

The infrastructure is already

struggling in Enza &

Bexley. Could more population

not be encouraged to live

in for example Ipswich - We

know this area from work

and here there is room for

more houses, cars, hospitals

roads, sewerage works etc.

It is an easy commute to

London. Spread the wealth

to different areas of Britain.

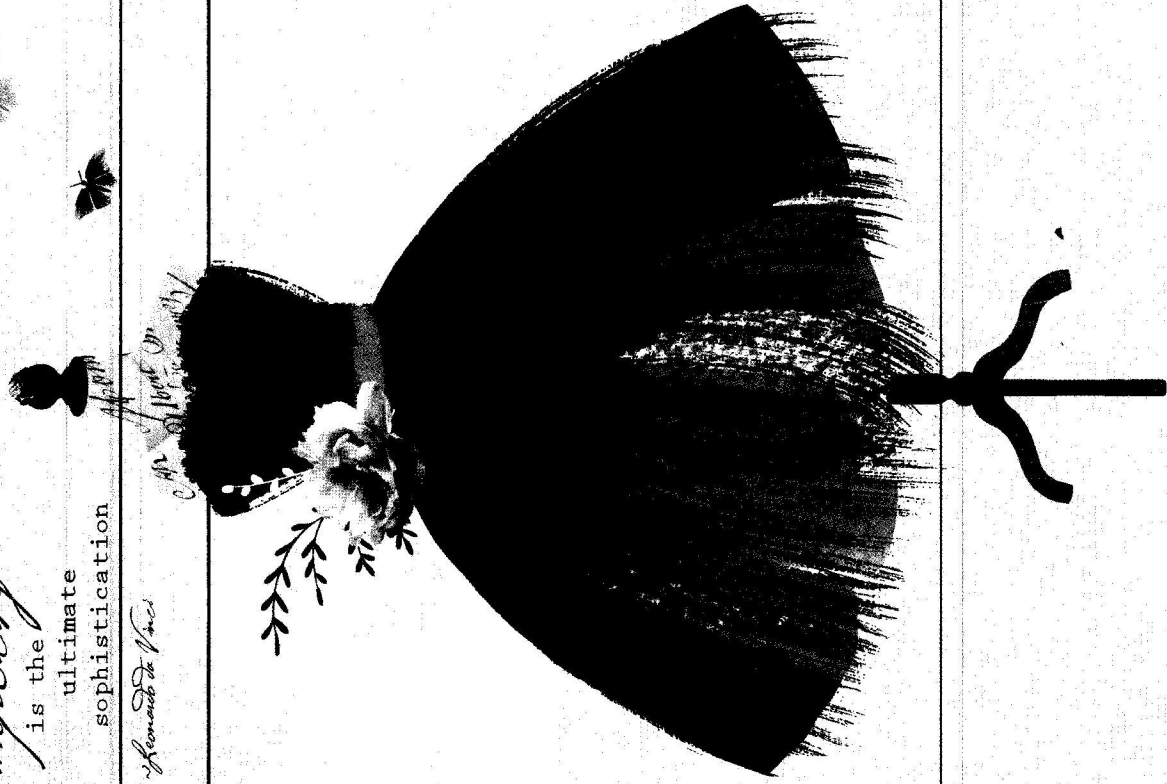

Bexley does ~~not~~ need more

people living [REDACTED]

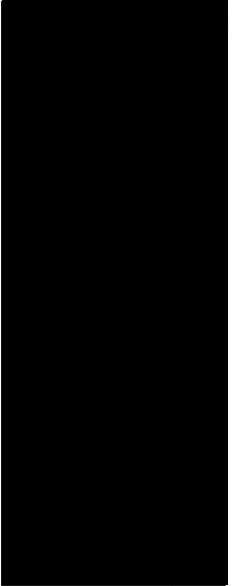

Simplicity

is the
ultimate
sophistication

Renowned to Paris

Rt Hon
SADIK KHAN
LONDON MAYOR.

Dear Sir,
May I express my concern

regarding the impact on the
borough of Bexley by the
new London Plains. We
have brought up our family
in Eith and the thought of
it becoming more populated
because you plan to relax

The planning regulations are
of real concern. The schools
(where I work) are

increasingly becoming too
crowded - prefers built in
the playing fields to
accommodate more pupils are
not the answer. Our Dr in
health professionals cannot
with any wonder to
cover more population.
