Welcome to the London Enterprise Adviser Toolkit

Dear Enterprise Advisers,

Welcome to the London Enterprise Adviser Toolkit.

When searching for suitable careers initiatives to support your school's careers strategy, it is easy to get confused by the breadth of opportunities available to schools and students. This Toolkit is a useful resource that will enable you to quickly access information on the variety of organisations and initiatives that work throughout London, in the careers sector.

The Toolkit aims to:

- Provide an overview of a range of careers and work-related learning initiatives operating in London;
- Be a launchpad for conducting your own research in your role as an Enterprise Adviser;
- Provide templates and other resources to support you when working with your school.

The programmes listed in the Toolkit provide a snapshot of the various organisations and careers offers available to schools. The list is not exhaustive and over time the Toolkit will be updated as we discover new programmes and initiatives for schools across the capital.

Kind regards,

The London Enterprise Coordinator Team

How to Use the Toolkit

Sir Jonathan Holman's 2014 report, 'Good Career Guidance', explored the vast array of opportunities available to schools and students with regards to careers education, information and guidance. An outcome of this report was the categorisations of careers-related activities that you can see on page 4.

To ensure that the organisations represented in the Toolkit cover the breadth of opportunities available, they have been arranged according to the category heading they fall under. This will ensure that initiatives are easy to find and are grouped with other organisations who offer similar programmes. Some organisations offer an array of programmes and activities which fall under several headings. The organisations listed here are only some of the organisations that exist and work across London, so it is important to use the Toolkit as a first step in informing your own research.

Each initiative is accompanied by a brief description of their offer to schools and a link for more information. We have also provided a key for some of the essential information you might want to know.

Toolkit Key

F	Free	V	Vocational
PF	Partially Free	R	Provides Resources

P	Primary	ST	Aimed at Students
S	Secondary		

The Enterprise Adviser Activity Planner

	Activity	Definition
1	Careers and skills fairs	A number of representatives from employers offer information about their companies and interact with young people at an organised careers event
2	Careers talks	An employee delivers an informational or inspirational talk related to their career to a group of young people
3	Comprehensive careers websites	An interactive website that offers careers information, support for careers decision making and potentially chat capabilities/helplines
4	CV workshops	An employee delivers lessons in the classroom related to writing CVs to prepare young people for the job application process
5	Mock Interviews	An employee delivers a one-to-one mock interview to a pupil to prepare them for the job application process
6	E-mentoring	An employee delivers one-to-one guidance and support to a pupil individually over the internet
7	Mentoring with an employee	An employee delivers one-to-one guidance and support to a pupil in person
8	Employer delivered employability skills workshops	An employee delivers lessons in the classroom related to employability skills such as self-awareness, timekeeping and communication skills
9	Enterprise activities	Short-term enterprise activities delivered in schools that can involve simulation of business challenges
10	Enterprise competitions	Longer-term business competitions involving employers where groups of pupils develop and run a small enterprise
11	Employer-led career learning	Employees enter the classroom to assist teachers in the delivery of traditional careers learning activities
12	Employer-led curriculum learning	Curriculum learning (incl. STEM & MFL) co-delivered by teachers and employers, employees linking curriculum to their own experiences
13	Work place visits	Young people are taken as a group to a workplace and are introduced to its operation
14	Networking with employers	Young people are introduced to employers through facilitated networking meetings
15	1-2 week work experience	A pupil enters the workplace to develop insight into the day-to-day role of an employee in an organisation
16	Part time working	A pupil works a limited number of hours per week around their school responsibilities
17	Work related learning	Employers offer extended work experience to young people and vocational training, in conjunction with traditional school based classes
18	Work shadowing	A pupil shadows a particular employee to develop an understanding of their day-to-day role
19	Volunteering	A pupil volunteers a limited number of hours per week around their school responsibilities
20	Skill building and citizenship	Young people take part in a skill building and citizenship programme including employability skills

Unlocking the Strategy

The Toolkit is not the only way you can support schools to embed and enhance their careers strategies; it is just one piece of the puzzle. Below are some other ways you can support schools to create meaningful, long term relationships with employers:

- **Share best practice.** Tell us if you come across any programmes that have not been included in the Toolkit, or any fantastic events or programmes your schools are already delivering.
- **Conduct research within your own organisation.** Do they offer education or school programmes as part of their Corporate Social Responsibility (CSR) strategy? If they do, tell us more. If they don't have a CSR strategy, but are looking to create one, Team London can also support with this.
- **Research businesses local to your school.** Start by inviting them along to an event and gradually build the relationship over time. Businesses are more likely to want to support on a larger scale, such as providing work experience placements, if they already have a positive, established relationship with the school.
- **Explore the school's current business links.** Meet with organisations or businesses already working with the school to see if they could be better utilised. The Head of Geography may have a contact at Thames Water who arranges a work experience placement for a student once a year – could they perhaps arrange a visit for a group of younger students to look at the different jobs available?
- **Develop an alumni network.** Some schools may already have an established alumni network, whilst others may be struggling to make contact with their former students. Setting up a LinkedIn group could be a way of starting the process and making connections with potential leads.
- **Leverage the school's parent networks.** Survey parents to see what they can offer the school in terms of work experience or careers talks for students.
- **Connect with governing bodies.** To understand what networks they have that could support the school's strategy.
- **Utilise your own wider professional networks.** Use connections you have to support school events and activities. Promote your role as an Enterprise Adviser on LinkedIn to help source colleagues and contacts to support events at your school.

The Careers & Enterprise Fund London Beneficiaries

The £5 million Careers & Enterprise Fund has been created to increase the number of encounters young people have with employers.

Beneficiary	Programme	Where?	What?
	HeadStart	All London	HeadStart secures young people a job interview in exchange for volunteering hours
	KX Express	Camden/ Islington	Training and real-world encounters with employers in the King's Cross estate
Founders4Schools	Raising Career Aspirations	All London	Raising aspirations and improving employability of young people by connecting them with local business leaders.
	Vacation Education 2016	All London	Raising aspirations in young people through holiday courses & volunteer schemes
	Creative Ladders	All London	Creative Ladders provides inspiring encounters with ad & design agencies
IntoUniversity 	IntoUniversity Careers Programmes	All London	Developing students' awareness of careers through contact with employers
	Solutions for the Planet	Newham	Challenging pupils to find a business solution to sustainability issues
	VIY Schools programme	All London	School leavers learn DIY & building skills whilst improving their community
	Championing the Way	All London	WorldSkills UK Champions inform students about what's needed to excel at work
	Best School trip Ever!	All London	Memorable workplace visits to discover first-hand careers in STEM

The Careers & Enterprise Mentoring Fund Beneficiaries

The Careers and Enterprise Mentoring Fund has been developed to increase the number of high-quality, employer-led mentoring relationships.

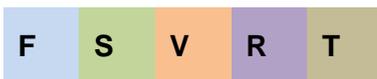

Beneficiary	Programme	Where?	What?
	East London Business Alliance	East London	ELBA mentoring matches students to city business volunteers to support with planning their future career and skills for the world of work. A 39-week, 1-1 and group mentoring programme will be available to pupils in Year 10 in greatest need.
	Dame Kelly Holmes Trust	All London	Dame Kelly Holmes Trust develops world class athletes beyond sport and then works with them to deliver programmes that transform the lives of young people facing disadvantage.
	Reach Out	All London	Reach Out changes lives through 1:1 mentoring. Focusing on year 8-10 students, holding a min. of 30 sessions in term time.
	Think Forward	All London	Think Forward ensures students under-achieving at school receive long-term support to transition from school to sustained employment. Aimed at Year 10 & 11 pupils.
	Youth at Risk UK	All London	Youth at Risk UK delivers rigorous personal development and coaching; raising aspirations and supporting young people to fulfil their potential. Students are primarily referred due to disengagement and not fulfilling their full potential.

Careers Skills and Fairs

Career fairs serve as a valuable resource to explore career options. Students come to one location to find out about a number of opportunities from the world of work, and explore different options and career paths. A number of representatives from employers offer information about their companies and interact with students at an organised careers event.

World Skills UK

WorldSkills UK delivers world class training and annual national technical Skills Competitions, giving thousands of young people across the UK the opportunity to be recognised as the best in their vocational skill area, as well as inspiring skills and careers showcases. Former national and international finalists, now "Skills Champions", are offering interactive and engaging skills master classes to secondary students across London that highlight the transferable skills required to excel at work. This project harnesses the experience and passion of Champions and uses this to inspire and inform young people through contact with peer role models. WorldSkills UK will also be offering an interactive toolkit to secondary schools that uses the power of competition activity to inform and enthuse young people about the world of work, including in technical skills and apprenticeships, as part of their current careers education offer.

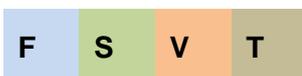

Skills London

Skills London 2016 is London's biggest jobs and careers event for young people from across the Capital. Focusing on young people aged 15-24, the event attracts more than 30,000 individuals across two days. For ten years, Skills London has reached out and inspired London's young people by showcasing opportunities including apprenticeships, education, training, employment, internships and other options. Skills London 2016 takes place at ExCeL London, in December 2016.

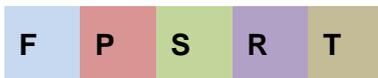

TeenTech

TeenTech runs lively events with a supporting award scheme to help young teenagers see the wide range of career possibilities in Science, Engineering and Technology. They work collaboratively with companies, universities, business organisations and education business partnerships to build sustainable and imaginative programmes focusing on regions of greater social need in the UK and Europe. They are an industry-led initiative, founded in 2008 to help the 'X Factor' generation understand their true potential and the real opportunities available in the contemporary STEM workplace.

[The Big Bang Fair](#)

The Big Bang UK Young Scientists & Engineers Fair is the largest celebration of science, technology, engineering and maths (STEM) for young people in the UK. It shows young people (aged 7-19) the exciting and rewarding opportunities out there for them, if they have the right experience and qualifications. Held at the NEC, Birmingham, The Big Bang Fair is an award-winning combination of exciting theatre shows, interactive workshops and exhibits, as well as careers information from STEM professionals. The Big Bang Fair also hosts national competitions, inviting young people from across the UK to compete, amongst other things, for the title of UK Young Scientist and UK Young Engineer of the Year.

Careers Talks

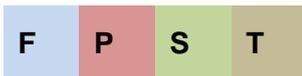

A careers talk is a fantastic opportunity to broaden students' exposure to the world of work. When an employee delivers an informational or inspirational talk related to their career to a group of students, they are encouraged to think about jobs or career paths that they may not encounter at home or in their community.

[Founders4Schools](#)

A free online service for UK schools and colleges that provides teachers a quick (5 mins!) and simple way to increase the employability of students by facilitating encounters with employers through:

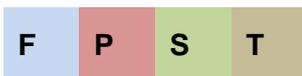

- [Careers talks](#) by role models from the business community who talk about the skills needed in today's economy in sessions that fit in the school day
- [Careers Fairs](#) supported by growing SMEs that are creating the jobs of today and tomorrow.
- [Workplace visits](#) so that your students can experience what it is like to work at a company that is growing.

These 'events' can be booked as a one-off session but many teachers choose to create series of events across a term or year (at least one per term) for even greater impact.

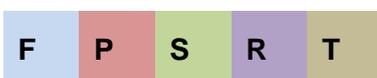

[Inspiring The Future](#)

Inspiring the Future connects state schools and colleges with employers and people from the world of work. It has been developed following extensive consultation with a range of stakeholders – employers, education, government, third sector and intermediaries. Teachers and volunteers are connected through a secure website, selecting people who best meet the needs of their students from a range of sectors and professions. The organisation also has bespoke initiatives for primary schools.

[STEM Learning Ltd](#)

STEM Learning Ltd. creates opportunities to inspire young people in STEM. They work with thousands of schools, colleges and STEM employers, to enable young people of all backgrounds and abilities to meet inspiring role models, understand real world applications of STEM subjects and experience hands-on STEM activities that motivate, inspire and bring learning and career opportunities to life. STEM Learning Ltd. has STEM Ambassadors, help set up STEM Clubs in Schools and run a STEM advisory network for schools and their STEM curriculum.

[Aimhigher](#)

Aimhigher provides discrete activities as well as programmes to target groups of learners who are under-represented in higher education. In 2014-15, 6% of disabled students and 7% of Looked After Children (LAC) progressed to University; 18% of participants in the Core Aim Higher programme were LAC while 16% declared they had a disability. Aimhigher is committed to widening the opportunities for these cohorts and works with specialist staff and University Outreach departments to support learners and key adults around them to understand the benefits of University and raise awareness of the support available to them.

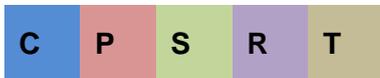

Comprehensive Careers Websites

Careers websites can be an important tool in providing young people with information about the array of careers options available to them. Although they do not replace quality face-to-face careers advice, an interactive website can offer careers information and support for careers decision-making.

[Career Development Institute](#)

The CDI is the single UK-wide professional organisation for professionals working in the fields of career education; career information, advice and guidance; career coaching and career management. Working together the new body will present a strong and united front, influencing government policy and lobbying on behalf of members. To keep members informed of developments the CDI Board publish regular Briefing Notes. Members can also access resources and reports through the *Member's Area* of the website.

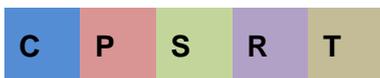

[Careers World](#)

Careers World is a magazine that provides news, information and opportunities on apprenticeships, careers and higher education. A nationwide publication, they have a London specific website with opportunities for young people across the capital. The physical magazine does cost for schools but the site is accessible for all.

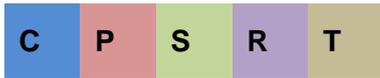

[Careerssoft](#)

Career Soft produces independent careers resources. Jed, the multimedia Job Explorer Database, has been available in secondary schools since 2006. Now in a revised format for younger users (introducing workplaces and careers in a way that catches the imagination and supports work-related learning), it is available exclusively for primary schools. Career Soft provides students with quizzes and information about jobs and the world of work as well as resources for teachers on how to teach entrepreneurship.

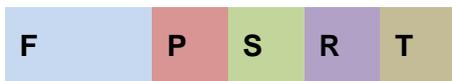

[CASCAiD](#)

CASCAiD produces programmes that support young people and adults to make decisions about learning and training routes and about the career that they ultimately aspire to. CASCAiD has created various computer programmes including Kudos and Launchpad that support students aged 7-18 in making informed career choices. Students can answer a series of questions to explore what careers fit their personalities and find out more about what careers are related to their favourite subjects.

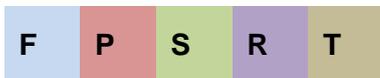

[Cegnet](#)

Cegnet is an independent and free online resource for teachers and careers professionals delivering careers education and information, advice and guidance. It also reaches out to employers and business organisations, HE and other education providers and youth and community organisations contributing to the career development in schools and colleges. Cegnet is supported and hosted by [Adviza](#), a charity dedicated to inspiring people to make better decisions that help them progress in learning and work. Cegnet provides teachers with free careers education resources and articles on research into the field.

[Discover Risk](#)

Discover Risk introduces students to the idea of risk and the various careers involved in risk management. Students can research different career paths and explore an interactive world of risk. The site includes profiles of their members and other young people who have begun their career in the field of risk management. Students can match their personality types to suitable professions in the field.

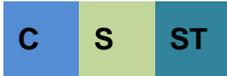

[Creative Choices](#)

Creative Choices is an online hub of advice and opportunities for anyone that wants to work in a creative career. It has helped over 2 million people by delivering insight and knowledge from those that work in industry to those who aspire to do so. Through the online resources and events, they connect industry professionals with the future creative workforce. They support businesses of all sizes to create employment opportunities. Students can log on, find opportunities and read articles about various creative industries.

[Fast Tomato](#)

Fast Tomato motivates young people to consider options they may previously have thought were unattainable, by opening up a rich world of course and career opportunities. Students answer questions about their interests and strengths and are shown potential career options they may find interesting. Industries and career paths are explored with salary information and progression routes. Students can also search for suitable higher education courses.

[Higher Education in London](#)

Higher Education in London is part of the National Networks for Collaborative Outreach (NNCO). They act as a simple and straightforward single point of contact for state funded schools, sixth forms and further education colleges to access information about outreach resources and activities among higher education providers in the capital. As well as offering information and points of contact for Higher Education establishments, the website also shows relevant events happening across London on a variety of subjects from learning languages to writing personal statements.

[icould](#)

icould is a small, dynamic charity, providing career inspiration and information for young people. They show what is possible in work and offer different ways to think about careers through free access to over 1000 personal video stories and detailed job information, plus practical tips, insight and advice. Students can search for particular jobs or industries and watch videos recorded by professionals in those fields. They also have focus sections to offer more detailed information on particular subjects and issues.

[Kloodle](#)

Kloodle allows students to create a careers profile. This profile contains all the information you would expect of a CV, and more. Students maintain a skills portfolio and blog, keeping their profiles up to date and information, allowing employers to gain a clearer picture of their abilities. Kloodle provides schools with a platform via which they can establish their learners' goals. This is done by the creation of an action plan between the teacher and student, outlining the progress a student is expected to make over a defined time period.

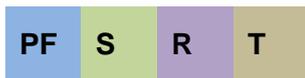

[Not Going To Uni](#)

Notgoingtouni.co.uk is dedicated to helping school and college leavers make informed decisions about their future by showing the opportunities that exist outside of traditional university routes such as apprenticeships, sponsored degrees, diplomas, gap years, distance learning and jobs. The site offers articles and guidance for students as well as a database of over 10,000 apprenticeships and work placements.

[Outstanding Careers](#)

Outstanding Careers is home to the Careers Defender who is a fully qualified teacher with over 15 years' experience providing careers education and 25 years teaching business studies in schools and colleges throughout London. The website links to Pinterest boards with free and paid for resources for teaching careers and articles that offer advice to teachers and schools on navigating the careers landscape. More bespoke support is also offered on a one-to-one basis.

[Plotr](#)

Plotr is a website created to help 11-24 year olds discover and explore careers they'll love. It's built around the Game which uncovers careers matched to their skills, interests and personality. They can explore employer worlds, in depth career profiles, videos, articles and more to get a view of what the world of work is really like and find what inspires them. With the help of expert info, insider hints and tips - and thousands of work experience, apprenticeship and entry level job opportunities – the site guides them to what they love.

[Skills to Succeed Academy](#)

The Skills to Succeed Academy is a free, interactive, online training programme that helps disadvantaged young people, aged 16 - 24, develop the key employability skills necessary to find and keep a job. Launched in 2013, the Skills to Succeed Academy enhances employability support services available to young people with low social capital and limited access to support, empowering them to take ownership of their career development and job search. Modules can be teacher led or students can work through them independently.

Skills Match London

An interactive tool which allows the visual exploration of the relationship between skills supply and employer demand (at Level 3 and below) in London. It brings together skills data and labour market data enabling policy-makers, practitioners and employers to take an intelligence-led, geographically-specific approach to addressing youth unemployment in London.

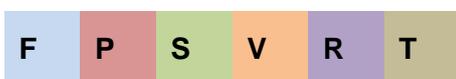

The Tech Partnership

The Tech Partnership is the network of employers working to create skills for the UK's digital economy. The Partnership's ambition is to deliver the skills for a million tech jobs by 2025. No one organisation can achieve this on its own, which is why employers are working together as the Tech Partnership – acting for the good of the digital economy and for future generations of talent.

Tomorrow's Engineers

Tomorrow's Engineers is more than a one stop shop for information and resources about the amazing careers available in engineering. They also run a schools programme to help inspire the next generation of engineers which reached over 200,000 young people in 2015. Working with businesses, not for profit organisations and charities, the programme is made up of a number of initiatives, such as industry visits, workshops, Science, Technology, Engineering and Maths (STEM) Ambassador partnerships and careers resources, to help schools to incorporate engineering into the current curriculum and plant the seeds needed to grow local engineering talent required by businesses.

UCAS

In 2014, their undergraduate admissions service handled almost three million applications from 700,000 UK, EU, and international students. They have helped 512,000 students secure a full-time place at one of over 380 universities and colleges across the UK. They also provide information on 16-18 choices by linking careers to specific subjects and host events throughout the UK to promote universities.

[ULAS](#)

Created by Teach First Ambassadors, ULAS is a free employability tool that bridges the gap between schools and employers. The teacher-led, school-integrated, platform is driven by the ambition to make sure all students are fully prepared to make the gigantic leap from school. Through teaching resources like a personal statement and CV builder, students are equipped with the skills necessary to excel in their university, apprenticeship and school leaver programme applications. Students can input and track their employer engagements and any work experience they have taken part in. Teachers can send sector specific information to students and track and export their progress.

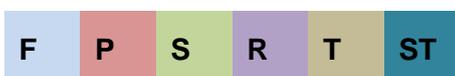

[Unifrog](#)

Unifrog's search engine brings up relevant apprenticeship vacancies and university courses. Students can examine opportunities side-by-side on many data points (e.g. distance from home, weekly wage, completion rates and admission grades) so that they can easily use the independent information to assess which vacancies and courses are best for them. Teachers can track their students' progress on the system.

[London Ambitions Portal](#)

The GLA London Ambitions Portal aims to bring education and industry closer together, helping employers and teachers join forces in providing young people with the knowledge and skills they need to succeed in their future. The London Ambitions Portal enables schools and colleges to easily find high-quality careers education programmes, work experience, internships and apprenticeships.

Employability

CV workshops are a great way of offering individual support that can help each student build a CV and cover letter to match their skill set and aspirations. When looking for organisations that deliver these, also look to the Mock Interviews and Careers Talks sections.

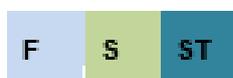

Pure Potential

Pure Potential can support students with making high quality applications to leading universities and competitive school leaver programmes. They deliver interactive, practical workshops on a range of topics to over 5,000 sixth form students each year. They tailor workshops for students of all abilities and at varying stages of the application process. The topics of their workshops range from CV writing and crafting the perfect personal statement to communication skills for interviews.

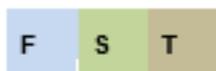

Fitzrovia Youth in Action

Youth action charity located near Warren Street, provide employability support through career mentoring, work experience and employability workshops to young people between the ages of 6- 24 years of age. They also provide a youth participation and peer education programme.

Future Finder

Future Finder links today's A Level choices with tomorrow's careers. It is free, quick and easy to use and helps careers advisers, students and teachers guide students in making informed decisions by linking A level choices to jobs which are in demand.

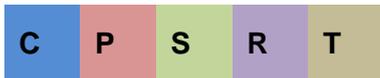

E-Mentoring

E-mentoring is a flexible and secure approach to the traditional mentoring relationship between business volunteers and young people. Volunteers support young people through using their own experiences of the world of work to provide professional advice and guidance. The confidence mentoring brings out in a person can result in some startling transformations in young people who previously might have lacked direction.

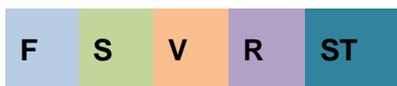

[The Brightside Trust](#)

Brightside is a charity that helps young people access the education and career pathways they might not have believed were available to them. They want to make sure that it's talent, not background, that determines the education opportunities and careers that are available to young people. They supply schools with a secure online platform where mentees and mentors can hold mentoring sessions and have time-flexible conversations. Training is provided for delivery staff, mentors and mentees. Their packages also include an online resource library with over 1,000 articles providing information on careers, education and student life.

[Class Careers](#)

Class Careers is a social enterprise that gives students direct access to employers at no cost to schools. All their workshops provide full lesson plans and support and can be delivered by a member of school staff within the classroom. They offer online workshops where students can speak directly to employees who are currently on an apprenticeship or graduate programme.

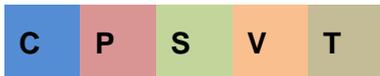

Mentoring with an Employee

Mentoring is a relationship in which a more experienced or more knowledgeable person helps to guide a less experienced or less knowledgeable person. In a school setting, this usually takes the form of regular 1:1 sessions between young people and their mentors over a period of time to discuss topics such as aspirations, education and career options.

Global Generation

Global Generation uses land-based activities and the metaphors of ecological and cosmic processes to support communities to build links between each other and the natural world. They work with local young people, businesses and families in King's Cross and combine activities such as supporting bees, carpentry, urban food growing, cooking, and eating together with dialogue, story, creative writing, silence and stillness. This project aims to prepare young people for work through training and real-life encounters with employers and give young people insight into work opportunities and learn about different strands within businesses and what studies or training will help them get into jobs.

Creative Ladders

Creative Ladders provides inspiring encounters with advertising and design agencies. The Ideas Foundation charity operates I Am Creative (IAC), an inspirational employer-led programme that improves social mobility for students from schools with high FSM, low employer engagement and high ethnic diversity. Creatively talented students progress onto The Ladder - an intensive package of employer led mentoring, workshops and inspirational workplace experiences, designed to develop young people's careers. The Ladder also provides a community network where talented young people support each other on their career journeys.

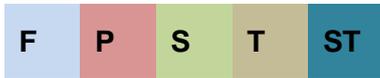

The Girls' Network

The Girls' Network matches girls from the least advantaged communities with female mentors from a growing network of professional women across all walks of life. The girls each receive an individual mentor and have the opportunity to meet with them monthly. Mentors work with the girls to explore career opportunities, develop their skills, confidence and self-esteem, supporting them to achieve their goals throughout education and beyond.

[The Diana Award](#)

This programme provides day long training to strengthen mentoring skills within both primary and secondary schools. The Diana Award trains a team of Diana Peer Mentors, providing them with the skills to effectively support and mentor a group of younger students. Including the creation and delivery of a community based project.

Employer Delivered Employability Skills Workshops

Volunteers from the world of work deliver workshops and activities within a school setting, related to the development of employability skills such as self-awareness, timekeeping and communication skills. Workshops can include topics such as CV writing, networking, interview skills etc. This section also includes employer led careers learning activities, where volunteers from the world of work support teachers by co-delivering or taking part in traditional career activities, such as PSHE lessons or professional mock interviews. If this is something that your organisation offers then please do let us know.

[National Careers Service Inspiration Agenda](#)

The National Careers Service (NCS) website provides information, advice and guidance to help students make decisions on learning, training and work opportunities. The role of the NCS Inspiration Agenda is to broker relationships between schools, colleges and employers, creating links between industry and educational institutions. The focus of their efforts is to inspire young people to think about their future careers through supporting the development and delivery of employability activities.

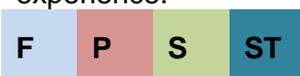

[\(JCP\) in Schools Programme](#)

The programme will offer 12-18 year olds insight into the world of work and advice on options like traineeships and apprenticeships. As well as offering advice on the labour market, the JCP Advisors will help schools to offer high quality work experience opportunities so that young people can gain direct insights into what potential employers are looking for. Each school will decide what level of support advisors offer to their students, which could include setting up work experience placements, one-to-one advice and group-led question and answer sessions. Contact EnterpriseAdvisers@london.gov.uk for more information.

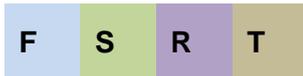

[Into University](#)

Into University's careers programmes support students in accessing high quality careers. The aims of the project are to increase students' knowledge of the career paths and opportunities available to them through contact with employers on Business in FOCUS days, Careers in FOCUS programmes, and the Corporate Mentoring scheme and/or through internships and work experience.

[SchoolstoBusiness](#)

SchoolstoBusiness (S2B) gives businesses the tools to influence the next generation of leaders at the start of their journey - in the classroom. S2B provides resources to enable companies of any size and sector to engage directly with local schools and run activity sessions that enhance students' skills for work. SchoolstoBusiness provides guidance, an open content library of materials and a schools finder to kick start employers' contributions to developing students' work-related skills through effective and inspiring sessions.

[East London Business Alliance](#)

The East London Business Alliance (ELBA) works with member companies to get east London people into training and jobs; as well as delivering employability skills training, facilitating work experience placements for local residents and schools, and providing capacity building for organisations.

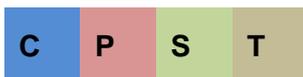

[Careers Lab](#)

Careers Lab enables schools and businesses from a variety of industries to work together to equip young people with the inspiration, knowledge and skills they need to succeed in the UK economy. The programme works alongside existing careers teaching to provide a modular, progressive framework of lesson and activity plans designed to enrich students' understanding of career paths, and open their minds to the possibilities of the working world.

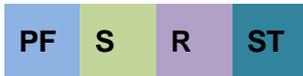

[Street Style Surgery](#)

Street Style Surgery runs creative workshops that teach young people a vast array of exciting skills – from body popping to fashion designing, music production to film-making. Their creative workshops can form part of courses on citizenship, PSHE, Book Week, anti-slavery and world days, global entrepreneurship and Anti-Bullying Week.

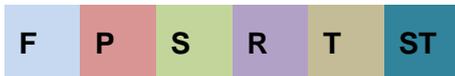

[MyKindaFuture](#)

MyKindaFuture help students explore their career options post-education, be that apprenticeships, college, or university and graduate employment. They do this by enabling young people to have face-to-face contact with a wide range of employers and experience the different career routes and opportunities on offer.

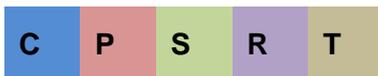

[Barclays LifeSkills](#)

LifeSkills, created with Barclays, helps young people get the skills and experiences they need to enter the world of work. LifeSkills is a free, curriculum-linked programme, developed with teachers to help improve the skills and employability of young people in the UK, consisting of employability modules that can either be teacher led or delivered by volunteers.

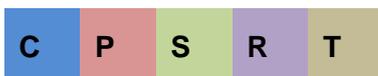

[RedSTART](#)

A financial education initiative for young people. At RedSTART the goal is to put people in control of their finances, giving them the skills they need to successfully and sustainably manage their financial futures from a young age. They work with young people aged between 10 and 18 from a wide variety of schools and locations across the UK. RedSTART was created by three employees from Redington, an investment consulting firm and they now count some of the world's largest financial firms as RedSTART partners.

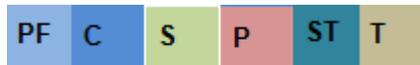

[Tower Hamlets Education Business Partnership \(THEBP\)](#)

THEBP is an education charity with 25 years of experience of bridging the gap between students and the world of work, providing fair and equal opportunities that enable students to broaden their horizons, igniting a determination to fulfil their aspirations. They connect students and business volunteers through the delivery of curriculum based programmes and employability focussed activities. THEBP is keen to support schools across London with their Careers Education programmes and help more young people learn more, do more and become more.

[15billion-ebp](#)

15billion has 25 years of experience in delivering quality career related programmes with schools employers and young people in Newham/ East London. Their programmes allow schools and employers to access a broad range of quality services and products that ensure young people are provided with independent career guidance, high aspirations and strong employability skills.

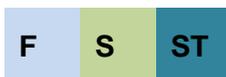

[Deloitte Access](#)

Deloitte Access is an education programme delivered in collaboration with Teach First and is designed to raise aspiration, support achievement and provide opportunities for students in low-income communities. The programme aims to improve social mobility and support a fairer society by giving young people from under-represented groups the ambition, skills and opportunities they need to access professional careers at companies like Deloitte. These skills are developed in workshops delivered by professional volunteers.

[iDEA](#)

iDEA is a national project that helps students badge their brilliance. Through a series of online challenges and events, students can win career-enhancing badges, unlock new opportunities and, ultimately, gain nationally recognised awards that help them stand out from the crowd.

[Words for Work](#)

Students work with volunteers from the local business community on activities designed to transfer knowledge of the workplace from volunteers to students. Students who participate will be able to adapt their communication style to suit the workplace, ask well-structured questions to build their knowledge, list effectively and understand how to communicate with clarity in both written and oral communication.

[bMoney Wize Ltd](#)

Provide innovative education resources and solutions to improve financial literacy and numeracy skills for school age children.

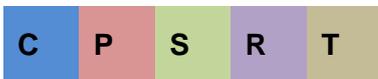

MAYOR OF LONDON

Enterprise Activities and Competitions

Enterprise activities and competitions involve young people working with employers and business volunteers in an interactive business challenge, learning about enterprise and the skills you need to set up a business. Some of these programmes may include teams of young people actually establishing a small enterprise.

Enabling Enterprise

Enabling Enterprise was set up by a team of teachers in 2009. Their mission is to equip 5-18 year olds with the skills, experiences and aspirations they need to succeed in life. They work in partnership with businesses to bring the world of work into the classroom through a combination of lesson-time projects, challenge days and trips to companies.

Solutions For The Planet

Through delivery of a STEM and Enterprise programme with Key Stage 3 students (aged 12-14) the project aims to achieve increased engagement amongst 12-14 year olds with employers: at least two quality engagements with an employer for each student via mentoring, creating new sustainable relationships developed between schools and employers.

The Fiver Challenge

The Fiver Challenge provides a highly interactive, fun way of introducing financial literacy, resilience and teamwork in learning for primary school pupils. Pupils have one month to set up a mini business and create a product or service they can then sell or deliver at a profit and engage with their local community.

The Tenner Challenge

The Tenner Challenge is for young people aged 11-19 who want to get a taste of what it's like to be an entrepreneur. It gives them an opportunity to think of a new business idea and make it happen, using real money to take calculated risks in the business field, make a profit – and make a difference.

MAYOR OF LONDON

[MyBnk](#)

MyBnk has created innovative, high impact and high energy workshops on topics such as saving, budgeting, public finance, social enterprise and start-up entrepreneurship. They formed the first ever independent online and in-school youth-led saving and lending banking scheme. MyBnk's experts deliver practical enterprise experiences by giving young people access to interest-free loans and market places to set up their own initiatives.

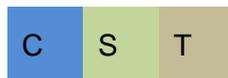

[Entrepreneurs in Action](#)

This organisation gives young people a taste of a real-life working environment. Learning activities are structured to encourage young people to be innovative, experiment and develop their potential as future entrepreneurs, creators and leaders.

[National Enterprise Challenge](#)

The Ryman National Enterprise Challenge is a full day enterprise programme open to all secondary schools in the UK. Open to full year groups the challenge is split into two categories KS3 and KS4. Working in teams of six the students work on real life business challenges, which are set by real life businesses.

[Citrus Saturday](#)

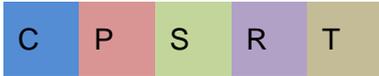

Citrus Saturday is an experiential learning programme developed by UCL (University College London) aimed at teaching entrepreneurship and enterprise skills to young people around the world. The Citrus Saturday Toolkit equips young people with the skills to start their own business and make a future for themselves. Participants create a lemonade product, brand it and sell it to the public, then keep the profits from their work.

MAYOR OF LONDON

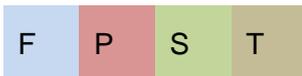

Young Enterprise

Young Enterprise empowers young people to harness their personal and business skills. Young Enterprise and Personal Finance Education Group work directly with young people, their teachers and parents, businesses and influencers to build a successful and sustainable future for all young people and society at large.

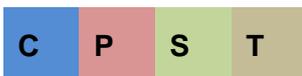

Micro-Tyco from WildHearts

Micro-Tyco inspires an entrepreneurial environment that fosters creative thinking, resourcefulness and team work as well as helping pupils to develop financial literacy, communication, leadership, project management and networking skills. Micro-Tyco is completely free for schools and can either be run as a stand-alone 4 week challenge or incorporated into classes as part of an 8 week Programme of Learning, using resources and lesson plans provided by WildHearts. The challenge is most suitable for year groups 5-13 and schools can enter as many teams as they like.

Cragrats

A variety of programmes centred on enterprise education and designed to equip students with the skills they need to make the right decisions and choices at different stages of their educational journey and beyond. The programmes are key stage appropriate and can be completed as students progress through school.

MAYOR OF LONDON

Employer-Led Career Learning

Working alongside existing careers teaching, employees can enrich students' understanding of career paths. Getting people from the world of work into classrooms alongside teachers can be inspirational for students.

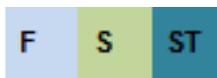

[Discover What Matters](#)

Discover What Matters from Lloyds Banking, focuses on young people's strengths, capabilities and motivations. The programme includes lesson plans for teachers covering Individual Strengths, Career Orientation and Employability Skills. The hub contains a range of blogs, quizzes, interactive sessions and articles to help 15 – 24 year olds think about who they are, what they value, discover their strengths and interests and connect these with the sort of roles that they will flourish in.

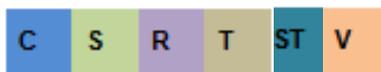

[Bird and Bird: Lawyers In Schools](#)

Places practising and trainee lawyers into the classroom to work with young people, to develop their awareness and understanding of the law. 'Lawyers in Schools' facilitates links between legal professionals and secondary schools, mainly in economically deprived areas.

[Sky Academy](#)

Sky Academy uses the power of TV, creativity and sports, to build skills and experience to unlock potential in young people. They are able to do this through a variety of ways including work experience, workshops, placements and apprenticeships.

MAYOR OF LONDON

[Generating Genius](#)

Generating Genius supports talented young people from disadvantaged backgrounds to realise their potential in STEM. Through an aspirational programme of science leadership, academic interventions and industry-linked opportunities, they help 'level the playing field' to enable disadvantaged young people apply for places at the UK's selective Universities.

[Naval Regional Commander, East of England](#)

Aims to increase awareness and visibility of the work of the Royal Navy amongst young people aged between 10- 25 years old. They deliver a range of activities in a fun and engaging manner which inform participants about the role of the Royal Navy in tandem with providing personal and life skills development.

MAYOR OF LONDON

Employer-led Curriculum Learning

This consists of representatives from the world of work supporting teaching within the classroom by co-delivering aspects of the curriculum during lessons. The support from employees from particularly industries allows young people to link their own learning to the world of work and hear about people's own experiences.

WISE

WISE inspires girls and women to study and build careers using science, technology, engineering and maths (STEM). We advise organisations on how to create environments where those women can do their best work and thrive. WISE deliver a series of 'Create Your Future' workshops aimed at girls in Key Stage 4 and 5 (aged 15-22).

Medical Mavericks

Medical Mavericks provide workshops for young people in primary and secondary schools, promoting medical careers, providing after school club activities to teach young people about the range of careers within the medical profession. From Key Stage 4, workshops around Sports Science courses are also offered.

Help me I'm a Medic

The organisation aims to reach, inspire and empower aspiring doctors and clinicians by widening access to medicine for students from all social backgrounds. Programmes include Mini Medical School and Aspiring Doctors accompanied by free resources for teachers with students interested in pursuing a career in medicine.

MAYOR OF LONDON

[Engineering Development Trust \(EDT\)](#)

The Trust delivers a range of tasters, projects and placements aimed at 11-21 year olds, in order to provide exposure to industry, business and higher education. They also offer an accreditation for workplace experiences through Industrial Cadets, aimed at 11-19 year-olds.

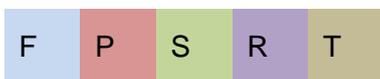

[Stemettes](#)

Stemettes was set up to help combat the lack of women in STEM. A way to inspire the next generation of females into Science, Technology, Engineering and Maths fields by showing them the amazing women already in STEM via a series of panel events, hackathons, exhibitions, and mentoring schemes.

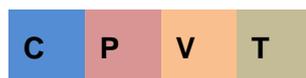

[National Grid Education](#)

National Grid is undertaking to support the challenge of inspiring and helping young people to become the next generation of engineers. They are doing this through several programmes, including providing work experience, the Imagineering Foundation for 8-16 year olds, Careers Labs and online resources.

[Little Architect](#)

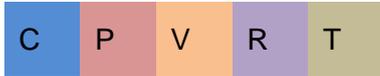

Little Architect is an education and learning platform for teaching architecture and sustainability in London's primary schools. Led by the Architectural Association School of Architecture, experts deliver interactive one off workshops or longer programmes within the school environment. Their in-school workshops for children are built around interesting and creative cross-curricular activities for KS1 and lower KS2 students based on architecture and sustainability in cities.

MAYOR OF LONDON

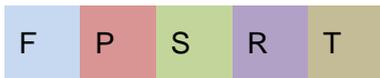

STEAM Co.

STEAM stands for Science, Technology, Engineering, Art and Maths. The charity was established to give communities the inspiration and resources to run their own STEAM Co. Day. Steam Co. Days in primary schools consist of 20 or so thinking and doing activities for children across the spectrum of STEAM skills.

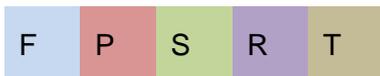

National Schools Partnership

National Schools Partnership works to encourage and support businesses and other organisations to establish programmes that benefit schools. The school programmes and resources help teachers and school leaders to deliver curriculum objectives as well as the aims of wider education and government agendas. In putting together teaching resources or materials to send out to schools, they liaise closely with education professionals to ensure that they are in line with current educational requirements.

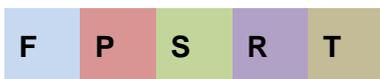

Apps for Good

Apps for Good is a technology education movement that partners with educators in schools to deliver courses to young people 10-18 years of age. Students work together as teams to learn to build an app that solves issues they care about. Students go through all key aspects of new product development, from idea generation, feasibility and planning to product design and marketing. Lessons are mapped to the English curriculum.

Nationwide Education

All programmes are developed in collaboration with teachers, parents, pupils and students, and other education professionals who give input and feedback on what they want and need. The resources link closely with the UK national curriculum and help teachers achieve learning objectives and outcomes in: maths, English, citizenship, PSHE, ICT, geography, history, science, design & technology, art and PE.

MAYOR OF LONDON

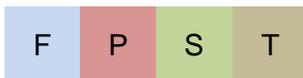

YES Programme

The YES Programme is an online work-related teaching resource that provides content consisting of bespoke films and associated lesson material. Schools pay an annual subscription fee and teachers can display resources on interactive whiteboards in classrooms. Core films last 3-5 minutes and link a curriculum topic to a job featuring someone using that exact same curriculum skill in their role; resources can be searched by national curriculum subject and key words.

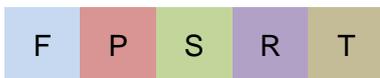

Discovery with Three

Three offer free sessions for students and school groups. They help students explore mobile technology and are keen to get the next generation interested in all things digital. Whether it's Pinterest, Facebook or even supporting schools with curriculum-based projects. Their London Hub is in Islington.

Tunnel Works

Resources developed by Tideway, the company delivering the Thames Tideway Tunnel 'super sewer'. Aimed at driving uptake and to raise interest in STEM related careers, develop employability skills in young people, and to support the broader curriculum. Tideway aims to connect theoretical classroom learning with real world applications, showing students how the knowledge and skills they are gaining in school will directly support their future jobs and careers.

MAYOR OF LONDON

Work Place Visits

Work place visits are when young people are taken as a group to a workplace and introduced to its operation. This could include networking with employees from different functions of the business, office tours and industry based challenges or activities, to give young people a flavour for that particular organisation. If this is something that your organisation offers then please do let us know.

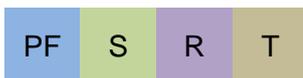

[Best School Trip Ever](#)

The Best School Trip programme, created and delivered by the career ready campaign, supports employers across the UK to open up their workplaces to 13-16 year old students and their teachers, offering a memorable experience and insight into their business and people. The overall aim of the programme is to drive uptake of Maths and Physics at A Level by showing young people the dynamic career opportunities unlocked by studying these subjects.

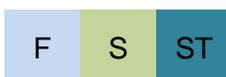

[Career Ready](#)

Career Ready is a UK wide charity linking employers with schools and colleges to open up the world of work to young people. They offer a structured programme of study for 16-19 year olds, which sits alongside students' school or college coursework. It is delivered by employer volunteers who provide masterclasses, mentoring, workplace visits and internships to help students compete with the best in the country.

[University Taster Course Programme](#)

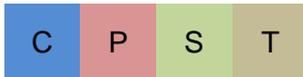

The Taster Course Programme provides Year 12 students with a taste of what life at a university in London is like. Through their chosen taster course, they will experience the different teaching methods used by university academics and gain an insight into the additional facilities available, whilst meeting students from across the UK.

MAYOR OF LONDON

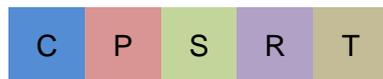

[Kidzania](#)

Designed to empower kids, KidZania gives them the confidence to challenge themselves and inspire them to explore the world of opportunities. KidZania is a real life role play experience for 4-14 year olds, blending learning and reality with entertainment. Students can move around the KidZania town and earn 'money' by taking part in different jobs, they can then spend their 'money' on university, ice cream or by going to the in-house disco.

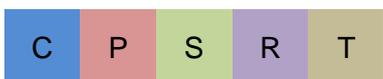

[Half Moon Theatre Careers in Theatre programme](#)

A hands-on, project-management style experience of all aspects of professional theatre at Key Stage 2, 3 and 4. Careers in Theatre give participants the opportunity to work alongside theatre specialists culminating in creating a performance piece over just one day. Students are allocated a discipline for the day (acting, stage management, lighting design, set/costume design, composition/sound design) which then become student-led, culminating in role-playing a production meeting, running the technical and dress rehearsals, leading up to the final performance at day's end. Later sessions offer the students guidance on how to pursue their career ambitions within the arts.

[Centre of the Cell](#)

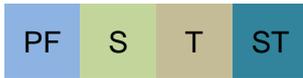

This is an online science education centre based at Queen Mary, University of London. It is the first science education centre in the world to be located within working biomedical research laboratories. It has free online educational activities, games, fun facts and teacher resources. Or for a cost, they also visit schools to run STEM workshops.

MAYOR OF LONDON

The Brokerage

This charity builds links between the wealth of opportunities in London's financial districts and the local communities surrounding them. Since 2000, they have introduced tens of thousands of young Londoners to City careers and helped thousands to access actual career opportunities. All workplace visit and most classroom visit opportunities are free to schools within the boroughs.

MAYOR OF LONDON

1-2 Week Work Experience

Often Work Experience is provided for students in year 10 and/or year 12. Young people work full time alongside employees, giving them an opportunity to learn new skills, build contacts and experience what it's like in the working world.

[Education Business Partnerships](#)

A cooperative group of education business link brokers. The EBPs reach out to almost every secondary school in the UK establishing sustainable partnerships with the business sector to give young people insight into working practice through work placements, employability skills, enterprise activity, work shadowing and mentor programmes. Some EBPs also manage work experience programmes and develop delivery programmes to engage primary schools with the world of work. See the website below for a list of your local providers.

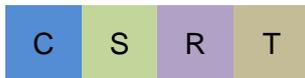

MAYOR OF LONDON

Work Related Learning

With careful planning every curriculum subject can be linked to practical every day and work related skills and settings. By linking subjects to careers and jobs, students can see where their strengths and subject preferences can take them.

Believe in Young People

By connecting educators with employers, Believe in Young People (BiYP) provides an end-to-end managed service through an integrated employability programme leading to apprenticeships or employment. Within its programme, BiYP also provides personalised CIAG, structured work experience placements and mentoring and employer workshops for schools.

MAYOR OF LONDON

Work Shadowing

This is when a young person shadows an employee from a particular industry to develop an in depth understanding of their day-to-day role. It is an informal type of work experience where students can observe someone in their workplace to understand how they do their job. It is usually short term and provides an insight rather than a hands-on experience.

Workinsight

workinsight.org is a not-for-profit organisation and a registered charity. Currently in pilot phase, their aim is to provide occupational and educational opportunities for all regardless of an individual's socio-economic background or personal disadvantage, their academic ability, race, gender, disability, sexuality or religion. The website provides a digital platform to connect 14-19 year old students, via their school or college, with local employers providing short and informative work place 'insights', combined with relevant careers information and guidance.

MAYOR OF LONDON

Volunteering

Volunteering allows young people to develop skills related to the world of work, particularly if they are too young to apply for part time paid work or go on work experience placements. Employers look favourably on candidates who volunteer in their spare time when hiring at all levels within their organisations.

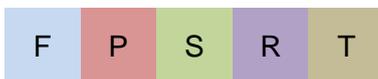

[Team London Speed Volunteering](#)

Team London's Speed Volunteering site has hundreds of short, one-off volunteering opportunities that are easy to fit around existing commitments. The new platform offers volunteering opportunities enabling young people to volunteer quickly and easily for up to six hours. Small organisations are able to set up online communities of volunteers, who will be able to comment on and recommend opportunities to their friends via Facebook. London's 18-25 year olds also utilise their volunteering experience to help them get paid work.

[Team London Young Ambassadors](#)

Team London Young Ambassadors, the Mayor of London's volunteer programme for schools, aims to inspire young people to engage in social action, both in their school and the local community and build their skills whilst doing so. Team London Young Ambassadors supports social action in London schools through inspirational presentations, workshops, teaching resources and follow-up support. Schools can also participate in motivating youth summits and receive awards and Duke of Edinburgh accreditation for their contributions.

[HeadStart London](#)

HeadStart is a programme delivered in partnership by The Challenge and Team London. The programme brings together industry leaders, charities and young people to bridge the employability gap for 16-18 year olds, whilst promoting social action and building trust within communities. HeadStart inspires young people to strengthen their communities through volunteering, whilst giving them the skills and experience to succeed at work. It also gives participants a guaranteed interview with one of the HeadStart partners. Young people can access HeadStart once they have completed the National Citizen Service (NCS) programme.

MAYOR OF LONDON

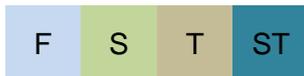

Youth Sport Trust

The Youth Sport Trust is an independent charity devoted to building a brighter future for young people through sport. It is a charity that believes every child has a right to be physically active through quality PE and school sport. Their programmes include the School Games, an opportunity to develop the next generation of volunteers in sport. Through undertaking meaningful roles in the organisation and delivery of school and community sport, young people will develop important life skills, confidence and competence.

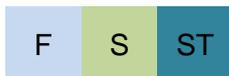

Volunteer it Yourself (VIY)

VIY combines volunteering and DIY by challenging young people aged 14-24 to learn trade and building skills, on the job, by committing to fix local youth club and community centre buildings in need of essential repairs. VIY participants are mentored by professional tradespeople, who also volunteer their time, and gain vocational accreditations as well as access to further training, work placement and apprenticeship opportunities with local employers beyond the project.

vInspired!

They make it easy for young people to change the world. In return for their time, volunteers become more skilled, confident and employable whilst doing things they really care about. There are rewards available for vInspired volunteers. Students can earn vInspired Awards that illuminate their CV. Students can make a change by campaigning for things that they care about.

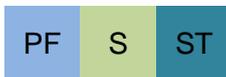

MAYOR OF LONDON

Skill Building and Citizenship

Young people can take part in skill building and citizenship programmes to expose them to new experiences, new people and new opportunities. These programmes often have a residential element where young people leave home for a few days and take part in outward bound activities with other young people to increase their confidence, teambuilding and communication skills.

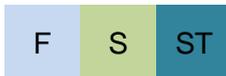

[Futureversity](#)

Futureversity provides free courses and activities for 11-25 year olds to help them develop the skills and self-belief they need to make the most of their lives. The programmes have been proven to raise aspirations, reduce youth crime, break down racial tensions and get unemployed young people off benefits and into work. Previously known as Tower Hamlets Summer University, the name changed in 2010 to reflect their growing network outside the borough.

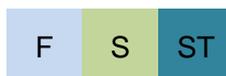

[The Prince's Trust](#)

The Prince's Trust supports 13 to 30 year-olds who are unemployed and those who are struggling at school and at risk of exclusion by giving them the practical and financial support needed to stabilise their lives, helping develop self-esteem and skills for work. The Prince's Trust offers several programmes such as the Team and XL personal development programmes for young people, Get Into and Get Started.

[National Citizen Service](#)

National Citizen Service (NCS) is a 4-week voluntary personal and social development programme for 15 – 17 year-olds across England. The programme includes a one week residential, outdoor adventure activities and opportunities for young people to develop and deliver social action projects in their local communities. The programme combines adventure with building skills and voluntary work in their local communities.

MAYOR OF LONDON

Miscellaneous

Organisations also offer other programmes and resources for schools and young people, often as part of continuing professional development for teachers and schools, or more targeted at specific cohorts of young people within the school setting. These could be cohorts such as SEN students, school councils or schools wishing to build alumni networks.

[Future First](#)

Future First is working with over 400 schools and colleges to build alumni communities. They provide the infrastructure and expertise that make establishing a network of former students easy and inexpensive. Their alumni programme helps schools and colleges to stay connected to their leavers and re-establish connections with more distant former students.

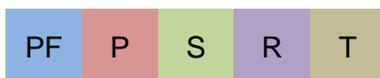

[Skills2Use](#)

Skills2Use is an app-based offering to help young people collate information about their skills and attributes. This data is held in a SkillsBank for use with prospective employers and course admissions. Students identify and evidence their employability and transferable skills using questions, suggested answers and 'hints and tips'. It takes users through a personal journey to uncover overlooked capabilities (communications, planning, teamwork, etc.) from sport, volunteering, part-time work, etc. together with academic achievements assisted by feedback from professionals, family and friends. The app is available on any device and enables candidates to upload audio and visual examples of achievements.

[Smart School Councils](#)

Smart School Councils helps schools to make their school councils effective. This involves all of their students in decisions, developing speaking and listening skills and employability. The model helps primary and secondary schools to achieve this. The website also includes hundreds of free resources that help schools improve their school council.

MAYOR OF LONDON

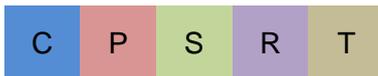

[Central Careers Hub](#)

A London-based organisation focused on improving the knowledge and expertise of Career Development Professionals across London and its commutable area. The website contains event information, resources and CPD opportunities. By Career Development Professionals they mean careers advisors and teachers working in schools, further education colleges, sixth form colleges, job centres and other National Careers Service providers.

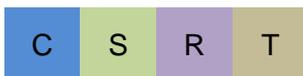

[The Brilliant Club](#)

PhD tutors deliver programmes of university-style tutorials to small groups of pupils, from Year 6 through to Year 12, which develop the knowledge, skills and ambition that help those pupils to secure places at highly-selective universities. Working together with schools, colleges and universities, the programme is building a national movement that mobilises doctoral and postdoctoral researchers to engage with challenging schools and to address educational disadvantage more broadly.

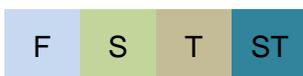

[Talentino](#)

Talentino offers two career development programmes and provides training to deliver the programmes using creative research based tools. 'It's in the Box!' enables careers leads to deliver creative coaching sessions within mainstream education. 'Careers at Entry Level' is a programme specifically designed for young people with Special Educational Needs, including support to find work experience in their local area.

[Moving On Careers CIC](#)

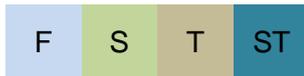

Moving On Careers CIC is a not-for-profit business that bridges the world of education and the world of work by providing inspirational information about careers and qualifications. It offers a holistic approach to connecting employers to young people, through in-print publications and an on-line presence. The free Moving On Magazine is sent to all senior schools and colleges in England and is read by over 250,000 young people, teachers, parents and careers advisers.

MAYOR OF LONDON

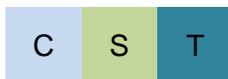

[The National Careers Service Contact Centre](#)

The National Contact centre provide free advice and guidance to young people from level 6 qualified careers staff, it gives young people a printed action plan and vital information to help them move forward with their decision making. Feedback from schools, students and parents using the service has been excellent so it would be great if you could highlight this service to compliment schools other purchased or statutory provision. In addition the Contact Centre have been running webinars in schools as part of PSHE or careers lessons which have been well received by both teachers and students.

[Grofar](#)

A fully SIMS integrated, careers guidance management solution. Grofar significantly reduces the time careers leaders and careers co-ordinators spend on careers administration and stores all careers information in one place. Grofar helps every school to meet Statutory Guidance and implement the Gatsby benchmarks. The easy and effective one-system solution encompasses everything from careers service planning, event organisation and feedback to destination data collection and work experience management. Engaging students, parents, businesses, alumni and SLT. A pioneering careers passport ensures every student has access to evidenced independent careers advice.

[Amazing Apprenticeships](#)

The ASK project is part of the National Apprenticeship Service, funded by the Department of Education. They provide free resources and support to all schools across England to increase awareness of apprenticeships with students, staff and parents. Schools can access posters, guides, lesson plans, workshops, employer visits, awareness assemblies and webinars from high-profile employers.
