

Ms C Stutt comments

Page: [Draft New London Plan](#)

Section: [N/A](#)

The London Borough of Merton is doing it's best to house people but we do not have the space or money for infrastructure to build the required targets. We need fewer people in the area not more. Please do not force unrealistic targets on us.

Please sort out the air quality in London or maybe it is a way of reducing the number of people requiring houses ? We need proper cycle lanes not just paint on the road with large gaps. We need space for tricycles which older people and those with children & shopping etc can get around on without polluting the air.

Mrs Stutt
