

MAYOR OF LONDON

Keith Prince AM
Chair, Transport Committee
London Assembly
City Hall
The Queen's Walk
London SE1 2AA

Ref: MGLA130218-3705

Date: 29th May 2018

Dear Keith

**Future Transport: How is London responding to technological innovation?
February 2018**

Thank you for your letter to the Mayor of 13 February 2018 sharing your recommendations of the London Transport Committee report, 'Future Transport: How is London responding to technological innovation?'. Please consider this a joint response from the Mayor's team and Transport for London (TfL).

Emerging and developing technologies have an important role to play in the future of our transport system, from providing new ways for people to travel actively, to improving the safety of our buses. As the Mayor set out in his Transport Strategy, we also need to ensure that new technologies do not undermine our vision for London's future.

I would like to thank you for all the work that has gone into your report. I have enclosed TfL's full response and should there be any questions please feel free to contact TfL to discuss.

Yours sincerely

Valerie Shawcross CBE
Deputy Mayor for Transport
