Section: [N/A](#)

The River Thames should be given MOL (Metropolitan Open Land) status to protect against inappropriate infrastructure developments.

In order to be designated as MOL, an area only has to meet two of the four criteria listed below. The river Thames can meet them all!

1. it contributes to the physical structure of London by being clearly distinguishable from the built up area
2. it includes open air facilities, especially for leisure, recreation, sport, the arts and cultural activities, which serve either the whole or significant parts of London
3. it contains features or landscapes (historic, recreational, biodiversity) of either national or metropolitan value
4. it forms part of a Green Chain or a link in the network of green infrastructure and meets one of the above criteria.

The River Thames, especially higher reaches (inc Hampton Court to Teddington) should be given Metropolitan Open Area status to protect against inappropriate development.

In order to be designated as MOL, an area only has to meet two of the four criteria listed below. The river Thames can meet them all!

1. it contributes to the physical structure of London by being clearly distinguishable from the built up area

2. it includes open air facilities, especially for leisure, recreation, sport, the arts and cultural activities, which serve either the whole or significant parts of London
3. it contains features or landscapes (historic, recreational, biodiversity) of either national or metropolitan value
4. it forms part of a Green Chain or a link in the network of green infrastructure and meets one of the above criteria.
