Subject: Draft New London Plan

Hi,

Having read the draft London Plan I can see a lot of thoughtful content, but my biggest concern is housing. We're in the privileged position of being able to buy our own flat, but it was a ridiculous stretch for us and we're mortgaged up to the hilt. Our household income is £150k a year, so makes me wonder if we're struggling how is everyone else managing?

I don't want this to be a city that only the rich can afford and everyone else is pushed out. Maintaining the diversity is critical for me. To ensure this there needs to be more social household. Whilst the current targets are great, I worry that they are going to be difficult to deliver on and they're still not enough.

Thanks for putting this report together. Lots of good stuff, but it's critical we crack the housing issue.

Happy to discuss in more detail.

Jenny
