Obj. No.	Торіс	Objective	Assessment Criteria Will the strategy	l							Receptors and/or affected groups	Summary against overall objective	Potential cumulative effects
				-	veare)	MT (5- 9 years)		Direct (D) or indirec t (I) effects	Tempo rary	Spatial contex t: Local (L), Greate r Londo n (GL), Wider Region (WR)			
	Equality and Inclusion	To make London a fair and inclusive city where every person is able to participate, reducing inequality and disadvantage and addressing the diverse needs to the population	Promote a culture of equality, fairness and respect for people and the environment	EqIA	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
2	Social integration	To ensure London has socially integrated communities which are strong, resilient and free of prejudice	Reduce poverty and social exclusion Promote a culture of equality, fairness and respect for people and the environment Promote an inclusive design approach ensuring a barrier free environment for all, especially disabled people Provide opportunities for Londoners to actively participate in the city's life, decision making and communities Provide opportunities for Londoners of every background to connect	EqIA	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
3	Health and health inequalities	To improve the mental and physical health and wellbeing of Londoners and to reduce health inequalities across the City and between communities	Reduce differentials in life expectancy and healthy life expectancy across London Reduce inequalities in physical and mental health and wellbeing	EqIA	+	+	+	L	T, P	L		This policy supports new developments in ensuring appropriate mitigation of noise disturbance associated with surrounding noise-generating land uses. This includes the use of design measures, appropriate screening and layout, distance between land uses, and sufficient acoustic insulation. These features will help to protect residents from adverse health impacts associated with persistent noise disturbance. This will particularly benefit those with sensory and cognitive impairments that make them sensitive to noise, children and pregnant women.	n/a

4 Crime, safety and security	I I	travel environment that feels safe to all ring the day time and night time	EqIA	n/a	n/a	n/a						
5 Housing supply, quality, choice and affordability	quantum, type, quality and tenure of housing (including specialist and affordable provision) to that meets tha	the range and affordability of housing accessible and adaptable homes, g choice for people who require them housing that encourages a sense of ty and enhances the amenity value of	EqIA	+	+	+	_	T,P	L	Low income: Y Disability: Y Age: Y Sex: N Race: N Religion: N Sexual orientation: N Gender reassignment: N Marriage & civil partnership: N Pregnancy & maternity: Y	This policy supports ensuring that new developments appropriately mitigate noise disturbance associated with surrounding noise generating land uses. This includes the use of design measures, appropriate screening and layout, distance between land uses, and sufficient acoustic insulation. Embedding such mitigation measures early into the design process will support the delivery of appropriate new houses across a range of locations in the capital. This could help facilitate the delivery of house building and meeting strategic needs, helping to provide housing for Londoners and especially benefitting those on low incomes. This will also benefit those with sensory and cognitive impairments that make them sensitive to noise, children and pregnant women.	n/a
6 Sustainable land	and most adversely efficient use of land so as to Promote r	nat high densities development does not by impact on different groups of people regeneration and provide benefits for communities	EqIA	+	+	+	ſ	T,P		Race: N Religion: N Sexual orientation: N Gender reassignment: N Marriage & civil partnership: N Pregnancy & maternity: N	This policy supports ensuring that new developments appropriately mitigate noise disturbance associated with surrounding noise generating land uses. This includes the use of design measures, appropriate screening and layout, distance between land uses, and sufficient acoustic insulation. Embedding such mitigation measures early into the design process will support the delivery of appropriate new houses across a range of locations in the capital. Such design features, along with the use of noise impact assessments could help to mitigate adverse impacts associated with high density development. This could differentially benefit those with cognitive impairments. The preservation and enhancement of cultural, music, theatre and sporting venues can also encourage and support regenerative impacts. This widespread benefit is not expected to affect one group of people with a protected characteristic over another.	n/a
7 Design	attractive, mixed they live in use neighbourhoods Improve le	nake people feel positive about the area in and promote social integration legibility and ease of use of the build eent for people with sensory or cognitive ents	EqIA	+	+	+	-	T,P			This policy supports ensuring that new developments appropriately mitigate noise disturbance associated with surrounding noise generating land uses. This includes the use of design measures, appropriate screening and layout, distance between land uses, and sufficient acoustic insulation. These could contribute to positive feelings about the local area. In addition, the protection of cultural, music, theatre and sports related land uses could also help to promote positive feelings This benefit is not expected to affect protected characteristic over another.	n/a
8 Accessibility	accessibility for all in and around London Increase of facilities	equality of access to services and links between neighbourhoods and	EqIA	n/a	n/a	n/a						

9 Connectivity	To enhance and improve connectivity for all to, from, within and around London and increase the proportion of journeys made by sustainable and active transport modes	for those groups who are more greatly affected by severance (e.g. people on low incomes, disabled people, children and young people, older people and people dependent on walking and using public transport for travel)? Reduce the overall need for people to travel by improving their access to the services, jobs, leisure and amenities in the place in which they live?	EqIA	n/a	n/a	n/a						
10 Economic competitiveness and employment	strengthen	Help to provide employment opportunities in the most deprived areas, particularly to disadvantaged groups, and stimulate regeneration? Minimise barriers to employment (e.g. transport, financial, childcare)? Enable people with physical and mental health conditions and disabilities to stay in employment? Support working families		?	+	+	l	T,P		Low income: Y Disability: N Age: Y Sex: N Race: N Religion: N Sexual orientation: N Gender reassignment: N Marriage & civil partnership: N Pregnancy & maternity: N	This policy supports ensuring that new developments appropriately mitigate noise disturbance associated with surrounding noise generating land uses. This is to protect existing businesses from unreasonable restrictions that may impact on their viability and overall economic prosperity. The policy supports allowing these industries to grow without restrictions, which could contribute to job creation across the cultural sector, which could mean those who experience barriers to employment (young adults or those from a low income background) could be differentially impacted.	n/a
11 Infrastructure	To ensure that provision of environmental, social and physical infrastructure is managed and delivered to meet population and demographic change in line with sustainable development and to support economic competitiveness		EqlA	n/a	n/a	n/a						
12 Education and skills	To ensure the education and skills provision meets the needs to London's existing and future labour market and improves life chances for all	Help to improve learning and the attainment of skills to the right employment opportunities? Ensure provision of sufficient school places to meet growing needs across London Support transitions from education to work Support adult education to improve social mobility and life chances for all ages Support early years education and support, particularly in areas of deprivation	EqIA	n/a	n/a	n/a						

13 Culture	and enhance the Capital's rich cultural offer, infrastructure, heritage, natural environment	Provide access to affordable cultural activities in areas of deprivation.	EqIA	?	?	?	I	T,P	L,GL	Low income: Y Disability: Y Age: Y Sex: N Race: N Religion: N Sexual orientation: N Gender reassignment: N Marriage & civil partnership: N Pregnancy & maternity: Y	This policy supports ensuring that new developments appropriately mitigate noise disturbance associated with surrounding noise generating land uses. This is to protect existing businesses from unreasonable restrictions that may impact on their viability and overall economic prosperity. The protection and enhancement of noise generating land uses, such as music, theatre, sporting and other cultural venues could help to improve access and participation. The policy supports allowing these industries to grow without restrictions, which could improve the overall provision of cultural infrastructure. However, while the policy protects current cultural institutions, it does not act to improve their accessibility, ensure that they are more affordable or improve participation. Therefore, it is unclear what impact the policy will have against this objective.	n/a
14 Air Quality	emissions and concentrations of harmful atmospheric	Reduce inequalities in access to clean air across London, particularly for those: who live in deprived areas? who live, learn or work near busy roads or construction sites? who are more vulnerable because of their age or existing medical condition?	EqIA	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
15 Climate change adaptation and mitigation		Reduce impacts on groups more vulnerable to the effects of climate change (e.g. older people are more vulnerable to excess heat?)	EqIA	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
16 Climate change adaptation and mitigation	To help tackle climate change through reducing greenhouse gas emissions and moving towards a zero carbon London by 2050		EqIA									

17 Energy use and	To manage and	Contribute to the provision of smart and	EqIA	ı	Ι		I	1	Ι		1	1
supply	reduce demand for energy, achieve greater energy efficiency, utilise new and existing energy sources effectively, and ensure a resilient smart and affordable energy system	affordable energy system for all?	- An	n/a								
18 Water resources and quality	To protect and enhance London's water bodies by ensuring that London has a sustainable water supply, drainage and sewerage system	Protect and enhance the character and use of London's rivers capes and waterways	EqlA	n/a								
19 Flood risk		flooding to people, property and infrastructure?	EqIA	n/a								
20 Natural capital and natural environment	enhance London's natural	Create green spaces that are safe and accessible to all Promote sensory environments and play spaces	EqIA	n/a								
	including sites, features,	Provide for increased understanding and interpretation of the historic environment Provide for increased access to and enjoyment of the historic environment Engage communities in identifying culturally important features and areas	EqIA	n/a								

22 Geology and soils	To conserve London's geodiversity and protect soils from development and over intensive use		EqIA	n/a	n/a	n/a						
23 Materials and waste	To keep materials at their highest value and use for as long as possible. To significantly reduce waste generated and achieve high reuse and recycling rates	Minimise negative impacts of waste processing and disposal on vulnerable groups.	EqIA	n/a	n/a	n/a						
24 Noise and vibration	To minimise noise and vibration levels and disruption to people and communities across London and reduce inequalities in exposure	Minimise and reduce road, rail and aviation noise and vibration levels and disruption	EqIA	+	+	+	I,D	T,P	L	Low income: N Disability: Y Age: Y Sex: N Race: N Religion: N Sexual orientation: N Gender reassignment: N Marriage & civil partnership: N Pregnancy & maternity: Y	This policy supports ensuring that new developments appropriately mitigate noise disturbance associated with surrounding noise generating land uses. This includes the use of design measures, appropriate screening and layout, distance between land uses, and sufficient acoustic insulation. Embedding such mitigation measures early into the design process is likely to minimise adverse noise impacts associated with surrounding industrial uses which may involve persistent vehicle movement of presence of HGVs. This is expected to benefit those who are sensitive to noise, such as people with cognitive or sensory impairments, young people and pregnant women.	n/a
