) of part of the industrial/employment land in Havering (Rainham Development Area) for housing etc. which is counter-intuitive to an increase in our local population.

Havering is a green borough and I would like to see it stay that way for my children.

Yours sincerely

Craig Mills
