I feel this over subscribing to increase the population of the borough which is struggling to provide enough services to the people who already live in the borough.

We don't have a A&E in this borough, we have to travel to overcrowded hospitals as it is.
If you want houses build hospital first,

Not enough GPs
The roads are overcrowded
The air quality is one of poorest in London.

Lack of infrastructure, the Mayor is targeting Bexley why???

We need more planning controls not a free for all, it will bring chaos and ugliness Discord to neighbourhoods.

Why has everything got to be so radical, we need more trees to reverse the poor air quality from the M25 which circles our borough not more and more cars and people.

Too much to quickly people can't take it their health suffers through overpopulation
