Subject: Keep Havering Special

I am very much in favor of supporting the " Keep Havering Special " campaign and am strongly against the ridiculous target set by Sadiq Khan to build 1,875 homes annually in Havering.

We need to keep the countryside and open spaces in Havering. We need to keep the air quality from being as toxic as it is in inner London. As you enter the Borough of Havering it is like a breath of fresh air and you are aware of the green areas and trees as opposed to concrete upon concrete. I find it a relief to come in to Havering from London . It is essential that we protect our borough and keep it green.

Yours Sincerely,

Mrs. C Walker.
