### Policy H1

I oppose the proposed 60% increase in Havering's Housing targets. This will lead to the overdevelopment of existing and new developments leading to poor service provision (transport and infrastructure) and insufficient parking spaces.

### Policy E4

I oppose the proposed 'limited release' (loss) of part of the industrial/employment land in Havering (Rainham Development Area) for housing etc. which is counter-intuitive to an increase in our local population.
