Page: [Policy H1 Increasing housing supply](#)

Section: [N/A](#)

I believe that affordable housing is essential now, however, we need to support sustainable growth and not rush through housing at the expense of the local economy, infrastructure and character of the borough. Each borough has its own unique characteristics which must be respected. I think the amount of housing you are proposing for each borough needs to be reassessed and modified and not have the same overall percentage for all the boroughs.
