**Subject:** The London Plan

While I firmly uphold plans to return social housing to the numbers that we had before the infamous Tory sell-off, can you also include spaces for Community Centres. I'm writing as a member of Rooms of our Own because we need a space - but I think properly resourced/ well used Community Centres can be good focal points for all who live on the estates.

They fill the void that can otherwise be taken over by various anti-social elements.

Alexandra
