The Budget Gap

- Reduce £3.4 billion budget by £514 million / 2015
- Save over £220 million in non-pay costs (-30%)
- MPS has 900,000 sq metres of buildings. HQ and support buildings account for 25% of the £200 million pa running costs - this needs to reduce by up to £60 million
- The sale of the current New Scotland Yard building would reduce total estate by 50,000 sq metres and save £6.5 million pa
- Proposals to MOPAC later this year who have final responsibility

Public Access

- We will maximise our presence in every neighbourhood
- We will have at least one station in each borough providing public access 24/7
- Some of our buildings date back to 1875 and are in areas of low footfall, with old infrastructure and IT, and aren't open to the public
- To increase the amount of face-to-face contact we are considering replacing 65 under-used front counters with over 200 new contact points – either part of our estate, shared with partners or other public places
