**Subject:** Consultation system'

To whom it may concern,

I write to complain about the proposal to increase home building in Havering by 60%. More importantly the said proposal has no mention of the infrastructure required to support the additional population. Parking, transport, schools & medical care etc. are already under immense strain to provide any standard of service.

I have lived in Havering for 37 years and am appalled by the way in which our borough has become a dumping ground for everything from industrial aggregate to people kicked out of the Olympic Parkland Estates. It is time you considered the impact on existing residents and place those persons before the needs some ridiculous development scheme.

For how many years do you propose to build 1,821 homes per year? Until we are like sardines? The situation is counter-intuitive and for us to give up the small amount of green belt that we have is absolutely absurd. Enough is enough and I insist that you look outside of Havering for land that can be used and built on without harm to existing communities.

Yours Sincerely  
Mr & Mrs A Wheeler
