16<sup>th</sup> March 2016

17 MAR 2016

Dear Nick,

**50 Marsh Wall, 63-69 and 68-70 Manilla Street, London, EC14 9TP**  
**D&P3473a/Alpha Square/Stage II – Cumulative Wind Assessment Addendum**  
**Report**

On the 17<sup>th</sup> February 2016 the London Borough of Tower Hamlets (LBTH) issued a formal request for further information under Regulation 22 of The (Town and Country Planning (Environmental Impact Assessment) Regulations 2011 (as amended).

LBTH requested the applicant provide additional information on the wind effects and that such information provided by the applicant will be referred to as 'further information' in accordance with Regulation 22(1) of the EIA Regulations.

As you are aware, on 10 March 2016, the Mayor of London confirmed (under article 7 of the Town and Country Planning (Mayor of London) Order 2008) that he would act as local planning authority for the purposes of determining the above planning application (GLA ref: D&P/3473a).

We are therefore submitting the RWDI Pedestrian Level Wind Microclimate Assessment – Further Information Addendum report, dated 8<sup>th</sup> March 2016 as further environmental information under Regulation 22 of the EIA Regulations, in relation to the Environmental Statement in advance of the consultation period commencing from Monday 21<sup>st</sup> March 2016 and 20 copies are enclosed.

I confirm 20 copies of the above documents have been issued to Harriet Peacock at LBTH as well and if you require any further information please do not hesitate to contact me.

Yours sincerely,

**Richard Pearce**
