Subject:	Support of policy E9, page 257, chapter 6

Hi,

I support the planned new policy (policy E9, page 257, chapter 6) that aims to prevent new hot food takeaways from opening within 400 metres walking distance of an existing or proposed primary or secondary school.

This will help cut down on the growing obesity problem within London by reducing the easy access to fatty foods readily available to this age group. I have seen several instances of students eating fatty foods straight from school on their way home which does not support a good diet. This is an unnecessary meal in addition to the snacking that will take place when they arrive home before they then have supper.

Regards,

Moses Kisayire The London Digital Programme
