Page: [Draft New London Plan](#)

Section: [N/A](#)

The plan seems to require extra development in the greater London area. I am particularly concerned that in Sutton traffic is often at a standstill. Huge developments at Hackbridge have yet to impact and I suspect that the travel times will become even worse.

More housing in the area cannot be uped to the amount the mayor is asking without serious effects on health, travel and wellbeing.

The plan fails to address these areas.
