Subject: Re: Consultation on the Draft London Plan

Dear Sirs,

I would like to register my objections to two aspects of the Draft London Plan:

- a) I oppose the proposed 60% increase in Havering's Housing targets. This will lead to the overdevelopment of existing and new developments leading to poor service provision (transport and infrastructure) and insufficient parking spaces.
- b) I oppose the proposed loss of industrial/employment land in Havering's part of the Thames Gateway (Rainham Development Area) for housing etc which is counter-intuitive to an increase in our local population.

Yours

Graham Williamson
